

Montana 21st Century Community Learning Centers (21st CCLC)

In response to federal regulations, effective July 1, 2018, the Montana Office of Public Instruction will not allow program income to be generated for 21st Century Community Learning Center Programs and the students served within the program.

This does not prevent community organizations who receive 21st CCLC funds from generating income or charging for fees for other programs that they administer. Rather, it requires a clear delineation in budgeting between 21st CCLC Programs, from which no revenue may be generated, and other programs, from which revenue may.

In the event that programs choose to charge program income, your federal 21st Century Community Learning Center grant award will be decreased for the 2019-2020 program year by the amount of program income generated during the 2018-2019 program year.

We understand this is a difficult situation as many programs have already established budgets for this year. The OPI is here to provide technical assistance to programs regarding budgets to help you be in compliance with this change. Please contact Jay Phillips at (406) 444-4523 or jphillips3@mt.gov if you have fiscal questions. OPI staff will be reaching out to you directly to offer assistance in the coming week.

If you have general questions regarding the 21st CCLC program, please contact Tracy Moseman at tmoseman@mt.gov or (406) 444-3000.
