

Approved 21st CCLC Professional Development

To sustain a quality program, staff and volunteers who will be delivering academic support and enrichment services shall participate in a *minimum of three* “afterschool specific” learning opportunities. Staff training should provide staff with ideas for enrichment and hands-on activities.

Below is a list of approved afterschool national and regional conferences. Please follow the links for more information on each event to assist with your professional development budget for the year. Reminder: it is a requirement that program directors and staff attend two regional meetings (not listed below) and one state conference. In order to attend a national conference, a regional meeting must first be attended. Learning from a national conference needs to be shared at a staff meeting
