

AIM Spring Enrollment & Aggregate Hours Collection

2017-18 AIM Data Collection Guide

The Spring Enrollment and Aggregate Hours Collection is used to collect the Aggregate Hours of Instruction for all students enrolled on the first Monday in February as per [ARM 10.20.102 CALCULATION OF AVERAGE NUMBER BELONGING \(ANB\)](#).

Student data from AIM is then imported to the MAEFAIRS system to determine the count of students to be used in the calculation of Average Number of Belonging (ANB) which is used for school funding.

The Spring Enrollment data must be accurate for **enrollments as of February 5, 2018**. If there are no classes held on that date use the next regularly scheduled school day. **Calculation processes and uploads of data should not be completed until the day AFTER the count date. This collection absolutely ends February 9, 2018.**

There are **four basic methods** of entering this data. Before beginning the process, there are a few considerations in choosing the most appropriate method for your district:

1. All of our attendance data is stored on a third party student information system – which method should I use to enter Attendance information?

- Most student information systems have automated extracts to upload attendance information in a format that will upload to AIM. (Method #1)

2. Our district only has a few students – which method should I use to enter Attendance information?

- Districts with only a handful of students may find the direct entry method of entering student attendance most convenient. (Method #2)

3. Our district has about 150 students – but we use paper ledgers to record student attendance – which method should I use to enter Attendance information?

- Districts who maintain paper ledgers may want to default all students to full-time and use the direct entry method to modify select students and enter Absent Counts. (Method #3)

4. Our district uses Infinite Campus to record student attendance information – which method should I use to enter Attendance information?

- Districts who maintain attendance information in Infinite Campus can use the MT Count Date Attendance tool to auto-calculate their Spring Attendance data. (Method #4)

ENTERING AGGREGATE HOURS INFORMATION INTO AIM/INFINITE CAMPUS.....	3
METHOD #1: (MT Edition Only) Export Spring Attendance Data from Your Student Information System Then Upload Into AIM/Infinite Campus.....	3
METHOD #2: (District Edition or MT Edition) Direct Entry of Aggregate Hours and Attendance into Infinite Campus.	4
METHOD #3: (District Edition or MT Edition) Default All Aggregate Hours to Full-Time.....	5
METHOD #4: (District Edition or MT Edition Value Added) Automatic Calculation for Districts who Record Attendance in Infinite Campus	7
EARLY GRADUATES	9
RESYNC STATE DATA.....	10
VALIDATION WITH STATE PUBLISHED AD HOC FILTERS.....	10

NOTE: Because the purpose of this collection is to count enrollments as of the Count Date, the data entry work should not be done until after school has ended on the count date. This includes calculation processes, uploads and direct entry of the data.

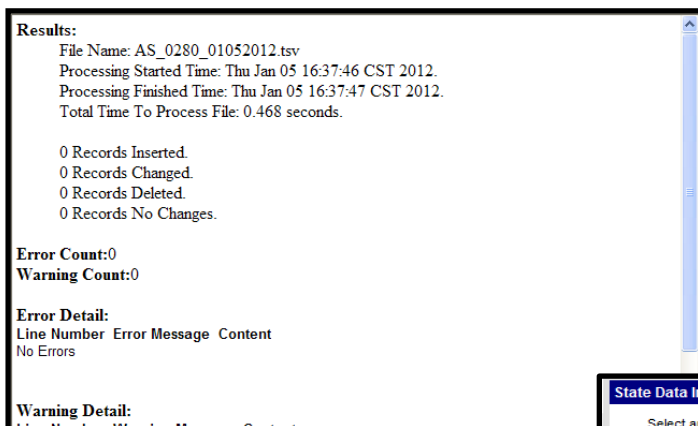

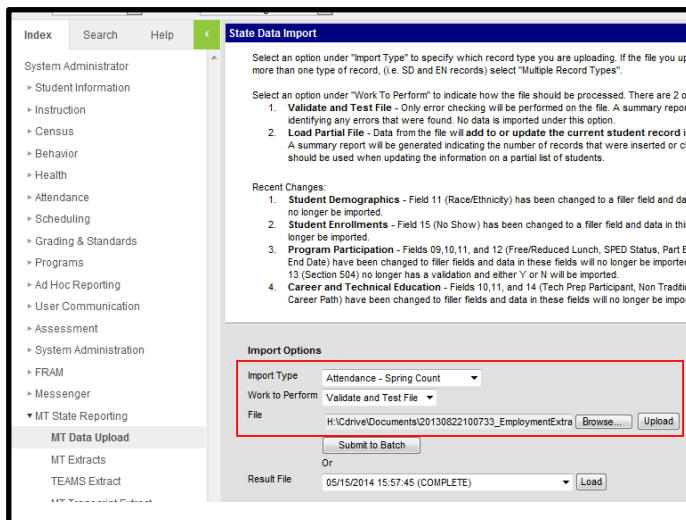

ENTERING AGGREGATE HOURS INFORMATION INTO AIM/INFINITE CAMPUS

METHOD #1: (MT Edition Only) Export Spring Attendance Data from Your Student Information System Then Upload Into AIM/Infinite Campus.

Create an export file from your Student Information System. Save the file in either *.txt or *.tsv format.

From the **Index**, select **MT State Reporting/MT Data Upload**.

Choose **Import Type**, *Attendance – Spring Count*, and **Work to Perform**, *Validate and Test*. Browse for the file and click **Upload**.

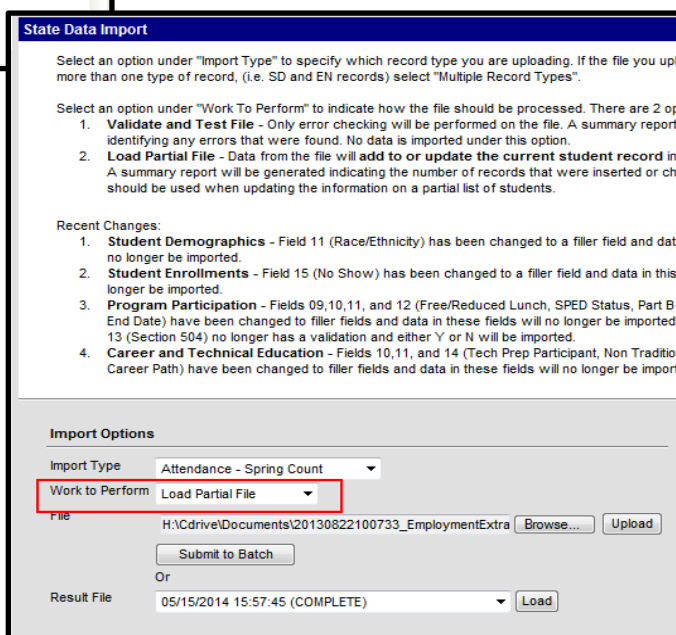

Check the **Import Results Summary** for errors. Correct the errors in your Student Information System and the file.

Upload the file again (to re-check for errors).

Once the file is free of errors, return to **MT State Reporting/MT Data Upload**.

Change **Work to Perform** to *Load Partial File*. Click **Upload**.

(Be sure to resync the data - see page 7.)

METHOD #2: (District Edition or MT Edition) Direct Entry of Aggregate Hours and Attendance into Infinite Campus.

Select Year 17-18 and a School.

Click the **Search** tab. *Search for Student.*

Enter criteria (or leave blank to get list of all students)

Click **Go**.

Click student's name and select the **Enrollments** tab.

Open the current 17-18 school year enrollment. Scroll down to the **Attendance and Enrollment Information** section.

Under *Spring Attendance Count*, select the appropriate Spring Aggregate Hours of Inst.

Checking the *Exclude Spring ANB – 10 Day Rule* box will exclude the student from the Spring ANB count. Mark this box if the student was absent more than 10 days prior to and including the Count Date **and** your district had not requested an exception.

Click **Save**.

Continue for every student enrolled on **February 5, 2018**.

Military Connected Status
Student is a dependent of a member of:

Attendance and Enrollment Information (auto-calculated read-only)
Fall Attendance Count: Fall Aggregate Hours of Inst.: Fall Absent: Exclude Fall ANB - 10 Day Rule:
Spring Attendance Count: Spring Aggregate Hours of Inst.: Exclude Spring ANB - 10 Day Rule:

Test Window Attendance Count
Testing Aggregate Hours of Inst.: Testing Absent: ADA - #Days Present: ADA - #Days Enrolled: 10+ days unexcused absences 1st sem: 10+ days unexcused absences 2nd sem:

METHOD #3: (District Edition or MT Edition) Default All Aggregate Hours to Full-Time.

From the **Index**, select **MT State Reporting/MT Extracts**.

Select **Extract Type**,
Attendance – Spring Count and
Format, *State Format (TSV)*.
Select the *Calendar(s)*.

Click **Generate Extract**.

Save the file to a convenient
location (i.e., the desktop).

From the **Index**, select **MT State Reporting/MT Data Upload**.

From **Import Type**, select
Attendance – Spring Count
and **Work to Perform**, *Load Partial File*.

Click **Upload**.

All students' Spring
Aggregate Hours will now
be marked as *F: 720+*

Adjust the individual student record for a student who has *Aggregate Hours* other than *F: 720+*. Follow these instructions:

Click the **Search** tab. Enter the student's *Last Name*. Click **Go**.

Click the student's name and select the **Enrollments** tab.

Open the current 17-18 school year enrollment. Scroll down under the State Reporting Fields section to the **Attendance and Enrollment Information** section.

If the *Aggregate Hours* are different, select the appropriate number of hours.

If it applies, check the *Exclude Spring ANB – 10 Day Rule* box to exclude the student from the Spring ANB count. Mark this box if:

- Student was absent more than 10 days prior to the Count Date **and** your district has not requested an exception. OR
- Student is attending a Day Treatment program as of the count date. (See [Day Treatment – Reporting Students in AIM](#) for more information.)

Click **Save**.

Be sure to resync data to the state level – see page 10.

METHOD #4: (District Edition or MT Edition Value Added) Automatic Calculation for Districts who Record Attendance in Infinite Campus

Districts who record daily attendance in MT Edition Value Added or District Edition do not need to enter *Aggregate Hours* and *Absent Count* data for individual students. This information will be calculated automatically from the attendance data entered in Infinite Campus.

Choose a **School** and **Calendar** (you will only need to select a calendar if you have more than one in a school).

From the Index, expand **MT State Reporting**. Select **MT Count Date Attendance**.

From **Select Count Period to Calculate**, choose *Spring*. All Calculation options are checked by default and **should NOT** be unchecked. Click **Run Test**.

Click **Run Test**.

These results were generated in TEST mode and no data has been inserted into the database.

Result Report

Count Date(s)		
Calendar Name	Schedule Structure	Count Date
	All	11/06/2017

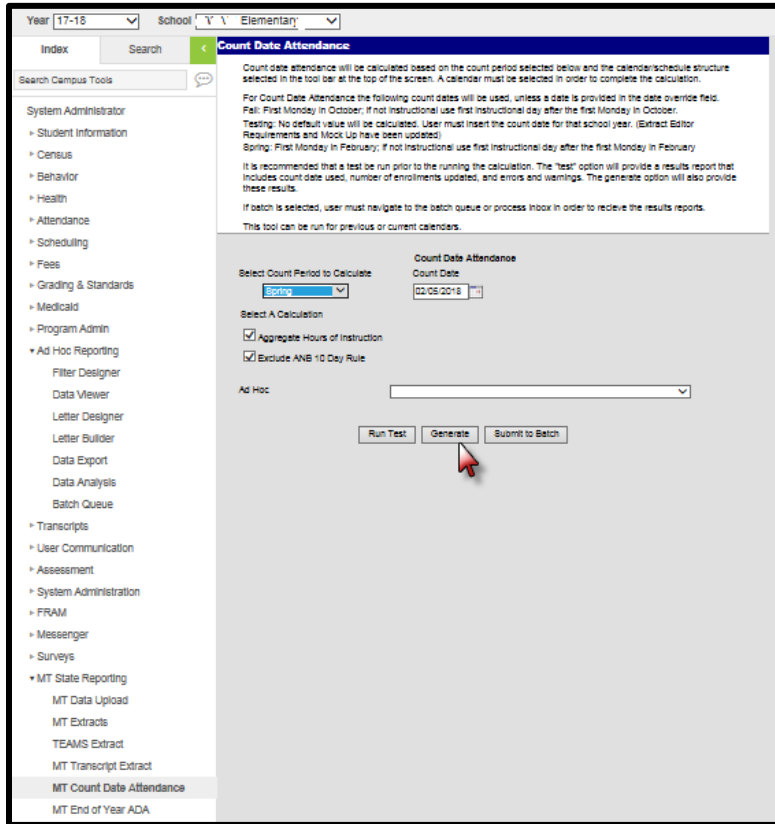

Aggregate Hours of Instruction	
Field	Number of Enrollments Update
Fall	0
Spring	357
Testing	0

Absent	
Field	Number of Enrollments Update
Fall	0
Testing	0

10 Day Rule	
Field	Number of Enrollments Update
Fall	0
Spring	0

Open the Results Report.

Check the warnings/errors and make corrections as needed.

Return to the **MT Count Date Attendance** tool.

Click **Generate**.

Repeat for each **School/Calendar**.

Be sure to resync data to the state level – see page 10.

Note:

The Aggregate Hours of Instruction field is editable for Campus District Edition users. If a student was not properly scheduled, it may cause the aggregate hours to calculate incorrectly. Correct this by changing the value directly in the field.

**** Individual corrections will be overwritten if any subsequent recalculation of Aggregate Hours for that count date is done using the MT Count Date Attendance tool.**

EARLY GRADUATES

Enter *Spring Aggregate Hours* for early graduates (students who graduate at semester, with *Diploma Period 02: Early Graduate – 7 Semesters*).

Spring Aggregate Hours should be equal to the number of hours of instruction the student was receiving at the time of graduation.

Verify that *Diploma Date*, *Diploma Type* and *Diploma Period* have been correctly entered on the **Graduation** tab.

See **Method #2** above for specific instructions on the direct entry of student attendance data.

The screenshot displays a web-based interface for student records. At the top, there are tabs for Summary, Enrollments, Schedule, Attendance, Flags, Grades, and Transcript. Below these are sub-tabs: Fees, Lockers, Graduation (selected), Athletics, Ad-Hoc Letters, Waiver, and Records Tra. There are 'Save' and 'Documents' buttons. A note states: 'The following fields can only be filled out once a student has entered 9th grade: Date First Entered the 9th Grade, NGA Cohort End Year, NCLB Cohort End Year'. The 'State Graduation Record' section is expanded, showing 'Earliest Grade 9 Enrollment Information' with a modified date of 07/29/2014. Below this is 'Enrollment Data: Browning Public Schools (0646)'. The 'Graduation Detail: Browning Public Schools (0646)' section is also expanded, showing 'General Graduation Information' with the following fields: Diploma Date (09/29/2018), Diploma Type (01: Regular Diploma), Diploma Period (01: Early Graduate less than 7 semesters), Date First Entered the 9th Grade (08/25/2014), NGA Cohort End Year (2018), NCLB Cohort End Year (2018), Post Grad Location, and Post Grad Plans. At the bottom, there is a 'State Reporting Graduation Fields' section with a 'Cohort Grad Year' field.

RESYNC STATE DATA

When using any of the above methods, it is important to perform a data resync when finished.

From the **Index**, expand **System Administration/Data Utilities/Resync State Data**.

Set the *Year* to 17-18.

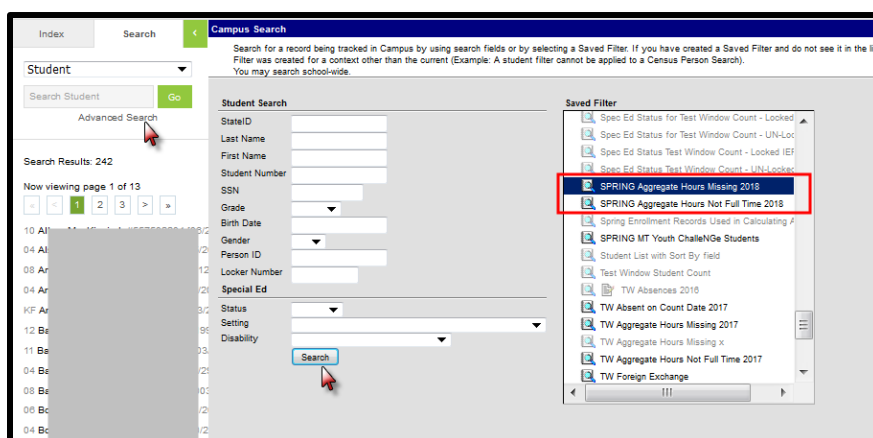

Check the box for **Enrollment**. All associated boxes will automatically populate. At the bottom, click **Request Resync**.

A data resync is required for all file uploads and recommended before data collection due dates.

VALIDATION WITH STATE PUBLISHED AD HOC FILTERS

State published ad hoc filters are available to help verify aggregate hours as of the count date.

Select the appropriate year and school. Under the **Search** tab, click **Advanced Search** and in the **Saved Filter** window expand **+State Published** list and select either **SPRING Aggregate Hours Missing** or **SPRING Aggregate Hours Not Full Time**. Click on the **Search** button and the search results will be listed on the left. This will allow you to select the student and adjust aggregate hours if necessary.

Contact the OPI AIM Helpdesk at 1-877-424-6681 or opiaimhelp@mt.gov for assistance.
