

## Briggs and Stratton Short Block Engines - June 23, 2018

Please submit your letter of interest to J.D. Baser via e-mail by February 1, 2018  
[jbaser@wsu.edu](mailto:jbaser@wsu.edu)

Come to Prairie High School for an intense one day instructional session. WWCC instructor George Klein (a 20+ year veteran in teaching outdoor power) will lead instruction in STEM style outdoor power learning. This will include learning about the Briggs and Stratton Power Portal that teachers can use for student instruction, support materials, and individually web based evaluation for your entire class.

See the next page for two options!  
Clock Hours will be available from OSPI

## Option 1 - "The full deal" \$1100

- Hands on learning with Instructor Walla Walla Community College's George Klein .
- 25 Briggs and Stratton Short Block Engines (MSRP \$160 each for a total value \$4000).
- References, specialty tools, basic tools, precision measurement tools. (Including an inch pound torque wrench, a dial indicator with a magnetic base, calipers, and tools.)
- A full curriculum for use with your students and web based resources education that you can use with your students.
- Light refreshments in the morning.

## Option 2 - "Bring your own" \$750

- Hands on learning with Instructor Walla Walla Community College's George Klein .
- 25 Briggs and Stratton Short Block Engines (MSRP \$160 each for a total value \$4000).
- References and a dial indicator with a magnetic base. Upon acceptance and registration you will receive a list of tools you will need.
- A full curriculum for use with your students and web based resources education that you can use with your students.
- Light refreshments in the morning.

Do you want/need fewer short blocks for your small school? I can customize a supply package for your needs!
