

HiSET Testing Guidelines During the COVID-19 Pandemic

- Examinees cannot be ill or have a fever and programs may ask examinees to have temperature checked
- Examinees cannot enter the building if they have been out of Montana or been exposed to an individual with COVID-19 within the previous 14 days
- A maximum of 10 people in the room with additional spacing to respect social distancing (6 foot minimum)
- Examinees can wear a mask and gloves to enter the building and while testing (must remove briefly for inspection and identification)
- Examinees cannot be in the High-Risk Category for COVID-19
- Check with your HiSET test center for any further instructions ([contact information](#))
