IHS Public Affairs Specialist

*My strongest message to youth is to find your passion and follow it fiercely. Never give up. Even though the future feels far away, it isn't. The future is now. Every decision you make today will impact your life five years from now, ten years from now. Stay focused, make good decisions today that will lead you to fulfilling your life's purpose. Protect your sacred, honor who you are, and fight hard for who you are meant to become.*
