Bring Computer Science to Your 6-12 Classroom

Get trained in CS Discoveries and CS Principles

BECOME A
COMPUTER SCIENCE TEACHER

Code.org's Computer Science Discoveries and Computer Science Principles workshops include:

1 **WORKSHOP**
Five-day summer workshop to prepare educators to utilize Code.org curricula

2 **ONGOING TRAINING**
Four one-day (Saturday) OR eight ½ day (week night) workshops where teachers will reconvene for ongoing training

3 **IMPLEMENTATION**
Strategies, and resources to help educators implement the course in their classrooms.

4 **SUPPORT**
Ongoing support with a community of CS educators and access to Code.org's online forums & content

Qualified educators from MT, OR, and WA are welcome to apply for any training sequence.

Scholarships available for qualified applicants!
