OFFICE OF PUBLIC INSTRUCTION  
STATE OF MONTANA

Putting Montana Students First **A+**

Subject: 2018-2019 School Accreditation Status

As of July 1, 2013, the Montana Board of Public Education implemented a revised school accreditation process (ARM 10.55.606). This process combines Assurance Standards with Student Performance Standards and results in a final accreditation status for the year.

The accreditation process, completed annually, is one way of measuring a school's efforts to provide a sound educational program for all students. This process alone cannot ensure the overall quality of that educational program. In addition to the annual review process relating to these minimum accreditation standards, districts are encouraged to assess the overall effectiveness of their educational programs relative to their own philosophies, goals and objectives. In accordance with the accreditation standards and information provided to the Montana Office of Public Instruction (OPI) and acting on the recommendations of the Superintendent of Public Instruction, the Board of Public Education has granted the attached accreditation status to every Montana state accredited school.
