

Join us in building on CTE Success!

Consider expanding our grass-roots effort...this is not-for-profit; all funds are reinvested into the project

Empowering Teachers Today to Prepare Students for Tomorrow

Highlights:

- 3,500 + Lessons in 30 CTE program areas with over 10,000 resources (PowerPoints, handouts, etc.) that can be edited for personal use by the teacher
- Ensures that all elements of instruction are in every lesson – Introduction, Objectives, Active Participation, Content and Closure
- Lessons undergo a vigorous vetting process to ensure consistency (format, strategies, etc.)
- Provides well designed, relevant and engaging lessons prepared by teachers – for teachers
- Web-based curriculum is offered 24/7

Benefits:

- Lessons not tied to textbooks therefore little or no expense for textbooks
- Professional development designed to ensure teachers are able to utilize the curriculum successfully
- Proven instructional strategies provide great support and guidance for teacher evaluations
- With most teachers coming directly from industry, both the professional development and lessons are invaluable in ensuring quality instruction
- Teacher retention increases
- Student success increases
- Provides a common professional language
- Designed to ensure students active participation throughout the lesson

Vision Statement:

The Arizona CTE Curriculum Consortium will be the premier educational model for professional development, CTE curriculum, with academic and industry integration to empower teachers to prepare students for career success.

Mission Statement:

The Arizona CTE Curriculum Consortium will provide a network of professional development opportunities to advance outstanding instructional skills among our teachers and develop exceptional CTE curriculum and resources aligned with Arizona Department of Education (ADE) CTE technical standards.

Guiding Actions:

- I. TO PROVIDE high quality professional development that will increase teacher success and retention.
- II. TO INCREASE student achievement and learning by providing teachers with quality, relevant, and engaging lessons aligned to current ADE CTE technical standards.
- III. TO FACILITATE the process of teachers developing and collaborating as professionals.
- IV. TO UTILIZE CTE data from ADE to guide development of curriculum and resources.
- V. TO COLLABORATE with key stakeholders to advance quality Career and Technical Education.
- VI. TO ENSURE teachers have access to resources to prepare students to be successful in acquiring career readiness skills.

Comments from the field:

"The Arizona CTE Curriculum Consortium has created an excellent online library of outstanding, comprehensive curriculum for dozens of CTE programs in its wiki. The resources provided by the wiki are among the most relevant, helpful materials I have used in my 37 year career in education."

– Julie Stockwell, Curriculum Specialist

"Love all the great ways to actively engage your students."

– M. Hermmmerlin, ECE teacher

"The Wiki is a lifesaver for our teachers who come from industry."

-Brenda Marietti, School Board Member

"As a new teacher, the wiki has been invaluable to me. It provides excellent resources and tools to engage students."

-Alexis Hastert, New Ed Professions Teacher
