

Does your child struggle with learning to read or spell?

It might be a sign of dyslexia, in which case an **early screening** could make a world of difference.

Dyslexia is not a roadblock. It's a detour.

The Foreman Family | Helena, Montana

Early Screening. Early Support. Early Success.

Early screening leads to better chances for success down the road.

Thanks to the Montana Dyslexia Screening and Intervention Act, Montana schools are now required to screen students for dyslexia if they perform below the benchmark on literacy assessments.
