(2) (a) The normal contribution rate of each tier one member is 7.15% of the member's earned compensation.

(b) The normal contribution rate of each tier two member is 8.15% of the member's earned compensation.

(d) The deductions must be made notwithstanding that the minimum compensation provided by law for a member may be reduced by the deductions. Each member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(4) The accumulated contributions of a member withdrawn by the member or paid to the member's estate or to the member's designated beneficiary in event of the member's death must be paid from the annuity savings account. (b) A member electing to receive a joint and survivor annuity optional allowance may select one of the following options:

(i) Option A—The optional allowance will be paid to the member throughout the member's lifetime and, upon the member's death, continue throughout the lifetime of the member's joint annuitant.

The joint annuitant will receive both the continuing retirement allowance and the one-time death benefit provided in 19-20-1002(1)(a). The two benefits may not be allocated separately.

(d) Upon election of a joint and survivor optional allowance and designation of a joint annuitant, any prior or subsequent designation of a beneficiary by the retired member is void.

(3) (a) In lieu of any other option available in this section, a member may elect to receive one of the following period certain allowances that must be paid for the member's lifetime and then to the member's beneficiary as provided in 19-20-1002(3) for the remainder of the period certain if the member dies before receiving monthly benefit payments for the period certain:

(4) (a) Subject to subsection (7), upon written application to the retirement system, a retired member whose effective date of retirement is before October 1, 1993, and who is receiving a joint and survivor annuity optional retirement allowance may select a different actuarially equivalent optional allowance and designate a different joint annuitant if:

(i) the original joint annuitant has died. The benefit must convert to the normal form retirement allowance effective the first of the month following the death of the joint annuitant.

(ii) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must convert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the written application, the retirement system shall actuarially adjust the member's monthly retirement or disability allowance to reflect the change.

(5) Subject to subsection (7), upon written application to the retirement system, a retired member receiving a joint and survivor annuity optional retirement allowance pursuant to subsection (2)(b) that is effective on or after October 1, 1993, may select a different actuarially equivalent optional allowance and designate a different joint annuitant or to revert the optional retirement allowance to the normal form retirement allowance available at the time of retirement if:

(a) the original joint annuitant has died. The benefit must revert to the normal form retirement allowance effective the first of the month following the death of the original joint annuitant.

(b) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must revert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(6) The normal form retirement allowance available must be increased by the value of any postretirement adjustments received by the member since the effective date of retirement.

(7) A retired member filing an application to make a selection under subsection (4) or (5) shall file the application and all required supporting documentation to be received by the retirement system no later than the date that is 18 months after the date of the death of or divorce from the joint annuitant.

2023 Amendment: See 2023 Session Law for amendment made by sec. 6, Ch. 245, L. 2023. Amendment effective July 1, 2023.

19-20-716. Termination pay. (1) If a member terminates and receives termination pay at the time of retirement, the member shall select, subject to subsections (4) and (5), one of the following options:

(a) Option 1—The member may use the total termination pay in the calculation of the member's average final compensation. The member and the employer shall pay contributions to the retirement system as determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time of termination.

(b) Option 2—The member may use a yearly amount of the total termination pay added to each of the consecutive years' salary used in the calculation of the member's average final compensation under 19-20-805. To determine the amount of termination pay used in the calculation of average final compensation, termination pay must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602, 19-20-605(1), 19-20-608, and 19-20-609. For the purposes of this subsection (1)(b), the employer shall also pay as a contribution an amount equal to the termination pay multiplied by the

rate established in 19-20-607 that would have been payable by the state as a supplemental contribution. The contributions must be made at the time of termination.

(c) Option 3—The member may exclude the termination pay from the average final compensation. A contribution is not required of either the member or the employer.

(2) If a member signs a binding, irrevocable written election for either an option 1 or option 2 benefit at least 90 days prior to the member's termination date, the employee contributions required by this section must be picked up by the employer. The binding, irrevocable written election required by this subsection (2) must be signed by both the member and the employer and must contain statements with regard to the contributions required to be made by the member under subsections (1)(a) and (1)(b) that:

(a) the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the system in lieu of contributions by the member and that the picked up contributions are paid from the same source as compensation is paid;

(b) the member may not choose to directly receive the amounts deducted from the member's termination pay instead of having them paid by the employer to the system;

(c) the member may not prepay any portion of the contributions; and

(d) the effective date of the pickup is the date that the irrevocable written election is signed by both the member and employer. The effective date must be at least 90 days prior to the member's date of termination. The pickup does not apply to a contribution made before the effective date of the pickup.

(3) Pursuant to subsection (2), contributions required under subsection (1)(a) or (1)(b) must be:

(a) deducted from the portion of termination pay that:

(i) constitutes wages for the purposes of section 3121 of the Internal Revenue Code, determined without regard to the wage base limitation; and

(ii) can be included in the member's gross income for federal tax purposes; and

(b) picked up by the employer, except as provided in subsections (4) and (5).

(4) A member's contributions greater than the total amount of the member's termination pay may not be picked up by the employer and are subject to the limitations of section 415 of the Internal Revenue Code.

(5) If a member and the member's employer fail to sign the written election within the time period required in subsection (1), the member may contribute for the purposes specified in subsections (1)(a) and (1)(b) on all or any part of the termination pay received. A contribution made pursuant to this subsection may not be picked up by the employer and is subject to the limitations of section 415 of the Internal Revenue Code.

History: En. Sec. 2, Ch. 442, L. 1997; amd. Sec. 18, Ch. 111, L. 1999; amd. Sec. 20, Ch. 45, L. 2001; amd. Sec. 10, Ch. 320, L. 2005; amd. Sec. 14, Ch. 90, L. 2007; amd. Sec. 8, Ch. 305, L. 2007; amd. Sec. 4, Ch. 366, L. 2013; amd. Sec. 10, Ch. 389, L. 2013; amd. Sec. 24, Ch. 210, L. 2015.

19-20-718. Maximum contribution limitation. (1) Notwithstanding any other provision of law to the contrary, the board may modify a request by a participant to make a contribution to the system required under part 4 or 6 of this chapter that would exceed the limits in section 415(c) or 415(n) of the Internal Revenue Code by using the following methods:

(a) The board may establish a periodic payment plan in order to avoid a contribution in excess of the limits of section 415(c) or 415(n) of the Internal Revenue Code.

(b) If the board's option in subsection (1)(a) will not avoid a contribution in excess of the limits in section 415(c) of the Internal Revenue Code, the board may direct the excess contribution to the qualified governmental excess benefit arrangement pursuant to section 415(m) of the Internal Revenue Code if a qualified governmental excess benefit arrangement has been established pursuant to 19-20-212.

(2) If the board's options in subsections (1)(a) and (1)(b) will not avoid a contribution in excess of the limits of section 415(c) of the Internal Revenue Code, the board shall reduce or refuse the contribution.

(3) The board shall use the provisions of section 415(n) of the Internal Revenue Code, as the provisions apply to a government plan, to facilitate member's service purchases. An eligible participant in a retirement plan, as defined by section 1526 of the Taxpayer Relief Act of 1997, 26 U.S.C. 415, may purchase service credit without regard to the limitations of section 415(c)(1) of the Internal Revenue Code under the Montana statutes in effect on August 5, 1997.

(4) (a) For the purpose of calculating the maximum contribution under section 415 of the Internal Revenue Code, the definitions of “compensation”, “wages”, and “salary” include the amount of any elective deferral, as defined in section 402(g) of the Internal Revenue Code, or any contribution that is contributed or deferred by the employer at the election of the member and that is not includable in the gross income of the member by reason of section 125, 132(f), 403(b), or 457 of the Internal Revenue Code. Any changes in the maximum limits under section 415 of the Internal Revenue Code must be applied prospectively.

(b) For limitation years beginning after December 31, 2000, compensation must also include any elective amounts that are not able to be included in the gross income of the member by reason of section 132(f)(4) of the Internal Revenue Code.

(c) For limitation years beginning on and after September 1, 2009, compensation for the limitation year must also include compensation paid by the later of 2.5 months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if:

(i) the payment is regular compensation for services during the member's regular working hours or compensation for services outside the member's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

(ii) the payment is for unused accrued sick, vacation, or other leave that the member would have been able to use if employment had continued.

(d) For limitation years beginning on or after September 1, 2009, a member's compensation for purposes of this section may not exceed the annual limit under section 401(a)(17) of the Internal Revenue Code.

(e) Beginning January 1, 2009, to the extent required by section 414(u)(12) of the Internal Revenue Code, 26 U.S.C. 414(u)(12), a member receiving from an employer differential wage payments as defined under section 3401(h)(2) of the Internal Revenue Code, 26 U.S.C. 3401(h)(2), must be treated as employed by that employer. The differential wage payments must be treated as compensation for purposes of applying the limits on annual additions under section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c). This provision must be applied to all similarly situated employees in an equivalent manner.

History: En. Sec. 19, Ch. 111, L. 1999; amd. Sec. 10, Ch. 174, L. 2003; amd. Sec. 11, Ch. 320, L. 2005; amd. Sec. 11, Ch. 282, L. 2009; amd. Sec. 25, Ch. 210, L. 2015.

19-20-719. Guaranteed annual benefit adjustment — rulemaking. (1) On January 1 of each year, the retirement allowance payable to each tier one member or benefit recipient of a tier one member who is eligible under subsection (3) must be increased by 1.5%.

(2) On January 1 of each year, the retirement allowance payable to each tier two member or benefit recipient of a tier two member who is eligible under subsection (3) must be increased by the amount provided in either subsection (2)(a) or (2)(b) as follows:

(a) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are less than 90% funded, 0.5%; or

(b) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are at least 90% funded and the provision of the increase is not projected to cause the system's liabilities to be less than 85% funded, an amount greater than 0.5% but no more than 1.5%, as set by the retirement board.

(3) A benefit recipient is eligible for and must receive the annual benefit adjustment provided for in this section if at least 36 monthly retirement benefit payments have been made prior to January 1 of the year in which the adjustment is to be made.

2023 Amendment: See 2023 Session Law for amendment made by sec. 7, Ch. 245, L. 2023. Amendment effective July 1, 2023.

Retroactive Applicability: Section 15, Ch. 245, L. 2023, provided: “[Section 7] [19-20-719] applies retroactively, within the meaning of 1-2-109, to all guaranteed annual benefit adjustment increases on or after July 1, 2013.”

19-20-722. Eligible rollover distributions. As required by section 401(a)(31) of the Internal Revenue Code, the retirement system shall advise an eligible recipient of any payment from the retirement system that constitutes an eligible rollover distribution of the recipient's rights to roll over the distribution and shall allow the recipient to elect a direct rollover of the eligible distribution to an eligible plan. The recipient is responsible for correctly designating a receiving plan that is eligible and willing to receive a direct rollover distribution of tax-deferred or after-tax contributions or both from the retirement system and to ensure timely submission of required supporting documentation from the receiving plan. The retirement system will determine, in its sole discretion, whether to make a direct rollover distribution to a receiving plan through an electronic transfer or by paper warrant.

19-20-731. (Temporary) Postretirement employment limitations — cancellation and recalculation of benefits — reporting obligation of retired member. (1) (a) Except as provided in 19-20-732 or as otherwise provided in this section, a retired member may be employed in a position that is reportable to the retirement system and may earn, without an adjustment of retirement benefits, an amount not to exceed the greater of:

- (i) 49% of the sum of the member's average final compensation; or

(b) The maximum compensation that a retired member may earn under subsection (1)(a) without an adjustment of retirement benefits includes all amounts paid to or on behalf of the retired member and the value of all benefits provided to or on behalf of the retired member by the employer, including any amounts deferred for payment to a later year, excluding:

- (i) health insurance premiums directly paid by the employer on the retired member's behalf for health care coverage provided by the employer;
- (ii) the value of housing provided by the employer to the retired member;
- (iii) the amount of employment-related travel expenses reimbursed to the retired member by the employer;
- (iv) de minimis fringe benefits, as defined in 26 U.S.C. 132(e), paid by the employer to or on behalf of the retired member; and
- (v) payroll taxes paid by the employer on behalf of the retired member.

(c) A member applying for a retirement allowance or resumption or recalculation of a retirement allowance based on a termination date of January 1, 2014, or later is required to complete the break-in-service period set forth in 19-20-734 before the retired member may be employed in a position reportable to the retirement system.

(2) On July 1 of each year following the member's retirement effective date, the maximum that a retired member may earn under subsection (1)(a)(i) is increased by an amount equal to the consumer price index increase for urban wage earners compiled by the bureau of labor statistics of the United States department of labor or its successor agency in the preceding calendar year.

(3) Except as provided in 19-20-732, the retirement benefit of a retired member:

(a) employed and earning more than allowed by subsections (1) and (2) must be temporarily reduced by \$1 for each dollar earned over the maximum allowed. Monthly benefits must be reduced beginning as soon as practical after the excess earnings have been reported to the retirement system by the employer. The retirement benefit must be suspended if the retired member's earnings over the maximum allowed exceed the gross monthly benefit amount.

(5) For purposes of this section, the employment status and maximum compensation of a retired member who is employed in more than one position or under more than one contract, whether with one employer or more than one employer, is the aggregate full-time equivalency and compensation derived from all positions reportable to the retirement system in which the retired member is employed.

(6) Within 30 days of the date of the execution of an agreement for the employment of a retired member or of the first date on which the retired member provides services if no agreement is entered into, the retired member shall provide written notice of the postretirement employment to the retirement system.

(7) For purposes of this section, if a retired member is employed by an employer in a position that is reportable to the retirement system and the retired member is concurrently working for the employer in another position that is not reportable to the system, the position that is not reportable is considered to be part of the position that is reportable to the retirement system. All earnings of the retired member that are generated by these positions are reportable to the retirement system.

(8) The retirement allowance of any retired member who is employed in a position and who elects to participate in the university system retirement program under Title 19, chapter 21, must be suspended until the member is no longer employed in the position and is no longer participating in the university system retirement program. 19-20-805. Calculation of average final compensation. (1) Except as limited by this section, average final compensation is calculated by averaging the earned compensation paid to:

(a) a tier one member in 3 consecutive fiscal years of full-time service that yields the highest average; or

(b) a tier two member in 5 consecutive fiscal years of full-time service that yields the highest average.

(2) (a) The earned compensation of a tier one member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 3 consecutive years of full-time service during the 5 years immediately preceding the member's termination is the compensation that the member would have earned in the 3 years used to calculate average final compensation had the member's part-time service during the 5 years preceding termination been full-time service.

(b) The earned compensation of a tier two member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 5 consecutive years of full-time service during the 7 years immediately preceding the member's termination is the compensation that the member would have earned in the 5 years used to calculate average final compensation had the member's part-time service during the 7 years preceding termination been full-time service.

(3) To determine the compensation that the member would have earned under subsection (2), the compensation reported must be divided by the part-time service credited to the member's account.

(4) (a) Subject to subsection (4)(b), if a member has transferred service from the public employees' retirement system as provided under 19-20-409 and does not have 3 consecutive years of full-time service if a tier one member or 5 consecutive years of full-time service if a tier two member reported to the teachers' retirement system, the member's average final compensation must be calculated as follows:

(i) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals 1 year in any of the fiscal years used in determining average final compensation, then the member's annual salary for that fiscal year must be the member's salary as a member of the public employees' retirement system plus the member's salary as a member of the teachers' retirement system; or

(ii) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals less than 1 year in any of the fiscal years used to determine average final compensation, then the member's part-time salary as a member of the public employees' retirement system plus the member's part-time salary as a member of the teachers' retirement system must be divided by the sum of the member's part-time teachers' retirement system service credit and the member's part-time public employees' retirement system service credit.

(b) Compensation reported to the public employees' retirement system used to calculate average final compensation must be adjusted to exclude any compensation that would be considered termination pay under this chapter.

(5) (a) The earned compensation reported in each year that is used to calculate the average final compensation may not be greater than 110% of the earned compensation for the next prior year of service reported to the teachers' retirement system. This limitation does not apply to an increase that results from movement on the employer's adopted salary matrix but does apply to an increase that results from additions to or adjustments of the employer's salary matrix or initial implementation of a salary matrix.

(b) Earned compensation in excess of the amount specified in subsection (5)(a) must be included in the calculation of average final compensation in the same manner as termination pay option 2 as provided in 19-20-716(1)(b).

Service provided by a member in a position reportable to the retirement system before the member attains retired member status is service provided as an active member, and the member shall terminate from the position to be eligible for retirement benefits.

(6) (a) A member attains retired member status when the member has terminated employment in all positions reportable to the retirement system and has actually received at least one monthly retirement benefit payment.

(b) A retired member who returns to active member status for any reason ceases to be in retired member status until the member again applies for a retirement benefit and actually receives at least one monthly retirement benefit payment.

(7) (a) Unless waived by the board, the member and the employer for each position from which the member is terminating or has terminated shall certify on a form provided by the retirement system the member's date of termination and whether there is a prearranged agreement for postretirement service.

(b) The certification obligation of the member and the employer is ongoing and must be immediately updated if the information previously provided was in error or has changed.

Part 9 Disability Retirement

19-20-901. Eligibility for disability retirement — determination by board. (1) Except as provided in subsection (5), upon the application of a member or of the member's employer for a disability retirement allowance, any member who has 5 or more years of creditable service and who has become disabled while being an active member may be retired by the retirement board the month immediately following the month in which employment is terminated.

(2) In order for a member to be eligible for disability retirement, the retirement board or its representative shall certify that the member is mentally or physically incapacitated for the further performance of the member's duties, that the incapacity is likely to be permanent, and that the member should be retired. The board's representative shall report to the board the representative's findings and any action taken by the representative, and the action must be presented to the board for approval by the board.

(3) In making a determination under subsection (2), the retirement board or its representative may:

(a) order examinations by a physician, psychologist, vocational rehabilitation counselor, or any other health care provider or other professional determined by the retirement board to be qualified, competent, and necessary to assist the board in making the disability determination;

(b) conduct hearings, administer oaths and affirmations, take depositions, and certify to official acts; and

(c) issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memorandums, and other records considered necessary as evidence in connection with a claim for disability retirement. The subpoenas issued under this subsection (3)(c) are enforceable as provided in 2-4-104.

(4) The retirement board may secure and pay reasonable compensation for professional services and advice that the board determines necessary to carry out the purposes of this part.

(5) (a) A tier two member is not eligible for disability retirement if the member is or will be eligible for service retirement on or before the member's date of termination.

(b) A disability retirement application filed by a member who is ineligible for disability retirement under subsection (5)(a) will be processed as an application for a service retirement allowance.

19-20-902. Allowance for disability retirement. (1) Upon retirement for disability, a member must receive a disability retirement allowance equal to the greater of:

(a) one-sixtieth of the member's average final compensation multiplied by the sum of the number of years of creditable service, including service transferred under 19-20-409; or

(b) one-fourth of the member's average final compensation.

(2) The earned compensation in the year of termination that is included in the calculation of average final compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary that the member would have received under the member's contract had the member completed the full year. Any termination pay received by the member is limited to the amount actually paid and is not the amount that the member would have earned had the member completed the full year.

19-20-903. Medical examination of disability retiree. (1) Once each year during the first 5 years following the retirement of a member on a disability retirement allowance and

once in every 3-year period afterward, the retirement board may require a disability benefit recipient who has not yet attained the age of 60 to undergo a medical examination by a physician, psychologist, or any other health care provider or other professional determined by the retirement board to be qualified, competent, and necessary to assist the board in making the disability determination. The examination must be made at the place of residence of the benefit recipient or other place mutually agreed on. Based on the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of the position held by the member when the member retired. If the board determines that the member is not incapacitated, the member's retirement benefit must be canceled. If the member disagrees with the board's determination, the member may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after the receipt of the notice of the status change.

(2) A member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be given preference by the member's former employer for the position held at the time of retirement or for a comparable position that becomes available within 1 year of cancellation of the disability retirement. The member may agree to accept an offer of employment by an employer. Employment in any capacity by an employer terminates any right granted by this section. The fact that the former employee was retired on disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have. This section does not affect any requirement for the former employee to meet or to be able to meet professional certification and licensing standards unrelated to the previous disability, otherwise necessary for reinstatement to duty.

(3) If a disability benefit recipient who has not yet attained the age of 60 refuses to submit to a medical examination as required in subsection (1), the recipient's allowance may be discontinued until withdrawal of the refusal. If a refusal continues for 1 year, all rights in and to a disability pension may be revoked by the retirement board.

19-20-904. Adjustment of allowance. (1) (a) Except as provided by subsection (1)(b), if a retiree receiving a disability retirement allowance is engaged in or is able to engage in a gainful occupation paying more than the difference between the retiree's retirement allowance and the retiree's average final compensation or the difference between the median average final compensation of those members retired during the preceding fiscal year and the retiree's retirement allowance, whichever is greater, the retirement allowance must be reduced to an amount that, together with the amount earnable by the retiree, is equal to the retiree's average final compensation or the median average final compensation of those members retired during the preceding fiscal year, whichever is greater.

(b) If a disabled retiree is reemployed with the same employer within 30 days from the member's effective date of retirement or if the retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement benefit must be terminated.

(2) If the disabled retiree's earning capacity is changed later, the retirement allowance may be further modified, but the new allowance may not exceed the retirement allowance originally granted or an amount that, when added to the amount earnable by the retiree, equals the retiree's average final compensation.

(3) The board may, in its discretion, require a recipient of a disability retirement allowance to annually submit an earning statement and any documentation necessary to support the earnings of the recipient.

19-20-905. Cancellation of allowance and restoration of membership. (1) If a disabled retiree is employed in a position reportable to the retirement system and earns compensation in any calendar year in excess of the limitation provided in 19-20-904, the retiree's retirement allowance must cease and the retiree must again become an active member of the retirement system effective on the first day of the month following the month in which the earnings limitation was exceeded.

(2) If the member is restored to active membership on or after the attainment of the age of 55 years, the member's retirement allowance upon subsequent retirement may not exceed the retirement allowance that the member would have received had the member remained in service during the period of the member's previous retirement or the sum of the retirement allowance that the member was receiving immediately prior to the member's last restoration to service and the retirement allowance that the member would have received on account of the member's service since the member's last restoration had the member entered service at that time as a new member.

Part 10 Death Benefits

19-20-1001. Payments upon death of member prior to retirement. (1) If a member dies before retirement:

(a) except as provided in subsection (2), a lump-sum refund of the member's account balance must be paid to the member's eligible beneficiary or beneficiaries;

(b) if the deceased member was vested and was an active member in the retirement system within 1 year before the member's death, the eligible beneficiaries receiving a refund under subsection (1)(a) or a retirement allowance under subsection (2) are entitled to receive in equal shares a \$500 lump-sum death benefit; and

(c) subject to 19-20-1009, the sum of \$200 a month must be paid to each minor child of the deceased member until the child reaches 18 years of age.

(2) (a) In lieu of the refund provided for in subsection (1)(a), if the deceased member was vested, an eligible designated beneficiary who is an individual may elect to receive the beneficiary's interest as a retirement allowance for the beneficiary's lifetime. The retirement allowance must be determined as prescribed in 19-20-804, without reference to 19-20-805(5)(a), in the same manner as if the member elected the option A joint and survivor annuity optional allowance provided for in 19-20-702(2).

(b) The effective date of the retirement allowance provided for in subsection (2)(a) is the earlier of:

(i) the first of the month following the date of death; or

(ii) the effective date of the member's retirement, as acknowledged in writing by the retirement system before the member's death.

(c) (i) If more than one eligible beneficiary elects to receive a retirement allowance, each is entitled to an equal share of the benefit.

(ii) In the event that all eligible beneficiaries who elected a retirement allowance die, the member's account balance, if any, will be paid out to the alternate beneficiary of the last surviving eligible beneficiary who elected a retirement allowance under subsection (2)(a).

19-20-1002. Payments on death of retiree. (1) In the event of the death of a retired member:

(a) a lump-sum death benefit of \$500 is payable to the joint annuitant or in equal shares to the deceased retiree's eligible beneficiary or beneficiaries receiving benefits under either subsection (2), (3), or (4) and is in addition to those benefits or, if there is no continuing benefit payable, to the deceased retiree's designated or alternate beneficiary; and

(b) subject to 19-20-1009, the sum of \$200 a month must be paid to each minor child of the deceased retiree until the child reaches 18 years of age.

(2) If the member was receiving a normal form retirement allowance, a lump-sum refund of the member's account balance, if any, must be paid to the eligible beneficiary or beneficiaries in equal shares.

(3) If the member was receiving a joint and survivor annuity optional retirement allowance:

(a) monthly benefits must continue to be paid to the joint annuitant; or

(b) if there is no surviving joint annuitant, a lump-sum refund of the member's account balance, if any, must be paid to the member's alternate beneficiary or beneficiaries in equal shares.

(4) If the retired member was receiving a 10-year or 20-year period certain retirement allowance, until the period has expired:

(a) if the eligible beneficiary is one or more individuals, the monthly benefits must continue to be paid to the eligible beneficiary or beneficiaries in equal shares. If there is more than one eligible beneficiary, upon the death of one eligible beneficiary, the benefit amount payable to the deceased beneficiary must be redistributed in equal shares to the surviving eligible beneficiaries. If all eligible beneficiaries die before the period has expired, a lump-sum amount actuarially determined to be the present value of all monthly benefits remaining to be paid over the period must be paid to the alternate beneficiary of the last surviving eligible beneficiary.

(b) if the eligible beneficiary is the deceased retiree's estate or trust, a lump-sum amount actuarially determined to be the present value of all monthly benefits remaining to be paid over the period must be paid to the eligible beneficiary.

(5) (a) Not including any minor child benefit of \$200 a month payable under subsection (1)(b), if the only amount remaining payable on the account of a deceased retiree is the \$500 death benefit and there are multiple individuals who are eligible designated or alternate beneficiaries to share in the \$500 death benefit, any of the potential beneficiaries must be considered to have fully and irrevocably renounced their rights and interest to a share of the \$500 death benefit when the following criteria are met:

(i) the retirement system is unable to identify or locate the individual;

(ii) if identified and located, the retirement system mailed notice of the beneficiary interest and required application materials to be completed and returned by the individual on two occasions at least 30 days apart and the individual failed to complete and return the required application materials to be received by the retirement system within 30 days of the second mailing by the retirement system;

(iii) at least one eligible beneficiary has completed and returned the required application materials to the retirement system;

(iv) at least 180 days has passed following the death of the retiree and, if required application materials were sent to the individual as described in subsection (5)(a)(ii), at least 30 days has passed since the date of the second mailing by the retirement system; and

(v) the retirement system has not received actual notice of formal or informal probate of the deceased retiree's estate.

(b) Any portion of the \$500 death benefit may not be distributed until the total benefit can be distributed. The share of the \$500 death benefit that would have been payable to a potential beneficiary considered to have renounced their interest under this provision must be distributed in equal shares to an eligible beneficiary who has been identified and located and

who has completed and returned the required application materials. Distribution of the \$500 death benefit to an eligible beneficiary is satisfaction in full of the retirement system's obligation for distribution of the \$500 death benefit.

(c) This subsection (5) does not require the retirement system to distribute the \$500 death benefit strictly within the timeframe specified or prohibit the retirement system from providing any additional process the retirement system believes to be reasonable and appropriate to identify, locate, and obtain required application materials from an eligible beneficiary.

(c) For the estate of the decedent to be an eligible beneficiary, the estate must:

- (i) be in formal or informal probate at the time the distribution is to be made;
- (ii) have a court-appointed personal representative; and
- (iii) have a tax identification number.

(d) For a trust created by the decedent to be an eligible beneficiary, the trust at the time the distribution is to be made must:

- (i) legally exist;
- (ii) be irrevocable;

(iii) have a tax identification number.

(6) The eligible beneficiary or beneficiaries are determined at the time the first distribution is to be made by the retirement system as a result of the death of a decedent in the following order of priority to:

- (a) one or more primary designated beneficiaries;
- (b) one or more contingent designated beneficiaries; or
- (c) one or more alternate beneficiaries.

(7) An individual who is a designated beneficiary may renounce the individual's beneficiary interest. A renunciation must be made of the beneficiary's entire interest. A partial renunciation may not be made. A beneficiary who renounces the beneficiary's interest is deemed to have predeceased the designator.

History: En. Sec. 15, Ch. 276, L. 2019.

19-20-1007. Requirements for beneficiary designation to be effective. (1) To be accepted as an effective beneficiary designation, the beneficiary designation record must:

- (a) be made on a paper form or by an electronic process prescribed by the retirement system specifically for the designation of beneficiaries;
- (b) if submitted electronically, include the certified digital signature of the member or, if submitted on a paper form, be signed by the member and notarized;
- (c) specifically identify each eligible beneficiary intended to be designated as a beneficiary;
- (d) include all required information and supporting documentation for each designated beneficiary;
- (e) comply with all other stated requirements and limitations; and
- (f) be submitted to the retirement system while the member is still alive.

(3) (a) The retirement system is not responsible for verifying beneficiary information provided by a designator.

(b) The retirement system may accept or decline a beneficiary designation record pending receipt of required supporting documentation. However, if the retirement system accepts a beneficiary designation record pending receipt of supporting documentation, the beneficiary designation is not effective unless the retirement system receives all required supporting documentation within the required timeframe.

(c) If multiple beneficiaries are designated on a beneficiary designation record and the retirement system accepts the beneficiary designation as effective but later determines that one or more of the beneficiaries was not effectively designated or is not an eligible beneficiary at the time payment is to be made, the beneficiary designation will remain in effect with the ineffectively designated or ineligible beneficiaries deemed to have predeceased the member.

History: En. Sec. 16, Ch. 276, L. 2019.

19-20-1008. Changes to beneficiary designations — limitations on changing spouse beneficiary interest. (1) Once accepted by the retirement system, a beneficiary designation may be changed only by the member submitting to the retirement system a new effective beneficiary designation record. No other action, process, or provision of law may invalidate, revoke, terminate, or otherwise modify the beneficiary designation record. Divorce, annulment, or other circumstances resulting in the termination of a valid or invalid marriage does not void the member's designation of the former spouse or purported spouse as a beneficiary.

(2) (a) Except as provided in subsection (3), a member may change the member's beneficiary designation at any time by filing with the retirement system a new beneficiary designation record.

(b) The new beneficiary designation must meet all requirements specified in 19-20-1007 to be effective.

(c) A new effective beneficiary designation invalidates all prior beneficiary designations.

(3) (a) A member may not reduce or revoke the beneficiary interest of a designated beneficiary identified as the member's spouse if a divorce is pending, except with a signed and notarized waiver of beneficiary interest made by the spouse or pursuant to an order of the court in which the divorce is pending.

(b) If a change resulting in a reduction or revocation of a spouse beneficiary's interest is made by the member, the member shall establish the member's right to reduce or revoke the spouse beneficiary's interest by completing a certification of marital status.

History: En. Sec. 17, Ch. 276, L. 2019.

19-20-1009. Payment to minor child — opportunity to name custodian. (1) The retirement system may not make a payment directly to an individual who is less than 21 years of age.

(2) The retirement system shall make a payment to which a minor child is entitled by making the payment to an entity or adult designated as a custodian for the minor child pursuant to the Montana Uniform Transfers to Minors Act or to a person or entity designated by court order as legal guardian or conservator for the minor child.

(3) If a custodian for the child has not been designated, the retirement system shall withhold payment of any amount until the minor child attains 21 years of age or until a court order of guardianship or conservatorship is issued on behalf of the child.

Premiums withheld must be paid directly to the sponsoring employer.

(2) Upon the death of a retired member, the joint annuitant or beneficiary, if eligible, may elect to continue to have the monthly insurance premium withheld from a monthly retirement benefit.

(3) Each month, using the retirement system's online employer reporting system, the employer shall commence withholding, cease withholding, or process any necessary adjustments to the premium amount on behalf of the benefit recipient, including verification that all authorized insurance deductions are correct.

(4) The employer shall notify the benefit recipient of any changes related to the premiums, including any changes to the premium amount, prior to the effective date of the change.

(3) "Error" means any of the following, whether or not intended, that has resulted in or may result in the retirement system paying more or less on behalf of a member than is authorized to be paid or in the retirement system receiving more or less in contributions than is required to be paid to the retirement system pursuant to plan terms:

(a) a clerical mistake;

- (b) a failure to fully and correctly perform a required act or provide required information;

19-20-1202. Correction of errors. The retirement system shall correct errors and, as far as practicable, shall:

- (1) in the case of underpaid benefits, adjust future benefit payments so the actuarial equivalent of the benefit to which the member or benefit recipient is correctly entitled will be paid;
- (2) in the case of overpaid contributions, refund the excess contributions;
- (3) in the case of unpaid contributions, recover the amounts owed for unpaid contributions; and
- (4) in the case of overpaid benefits, recover the amounts owed for overpayment.

19-20-1203. Recovery of unpaid employer contributions. An amount owed for unpaid employer contributions must be paid to the retirement system by the employer and is not subject to reduction for any reason.

History: En. Sec. 3, Ch. 210, L. 2015.

19-20-1204. Recovery of unpaid employee contributions. (1) An amount owed for unpaid employee contributions must be paid to the retirement system by the employer if, at the time the contributions were due, the employer was legally required to pick up and remit the contributions to the retirement system on behalf of the member pursuant to 19-20-602(3)(a) and the unpaid contributions resulted from or were furthered by the employer's error.

(2) An amount owed for unpaid employee contributions not payable by the employer under subsection (1) must be paid to the retirement system by the member or benefit recipient.

History: En. Sec. 4, Ch. 210, L. 2015.

- (a) from any retirement benefit or other amount payable by the retirement system to a benefit recipient; or
- (b) through repayment by a benefit recipient who received an overpayment or by the estate of the benefit recipient.

(2) If an overpayment resulted from or was furthered by an employer's error, the employer is jointly and severally liable for all amounts owed to the retirement system for the overpayment.

History: En. Sec. 5, Ch. 210, L. 2015.

19-20-1206. Interest on overpayments and unpaid contributions. (1) Except as provided in subsection (2), overpaid benefits and unpaid contributions accrue interest at the retirement system's actuarially assumed annual rate of return, compounded monthly. Interest accrues beginning on the date that the first erroneous payment was made or that the contributions were first due and continues to accrue until the amount owed to the retirement system is fully paid.

(2) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the amount owed may not include interest.

History: En. Sec. 6, Ch. 210, L. 2015.

19-20-1211. Notices required — initial notice — final staff determination. (1) (a) Before taking action to correct an error or recover overpaid benefits or unpaid contributions, the retirement system shall provide a written initial notice to any person or entity from whom the overpayment or unpaid contributions may be recovered.

(b) The initial notice must:

(i) specify the grounds for the retirement system's initial determination that an error has occurred;

(ii) specify, to the extent practicable, the amount owed for overpaid benefits or unpaid contributions;

(iii) identify additional documentation or information, if any, required to be provided to the retirement system for a final staff determination; and

(iv) provide an opportunity for the noticed party or parties to submit additional documentation or information they believe is relevant to the retirement system's determination.

(2) (a) Unless additional time is required for good cause, the retirement system shall issue a final staff determination within 180 days after the date the initial notice was issued.

(b) The final staff determination must specify the process required for a party to appeal the final staff determination to the retirement board.

(3) Notice provided pursuant to this section may be provided to multiple persons or entities as a standardized notice directed to multiple recipients.

History: En. Sec. 7, Ch. 210, L. 2015.

19-20-1212. Recovery methods. (1) The retirement system may use any or all of the following methods to recover amounts owed from a member or benefit recipient:

19-20-1213. Retirement system's discretion — priority right to recover. (1) Nothing in this part is intended to prohibit retirement system staff from working informally with an employer, a member, or a benefit recipient to mutually resolve an error and recover amounts owed to the retirement system prior to the retirement system taking formal action as provided in this part.

(2) The retirement system has sole discretion to determine the most appropriate method for correcting errors and recovering amounts owed to it.

(3) The retirement system's right to recover amounts owed to it as set forth in this part does not prohibit the retirement system from pursuing any other remedy or penalty available to the retirement system.

(4) The retirement system's right to recover amounts owed to it has priority over the claim of any member, benefit recipient, or other individual or entity claiming an interest in any amount payable by the retirement system to or on behalf of the member.

History: En. Sec. 10, Ch. 210, L. 2015.

19-20-1214. Costs and fees for recovering amounts owed. (1) Unless an overpayment or unpaid contributions resulted solely from an error of the retirement system, in any contested case or other civil proceeding for correction of an error or recovery of an overpayment or unpaid contributions, the retirement system is entitled to the costs enumerated in 25-10-201 and to reasonable attorney fees if:

(a) the retirement system prevails in its claim or defense; and

(b) the court finds, upon judicial review, that the claim or defense of the other party that brought or defended the action was frivolous or was pursued in bad faith.

(2) If there are multiple parties adverse to the retirement system in a contested case, the parties are jointly and severally liable for the costs and fees awarded to the retirement system.

History: En. Sec. 11, Ch. 210, L. 2015.

19-20-1215. Statute of limitations. (1) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the retirement system may recover amounts owed for overpayments or unpaid contributions only for benefits or other amounts actually paid by the retirement system or for contributions that were actually due in the timeframe beginning 24 months prior to the date on which the retirement system issues an initial notice and ending when all amounts owed for overpayments or unpaid contributions are fully paid.

(2) If overpaid benefits or unpaid contributions resulted solely or partially from an error made by an employer, a member, or a benefit recipient, the retirement system may recover all amounts owed for the overpayment or unpaid contributions beginning on the date that the first erroneous payment was made or that contributions were first due. The retirement system may not recover amounts owed under this subsection unless the retirement system issues an initial notice no later than 24 months after the date on which the last payment of a retirement benefit or other amount was made by the retirement system on behalf of the member.

(3) No other statute of limitations or legal or equitable defense to the application of a statute of limitations may be applied to shorten the timeframes in which or for which the retirement system may seek recovery of amounts owed for overpayments or unpaid contributions.

20-1-230. Enactment — Interstate Compact on Educational Opportunity for Military Children — provisions. The Interstate Compact on Educational Opportunity for Military Children is enacted into law and entered into with all other jurisdictions joining in the compact in the form substantially as follows:

**ARTICLE I
PURPOSE**

- (1) It is the purpose of this compact to remove barriers to educational success imposed on children of military families because of frequent moves and deployment of their parents by:
 - (a) facilitating the timely enrollment of children of military families and ensuring that they are not placed at a disadvantage due to difficulty in the transfer of education records from the previous school districts or variations in entrance or age requirements;
 - (b) facilitating the student placement process through which children of military families are not disadvantaged by variations in attendance requirements, scheduling, sequencing, grading, course content, or assessment;
 - (c) facilitating the qualification and eligibility for enrollment, educational programs, and participation in extracurricular academic, athletic, and social activities;
 - (d) facilitating the on-time graduation of children of military families;
 - (e) providing for the promulgation and enforcement of administrative rules implementing the provisions of this compact;
 - (f) providing for the uniform collection and sharing of information between and among member states, schools, and military families under this compact;
 - (g) promoting coordination between this compact and other compacts affecting military children; and
 - (h) promoting flexibility and cooperation between the educational system, parents, and the student in order to achieve educational success for the student.
- (2) The purpose of the legislation and the Interstate Compact is not to supersede the sovereignty of any member state but instead to facilitate the collective exercise of each state's sovereignty to allow a uniform solution without federal intervention. No provision of the Interstate Compact may be construed as a waiver of any state's sovereignty.

The term includes the amendment, repeal, or suspension of an existing rule.

(14) "Sending state" means the state from which a child of a military family is sent, brought, or caused to be sent or brought.

(19) "Veteran" means a person who served in the uniformed services and who was discharged or released from service under conditions other than dishonorable.

ARTICLE III APPLICABILITY

(1) Except as otherwise provided in subsection (3), this compact applies to the children of:

(a) active duty members of the uniformed services as defined in this compact, including members of the national guard and reserve on active duty orders pursuant to 10 U.S.C. 12301(d) and 12304;

(b) members or veterans of the uniformed services who are severely injured and medically discharged or retired for a period of 1 year after medical discharge or retirement; and

(c) members of the uniformed services who die on active duty or as a result of injuries sustained on active duty for a period of 1 year after death.

(2) The provisions of this compact apply only to local education agencies as defined in this compact.

(3) The provisions of this compact do not apply to the children of:

(a) inactive members of the national guard and military reserves;

(b) members of the uniformed services now retired, except as provided in subsection (1);

(c) veterans of the uniformed services, except as provided in subsection (1); and

(d) other U.S. department of defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV EDUCATIONAL RECORDS AND ENROLLMENT

(1) In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records from a local education facility, as defined by federal law, containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records, pending validation by the official records, as quickly as possible.

(2) Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state shall process and furnish the official education records to the school in the receiving state within 10 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(3) Receiving states shall give 30 days from the date of enrollment or a time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunizations required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within 30 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(4) Students must be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level, including kindergarten, from a local education agency in the sending state at the time of transition regardless of age. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state must be eligible for enrollment in the next highest grade level in the receiving state regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on the student's validated level from a school in the sending state.

ARTICLE V PLACEMENT AND ATTENDANCE

(1) When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school, educational assessments conducted at the school in the sending state, or both, if the courses are offered and space is available. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, and vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

(2) The receiving state school shall initially honor placement of the student in educational programs based on space availability and current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include but are not limited to gifted and talented programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student. This section does not require a local education agency to create programs or offer services that were not in place prior to the enrollment of the student unless the programs or services are required by federal or state law.

(3) (a) In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program.

(b) In compliance with the requirements of section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, and with Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. 12131 through 12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

(4) Local education agency administrative officials have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

(5) A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting must be granted additional excused absences at the discretion of the local education agency superintendent to visit with the student's parent or legal guardian relative to the leave or deployment of the parent or guardian.

ARTICLE VI ELIGIBILITY

(1) A special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, is sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

(2) A local education agency is prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

(3) A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which the child was enrolled while residing with the custodial parent.

(4) State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

(1) Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. If a waiver is not granted to a student who would qualify to graduate from the sending state, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

(2) (a) In lieu of testing requirements for graduation in the receiving state, states shall accept:

- (i) exit or end-of-course exams required for graduation from the sending state;
- (ii) national norm-referenced achievement tests; or
- (iii) alternative testing.

(b) In the event that the above alternatives cannot be accommodated by the receiving state for a student transferring to the school during the student's senior year, the provisions of subsection (3) of this article apply.

(3) If a military student transferring at the beginning of or during the student's senior year is ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections (1) and (2) of this article.

ARTICLE VIII STATE COORDINATION

(1) Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in and compliance with this compact and Interstate Commission activities. While each member state may determine the membership of its own state council, its membership must, at a minimum, include the state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups that the state council considers appropriate.

(2) The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

(3) The compact commissioner responsible for the administration and management of the state's participation in the compact must be appointed by the governor or as otherwise determined by each member state.

(4) The compact commissioner and the military family education liaison designated herein are ex-officio members of the state council unless either is already a full voting member of the state council.

ARTICLE IX INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function.

(1) The Interstate Commission is a body corporate and joint agency of the member states and has all the responsibilities, powers, and duties set forth herein and additional powers that may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

(2) (a) The Interstate Commission consists of one voting representative from each member state who is that state's compact commissioner.

(b) Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

(c) A majority of the total member states constitute a quorum for the transaction of business unless a larger quorum is required by the bylaws of the Interstate Commission.

(d) A representative may not delegate a vote to another member state. In the event that the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or state council may delegate voting authority to another person from the state for a specified meeting.

(e) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(3) The Interstate Commission consists of ex-officio, nonvoting representatives who are members of interested organizations. The ex-officio members, as defined in the bylaws, may include but may not be limited to members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

(4) The Interstate Commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

(5) The Interstate Commission shall establish an executive committee, whose members must include the officers of the Interstate Commission and any other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve

1-year terms. Members of the executive committee are entitled to one vote each. The executive committee has the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact and its bylaws and rules and other duties considered necessary. The U.S. department of defense shall serve as an ex-officio, nonvoting member of the executive committee.

(6) The Interstate Commission shall establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

(7) Public notice must be given by the Interstate Commission of all meetings, and all meetings must be open to the public except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting or portion thereof if it determines by a two-thirds vote that an open meeting would be likely to:

- (a) relate solely to the Interstate Commission's internal personnel;
- (b) disclose matters specifically exempted from disclosure by federal and state statute;
- (c) disclose trade secrets or commercial or financial information that is privileged or confidential;
- (d) involve accusing a person of a crime or formally censuring a person;
- (e) disclose information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;
- (f) disclose investigative records compiled for law enforcement purposes; or
- (g) specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

(8) For a meeting or portion of a meeting closed pursuant to this provision, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting, and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the Interstate Commission.

(9) The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules, which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. The methods of data collection, exchange, and reporting must, in so far as is reasonably possible, conform to current technology, and the Interstate Commission shall coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

(10) The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section may not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

ARTICLE X POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission may:

- (1) provide for dispute resolution among member states;
- (2) adopt rules that have the force and effect of law and are binding in the compact states to the extent and in the manner provided in this compact and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact;

- (3) issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact and its bylaws, rules, and actions;
- (4) monitor compliance with the compact provisions, the rules adopted by the commission, and the bylaws;
- (5) establish and maintain offices, which must be located within one or more of the member states;
- (6) purchase and maintain insurance and bonds;
- (7) borrow, accept, hire, or contract for services of personnel;
- (8) establish and appoint committees, including but not limited to an executive committee as required by subsection (5) of Article IX of this compact, which has the power to act on behalf of the Interstate Commission in carrying out its powers and duties under this compact;
- (9) elect or appoint officers, attorneys, employees, agents, or consultants, fix their compensation, define their duties, and determine their qualifications, and establish the Interstate Commission's personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;
- (10) accept any and all donations and grants of money, equipment, supplies, materials, and services and receive, utilize, and dispose of it;
- (11) lease, purchase, accept contributions or donations of, or otherwise own, hold, improve, or use any property, whether real, personal, or mixed;
- (12) sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;
- (13) establish a budget and make expenditures;
- (14) adopt a seal and bylaws governing the management and operation of the Interstate Commission;
- (15) report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. The reports must also include any recommendations that may have been adopted by the Interstate Commission.
- (16) coordinate education, training, and public awareness regarding the compact and its implementation and operation for officials and parents involved in such activity;
- (17) establish uniform standards for the reporting, collecting, and exchanging of data;
- (18) maintain corporate books and records in accordance with the bylaws;
- (19) perform functions that may be necessary or appropriate to achieve the purposes of this compact;
- (20) provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

ARTICLE XI ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

- (1) The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including but not limited to:
 - (a) establishing the fiscal year of the Interstate Commission;
 - (b) establishing an executive committee and other committees as may be necessary;
 - (c) providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;
 - (d) providing reasonable procedures for calling and conducting meetings of the Interstate Commission and ensuring reasonable notice of each meeting;
 - (e) establishing the titles and responsibilities of the officers and staff of the Interstate Commission;
 - (f) providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;
 - (g) providing startup rules for initial administration of the compact.

(2) The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom has authority and duties as specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the Interstate Commission. The officers shall serve without compensation or remuneration from the Interstate Commission. However, subject to the availability of budgeted funds, the officers must be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

(3) The executive committee has authority and duties as set forth in the bylaws, including but not limited to:

(a) managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

(b) overseeing an organizational structure and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

(c) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

(4) The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for a period, upon terms and conditions, and for compensation as the Interstate Commission considers appropriate. The executive director shall serve as secretary to the Interstate Commission, but may not be a member of the Interstate Commission. The executive director shall hire and supervise other persons as authorized by the Interstate Commission.

(5) The Interstate Commission's executive director and its employees are immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred or that the person had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities. However, that person is not protected from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(6) The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within their state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection may be construed to protect a person from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(7) The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend the Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the person.

(8) To the extent not covered by the state involved, the member state, the Interstate Commission, or the representatives or employees of the Interstate Commission must be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against those persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the persons.

ARTICLE XII
RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact or the powers granted under the compact, then such an action by the Interstate Commission is invalid and has no force or effect.

(2) Rules must be made pursuant to a rulemaking process that substantially conforms to the Model State Administrative Procedure Act revised as of 2012 as may be appropriate to the operations of the Interstate Commission.

(3) Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule. However, the filing of a petition does not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

(4) If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then the rule has no further force and effect in any member state.

ARTICLE XIII
OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

(1) Each member state shall enforce this compact to effectuate the compact's purposes and intent.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the Interstate Commission.

(3) The Interstate Commission is entitled to receive all service of process in any such proceeding and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission renders a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

(4) The purpose of this compact is not to supersede the sovereignty of any member state but instead to facilitate the collective exercise of each state's sovereignty to allow a uniform solution without federal intervention. No provision of the interstate compact may be construed as a waiver of a state's sovereignty.

(5) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the bylaws or promulgated rules, the Interstate Commission shall:

(a) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state is required to cure its default.

(b) provide remedial training and specific technical assistance regarding the default.

(6) If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact must be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default, except that in the event of a default by this state, its total financial responsibility is limited to the amount of its most recent annual assessment.

(7) Suspension or termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(8) The state that has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination up to a maximum amount of \$5,000 multiplied by the number of years that the state has been

a member of the compact. In the event that this state is suspended or terminated, its total financial responsibility is limited to the amount of its most recent annual assessment.

(9) The Interstate Commission may not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(10) The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. district court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party must be awarded all costs of litigation, including reasonable attorney fees.

(11) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

(12) The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

ARTICLE XIV FINANCING OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. THE COMMISSION

- (1) The education commission of the states (commission) is hereby established. The commission consists of seven members representing each state that has entered into the compact. One of the state members must be the governor, two must be members of the legislature selected by its respective houses and serving in a manner as the legislature may determine, one must be the state superintendent of public instruction, and three must be appointed by and serve at the pleasure of the governor. The guiding principle for the composition of the membership on the commission from each party state must be that the members representing the state shall, by virtue of their training, experience, knowledge, or affiliations, reflect broadly the interests of the state government, higher education, the state education system, local education, and public and nonpublic educational leadership. In addition to the members of the commission representing the party states, there may be no more than 10 nonvoting commissioners selected by the steering committee for terms of 1 year. The commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(2) The members of the commission are entitled to one vote each on the commission. Any action of the commission is not binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of the action. Any action of the commission must be taken only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to any directions and limitations as may be contained in the bylaws, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV, and adoption of the annual report pursuant to Article III(10).

The executive director shall serve as secretary.

(5) The executive director, subject to the approval of the steering committee, shall appoint, remove, or discharge any personnel as may be necessary for the performance of the functions of the commission. The executive director shall fix the duties and compensation of the personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(6) The commission may borrow, accept, or contract for the services of personnel.

(7) The commission may accept for any of its purposes and functions under this compact any donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation and may receive, utilize, and dispose of any gifts and grants. Any donation or grant accepted by the commission pursuant to this section or services borrowed pursuant to subsection (6) of this article must be reported in the annual report of the commission. The report must include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

(1) collect, correlate, analyze, and interpret information and data concerning educational needs and resources;

(2) encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public education systems;

(3) develop proposals for adequate financing of education as a whole and at each of its many levels;

(4) conduct or participate in research in any instance where it finds that the research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional organizations for higher education, and other agencies and institutions, both public and private;

(5) formulate suggested policies and plans for the improvement of public education as a whole, or for any segment of public education, and make recommendations with respect to public education available to the appropriate governmental units, agencies, and public officers; and

(6) do other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to the compact.

ARTICLE V COOPERATION WITH FEDERAL GOVERNMENT

(1) If the laws of the United States specifically provide, or if administrative provision is made within the federal government, the United States may be represented on the commission by not more than 10 representatives. A representative of the United States must be appointed and serve in the manner as may be provided by federal law and may be drawn from any one or more branches of the federal government. A representative of the United States may not have a vote on the commission.

(2) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states and may confer with any federal agencies or officers concerning any matter of mutual interest.

ARTICLE VI COMMITTEES

(1) To assist in the conduct of its business when the full commission is not meeting, the commission shall elect a steering committee that, subject to the provisions of this compact and consistent with the policies of the commission, is constituted and functions as provided in the bylaws of the commission. A federal representative on the commission may serve with the steering committee, but may not vote. The voting members of the steering committee shall serve a term of 2 years. The presiding officer, vice presiding officer, and treasurer of the commission must be members of the steering committee and, notwithstanding anything in this section to the contrary, shall serve during their continuance in these offices. Vacancies on the steering committee do not affect its authority to act, but the commission at its next regular meeting following the occurrence of any vacancy shall fill it for the unexpired term. A person may not serve more than two terms as a member of the steering committee, provided that service for a partial term of 1 year or less may not be counted toward the limitation.

(2) The commission may establish advisory and technical committees composed of state, local, or federal officers and private persons to advise it with respect to any one or more of its functions. An advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the states that have entered into this compact.

(3) The commission may establish any additional committees as its bylaws may provide.

ARTICLE VII FINANCE

Each of the commission's budgets of estimated expenditures must contain specific recommendations of the amount to be appropriated by each of the states.

(2) The total amount of appropriation requests under any budget must be apportioned among the states. In making the apportionment, the commission shall devise and employ a formula that takes equitable account of the population and per capita levels of income of the states.

(3) The commission may not pledge the credit of any state. The commission may meet any of its obligations in whole or in part with money available to it pursuant to Article III of this compact, provided that the commission takes specific action setting aside the money before incurring an obligation to be met in whole or in part in that manner. Except when the

commission makes use of money available to it pursuant to Article III, the commission may not incur any obligation before receiving an allotment of money from the states that is adequate to meet the obligation.

(4) The commission shall keep accurate accounts of all receipts and disbursements. 20-3-302. Legislative intent to elect less than majority of trustees. (1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. In county high school districts, there may not be more than two trustee positions to be filled by members residing in the elementary district where the county high school building is located or more than one trustee position to be filled by members residing outside of the elementary district where the county high school building is located subject to election at the same time.

(2) In the following circumstances relating to newly created trustee positions, the initial terms may be shortened to comply with the intent of subsection (1):

- (a) the consolidation under the provisions of 20-6-423 of two or more elementary districts to form an elementary district, of two or more high school districts to form a high school district, or of two or more K-12 districts to form a K-12 district;

- (b) the establishment of additional trustee positions of a high school district under the provisions of 20-3-353 or 20-3-354 or new trustee positions under the provisions of 20-3-352(3);
- (c) the change of a district's classification under the provisions of 20-6-201 or 20-6-301;
- (d) the establishment of additional elementary trustee positions under the provisions of 20-3-341(3); or
- (e) the establishment of additional high school trustee positions under the provisions of 20-6-313.

(3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time.

(1) As provided in 20-3-351(1)(b), a high school district, except a county high school district, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without equitable representation on the high school district trustees under the provision of 20-3-351(1)(a), request the establishment of additional trustee positions under the provisions of subsection (2) or when the electors approve an alternative method of electing members of the board of trustees under the provisions of subsection (3).

(2) A request for additional trustee positions must be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure:

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(e) An additional trustee may serve as the presiding officer of the board of trustees of an elementary district in accordance with 20-3-321(3).

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing one of the following alternative methods of electing the members of the high school district board of trustees:

(i) one trustee must be elected from each elementary school district with territory included in the high school district and two or three trustees must be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees; or

(ii) the county superintendent shall establish four trustee nominating districts within the high school district but outside the territory of the elementary school district in which the high school buildings are located. One trustee must be elected from each trustee nominating district and three trustees must be elected from the elementary district in which the high school buildings are located, for a total of seven trustees on the high school district board of trustees. Trustees elected from the elementary district in which the high school buildings are located shall serve on both the high school district board of trustees and on the elementary school district board of trustees.

(b) (i) When the county superintendent receives a valid petition, the county superintendent shall order the trustees of the high school district to conduct an election on the next regular school election day on the proposition allowed under the provisions of subsection (3)(a).

(ii) If the electors of the district approve a proposition to establish the alternative method of electing the high school district board of trustees, the county superintendent shall order that the members of the board of trustees be elected according to subsection (3)(a) at the next regular school election.

(c) Whenever the trustees are elected at one regular election under subsection (3)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be divided as equally as practicable among 1-year, 2-year, and 3-year terms.

(d) A petition to call an election for the purposes of subsection (3) may not be submitted to the county superintendent more than one time in each 5-year period.

20-3-353. Establishment and purpose of trustee nominating districts. (1) After the county superintendent has determined the number of additional trustee positions, the county superintendent shall establish trustee nominating districts in that portion of the high school district without representation on the high school trustees. There must be one trustee nominating district for each additional trustee position, except the additional trustee-at-large. Unless it is impossible, the trustee nominating district boundaries must be coterminous with elementary district boundaries.

(2) The purpose of the trustee nominating district is to establish a representative district for the nomination and election of a resident of the district to be an additional member of the trustees of a high school district. The electors qualified to vote in the high school district under the provisions of 20-20-301 and who reside in the trustee nominating district are the only electors who may vote for the additional trustee representing the district. They must also be permitted to vote for a trustee position at large, if there is one, but not for any other high school trustee position.

(3) Any additional trustee position established under the provisions of this section must be filled in a manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

Whenever there is a revision of the taxable valuation of the high school district or the elementary districts within the high school district or there is a reclassification of the elementary district that has its trustees placed on the high school district board of trustees, the county superintendent shall redetermine the number of additional trustee positions for the high school district in accordance with 20-3-352. If there is a change in the allowable number of additional trustee positions, the county superintendent shall reestablish the trustee nominating districts in accordance with 20-3-353. If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions are to terminate upon the order reestablishing the trustee nominating

districts. If the number of additional trustee positions is more than the previous number of positions, the additional trustee positions must be filled in the manner prescribed under the provisions of 20-3-309. 20-3-355. Determination of terms after establishment or reestablishment of additional trustee positions. (1) Whenever all of the additional trustee positions are subject to election at one regular school election under the circumstance described in 20-3-302(2)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by number of members elected must be:

- (a) two for 3 years, if four are elected;
- (b) one for 3 years, if one, two, or three are elected;
- (c) one for 2 years, if two, three, or four are elected; and
- (d) one for 1 year, if three or four are elected.

(2) Whenever the reestablishment of the additional trustee positions for a high school district under the provisions of 20-3-354 results in an increased number of additional trustee positions, the members who are elected at the next regular school election shall draw by lot to determine their terms of office and the terms must be determined in accordance with the additional trustee terms prescribed in this section.

20-3-356. Membership of elected trustees of county high school district and nomination of candidates. (1) The trustees of a county high school district must include the following:

(a) four trustee positions filled by members residing in the elementary district where the county high school building is located; and

(b) three trustee positions filled by members one of whom resides in each of the three trustee nominating districts in the territory of the high school district outside of the elementary district where the county high school building is located. The county superintendent shall establish the nominating districts, and, unless it is impossible, the districts must have coterminous boundaries with elementary district boundaries.

20-3-361. Joint board of trustees organization and voting membership. (1) The board of trustees of two or more school districts may form a joint board of trustees for the purpose of coordinating any educational program or support service of the districts. A joint board of trustees may coordinate only those programs and services agreed to by the participating boards of trustees.

(2) When a joint board of trustees is formed, all of the members of the districts' trustees must be members of the joint board of trustees and each member must have the right to participate in the meetings, but voting on matters considered by the joint board is limited by the provisions of this section.

(3) At the first meeting of the joint board of trustees, a presiding officer of the joint board of trustees must be selected from among the membership. A secretary of the joint board must be selected from the membership. The presiding officer, when selected as a voting member, may not be disqualified from voting because of the position. The secretary may not be a voting member except that the secretary shall cast the deciding vote when three successive ballots have resulted in a tie vote of the joint board of trustees.

(4) The voting membership of the joint board of trustees must be equalized among the trustee membership of the participating districts. After the selection of the presiding officer and the secretary, if necessary, the voting membership is:

(a) all of the membership of the board of trustees of the smallest class of district, according to 20-6-201 or 20-6-301, unless one of its members is selected as secretary, in which case that member may not be a voting member; and

(b) the members of the board of trustees of the other district or districts who are selected by the trustees as voting members of the joint board in a number equal to the number of voting members of the district as established under subsection (4)(a). The names of the voting membership selected by the trustees must be submitted in writing to the secretary of the board and are the only members of the district's trustees eligible to vote on joint board matters unless the list is revised in writing by the trustees.

(5) Each voting member is entitled to cast one vote, individually, upon every matter submitted to the joint board for a vote.

(6) A joint board shall remain in existence for at least 1 school year and may not be dissolved until the end of a school year.

(7) A school district that elects to participate in a joint board formed under this section for special education purposes shall confirm in writing to the joint board by October 1 of the current school fiscal year the district's intention to participate or to not participate in a joint board agreement for the next school fiscal year.

20-3-363. Multidistrict agreements — fund transfers. (1) (a) The boards of trustees of any two or more school districts may enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts and to provide for the joint funding and operation and maintenance of all participating districts upon the terms and conditions as may be mutually agreed to by the districts subject to the conditions of this section.

(b) A multidistrict agreement may include an agreement through which one district provides culturally rooted instruction aligned to a learning environment for English language learners or an Indian language immersion program to pupils of a district participating in the multidistrict agreement. The costs and other terms of service must be reflected in the multidistrict agreement.

(c) An agreement must include provisions for dissolution of the cooperative, including the conditions under which dissolution may occur and the disposition of any remaining funds that had been transferred to an interlocal cooperative fund in support of the cooperative. An

agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative. The agreement may be for a period of up to 3 years.

(2) All expenditures in support of the multidistrict agreement may be made from the interlocal cooperative fund as specified in 20-9-703 and 20-9-704. Each participating district of the multidistrict cooperative may transfer funds into the interlocal cooperative fund from the district's general fund, budgeted funds other than the retirement fund or debt service fund, or nonbudgeted funds other than the compensated absence liability fund. Transfers to the interlocal cooperative fund from each participating school district's general fund are limited to an amount not to exceed the direct state aid in support of the respective school district's general fund. Transfers from the retirement fund and debt service fund are prohibited. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law.

(3) Expenditures from the interlocal cooperative fund under this section are limited to those expenditures that are permitted by law and that are within the final budget for the budgeted fund from which the transfer was made.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(5) As used in this title, "multidistrict cooperative" means a public entity created by two or more school districts executing a multidistrict agreement under this section or any school district or other public entity participating in an interlocal cooperative agreement under the provisions of Title 20, chapter 9, part 7, as either a coordinating or a cooperating agency.

(1) The first district health insurance trust that is qualified by the state auditor under this section must be provided the insurance trust incentive payment under 20-3-369 to stabilize health insurance costs and capitalize an operating reserve for the school district members of the trust. The state auditor may qualify only the first district health insurance trust meeting the criteria of this section.

(2) A district health insurance trust seeking qualification from the state auditor under subsection (3) shall apply to the state auditor demonstrating that the district health insurance trust:

(a) has been created on or after July 1, 2023, by a multidistrict agreement pursuant to 20-3-363 or by an interlocal cooperative agreement among participating school districts pursuant to the provisions of Title 20, chapter 9, part 7. The terms of the agreement must include the state auditor or the auditor's designee as an ex officio nonvoting member of the trust's governing board.

(b) has a binding contractual agreement among at least 150 districts employing a minimum of 12,000 employees to participate in and obtain health insurance for its employees through the trust. The calculation of these thresholds may include:

(i) only the number of employees that are contracted to participate in and obtain health insurance through the trust by each participating district; and

(ii) school districts and their employees with current renewal cycles other than a school fiscal year provided that the districts and employees are purchasing insurance through the trust not later than the earlier of the day after the date of the expiration of their previous policy or January 1 in the first year of the trust's operation.

(c) equally allocates the shared risk of assessments among all members of the trust;

(d) determines plan design, contribution rates, and a contribution tier structure in consultation with a certified actuary;

(e) has adopted a required limit on administrative costs of not more than 12% of total costs in the formative documents of the trust. An initial commitment included in the application for qualification is legally binding on the trust in its operations.

(f) maintains full control over claims data for medical and pharmacy benefits and makes the data available to member districts on request in compliance with the Health Insurance Portability and Accountability Act of 1996, 42 USC 1320d, et seq.;

(g) provides, either directly or through a third-party administrator, estimates of costs for employees' anticipated medical treatments and procedures and estimates of required cost sharing by members;

(h) has formed as an agreement between school districts undertaken to separately or jointly indemnify one another by way of a pooling, joint retention, deductible, or self-insurance plan as described in and subject to 33-1-102(9);

(i) prohibits any preexisting health benefits trust or district from imposing its liabilities on the trust that were incurred prior to joining the trust; and

(j) adopts contribution rates as recommended by its contracted actuary to pay all claims and maintain plan reserves at or above minimum levels of risk-based capital recommended by its actuary. The trust shall prepare and submit to the state auditor a report of its financials in a form and containing information as required by the state auditor by rule.

(3) Nothing in this section may be construed to require a district to obtain insurance through the trust in whole or in part. A district may provide insurance through the trust for some groups and through other means for other groups, provided that at least 12,000 employees must be covered under the trust to qualify for the incentives under 20-3-369. Any group of a district obtaining insurance through the trust is subject to the same requirements applicable to districts regarding the minimum duration of participation, conditions for withdrawal, and delay of return to the trust under 20-3-367.

(4) A district health insurance trust qualified by the state auditor may, at its option, contract services with a third-party administrator for services needed by the trust, including but not limited to enrollment, claims processing, wellness plans, and access to financial arrangements with providers through provider network agreements via a contract.

(5) The state auditor shall adopt rules necessary to implement 20-3-366 through 20-3-370. The rules must address minimum reserves and reporting requirements for the trust. The state auditor may order the dissolution of the trust if the trust fails to comply with the provisions of 20-3-366 through 20-3-370 or the rules adopted by the state auditor.

(6) For the purposes of 20-3-366 through 20-3-370, the following definitions apply:

(a) "Administrative costs" means the overall costs of operating a district health insurance trust except for:

(i) the cost of providing health care to members, including wellness plans to improve and promote health and fitness;

(ii) additions to reserves as recommended by the district health insurance trust's actuary under subsection (2); and

(iii) the cost of excess insurance or reinsurance for high-cost claims within the trust with plan design and deductible levels as recommended by the trust's actuary.

(b) "District" means a public school district as provided in 20-6-101 and 20-6-701 and any cooperative formed pursuant to 20-7-451 through 20-7-457.

(c) "District health insurance trust" or "trust" means an arrangement, plan, interlocal agreement, or multidistrict agreement complying with the requirements of this section that jointly provides disability insurance as defined in 33-1-207 to the officers, elected officials, or employees of districts through a member-governed, self-funded program.

(d) "Employee" means an individual employed by a district in any capacity, including but not limited to an employee meeting the definition in 2-18-601 and a teacher or principal as defined in 20-1-101 who is regularly scheduled to work at least 20 hours or more a week during the academic year.

20-3-367. District withdrawal — procedures. (1) Except as provided in subsection (2), a district or an employee group of a district that voluntarily joins the trust must participate in the trust for at least 5 consecutive school fiscal years before becoming eligible to withdraw from the trust. To complete its withdrawal effective not earlier than the completion of at least 5 consecutive school fiscal years, the district shall notify the trust prior to withdrawing from participation pursuant to the contractual terms of coverage and membership in the district health insurance trust.

(2) (a) On or before January 1 of each plan year beginning after the second full year of providing health benefits to the members of the trust, the trust shall prepare a report for each of its participating districts and employee groups that includes the following:

(i) a per-member cost for the immediately preceding plan year calculated by dividing the total cost to the trust of providing member benefits to the district or employee group by the total number of members in the district or employee group for the applicable year. This calculation is referred to as the “cost rate” in this section.

(ii) a calculation of what the per-member contribution rates would be for the district or employee group for the current plan year using the same number of members in each of the plans offered by the trust in the immediately preceding plan year. This calculation is referred to as “the contribution rate” in this section.

(iii) a percentage rounded to the nearest tenth, calculated by dividing the contribution rate calculated as provided in subsection (2)(a)(ii) by the cost rate calculated as provided in subsection (2)(a)(i), subtracting 1, and multiplying by 100 to produce a percentage. This calculation is referred to as “the adjusted contribution inflation rate” in this section.

(iv) the annual inflation rate for medical care derived from the medical care index of the United States bureau of labor statistics for July 1 of the current plan year, converted to a percentage. This rate is referred to as “the medical care index rate” in this section.

(v) a computation and the resulting number rounded to the nearest tenth that is yielded from dividing the adjusted contribution inflation rate of the district or employee group by the medical care index rate. The resulting number is referred to as “the inflation gap factor” for the district or employee group in this section.

(b) A district or an employee group with an inflation gap factor equal to or greater than 1.5 may withdraw from the trust upon the conclusion of the plan year in which the trust reports an inflation gap factor to the district or employee group above 1.5. To complete its withdrawal, the district shall notify the trust prior to withdrawing from participation pursuant to the contractual terms of coverage and membership in the district health insurance trust.

(3) A district that has withdrawn from a district health insurance trust under subsections (1) or (2):

(a) is ineligible to rejoin the trust for at least 5 full school fiscal years following the year in which the district withdraws;

(b) is ineligible for receipt of any portion of the net assets or reserve balance of the trust attributable to the distribution of funds under 20-3-369(3) on withdrawal. The portion of the net assets and reserve balance attributable to the distribution of state funds referenced under this subsection (3) must be determined by an actuarial reserve balance analysis conducted by the trust’s contracted actuary; and

(c) shall reimburse the trust for the run-off liability of the withdrawing district or employee group, consisting of all claims of the withdrawing district or employee group that were incurred by the members of the district or employee group prior to the effective date of the district’s or employee group’s withdrawal.

A district health insurance trust may also voluntarily dissolve.

(2) When dissolving pursuant to this section, the district health insurance trust shall wind up the affairs of the trust in the following order:

(a) impose any assessments on the districts of the trust that are calculated by the trust's retained actuary as necessary to pay all liabilities of the trust;

(b) pay all remaining claims, including incurred but not reported claims;

(c) pay all remaining liabilities of the trust;

(d) return any reserve balance remaining from the distribution of state funds to the trust under 20-3-369(3) to the state of Montana, after adjustments under subsections (2)(a) through (2)(c), for deposit in the state general fund. The portion of the reserve balance attributable to the distribution of state funds referenced under this subsection (2)(d) must be determined by an actuarial reserve balance analysis conducted by an actuary chosen by the state auditor.

(e) distribute its remaining net assets, if any, proportionately to the districts of the trust pursuant to the contractual terms of coverage and membership in the trust. A district shall deposit funds distributed under this subsection (2)(e) in an internal service account and spend the funds in accordance with 20-3-330 or 20-3-331.

(a) making any statement of material fact in applying for a certificate that the applicant knows to be false;

(b) any reason that would have required or authorized the denial of the teacher, administrator, or specialist certificate to the person if it had been known at the time the certificate was issued;

(c) incompetency;

(h) denial, revocation, suspension, or surrender of a teacher, administrator, or specialist certificate in another state for any reason constituting grounds for similar action in this state.

(2) The board may initiate proceedings under this section if a request for the suspension or revocation of the teacher, administrator, or specialist certificate of any person is made to it by:

(a) the trustees of a district as to a teacher, administrator, or specialist employed by that school or school district within the 12 months immediately preceding receipt of the request by the board of public education; or

(b) the superintendent of public instruction.

(3) (a) If the employment relationship between a school district and a teacher, administrator, or specialist is terminated or not renewed or if a teacher, administrator, or specialist resigns to prevent termination or nonrenewal because the trustees have reason to believe that the teacher, administrator, or specialist engaged in conduct described in subsection (1)(e) or (1)(f), the trustees shall make a written report to the superintendent of public instruction describing the circumstances of the termination, nonrenewal, or resignation.

(b) The superintendent shall review the report and any supporting evidence included in the report and may conduct further investigation. If the superintendent is satisfied that sufficient grounds exist, the superintendent may request action by the board of public education under subsection (1). The request must be brought within 1 year after discovery of the events that gave rise to the report.

(4) The board shall give a 30-day written notification to any person when the board intends to consider a letter of reprimand or the suspension or revocation of a certificate. Service of the notice must be accomplished by sending the notification by registered mail to the last address that the person has provided to the school district or the superintendent of public instruction.

(5) The board shall conduct an investigation of the reasons for the suspension or revocation charge and then, if the investigation warrants further action, conduct a hearing in the manner provided by board policies. At the hearing, the board shall afford the person an opportunity for defense against the charge.

(6) After a hearing, the board may place a written reprimand in the person's certification file or may suspend or revoke the person's teacher, administrator, or specialist certificate, except that in the case of a first violation under subsection (1)(g), the maximum penalty is a 2-year suspension of the person's certificate. The board may, upon a request by a school district, inform the school district that a person's certification file includes a letter of reprimand, but the board may not provide a copy of the letter without first determining that the public's right to know outweighs the person's right to privacy.

(7) Whenever the superintendent of public instruction denies the issuance or the renewal of a teacher, administrator, or specialist certificate, the applicant may appeal the denial to the board of public education. The board shall hear the appeal in the same manner provided in this section for suspension or revocation and in accordance with the policies of the board. The decision of the board is final.

20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational personnel.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) “Educational personnel” means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) “Designated state official” means the educational official of a state selected by that state to negotiate and enter into, on behalf of the official’s state, contracts pursuant to this agreement.

(3) “Accept” or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) “State” means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) “Originating state” means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) “Receiving state” means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of the designated state official’s state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the designated state official finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in the designated state official’s own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

20-4-122. Designated official for purposes of interstate agreement. The designated state official for this state is the state superintendent of public instruction. True copies of all contracts made on behalf of this state pursuant to the agreement shall be kept on file in the office of the state superintendent of public instruction. The state superintendent of public instruction shall publish all such contracts in convenient form.

20-4-127. (Effective July 1, 2024) Certification reciprocity for military members, military spouses, and veterans — requirements. (1) The superintendent of public instruction shall issue a teacher certificate and endorsement or specialist certificate as provided by Title 20 to a person:

(a) who is certified and endorsed in good standing in another state or a United States territory as a teacher or specialist; and

(b) (i) who is a member of the armed forces of the United States or whose spouse is a member of the armed forces of the United States;

(ii) who is subject to military orders for a change of station to a duty station in this state, who is in the process of a change of station to a duty station in this state, who has been honorably discharged and is relocated to this state, or whose spouse is the subject of a military transfer to this state;

(iii) who is the spouse of a military member, and the spouse left employment to accompany the military member to this state; or

(iv) who is the dependent of an active-duty member of the United State armed forces who has been transferred to Montana, is scheduled to be transferred to Montana, is domiciled in Montana, or has moved to Montana on a permanent change-of-station basis.

(2) In issuing a certificate and endorsement under subsection (1), the superintendent of public instruction may:

(a) issue the person a certificate and endorsement if the superintendent of public instruction determines the requirements for certification and endorsement in the other state are substantially equivalent to the requirements in this state; or

(b) if the requirements for certification and endorsement are not substantially equivalent, issue the person a temporary teacher certificate and endorsement or specialist certificate to authorize the person as a teacher or specialist while completing any specific requirements by the office of public instruction.

(3) The provisions of subsection (1) do not apply to a person whose teacher certificate or specialist certificate is not in good standing with another state or who is subject to pending charges or final disciplinary action for unprofessional conduct or impairment.

20-4-134. Professional stipends for teachers certified by national board for professional teaching standards. (1) Pursuant to subsection (5), an annual stipend of up to \$1,500 must be provided to each teacher who holds a current certificate from the national board for professional teaching standards if the teacher is:

(a) a full-time classroom teacher, librarian, or other full-time employee serving in an assignment covered by national board certification assessment;

(b) certified to teach in Montana under the provisions of 20-4-103; and

(c) a full-time employee of:

(i) a Montana public school district, as defined in 20-6-101;

(ii) an education cooperative, as described in 20-7-451;

(iii) the Montana school for the deaf and blind, as described in 20-8-101; or

(iv) a correctional facility, as defined in 41-5-103.

(2) An annual stipend of up to \$2,500 must be provided to each teacher who meets the criteria for the stipend in subsection (1) and who has an instructional assignment in a school identified as:

(a) a school in a high-poverty area eligible to participate in the community eligibility provision under Public Law 111-296; or

(b) an impacted school as defined in 20-4-502.

(3) A teacher becomes eligible for the stipend in subsection (1) in the school year beginning July 1 after the teacher obtains certification or recertification from the national board for professional teaching standards.

(4) By March 1, the superintendent of public instruction shall distribute stipend payments to any entity listed in subsections (1)(c)(i) through (1)(c)(iv) that employs an eligible teacher.

(5) The obligation for funding a portion of the professional stipends is an obligation of the state. This section may not be construed to require a school district to provide its matching portion of a stipend to a qualifying teacher without a payment from the state to the district. If the money appropriated for the stipends is not enough to provide the full amount for each eligible teacher, the superintendent of public instruction shall request the state budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of the stipends.

(6) (a) For a stipend under subsection (1), the state shall pay \$500 and another \$1 for each \$1 contributed by the teacher's school district, up to a maximum state contribution of \$1,000.

(b) For a stipend under subsection (2), the state shall pay \$1,000 and another \$2 for each \$1 contributed by the teacher's school district, up to a maximum state contribution of \$2,000.

Part 2 Teacher Employment — Tenure

20-4-201. Employment of teachers and specialists by contract. (1) The trustees of any district have the authority to employ any person as a teacher or specialist, but only a person who holds a valid Montana teacher or specialist certificate or for whom an emergency authorization of employment has been issued that qualifies the person to perform the duties prescribed by the trustees for the position of employment. Each teacher or specialist must be employed under written contract, and each contract of employment must be authorized by a proper resolution of the trustees and must be executed in duplicate by the presiding officer of the trustees and the clerk of the district in the name of the district and by the teacher or specialist.

(2) A contract of employment with a teacher or specialist may not require the teacher or specialist to teach more than 5 days a week or on any holiday recognized by 20-1-305. A

deduction may not be made from a teacher's or specialist's salary by reason of the fact that a holiday falls on a school day. A teacher's or specialist's contract made in conflict with the 5-days-a-week provision of this section is not enforceable against the teacher or specialist.

(3) Whenever the boards of trustees of two or more school districts form a joint board of trustees under the provisions of 20-3-361 or when the boards of trustees of two or more school districts enter into an interlocal agreement pursuant to Title 7, chapter 11, part 1, to cooperatively share the employment of a teacher or specialist, the joint board of trustees or the boards of trustees of two or more school districts, pursuant to an interlocal agreement, may execute a contract of employment with a teacher or specialist who shall serve the districts. When a contract is executed, the districts shall prorate the compensation provided by the contract on the basis of the total number of instructional hours expended by the teacher or specialist within each district.

(4) Any contract executed under the provisions of this section may contain the oath or affirmation prescribed in 20-4-104, and the teacher or specialist shall subscribe to the oath or affirmation before an officer authorized by law to administer oaths.

If a teacher or specialist does not register the person's certificate with the county superintendent within 60 calendar days after the person begins to perform services, the person is not eligible to receive any further compensation under the contract of employment until the person has registered the certificate. After the schools of a district have been open for 60 calendar days in the current school fiscal year, the county superintendent shall notify each district of the county of each teacher or specialist who has registered a current valid certificate, and the district may not pay any teacher who has not registered the person's certificate until the county superintendent does notify the district of the registration.

(2) A teacher or specialist employed by a joint district shall register the person's certificate with the county superintendent of the county in which the person is working. 20-4-203. Teacher tenure. (1) Except as provided in 20-4-208, whenever a teacher has been elected by the offer and acceptance of a contract for the fourth consecutive year of employment by a district in a position requiring teacher certification except as a district superintendent or specialist, the teacher is considered to be reelected from year to year as a tenured teacher at the same salary and in the same or a comparable position of employment as that provided by the last-executed contract with the teacher unless the trustees resolve by majority vote of their membership to terminate the services of the teacher in accordance with the provisions of 20-4-204.

(2) The tenure of a teacher with a district may not be impaired upon termination of services of the teacher if the following conditions exist:

(a) the tenure teacher is terminated because the financial condition of the district requires a reduction in the number of teachers employed; and

(b) continued employment rights are provided for in a collectively bargained contract of the district.

(3) (a) For the purposes of subsection (1), “same salary” means the daily rate of pay, excluding benefits and excluding stipends for nonteaching duties, multiplied by the number of days worked under the last-executed contract with the teacher, up to the total number of days funded by the state in the per-ANB entitlements, as provided in 20-9-311, including pupil-instruction-related days. The calculation of daily rate of pay is determined by dividing the salary in the last-executed contract with the teacher for pupil-instruction and pupil-instruction-related days, excluding benefits and excluding stipends for nonteaching duties, by the total number of contracted days under the last-executed contract.

(b) The definition of same salary may be modified if negotiated and agreed to in a collective bargaining agreement executed by the district and the teacher’s exclusive representative pursuant to Title 39, chapter 31, or in an individual contract between the district and a teacher in a district in which the teachers have no exclusive representative as provided in Title 39, chapter 31.

(4) Upon receiving tenure, the employment of a teacher may be terminated for good cause.

20-4-204. Termination of tenure teacher services. (1) (a) The following persons may make a recommendation in writing to the trustees of the district for termination of the services of a tenure teacher:

- (i) a district superintendent;
- (ii) in a district without a district superintendent, a principal;
- (iii) in a district without a district superintendent or a principal, the county superintendent or a trustee of the district.

(b) The recommendation must state clearly and explicitly the specific reason or reasons leading to the recommendation for termination.

(2) Whenever the trustees of a district receive a recommendation for termination, the trustees shall notify the teacher of the recommendation for termination and of the teacher’s right to a hearing on the recommendation. The notification must be delivered by certified letter or by personal notification for which a signed receipt is returned. The notification must include:

(a) the statement of the reason or reasons that led to the recommendation for termination; and

(b) a printed copy of this section for the teacher’s information.

(3) The teacher may, in writing, waive the right to a hearing. Unless the teacher waives the right to a hearing, the trustees shall set a hearing date, giving consideration to the convenience of the teacher, not less than 10 days or more than 20 days from receipt of the notice of recommendation for termination.

(4) The trustees shall:

(a) conduct the hearing on the recommendation at a regularly scheduled or special meeting of the board of trustees and in accordance with 2-3-203; and

(b) resolve at the conclusion of the hearing to terminate the teacher or to reject the recommendation for termination.

(5) The tenure teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher’s employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, who may appoint a qualified attorney as a legal adviser who shall assist the superintendent in preparing findings of fact and conclusions of law. If the employment of the teacher is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a tenure teacher shall appeal a decision to terminate an employment contract to an arbitrator agreed upon by the district and the teacher’s exclusive representative. If the exclusive representative has declined to represent the teacher, the teacher or the district

may request that the board of personnel appeals provide a list of arbitrators from which the teacher and the district shall, after the toss of a coin to determine the order of striking, alternately strike names from the list until one arbitrator is selected and appointed. By mutual agreement between the parties, the county superintendent of schools may be appointed as the arbitrator.

(6) In a termination involving a teacher whose employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, either the teacher or the trustees may appeal to the district court of the county in which the teacher was employed. The proceedings must be commenced no later than 60 days after the date of the decision of the county superintendent.

(7) In a termination involving a teacher whose employment is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a request for arbitration must be made within 20 days from the date of termination unless an alternative time period is provided by the terms of a collective bargaining agreement.

(8) The decision of the arbitrator is final and binding. Each party shall pay one-half of an arbitrator's charges unless a different cost allocation arrangement is agreed upon by the parties.

(9) An arbitrator may order a school district to reinstate a teacher who has been terminated without good cause and to provide compensation, with interest, to a teacher for lost wages and fringe benefits from the date of termination to the date that the teacher is offered reinstatement to the same or a comparable position. Interim earnings, including the amount that the teacher could have earned with reasonable diligence, must be deducted from the amount awarded for lost wages. Before interim earnings are deducted from lost wages, reasonable amounts spent by a teacher in searching for, obtaining, or relocating to new employment must be deducted from interim earnings.

(10) Except as provided in this section, an arbitrator may not order a school district to provide compensation for punitive damages, pain and suffering, emotional distress, compensatory damages, attorney fees, or any other form of damages.

(11) Upon submission of the termination decision to an arbitrator, the teacher or the teacher's exclusive representative may not file an action against the district for reinstatement or compensation of lost wages and fringe benefits.

(12) As used in this section, the following definitions apply:

(a) "Fringe benefits" means the value of any employer-paid vacation leave, sick leave, medical insurance plan, disability or life insurance plan, or pension benefit in effect on the date of termination.

(b) "Lost wages" means the gross amount of wages that would have been reported to the internal revenue service on form W-2 and includes any compensation deferred at the option of the employee.

Part Compiler’s Comments

Effective Date: Section 5, Ch. 545, L. 2023, provided that this part is effective July 1, 2023.

20-4-701. Legislative findings — intent. (1) The legislature finds and affirms that, pursuant to 20-9-309, the definition of “a basic system of free quality public elementary and secondary schools” requires the recruitment and retention of qualified and effective teachers.

(2) The legislature finds and declares that the provision of and participation in a teacher residency program is constitutionally compliant and protected. The legislature declares that any public or private regulation that discriminates against a school district or an undergraduate student participating in a teacher residency program is inconsistent with constitutional goals and guarantees under Article X of the Montana constitution.

(3) The legislature intends that the teacher residency program be implemented in a collaborative and efficient manner among the various partnering entities and in a manner that results in teachers who participate in the program being:

- (a) better prepared to teach effectively in the years following the program; and
- (b) more inclined to remain in the teaching profession longer, especially in rural schools and high-need content areas.

History: En. Sec. 1, Ch. 545, L. 2023.

20-4-702. Teacher residency program. (1) The superintendent of public instruction shall administer a teacher residency program in collaboration with school districts and professional educator preparation programs.

- (2) The teacher residency program must involve:
 - (a) a shared vision and partnership between:
 - (i) a resident;
 - (ii) a teacher-leader;
 - (iii) a school district; and
 - (iv) an educator preparation program;
 - (b) ensuring that a resident possesses the cultural competencies to succeed and be an effective educator in the school hosting the resident;
 - (c) selection and training for teacher-leaders;
 - (d) a resident being matched with a school district that provides a high-quality and supportive experience for residents working with a teacher-leader;
 - (e) flexible course delivery to allow a resident to complete required credits in the resident's preparation program;
 - (f) a cohort model with opportunities for virtual and in-person training and support;
 - (g) financial and other compensation for residents and teacher-leaders including:
 - (i) housing for the resident or a housing allowance provided to the resident by the host school district;
 - (ii) for a resident in a professional educator preparation program accredited by the board of public education, a last-dollar tuition grant to eliminate tuition costs for the resident for the year of the residency;
 - (iii) a stipend for the teacher-leader; and
 - (iv) compensation for the resident, a portion of which may be conditioned on completion of the program and the signing of a teaching contract in a Montana public school for the following year; and
 - (h) a methodology for evaluating the effectiveness of the program.

(3) The superintendent of public instruction may contract with a professional educator preparation program located in a unit of the Montana university system to coordinate the teacher residency program or aspects of the program.

(4) If a resident does not complete the program or does not teach in a Montana public school for 3 or more years within 5 years of completing the teacher residency program, the superintendent of public instruction shall inform the commissioner of higher education and the commissioner shall convert the amount of any tuition grant provided to the resident under the program to a loan.

(5) For the purposes of this part, the following definitions apply:

(a) "Professional educator preparation program" means a postsecondary program intended to lead to teacher licensure that is accredited by the board of public education or recognized by the board as an essentially equivalent program for teacher certification purposes.

(b) "Resident" means a student enrolled in a professional educator preparation program who is selected for participation in a teacher residency program as described in this section and who commits to teaching in a Montana public school following completion of the teacher residency program.

(c) “Teacher-leader” means an experienced classroom teacher who is selected to work with, coach, and mentor a resident.

(d) “Teacher residency program” or “program” means a partnership between a district and a professional educator preparation program to provide residents with a year-long, practice-based learning experience working directly with students in a manner that mirrors the experience of teachers in that school and meets the criteria of supervised teaching experience as defined by the board of public education.

Expulsion is any removal of a pupil for more than 20 school days without the provision of educational services and is a disciplinary action available only to the trustees. A pupil may be suspended from school for an initial period not to exceed 10 school days. Upon a finding by a school administrator that the immediate return to school by a pupil would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a pupil may be suspended for one additional period not to exceed 10 school days if the pupil is granted an informal hearing with the school administrator prior to the additional suspension and if the decision to impose the additional suspension does not violate the Individuals With Disabilities Education Act, 20 U.S.C. 1400, et seq.

(2) (a) The trustees of a district shall adopt a policy for the expulsion of a student who is determined to have brought a firearm to school or to have possessed a firearm at school and for referring the matter to the appropriate local law enforcement agency. A student who is determined to have brought a firearm to school or to have possessed a firearm at school under this subsection (2)(a) must be expelled from school for a period of not less than 1 year, except that the trustees may authorize the school administration in writing to modify the requirement for expulsion of a student, up to and including eliminating the requirement for expulsion, on a case-by-case basis. The trustees shall annually review the district's weapons policy and any policy adopted under this subsection (2)(a) and update the policies as determined necessary by the trustees based on changing circumstances pertaining to school safety.

(b) A decision to change the placement of a student with a disability who has been expelled pursuant to this section must be made in accordance with the Individuals With Disabilities Education Act.

(3) In accordance with 20-4-302, 20-4-402, 20-4-403, and subsection (1) of this section, a teacher, superintendent, or principal may immediately suspend a student if, prior to a hearing conducted pursuant to subsection (6), there is cause to believe the student brought a firearm to school or possessed a firearm at school.

(4) Nothing in this section prevents a school district from:

(a) offering instructional activities related to firearms or allowing a student to bring a firearm to school for instructional activities sanctioned by the district if:

(i) the district has appropriate safeguards in place to ensure student safety; and

(ii) the firearm is secured in a locked container approved by the school district when the firearm is at school and is not in use for the instructional activity; or

(b) providing educational services in an alternative setting to a student who has been expelled from the student's regular school setting.

(5) Before holding a hearing as required under subsection (6) to determine if a student has violated this section, the trustees shall, in a clear and timely manner, notify the student if the student is an adult or notify the parent or guardian of a student if the student is a minor that the student may:

(a) waive the student's privacy interest by requesting that the hearing be held in public; and

(b) invite other individuals to attend the hearing.

(6) Before expelling a student under this section, the trustees shall hold a due process hearing that includes presentation of a summary of the information leading to the allegations and an opportunity for the student to respond to the allegations. The student may not be expelled unless the trustees find that the student knowingly, as defined in 1-1-204, brought a firearm to school or possessed a firearm at school.

(7) When a student subject to a hearing is found to have not violated this section, the student's school record must be expunged of the incident.

(8) The office of public instruction shall make available on its website the information gathered from school districts that is provided annually to the federal government under the reporting requirements of 20 U.S.C. 7151, provided that any personally identifiable information is redacted.

(9) The provisions of this section do not require expulsion of a student who has brought a firearm to school or possesses a firearm at school as long as the firearm is secured in a locked container approved by the school district or in a locked motor vehicle the entire time the firearm is at school, except while the firearm is in use for a school-sanctioned instructional activity.

(10) For the purposes of this section, the following definitions apply:

(a) "Firearm" has the same meaning as provided in 18 U.S.C. 921.

(b) (i) "School" means a building, grounds, or property of a public elementary or secondary school.

20-5-317 through 20-5-319 reserved.

20-5-320. (Temporary) Attendance with discretionary approval. (1) A child may be enrolled in and attend a school in a Montana school district that is outside of the child's district of residence or a public school in a district of another state or province that is adjacent to the county of the child's residence, subject to discretionary approval by the trustees of the resident district and the district of choice. If the trustees grant discretionary approval of the child's attendance in a school of the district, the parent or guardian may be charged tuition and may be charged for transportation.

(2) (a) Whenever a parent or guardian of a child wishes to have the child attend a school under the provisions of this section, the parent or guardian shall apply to the trustees of the district where the child wishes to attend. The application must be made on an out-of-district attendance agreement form supplied by the district and developed by the superintendent of public instruction.

(b) The attendance agreement must set forth the financial obligations, if any, for tuition and for costs incurred for transporting the child under Title 20, chapter 10.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" includes:

(A) except as provided in subsection (2)(c)(ii)(B), a parent or guardian of a student who is a nonresident of the district of choice;

(B) a parent or guardian of a student who lives in a location where one unified school system as provided in 20-6-312 is the district of residence for grades K-8 and another unified school system as provided in 20-6-312 is the district of residence for grades 9-12; and

(C) the trustees of the district of residence.

(3) An out-of-district attendance agreement approved under this section requires that the parent or guardian initiate the request for an out-of-district attendance agreement and that the trustees of both the district of residence and the district of choice approve the agreement.

(4) If the trustees of the district of choice waive tuition, approval of the resident district trustees is not required.

(5) The trustees of a school district may approve or disapprove the out-of-district attendance agreement consistent with this part and the policy adopted by the local board of trustees for out-of-district attendance agreements.

(6) The approval of an out-of-district attendance agreement by the applicable approval agents or as the result of an appeal must authorize the child named in the agreement to enroll in and attend the school named in the agreement for the designated school year.

(7) The trustees of the district where the child wishes to attend have the discretion to approve any attendance agreement.

(8) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any tuition and transportation requirement. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(9) (a) A provision of this title may not be construed to deny a parent or guardian the right to send a child, at personal expense, to any school of a district other than the resident district when the trustees of the district of choice have approved an out-of-district attendance agreement and the parent or guardian has agreed to pay the tuition as prescribed by 20-5-323. However, under this subsection (9), the tuition rate must be reduced by the amount that the parent or guardian of the child paid in district property taxes during the immediately preceding school fiscal year for the benefit and support of the district in which the child will attend school.

(b) For the purposes of this section, “parent or guardian” includes an individual shareholder of a domestic corporation whose shares are 95% held by related family members to the sixth degree of consanguinity or by marriage to the sixth degree of affinity.

(c) The tax amount to be credited to reduce any tuition charge to a parent or guardian under subsection (9)(a) is determined in the following manner:

(i) determine the percentage of the total shares of the corporation held by the shareholder parent or parents or guardian;

(ii) determine the portion of property taxes paid in the preceding school fiscal year by the corporation, parent, or guardian for the benefit and support of the district in which the child will attend school.

(d) The percentage of total shares as determined in subsection (9)(c)(i) is the percentage of taxes paid as determined in subsection (9)(c)(ii) that is to be credited to reduce the tuition charge.

(10) As used in 20-5-320 through 20-5-324, the term “guardian” means the guardian of a minor as provided in Title 72, chapter 5, part 2.

20-5-320. (Effective July 1, 2024) Out-of-district attendance by parent or guardian request with no extenuating circumstances. (1) A child may be enrolled in and attend a school in a Montana school district that is outside of the child’s district of residence at the request of the child’s parent or guardian as described in this section. If the trustees of the district of attendance approve of the child’s attendance in a school of the district, the parent or guardian may be responsible for transportation.

(2) (a) Whenever a parent or guardian of a child wishes to have the child attend a school under the provisions of this section, the parent or guardian shall apply to the trustees of the district where the child wishes to attend.

(b) The application must be made on an out-of-district attendance agreement form supplied by the district and developed by the superintendent of public instruction.

The attendance agreement must set forth the financial obligations, if any, for costs incurred for transporting the child under Title 20, chapter 10. Unless otherwise agreed by the district of residence and the district of attendance, the family of a nonresident child whose application for attendance has been approved is responsible for transportation of the child and the child is not

an eligible transportee as defined in 20-10-101. The district of attendance may discretionarily provide transportation pursuant to 20-10-122.

(c) The trustees of the district of attendance may adopt policies for the application process, including but not limited to reasonable timelines for the submission of applications.

(d) The trustees of the district of attendance shall serve children who are residents of the district and nonresident children seeking enrollment under 20-5-321 prior to enrolling children under this section.

(e) In reviewing and determining whether to approve an application for attendance by a nonresident child, the trustees of the district of attendance shall approve the application unless the trustees find that the impact of approval of the application will negatively impact the quality of education for resident pupils by grade level, by school, or in the district in the aggregate in one or more of the following ways:

(i) the approval would result in exceeding limits of:

(A) building construction standards pursuant to Title 50, chapter 60;

(B) capacity and ingress and egress elements, either by individual room or by school building, of any fire code authorized by Title 50, chapter 3; or

(C) evacuation elements of the district's adopted school safety plan;

(ii) the approval would impede meeting goals, standards, or objectives of quality that the trustees have previously adopted in a plan for continuous educational improvement required under rules adopted by the board of public education; or

(iii) the approval would risk jeopardizing the educational quality within the district because the nonresident child who is applying was:

(A) truant as defined in 20-5-106 in the last school district attended;

(B) expelled by another school district at any time; or

(C) suspended in another school district in any of the 3 school fiscal years preceding the school fiscal year for which attendance is requested. This subsection (2)(e)(iii)(C) does not apply to a student who is eligible for special education or related services.

(f) The trustees of a district that receives more applications than the district can accommodate under subsections (2)(e)(i) and (2)(e)(ii) may adopt and implement policy providing priority among the applications on any rational basis that prioritizes the quality of education for students who are residents of the district of attendance and the obligations of resident taxpayers.

(3) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any transportation requirement. The tuition requirements under 20-5-323 and 20-5-324 apply to agreements under this subsection. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(4) As used in 20-5-320 through 20-5-324, the term "guardian" means the guardian of a minor as provided in Title 72, chapter 5, part 2.

(1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever:

(a) the child resides closer to the school that the child wishes to attend and more than 3 miles from the school the child would attend in the resident district and the resident district does not provide transportation;

(b) (i) the child resides in a location where, because of geographic conditions between the child's home and the school that the child would attend within the district of residence,

it is impractical to attend school in the district of residence, as determined by the county transportation committee based on the following criteria:

(A) the length of time that is in excess of the 1-hour limit for each bus trip for an elementary child as authorized under 20-10-121;

(B) whether distance traveled is greater than 40 miles one way from the child's home to school on a dirt road or greater than a total of 60 miles one way from the child's home to school in the district of residence over the shortest passable route; or

(C) whether the condition of the road or existence of a geographic barrier, such as a river or mountain pass, causes a hazard that prohibits safe travel between the home and school.

(ii) The decision of the county transportation committee is subject to appeal to the superintendent of public instruction, as provided in 20-3-107, but the decision must be considered as final for the purpose of the payment of tuition under 20-5-324(5)(a)(ii) until a decision is issued by the superintendent of public instruction. The superintendent of public instruction may review and rule upon a decision of the county transportation committee without an appeal being filed.

(c) (i) the child is a member of a family that is required to send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided that the child resides more than 3 miles from an elementary school in the resident district or that the parent is required to move to the elementary district where the high school is located to enroll another child in high school. A child enrolled in an elementary school pursuant to this subsection (1)(c)(i) may continue to attend the elementary school after the other child has left the high school.

(ii) the child is a member of a family that is required to send another child outside of the high school district to attend elementary school and the child of high school age may more conveniently attend a high school where the elementary school is located, provided that the child resides more than 3 miles from a high school in the resident district or that the parent is required to move to the high school district where the elementary school is located to enroll another child in elementary school. A child enrolled in a high school pursuant to this subsection (1)(c)(ii) may continue to attend the high school after the other child has left the elementary school.

(d) the child is under the protective care of a state agency or has been adjudicated to be a youth in need of intervention or a delinquent youth, as defined in 41-5-103; or

(e) the child is required to attend school outside of the district of residence as the result of a placement in foster care or a group home licensed by the state.

(2) (a) Whenever a parent or guardian of a child, an agency of the state, or a court wishes to have a child attend a school under the provisions of this section, the parent or guardian, agency, or court shall complete an out-of-district attendance agreement in consultation with an appropriate official of the district that the child will attend.

(b) The attendance agreement must set forth the financial obligations, if any, for costs incurred for tuition and transportation as provided in 20-5-323 and Title 20, chapter 10.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" includes:

(A) except as provided in subsection (2)(c)(ii)(B), a parent or guardian of a student who is a nonresident of the district of choice;

(B) a parent or guardian of a student who lives in a location where one unified school system as provided in 20-6-312 is the district of residence for grades K-8 and another unified school system as provided in 20-6-312 is the district of residence for grades 9-12;

(4) Unless the child is a child with a disability who resides in the district, the trustees of the district where the school to be attended is located may disapprove an out-of-district attendance agreement whenever they find that, because of insufficient room and overcrowding, the accreditation of the school would be adversely affected by the acceptance of the child.

20-5-321. (Effective July 1, 2024) Attendance with mandatory approval — tuition and transportation. (1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever any of the following extenuating circumstances exist:

The superintendent of public instruction may review and rule on a decision of the county transportation committee without an appeal being filed.

(c) (i) the child is a member of a family that is required to send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided that the child resides more than 3 miles from an elementary school in the resident district or that the parent is required to move to the elementary district where the high school is located to enroll another child in high school. 20-5-323. (Temporary) Tuition and transportation rates. (1) Except as provided in subsections (2) through (5), whenever a child has approval to attend a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the rate of tuition charged for a Montana resident student may not exceed 20% of the tuition per-ANB amount for the year of attendance.

(2) Except for the tuition paid by the district of residence under 20-5-324(2)(b), the tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils. The rules must provide:

(a) that tuition amounts must be reduced by the funding generated by the district of attendance due to the child's attendance; and

(b) an option for tuition set at the actual unique costs of providing a free appropriate public education.

(3) The state-paid tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) in addition to the tuition paid by the district of residence under 20-5-324(2)(b) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district, person, or entity responsible for the tuition payments shall approve an agreement for the tuition cost;

(b) for a Montana resident student, 120% of the tuition per-ANB amount, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this section may not exceed \$2,500 per student.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;

(c) an order issued under Title 40, chapter 4, part 2; or

(d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(6) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost for each student in the child's district of residence or 35 cents a mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year.

(7) As used in this section, "tuition per-ANB amount" means the applicable per-ANB maximum rate established in 20-9-306, plus the sum of:

- (a) the data for achievement payment rate under 20-9-306;
- (b) the Indian education for all payment rate under 20-9-306; and
- (c) the per-ANB amounts of the instructional block grant and related services block grant under 20-9-321.

20-5-323. (Effective July 1, 2024) Tuition and transportation — rates. (1) Except as provided in subsections (2) through (5), whenever a child enrolls in and attends a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the district of residence shall pay the district of attendance a percentage equal to the lesser of the percentage of either school district's adopted general fund budget funded by BASE and over-BASE property tax levies in the year of attendance not to exceed 35.3% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(2) Except for the tuition paid by the district of residence under 20-5-324(2)(b), the tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils. The rules must provide:

- (a) that tuition amounts must be reduced by the funding generated by the district of attendance due to the child's attendance; and
- (b) an option for tuition set at the actual unique costs of providing a free appropriate public education.

(3) The state-paid tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) in addition to the tuition paid by the district of residence under 20-5-324(2)(b) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

- (a) the district of attendance and the district or entity responsible for the tuition payments shall approve an agreement for the tuition cost;
- (b) for a Montana resident student, 120% of the tuition per-ANB amount, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and
- (c) the maximum tuition rate paid to a district under this subsection (3) may not exceed \$2,500 per student.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

- (a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;
- (b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;
- (c) an order issued under Title 40, chapter 4, part 2; or
- (d) out-of-state placement by a state agency.

(5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.

(c) Any tuition receipts received for the current school fiscal year for a pupil who is a child with a disability that exceed the tuition amount received for a pupil without disabilities may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(d) Any other tuition receipts received for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

(7) The reimbursements paid under subsection (2)(a)(iii) must be deposited into the district tuition fund and must be used by the district to pay obligations for resident students attending public schools out of state or for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools at district expense.

(ii) determine the total per-ANB entitlement for which the district of residence would have been eligible if the students reported in subsections (1)(d) and (1)(e) of this section had been enrolled in the resident district in the prior year; and

(ii) By December 31 of the school fiscal year following the year of attendance, the district of residence shall pay at least one-half of any tuition and transportation obligation established under subsection (4)(a)(i). (5) (a) Except as provided in subsection (5)(b), the district of attendance shall anticipate and credit tuition receipts to the district general fund, to reduce the general fund net levy requirement first to the BASE budget and any remaining to the over-BASE budget pursuant to 20-9-141, and transportation receipts to the transportation fund. In order to provide local property tax reduction for the tuition amount received under 20-5-323(1), the amount of the reduction in the BASE budget mills levied as a result of anticipated tuition payments must be calculated as a final step in computing the district's general fund net BASE levy requirement pursuant to the procedure set forth in 20-9-141(2) and the district's guaranteed tax base aid must be calculated prior to the reduction in BASE mills.

(b) Any tuition receipts received for a pupil who is a child with a disability under 20-5-323(2) or for a student without disabilities who requires a program with costs that exceed the average district costs under 20-5-323(3) that exceed the tuition amount received for a pupil without disabilities must be deposited in the district miscellaneous programs fund and must be used in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

20-5-405. Exemptions — limitations on agency actions. (1) (a) There is a religious exemption to the immunizations required under 20-5-403. A person enrolled or seeking to enroll in school may attend the school without obtaining the immunizations required under 20-5-403 if the person files with the governing authority an affidavit on a form prescribed by the department stating that immunization is contrary to the religious tenets and practices of the signer.

(b) The statement must be signed:

A form prescribed by the department that contains requirements not expressly described in this section is void to the extent that it purports to impose requirements not included in this section.

(b) A governing authority may not deny an exemption on the basis that a person has not completed portions of the exemption form that are void under this subsection (3).

(c) The department is not authorized to review a completed medical exemption statement or medical exemption form for the purpose of granting or denying a medical exemption.

Part 5

Enrollment of Pupil by Caretaker Relative

20-5-501. Purpose — legislative intent — parental rights — definitions. (1) The legislature recognizes that the rights of parents to the custody and control of a child are based upon liberties secured by the United States and Montana constitutions and that a parent’s rights to that custody and control of a child are therefore normally supreme to the interests of other persons. The legislature also recognizes a growing phenomenon in which absent or otherwise unavailable parents have temporarily surrendered the custody and care of their children to a grandparent or other relative for lengthy periods of time. Regardless of the purpose of the absence, a child willfully surrendered to a relative for an extended time period still has the same needs as a child in the care of its parents. In this situation, a caretaker relative assumes responsibilities for the child but has no legal right of control over the child, a situation that interferes in the caretaker relative’s ability to perform routine functions of child rearing, including tending to the educational and educationally related medical needs of the child. It is therefore the purpose of the legislature in these instances to protect the rights of a child granted by Article II, section 15, of the Montana constitution by granting a caretaker relative limited authority for a child left in the relative’s care.

(2) It is the intent of the legislature that a caretaker relative given the responsibility of caring for a child with little or no warning and without any other provision having been made for the child’s care, such as the appointment of a guardian or the provision of a power of attorney, be granted authority to enroll the child in school, discuss with the school district the child’s educational progress, and consent to an educational service and to medical care for the child related to an educational service without superseding any parental rights regarding the child.

(3) This part is not intended to affect the rights and responsibilities of a parent, legal guardian, or other custodian regarding the child, does not grant legal custody of the child to the caretaker relative, and does not grant authority to the caretaker relative to consent to the marriage or adoption of the child or to receive notice of a medical procedure, including abortion, not consented to by the relative, if notice is required by law, for the child except as expressly provided in this section.

(4) For the purposes of this part, the following definitions apply:

(a) “Caretaker relative” or “relative” means an individual related by blood, marriage, or adoption by another individual to the child whose care is undertaken by the relative, but who is not a parent, foster parent, stepparent, or legal guardian of the child.

(b) “Caretaker relative educational authorization affidavit” or “affidavit” means an affidavit completed in compliance with 20-5-503.

(c) “Health care provider” means a person who provides medical care.

(d) “Medical care” means care by a health care provider, for which parental consent is normally required, for the prevention, diagnosis, or treatment of a mental, physical, or dental injury or disease.

(e) “Parent” means a biological parent, adoptive parent, or other legal guardian of the child whose parental rights have not been terminated.

History: En. Sec. 1, Ch. 442, L. 2007.

20-5-502. Enrollment by caretaker relative — residency — affidavit. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may, in accordance with this section, enroll the child in school using the rules of residence provided in 1-1-215 if:

(a) in leaving the child with the caretaker relative, the parent expressed no definite time period in which the parent would return for the child;

(b) the child is residing with the caretaker relative on a full-time basis;

(c) the caretaker relative is unable to contact either of the parents after the parents voluntarily leave the child with the caretaker relative or a parent whom the caretaker relative is able to contact is unable or unwilling to regain custody of the child;

(d) no adequate provision, such as the appointment of a guardian ad litem or execution of a power of attorney, has otherwise been made for the educational needs of the child; and

(e) a caretaker relative educational authorization affidavit is completed in compliance with 20-5-503.

(2) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may enroll the child in school unless the child's residency with the caretaker relative is primarily for the purpose of:

(a) attending a particular school; or

(b) participating in athletics at a particular school.

(3) If the child was subject to formal disciplinary action, including suspension or expulsion, at the child's previous school, the school district in which the caretaker relative seeks to enroll the child may either implement the previous school district's disciplinary action without further due process or hold a hearing and determine whether the student's conduct in the previous school district merits denial of enrollment. If the district decides to enroll the child, then the school district may require the child to comply with a behavior contract as a condition of enrollment.

(4) The school district may require additional reasonable evidence that the caretaker relative lives at the address provided in the affidavit.

History: En. Sec. 2, Ch. 442, L. 2007; amd. Sec. 3, Ch. 211, L. 2011.

20-5-503. Caretaker relative educational authorization affidavit — use — immunity — format. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child has the same authority as a custodial parent of the child to discuss with an educator the educational progress of the child, consent to an educational service, and consent to medical care related to an educational service for the child for which parental consent is usually required if a caretaker relative educational authorization affidavit is completed in compliance with this section.

(2) An affidavit is effective only if it is signed by the caretaker relative, under oath, before a notary public. A clear photographic copy of an affidavit completed in compliance with this section is sufficient in any instance in which an original is required by a school official or health care provider.

(3) Unless parental rights have been judicially terminated or unless the ability to give legal consent for the child to receive an educational service and any medical care related to the educational service for which parental consent is usually required has been granted to the caretaker relative pursuant to 40-4-211 and 40-4-228, a decision by a parent of the child communicated to a school official, a health care provider, or both, regarding the child supersedes a conflicting decision by a caretaker relative made pursuant to an affidavit completed in compliance with this section. However, a decision by a parent does not supersede a decision by a caretaker relative pursuant to an affidavit completed in compliance with this section if the decision by the parent endangers the life of the child. A school official or health care provider may require reasonable proof of authenticity of a decision by a parent intended to supersede a decision by a caretaker relative.

(4) (a) A public or private entity or individual who acts in good faith reliance on a caretaker relative educational authorization affidavit completed in compliance with this section and who has no actual knowledge of facts contrary to those indicated in the affidavit is not subject to civil liability or criminal prosecution or to a professional disciplinary procedure for an action that would have been proper if the facts had been as the entity or individual believed them to be.

(b) This subsection (4) applies even if an educational service or educationally related medical care, or both, are provided to a child against the wishes of a parent of that child if the person rendering the service does not have actual knowledge of the parent's wishes.

(5) A person who relies on an affidavit completed in compliance with this section has no obligation to make further inquiry or investigation.

(6) An affidavit completed in compliance with this section is effective for the earlier of:

(a) the end of the first school year after delivery of the affidavit to a school district;

(b) until it has been revoked by the caretaker relative; or

(c) until the child no longer resides with the caretaker relative.

(7) If the child ceases to live with the caretaker relative or the caretaker relative revokes the affidavit, the caretaker relative shall provide written notice of that fact to all persons to whom the caretaker relative has given the affidavit or to whom the caretaker relative has caused the affidavit to be given.

(8) This section does not relieve a person from a violation of other law, and this section does not affect the rights of a child's parent except as provided in this section.

(9) A caretaker relative educational authorization affidavit is invalid unless it is written in substantially the following form and contains the warning provided for in paragraph 5 of the format below:

Part 1 School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term “district” means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as “District No....., County” and a high school district, except a high school district where a county high school is operated, is known as “High School District No....., County”. A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) As used in this title, unless the context clearly indicates otherwise, a county high school is a high school district that has not unified with an elementary district under 20-6-312.

20-6-102. Confirmation of existing district boundaries. 20-6-103. Permanent record of district boundaries. (1) The board of county commissioners shall maintain a permanent record that plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in the superintendent's office and is responsible for keeping the record current.

(2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, the superintendent shall change, harmonize, and describe the boundaries accurately and shall make a report of the boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, the boundaries are the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

20-6-104. Moratorium on creation of new district — exceptions. (1) Except as provided in subsections (2) and (3), a school district may not initiate the creation of a new elementary district or a new high school district.

(2) Pursuant to the provisions of 20-6-326, the trustees or the electors of an existing elementary district may initiate the creation of a new high school district solely for the purpose of expanding into a K-12 district.

(3) The moratorium in subsection (1) does not apply to a district that results from the procedure for the dissolution of a K-12 school district pursuant to 20-6-704.

20-6-105. Transfer of territory from one district to another — hearing on effects of proposed transfer — burden of proof — standard of proof — appeal to district court. (1) (a) Except as provided in 20-6-214, 20-6-215, 20-6-308, 20-6-322, and subsections (1)(b) and (1)(c) of this section, a petition to transfer territory from one school district to another may be presented to the county superintendent if:

(i) the petition is signed by 60% of the registered electors qualified to vote at general elections in the territory proposed for transfer;

(ii) the territory to be transferred is contiguous to the district to which it is to be attached, includes taxable property, and has school-age children living in it;

(iii) the territory to be transferred is not located within 3 miles, over the shortest practicable route, of an operating school in the district from which it is to be transferred; and

(iv) the board of trustees of the school district that would receive the territory has approved the proposed transfer by a resolution adopted by a majority of the members of the board of trustees at a meeting for which proper notice was given.

(b) A petition to transfer territory to or from a K-12 district may not be presented to a county superintendent unless both school boards and the county superintendents have agreed in writing.

(c) Registered voters within the exterior boundaries of school districts that consolidated during the years 2004 to 2008 may petition for changes in their boundaries under the law in effect on July 1, 2005.

(2) Once a petition to transfer territory has been filed, an additional petition to transfer that territory may not be filed for 4 years unless the county superintendents have agreed in writing.

(3) The petition for a transfer of territory must be delivered to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the district to which the territory is to be transferred;

(b) state the reasons why the transfer is requested; and

(c) state the number of school-age children residing in the territory.

(4) If both the trustees of the receiving and transferring school districts have approved the proposed territory transfer in writing, the county superintendent shall grant the transfer.

(5) For any petition that meets the criteria specified in subsection (1) and contains the information required by subsection (3) but that has not been approved in writing by the board of trustees of the school district that would transfer the territory, the county superintendent shall:

(a) not more than 40 days after receipt of the petition, set a place, date, and time for a hearing to consider the petition; and

(b) give notice of the place, date, and time of the hearing. The notice must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for notices for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(6) The county superintendent shall conduct a hearing as scheduled, and any resident, taxpayer, or representative of the receiving or transferring district must, upon request, be heard. At the hearing, the petitioners have the initial burden of presenting evidence on the proposed transfer's effect on:

(a) the educational opportunity for the students in the receiving and transferring districts, including but not limited to:

(i) class size;

(ii) ability to maintain demographic diversity;

(iii) local control;

(iv) parental involvement; and

(v) the capability of the receiving district to provide educational services;

(b) student transportation, including but not limited to:

(i) safety;

(ii) cost; and

(iii) travel time of students;

(c) the economic viability of the proposed new districts, including but not limited to:

(i) the existence of a significant burden on the taxpayers of the district from which the territory will be transferred;

(ii) the significance of any loss in state funding for the students in both the receiving and transferring districts;

(iii) the viability of the future bonding capacity of the receiving and transferring districts, including but not limited to the ability of the receiving district and the transferring district to meet minimum bonding requirements;

(iv) the ability of the receiving district and the transferring district to maintain sufficient reserves; and

(v) the cumulative effect of other transfers of territory out of the district in the previous 8 years on the taxable value of the district from which the territory is to be transferred. In cases where the cumulative effect of other transfers of territory out of the district in the previous 8 years is equal to or greater than 25% of the district's taxable value, the following additional factors must be considered and weighed in the decision:

(A) the district's rate of passage of discretionary levies placed before the voters over the previous 8 years;

(B) the district's reduction or elimination of instructional staff or programs over the previous 8 years; and

(C) any increase in district taxes over the previous 8 years and the likely increase in district taxes if the transfer is granted.

(7) After receiving evidence from both the proponents and opponents of the proposed territory transfer on the effects described in subsection (6), the county superintendent shall, within 30 days after the hearing, issue findings of fact, conclusions of law, and an order.

(8) If, based on a preponderance of the evidence, the county superintendent determines that the evidence on the effects described in subsection (6) supports a conclusion that a transfer of the territory is in the best and collective interest of students in the receiving and transferring districts and does not negatively impact the ability of the districts to serve those students, the county superintendent shall grant the transfer. If the county superintendent determines that, based on a preponderance of the evidence presented at the hearing, a transfer of the territory is not in the best and collective interest of students in the receiving and transferring districts and will negatively impact the ability of the districts to serve those students, the county superintendent shall deny the territory transfer.

(9) The decision of the county superintendent is final 30 days after the date of the decision unless it is appealed to the district court by a resident, taxpayer, or representative of either district affected by the petitioned territory transfer. The county superintendent's decision must be upheld unless the court finds that the county superintendent's decision constituted an abuse of discretion under this section.

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. If the number of county superintendents involved is an even number, the county superintendents shall jointly appoint an additional county superintendent from an unaffected county to join them in conducting the hearing required in subsection (6) and in issuing the decision required in subsection (8). The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

20-6-110. Student construction project — disclosure — immunity. (1) The entity that transfers title to a construction project constructed as part of a public education program shall disclose the fact that the construction project was constructed as part of a public education program on at least one document, form, or application executed prior to or contemporaneously with an offer for the purchase, sale, rental, or lease of the construction project. The disclosure provided for in this subsection must be in the following form or in a substantially similar form: "Student Construction Project: This property was constructed as part of a public education program and was in whole or in part constructed by students. The school district or public postsecondary institution responsible for the education program is not liable for civil damages resulting from construction projects constructed as part of a public education program except in cases of gross negligence or willful misconduct."

(2) Except in cases of gross negligence or willful misconduct, a school district or public postsecondary institution is not liable for civil damages resulting from a construction project constructed as part of a public education program if the disclosure required in subsection (1) is made.

(3) As used in this section, "public education program" means a program operated by a public school or a public postsecondary institution.

Part 2

Elementary School Districts

20-6-201. Elementary district classification. (1) Each elementary district shall have a classification of:

- (a) first class, if it has a population of 6,500 or more;
- (b) second class, if it has a population of 1,000 or more but less than 6,500; or
- (c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district must be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare the district's classification to be changed in accordance with the determined population, except that the classification of an elementary district may not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions must be filled in the manner provided for in 20-3-302.

(1) The county superintendent shall declare an elementary district to be abandoned and order the attachment of the territory of the district to a contiguous district or districts of the county or, with the consent of the county superintendent of an adjacent county, to a contiguous district or districts in the adjacent county when:

- (a) a school has not been operated by a district for at least the minimum aggregate hours under the provisions of 20-1-301 for each of 3 consecutive school fiscal years or a lesser number of aggregate hours as approved by the board of trustees under the provisions of 20-9-806; or

(b) there is an insufficient number of residents who are qualified electors of the district that can serve as the trustees and clerk of the district so that a legal board of trustees can be organized.

(2) The county superintendent shall notify the elementary district that has not operated a school for 2 consecutive years before the first day of the third year that the failure to operate a school for the minimum aggregate hours or a lesser number of aggregate hours than approved by the board of trustees under the provisions of 20-9-806 during the ensuing school fiscal year constitutes grounds for abandonment of the district at the conclusion of the succeeding school fiscal year. Failure by the county superintendent to provide the notification does not constitute a waiver of the abandonment requirement prescribed in subsection (1)(a).

(3) Any abandonment under subsection (1)(a) becomes effective on July 1. Any abandonment of an elementary district under subsection (1)(b) becomes effective immediately on the date of the abandonment order.

Part 3 High School Districts

20-6-301. High school district classification. The classification of a high school district must be the same as the classification of the elementary district (20-6-201) where the high school building is located. If there is more than one elementary district in which operating high school buildings are located, the classification of the high school district must be the same as the classification of the elementary district described in 20-6-201 in which the operating high school building that was first constructed is located. Whenever the classification of such elementary district is changed, the classification of a high school district must be changed accordingly and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in 20-3-354 for the determination of the number of additional trustee positions required for a high school district. An increased number of trustee positions must be filled by the appointment of the county superintendent, and those positions are subject to election at the next regular trustee election. When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances may not be filled until the number of trustee positions has been reduced to the number required by law.

20-6-312. County high school unification. (1) Any county high school may be unified with the elementary district where the county high school building is located to establish a unified school system under a unified board of trustees. The territory of an existing joint high school district must remain a part of the joint high school district.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located must be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the high school district where the county high school is located who are qualified to vote under the provisions of 20-20-301 petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition must be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition must be substantially in the following form:

**“OFFICIAL BALLOT
COUNTY HIGH SCHOOL UNIFICATION ELECTION**

Shall.... County High School be unified with District No....., County to establish a unified school system under a unified board of trustees?

- ☐ FOR the unification of the county high school.
- ☐ AGAINST the unification of the county high school.”

(4) When the county superintendent receives the election certificate from the trustees of the county high school, the county superintendent shall issue an order declaring the unification of the county high school with the elementary district identified on the ballot as of the next July 1, if a majority of those electors voting at the election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, the county superintendent shall order the disapproval of the unification proposition.

20-6-313. Transactions after approved county high school unification.

(1) Whenever a county high school is unified with the elementary district where the county high school building is located, the following transactions must be completed on or before the July 1 when the unification becomes effective:

(a) The county high school trustees, who do not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(b) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes the areas, the county superintendent shall appoint additional high school district trustees from each area, who shall hold office until a successor is elected at the next regular school election and qualified.

(c) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district is responsible for the maintenance of the debt service fund for the bonds. It is the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

20-6-326. Procedure for expansion of elementary school district into K-12 school district — trustee resolution. (1) An existing elementary district that is not part of a unified school system or governed by a joint board with a high school district may expand into a K-12 district under the procedures outlined in this section only if the elementary district's ANB, as calculated under the provisions of 20-9-311, is at least 1,000.

(2) The expansion to a K-12 district may be requested by the trustees of an existing elementary district through passage of a resolution that includes the information outlined in 20-6-105(3) and requests the county superintendent to order an election to allow the electors of the elementary district to consider the proposition of expanding the elementary school district into a K-12 district. The trustees of an existing elementary district with an ANB of at least 1,000 may not pass a resolution for expansion more than one time within a 5-year period.

(3) (a) If the proposition for the expansion is approved by the electors of the elementary district and the trustees issue a certificate of election as provided in 20-20-416, for a period of 2 years from the date of the certification of the election the elementary trustees have the authority to propose to the electors of the elementary district:

(i) a transition costs levy pursuant to 20-9-502; and

(ii) a general obligation bond pursuant to Title 20, chapter 9, part 4, for the purpose of building, altering, repairing, buying, furnishing, equipping, purchasing lands for, or obtaining a water supply for a school to accommodate high school students.

(b) The bond limitations pursuant to 20-9-406 imposed on a district proposing a bond under subsection (3)(a) must be calculated on the limits for a K-12 district with the high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(c) A bond approved under subsection (3)(a) becomes a bond of, and may not be issued until the creation of, the K-12 district formed pursuant to subsection (4).

(d) A district that issues a bond under this subsection (3) is eligible for facility reimbursements and advances pursuant to 20-9-366 through 20-9-371 that, until the new high school has enrolled students in all grades and has established an actual ANB for budgeting purposes, must be based on an estimated high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(e) Until the county superintendent orders the creation of a new high school district and attachment of the expanding elementary district to form a new K-12 district pursuant to subsection (4), the existing high school district remains intact for all purposes.

(4) If elementary electors approve a bond pursuant to subsection (3), on July 1 following the approval of the bond the county superintendent shall order the creation of a new high school district with identical boundaries to the expanding elementary district and the immediate attachment of the expanding elementary district to form a K-12 district. The county superintendent shall send a copy of the order to the board of county commissioners and to the trustees of the districts affected by the creation of the district. The trustees of the expanding elementary district must be designated as the trustees of the new K-12 district.

(5) Prior to the first school fiscal year in which the K-12 district will enroll students in a particular high school grade, the K-12 trustees shall prepare operating budgets for the new high school according to the school budgeting provisions of this title, except that:

(a) the ANB for any inaugural grades for the high school program of the K-12 district must be estimated by the trustees and may not exceed the number resulting from dividing the highest budgeted ANB of the elementary program in the preceding 3 fiscal years by 9 and multiplying the result by the number of grades in which the high school will enroll students for the first time in the ensuing school year;

(b) the number of quality educators for the high school program must be estimated by the trustees and may not exceed the number resulting from dividing the ANB estimated under subsection (5)(a) by 10;

(c) the taxable value for budgeting purposes of both the elementary and high school programs of the K-12 district must be based on the taxable value as most recently determined by the department of revenue;

(d) the general fund budget adopted by the trustees must be based on only the basic entitlement, the quality educator payment, and the budget components derived from ANB counts; and

(e) the district's BASE aid for the upcoming year must be based on the general fund budget adopted by the trustees for the upcoming school year.

(6) Until the first school year in which the K-12 school district enrolls high school students in all grades and for a period of time not to exceed 6 years following the creation of the K-12 district:

(a) the high school district shall provide high school instruction to high school students of the K-12 district in any grades in which the K-12 district is not enrolling students;

(b) the K-12 district shall be responsible for providing transportation for its students enrolled in the high school district pursuant to subsection (6)(a), may establish a transportation budget for this purpose, and may receive state and county reimbursements under Title 20, chapter 10; and

(c) the K-12 district shall pay the high school district 20% of the per-ANB maximum rate established in 20-9-306 for each of its students enrolled in the high school district with one-half of the amount due by December 31 of the year following the year of attendance and the remainder due no later than June 15 of the year following the year of attendance. The K-12 trustees shall establish a tuition fund and levy to fund these payments.

(7) (a) Bonded indebtedness of the high school district that is outstanding as of the date of creation of the K-12 district must remain secured by and be the indebtedness of the original territory against which the bonds of the high school district were issued and must be paid by tax levies against the original territory.

(b) Bonded indebtedness of the high school district that is issued by the high school district following the creation of the K-12 district is secured by the territory of the high school district as of the date of issuance of the high school district bonds and must be paid by tax levies against the territory of the high school district. However, if bonds of the high school district were approved at a bond election conducted before the creation of the K-12 district, all bonds of the high school district issued by the high school district under the bond election authority must remain secured by and be the indebtedness of the territory of the high school district as of the date the bond authority was approved by voters and must be paid by tax levies against that territory.

(c) Bonded indebtedness of the K-12 district is secured by the territory of the K-12 district as of the date of issuance of the K-12 district bonds and must be paid by tax levies against the territory of the K-12 district.

(d) Bonded indebtedness of the elementary district that is outstanding as of the date of creation of the K-12 district must become upon the date of creation of the K-12 district the bonded indebtedness of the K-12 district and must be secured by the territory of the K-12 district and paid by tax levies against the territory of the K-12 district. The debt service on the bonds must be allocated to the elementary program of the K-12 district.

(e) Bonded indebtedness of the high school district or the K-12 district that is subsequently affected by a later reorganization of the high school district or the K-12 district is governed by the provisions of Title 20, chapter 6, part 4.

(8) When a K-8 district expands to a K-12 district as provided for in this section, a principal, teacher, or other certified employee of the original high school district who has a right of tenure under Montana law must be given preference in hiring for a vacant position in the new K-12 district for which the employee is qualified with the required certification endorsements.

(1) Whenever two or more school districts consolidate or join through annexation to organize into a single district in the manner provided for in Title 20, chapter 6, a principal, teacher, or other certified employee of the school districts who has a right of tenure under Montana law must be given absolute preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee is qualified with the required certification endorsements. (2) A noncertified, nonprobationary employee of a school district that consolidates or joins another district through annexation must be given preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee has substantially equal qualifications and, upon acceptance of a position, may not be given probationary status.

20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries remains the indebtedness of the original territory against which the bonds were issued and must be paid by levies on the original territory, except when districts are consolidated with the mutual assumption of bonded indebtedness or when a district is annexed with a joint assumption of the annexing district's bonded indebtedness. Whenever a district ceases to exist in any manner prescribed in this title, except when districts are consolidated, the cash on hand to the credit of the funds of the district and the debts of the former district must be allocated in the following manner:

(1) Any cash to the credit of the district must be used to pay any debts of the district, including bonded indebtedness, except that any cash available in the debt service fund must be used first to pay bond interest and all outstanding bonds.

(2) If any cash remains to the credit of the district after paying its debts, the cash must be transferred by the county treasurer to the credit of the district or districts assuming its territory. When the territory is assumed by more than one district, the remaining cash must be prorated between the districts on the basis of the taxable value of the territory assumed by each district as determined by the county superintendent.

(3) If any tuition debt remains as an obligation of the district, the tuition debt is the obligation of the taxable property of the discontinued district, except when the tuition debt has been assumed by the consolidated or annexing district. The tuition debt must be financed by a mill levy on the property of the discontinued district and paid from these proceeds by the county superintendent.

(a) a third-class district is annexed to a first-class district or to a second-class district; or

(b) a second-class district is annexed to a first-class district.

History: En. Sec. 1, Ch. 510, L. 2005.

20-6-422. District annexation. (1) As used in this section, the following definitions apply:

(a) “Annexing district” means the district to which another district is being attached through an annexation procedure.

(b) “District to be annexed” means the district that is being attached to another district through an annexation procedure.

(2) A district may be annexed to a contiguous district when one of the conditions of 20-6-421 is met in accordance with the following procedure:

(a) An annexation proposition may be introduced in the district to be annexed by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider an annexation proposition for their district; or

(ii) not less than 20% of the electors of the district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider an annexation proposition for their district.

(b) The resolution or petition must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district.

(3) Before ordering an election on the proposition, the county superintendent of the county where the district to be annexed is located must first receive from the trustees of the annexing district a resolution giving the county superintendent the authority to annex the district. The resolution must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district. The resolution from the annexing district and the resolution or petition from the district to be annexed must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the annexation proposition may not be considered further.

(4) When the county superintendent of the county where the district to be annexed is located has received the resolution authorizing the annexation from the annexing district and the resolution or valid petition from the district to be annexed, the county superintendent shall, within 10 days and as provided by 20-20-201, order the trustees of the district to be annexed to call an annexation election.

(5) The district to be annexed shall call and conduct an election in the manner prescribed in this title for school elections and subject to subsections (6) and (7). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(6) (a) If the district to be annexed is to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, “FOR annexation with assumption of bonded indebtedness” and “AGAINST annexation with assumption of bonded indebtedness”.

(b) When the trustees in the district conducting the election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes “FOR” and “AGAINST” the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(7) If the district to be annexed is not to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation without assumption of bonded indebtedness" and "AGAINST annexation without assumption of bonded indebtedness". The annexation proposition is approved by a district if a majority of those voting in a district approve the proposition.

(8) After the county superintendent of the county where the district to be annexed is located has received the election certification provided for in 20-20-416 from the trustees of the district conducting the annexation election and if the annexation proposition has been approved by the election, the county superintendent shall order the annexation of the territory of the district voting on the proposition to the district that has authorized the annexation to its territory effective July 1. The order must be issued within 10 days after the receipt of the election certificate. For annexation with joint assumption of bonded indebtedness, the order must specify that there will be joint assumption of the bonded indebtedness of the annexing district by the owners of all taxable real and personal property in the territory of the district to be annexed. The county superintendent of the county where the district to be annexed is located shall send a copy of the order to the board of county commissioners of each county involved in the annexation order and to the trustees of the districts involved in the annexation order.

(9) If the annexation proposition is disapproved in the district to be annexed, the annexation proposition fails and the county superintendent of the county where the district to be annexed is located shall notify each district of the disapproval of the annexation proposition.

History: En. Sec. 2, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005; amd. Sec. 4, Ch. 60, L. 2009.

20-6-423. District consolidation. (1) Any two or more contiguous elementary school districts may consolidate to organize an elementary district. Any two or more contiguous high school districts may be consolidated to organize a high school district. Any two or more contiguous K-12 school districts may be consolidated to organize a K-12 school district. The consolidation must be conducted as provided in this section.

(2) (a) A consolidation proposition may be introduced, individually, in each of the districts by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider a consolidation proposition involving their district; or

(ii) not less than 20% of the electors of an individual district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider a consolidation proposition involving their district.

(b) The resolution or petition must state whether the consolidation is to be made with or without the joint assumption of the bonded indebtedness of each district by all districts included in the consolidation. The resolution or petition from each district must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the consolidation proposition may not be considered further.

(3) When a county superintendent has received a resolution or a valid petition from each of the districts included in the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each district included in the consolidation proposition to call a consolidation election to be held no later than December 31 preceding the school year in which the consolidation is to become effective. If the districts involved in the consolidation proposition are located in more than one county, the county superintendents in both counties shall jointly order the district to call a consolidation election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections and subject to additional requirements of subsections (5) and (6). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(5) (a) If the districts to be consolidated are to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation

proposition, “FOR consolidation with assumption of bonded indebtedness” and “AGAINST consolidation with assumption of bonded indebtedness”.

(b) When the trustees in each district conducting an election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes “FOR” and “AGAINST” the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(6) If the districts to be consolidated are not to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation proposition, “FOR consolidation without assumption of bonded indebtedness” and “AGAINST consolidation without assumption of bonded indebtedness”. The consolidation proposition is approved by a district if a majority of those voting in a district approve the proposition. Otherwise it is disapproved.

(7) (a) After the county superintendent of each county where a district involved in the consolidation proposition is located has received the election certification provided for in 20-20-416 from the trustees of each district included in a consolidation proposition, the appropriate county superintendent shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, each county superintendent shall, within 10 days after the receipt of the last election certificate, order the consolidation of the districts effective July 1 of the ensuing school fiscal year. The order must:

(i) for consolidation with the joint assumption of bonded indebtedness, specify that there will be joint assumption of bonded indebtedness between the owners of all taxable real and personal property in each district forming the consolidated district;

(ii) specify the number of the consolidated district; and

(iii) establish an interim board of trustees for the consolidated district as provided in 20-6-424. The trustees shall serve until their successors are elected at the next succeeding regular school election and qualified.

(b) Each county superintendent shall send a copy of the order to the board of county commissioners of each county where a district involved in the consolidation proposition is located and to the trustees of each district incorporated in the consolidation order.

(8) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts fails and the appropriate county superintendent shall notify each district of the disapproval of the consolidation proposition.

History: En. Sec. 3, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005.

20-6-424. Interim governance of consolidated district. (1) Upon passage of a consolidation proposition under the provisions of 20-6-423, an interim board of trustees made up of all of the members of the boards of trustees of the districts that consolidated shall serve as the trustees for the consolidated district from the date of the consolidation order until the newly elected board of the consolidated district is organized under 20-3-321. The interim board of trustees shall elect a presiding officer from among its members.

(2) The trustees of each district incorporated in the consolidation order shall continue to perform those duties related to the operation of their individual districts until the effective date of the consolidation. The interim board of trustees shall perform those duties related to the formation of and transition to the consolidated district, including but not limited to:

(a) calling an election of the new board of trustees for the consolidated district to be held on the regular election day preceding the effective date of the consolidation; and

(b) if necessary, calling an election under 20-9-353 for the ensuing budget year of the consolidated district.

(3) At the next regular school election following the consolidation election, trustees for the consolidated district must be elected in accordance with the election provisions of Title 13 and Title 20. The term of office is 3 years, except that the initial terms of the newly elected trustees must be selected by lot in order to comply with the provisions of 20-3-302.

(4) The interim board of trustees must be dissolved upon the organization of the newly elected trustees pursuant to 20-3-321.

20-6-501. Definition of various schools. As used in this title, unless the context clearly indicates otherwise, the term “school” means an institution for the teaching of children that is established and maintained under the laws of the state of Montana at public expense. The trustees of a district shall designate the grade assignments for the schools of the district, but for the purposes of this title each school is known as:

(1) an elementary school when it comprises the work of any combination of kindergarten, other preschool programs, or the first eight grades or their equivalents. A middle school is a school comprising the work of grades 4 through 8 or any combination of grades 4 through 8 that has been accredited as a middle school under the provisions of 20-7-102. When an accredited junior high school is operated by the district, grades 7 and 8 or their equivalents may not be considered as elementary grades.

(2) a high school when it comprises the work of one or more grades of schoolwork or their equivalents intermediate between the elementary schools and the institutions of higher education of the state of Montana. Types of high schools are designated as follows:

(a) a junior high school is a school comprising the work of grades 7 through 9 or their equivalents that has been accredited as a junior high school under the provisions of 20-7-102;

(b) a senior high school is a school that comprises the work of grades 10 through 12 or their equivalents and that is operated in conjunction with a junior high school;

(c) a 4-year high school is a school comprising the work of grades 9 through 12 or their equivalents.

20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when the opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least two pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school. The petition must identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend the school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of the school would be two or more. If the trustees plan to open or reopen the school during the current school fiscal year, the trustees shall include the proposed opening date in the approval resolution and shall request that the process outlined in this section be expedited.

(3) The county superintendent shall present the petition, the trustees' approval, and the county superintendent's findings on the probable ANB to the board of county commissioners for their consideration. The board shall deny the opening or reopening of any school if the county superintendent's enrollment estimate for the school is less than two ANB. In all other cases, the board may approve or disapprove the requested opening or reopening of the elementary school.

(4) (a) If the board approves a school opening or reopening, the county superintendent shall send a copy of the approval, along with the petition, the trustees' approval, and the county superintendent's estimate of the probable ANB, to the superintendent of public instruction. Except under the circumstances described in subsection (4)(b), the trustees shall apply to the superintendent of public instruction for approval to open or reopen the school by June 1 prior to the beginning of the school year in which they intend to open or reopen the elementary school. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school by the fourth Monday of June. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for the school and the ANB amount must be used for budgeting and BASE funding program purposes during the ensuing school fiscal year. An ANB amount

may not be approved for the ensuing school fiscal year for an opening or reopening school when the request for the school has not been received by the superintendent of public instruction by June 1.

(b) (i) If the opening or reopening is approved and the trustees want to open or reopen the school during the current school fiscal year, the trustees shall submit a budget request to the superintendent of public instruction for that portion of the fiscal year in which the school will be in operation prior to the ensuing school fiscal year. The superintendent of public instruction shall approve or adjust the budget request and shall fund the budget for the portion of the school year in which the school will be in operation.

(ii) Before a school may open or reopen during the current school fiscal year, the school must be classified as an isolated school in accordance with the provisions of 20-9-302, except that the dates in that section for the submission and approval of the application for classification do not apply and the application must be made at the same time that the application for opening or reopening the school is made.

20-6-604. Sale of property when resolution passed after hearing — appeal procedure. (1) Whenever the trustees of a district determine that a site, building, or any other real or personal property of the district is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district, the trustees may sell or otherwise dispose of the real or personal property in accordance with this section and without conforming to the

provisions of 20-6-603. If a decision to sell or dispose of property is made, the trustees shall adopt a resolution to sell or otherwise dispose of the district real or personal property because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district.

(2) The resolution may not become effective for 14 days after the notice required in subsection (3) is made.

(3) The trustees shall provide notice of the resolution in the manner required for school elections in 20-20-204.

(4) A taxpayer may appeal the resolution of the trustees, at any time prior to the effective date of the resolution, to the district court by filing a verified petition with the clerk of the court and serving a copy of the petition upon the district. The petition must set out in detail the objections of the petitioner to the adoption of the resolution or to the disposal of the property. The service and filing of the petition stay the resolution until final determination of the matter by the court. The court shall immediately fix the time for a hearing at the earliest convenient time. At the hearing, the court shall hear the matter de novo and may take testimony as it considers necessary. Its proceedings are summary and informal, and its decision is final.

(5) The trustees of a district that has adopted a resolution to sell or otherwise dispose of district real or personal property and, if appealed, has been upheld by the court shall sell or dispose of the real or personal property in any reasonable manner that they determine to be in the best interests of the district.

(6) The money realized from the sale or disposal of real or personal property of the district must be credited to the debt service fund, building fund, general fund, or other appropriate fund, at the discretion of the trustees.

20-6-605. Land acquired by conditional deed or at will or sufferance. Whenever the trustees acquire land by deed conditioned upon the use of the land for the conduct of school or related activities or whenever land has been used by the trustees at the will or sufferance of the land's owner or claimant and the district has constructed buildings or made other improvements on the land, the owner or claimant may repossess the land if it ceases to be used as specified by deed or, if not specified, for the conduct of school or related activities. However, the owner or claimant shall first notify the trustees in writing of the intent to repossess the land, and the trustees shall have 1 year after receipt to remove any buildings or improvements placed upon the land by the district. The trustees' failure to remove the buildings or improvements within that time constitutes a forfeiture of the buildings or improvements. Before the owner or claimant has the right to give notice of repossession, the district's intention to permanently cease using the land must have been established by resolution of the trustees and a vote of the district's electors.

(3) Any site for a school building or other building of the district that is selected or purchased by the trustees must:

- (a) be in a place that is convenient, accessible, and suitable;

Part 7 K-12 School Districts

20-6-701. K-12 school districts required — definition — procedure for creation — exception. (1) Except as provided in subsection (4), each elementary district with the same district boundaries as a high school district shall attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, “K-12 school district” means a high school district with an elementary district that has been attached to the high school district under the procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts.

(b) When the county superintendent receives a resolution from each of the districts, the county superintendent shall, within 10 days after receipt of the last resolution, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(4) This section does not apply to a school district receiving federal impact aid funding, as provided in 20 U.S.C. 7701, et seq., if creation or continuation of a K-12 district has resulted in or will result in the loss of federal impact aid funding.

History: En. Sec. 1, Ch. 555, L. 1991; amd. Sec. 1, Ch. 194, L. 1993; amd. Sec. 12, Ch. 22, L. 1997; amd. Sec. 1, Ch. 95, L. 1997.

20-6-702. Funding for K-12 school districts. (1) Notwithstanding the provisions of subsections (2) through (6), a K-12 school district formed under the provisions of 20-6-701 is subject to the provisions of law for high school districts.

(2) The number of elected trustees of the K-12 school district must be based on the classification of the attached elementary district under the provisions of 20-3-341 and 20-3-351.

(3) Calculations for the following must be made separately for the elementary school program and the high school program of a K-12 school district:

(a) the calculation of ANB for purposes of determining the total per-ANB entitlements must be in accordance with the provisions of 20-9-311;

(b) the basic county tax for elementary equalization and revenue for the elementary BASE funding program for the district must be determined in accordance with the provisions of 20-9-331, and the basic county tax for high school equalization and revenue for the high school BASE funding program for the district must be determined in accordance with 20-9-333;

(c) the guaranteed tax base aid for BASE funding program purposes for a K-12 school district must be calculated separately, using each district’s guaranteed tax base ratio, as defined in 20-9-366. The BASE budget levy to be levied for the K-12 school district must be prorated based on the ratio of the BASE funding program amounts for elementary school programs to the BASE funding program amounts for high school programs.

(d) the levy authority limits under 20-9-502(3) and the corresponding state school major maintenance aid under 20-9-525(3) for a K-12 school district must be calculated separately for the K-12 school district’s elementary and high school programs in the same manner as those limits and aid would be calculated if the K-12 school district consisted of a separate elementary and high school district.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

(5) For the purposes of budgeting for a K-12 school district, the trustees shall adopt a single fund for any of the budgeted or nonbudgeted funds described in 20-9-201 for the costs of operating all grades and programs of the district.

(6) Tuition for attendance in the K-12 school district must be determined separately for high school pupils and for elementary pupils under the provisions of 20-5-320 through 20-5-324, except that the actual expenditures used for calculations in 20-5-323 must be based on an amount prorated between the elementary and high school programs in the appropriate funds of each district in the year prior to the attachment of the districts.

20-6-703. Transitions after formation of K-12 school district. (1) When an attachment order for a K-12 school district becomes effective on July 1 under the provisions of 20-6-701:

(a) the county superintendent shall order the trustees to execute all necessary and appropriate deeds, bills of sale, or other instruments for the conveyance of title to all real and personal property of the elementary district to the high school district;

(b) the trustees of the elementary district shall entrust the minutes of the board of trustees, the elementary district documents, and other records to the high school district to which it is attached; and

(c) the county treasurer shall transfer all end-of-the-year warrants and fund balances of the attached elementary district to the similar funds established for the K-12 school district in the high school district.

(2) All taxes levied by and revenue due from a previous school fiscal year to an elementary district attached to a high school district must be payable to the appropriate fund of the high school district.

(3) The previous year's general fund budget amounts for the elementary district and the high school district that form a K-12 school district must be combined to determine the budget limitation for the ensuing school fiscal year pursuant to 20-9-308.

History: En. Sec. 3, Ch. 555, L. 1991; amd. Sec. 49, Ch. 633, L. 1993; amd. Sec. 3, Ch. 36, Sp. L. November 1993; amd. Sec. 4, Ch. 403, L. 1997.

20-6-704. Dissolution of K-12 school district. (1) Except as provided in subsection (2), in order to dissolve a K-12 district under the provisions of this section, the trustees of a district shall submit for approval to the electors of the K-12 district a proposition dissolving the K-12 district for the purpose of annexing or consolidating the K-12 district's elementary or high school program with a contiguous school district or districts in an ensuing school fiscal year under the provisions of 20-6-422 or 20-6-423.

(2) If the trustees of the school district determine that the creation or continuation of the K-12 district has resulted in or will result in the loss of federal funding for the elementary or high school programs and that it is in the best interest of the district to dissolve into the original elementary district and high school district that existed prior to the formation of the K-12 district, the trustees may dissolve the district under the following procedure:

(a) The trustees of the district shall pass a resolution requesting the county superintendent to order a dissolution of the district.

(b) When the county superintendent receives the resolution from the district, the county superintendent shall, within 10 days, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the district, and the superintendent of public instruction.

(3) If the entire territory of the dissolving K-12 district will be annexed to or consolidated with a contiguous district or districts, the resolution or petition required in subsection (1) or (2) must contain a description of the manner in which the real and personal property and funds of the district are to be apportioned in the dissolution of the district and the subsequent annexation to or consolidation with one or more other districts. If a portion of the dissolving K-12 district will not be annexed or consolidated with another district or districts, the resolution or petition must contain a description of the manner in which the property, funds, and financial obligations, including bonded indebtedness, of the K-12 district are to be apportioned to the district or districts whose territory is not annexed to or consolidated with another district.

(4) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the K-12 district and from each district included in a consolidation

proposition, the county superintendent shall determine whether the dissolution and annexation or consolidation proposition or propositions have been approved. If the K-12 district has approved the dissolution proposition and each district involved in a consolidation has approved the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the election certificate, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the dissolution order to the board of county commissioners, the trustees of the district included in the dissolution order, and the superintendent of public instruction.

(5) Whenever a K-12 district is dissolved, the following provisions apply:

(a) The trustees of the district whose territory is not annexed or consolidated upon dissolution of the K-12 district are responsible for the execution of remaining financial obligations of the K-12 district and for the apportionment between the elementary and high school programs of any obligations not identified in the resolution required under subsection (3).

(a) parents desire education options for their children;

(b) expanding educational opportunities for K-12 education within the state is a necessary and valid public purpose; and

(c) creating options that assist parents and encourage students to develop their full educational potential is vital to the economic competitiveness of the state.

(2) It is the legislature's intent to establish public charter schools that are under the supervision and control of trustees who are elected by qualified electors pursuant to Article IV, section 2, and Article X, section 8, of the Montana constitution for the purposes of:

(a) enhancing Montana's system of education to develop the full educational potential of each person;

- (b) enabling parents to make decisions on how best to educate their children;
- (c) providing other public educational opportunities for all students, especially those at risk of academic failure;

- (f) ensuring accountability to the qualified electors and taxpayers in the community in which the charter school is located.

(3) It is the legislature's intent to create innovative and high-performing public charter schools under the general supervision of the board of public education and under the supervision and control of trustees of the governing board who are elected by qualified electors in the community where the charter school is located.

- (4) If a public charter school proposal does not contain the elements required in subsection (3), the board shall consider the proposal incomplete and return the proposal to the applicant without taking further action.

(5) In reviewing and evaluating charter proposals, the board shall employ procedures, practices, and criteria consistent with nationally recognized best practices, principles, and standards for the authorization of public charter schools. The proposal review process must include thorough evaluation of each written charter proposal, an in-person interview with the applicant, and an opportunity in a public forum for local residents to learn about and provide input on each proposal.

(6) In deciding whether to approve charter proposals, the board shall:

- (a) grant charters only to applicants that have demonstrated competence in each element of the board's published approval criteria and are likely to open and operate a successful public charter school;
- (b) base decisions on documented evidence collected through the proposal review process;
- (c) for an applicant that is not a local school board, request input from the qualified electors of the located school district regarding concerns about the applicant's proposal being approved;
- (d) follow charter-granting policies and practices that are transparent and are based on merit and avoid conflicts of interest or any appearance of conflict; and
- (e) weigh heavily the evidence of community support, the projected student enrollment, and the input received under subsection (6)(c) and only approve charters whose promise of improved educational outcomes outweighs potential increased costs to state and local taxpayers.

(7) (a) The board shall approve or deny a charter proposal within 90 days after the filing of the charter proposal. When approval is granted to a governing board other than a local school board, the approval constitutes corresponding approval of the creation of a separate charter school district, the boundaries for which consist of the legal description of the campus of the charter school. These boundaries must be removed from the boundaries of the located school district for the purpose of establishing a distinct boundary for the charter school district that is subject to exclusive supervision and control by the governing board of the charter school district.

(b) The board shall adopt by resolution all charter approval or denial decisions in an open meeting.

(c) An approval decision may include, if appropriate, reasonable conditions that the applicant must meet before a charter contract may be executed pursuant to 20-6-806.

History: En. Sec. 5, Ch. 510, L. 2023.

20-6-806. Charter contract — terms. (1) An initial charter must be granted for a term of 5 operating years, commencing on July 1 of the first school year the public charter school will operate. An approved public charter school may delay its opening for 1 school year to plan and prepare for the school's opening. If the school requires an opening delay of more than 1 school

year, the school shall request an extension from the board of public education. The board of public education may grant or deny the extension depending on the school's circumstances.

(2) Within 45 days of approval of a charter proposal, the board of public education and the governing board of the approved public charter school district shall execute a charter contract that clearly sets forth the academic and operational performance expectations and measures by which the public charter school will be judged.

(3) The performance provisions of the charter contract may be refined or amended by mutual agreement after the public charter school is operating and has collected baseline achievement data for its enrolled students.

(4) The charter contract must be signed by the presiding officers of the board of public education and the public charter school's governing board.

(5) A public charter school may not commence operations without a charter contract executed in accordance with this section and approved in an open meeting of the board of public education.

(6) The board of public education may establish reasonable preopening requirements or conditions to monitor the startup progress of a newly approved public charter school to ensure that the school is prepared to open smoothly on the date agreed and to ensure that each school meets all building, health, safety, insurance, and other legal requirements for school opening.

History: En. Sec. 6, Ch. 510, L. 2023.

20-6-807. Governing board — initial board — elections — terms. (1) Subsections (2) through (5) apply to a public charter school not governed by the local school board.

(2) The governing board of a public charter school district must be composed of 7 members. The boundaries of the charter school district consist of the legal description of the campus of the charter school. A majority of the governing board members must be qualified electors of the county in which the public charter school is located. Members must:

(a) be qualified electors in the county in which the public charter school is located or a contiguous county but need not be qualified electors of the located school district; and

(b) possess documented knowledge or experience in the mission or focus of the public charter school.

(3) An applicant for a proposed public charter school shall identify the members of the initial governing board of the charter school district of which the charter school is a part in the proposal submitted to the board of public education. The initial governing board is responsible for preoperation of and initial operation of the public charter school.

(4) At the regular school election in the first year of operation of a public charter school, members must be elected by the qualified electors of the located school district in the same manner as local school boards, except as provided in subsections (2) and (5), in an election conducted by the local school board in the school district in which the public charter school is located. Any elector qualified to vote in the located school district under the provisions of 20-20-301 may vote.

(5) Members of governing boards serve for terms of 5 years, and the terms of members must be staggered to ensure continuity on the governing board.

(6) If the governing board of a public charter school is the local school board, the governing board shall establish and appoint members of an advisory board to provide recommendations and insight regarding the public charter school's operations. Members of the advisory board must include members with knowledge or experience in the mission or focus of the public charter school.

History: En. Sec. 7, Ch. 510, L. 2023.

20-6-808. Enrollment. (1) (a) A public charter school must be open to any student residing in the state.

(b) A school district may not require a student enrolled in the school district to attend a public charter school.

(c) A public charter school may limit admission to students within a given age group or grade level.

(d) A public charter school may be organized for a special emphasis, theme, or concept as stated in the school's proposal.

(e) A public charter school shall enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level, or building.

(f) If capacity is insufficient to enroll all students who wish to attend the school, the public charter school shall select students through a lottery.

(2) (a) A public charter school shall give enrollment preference to students who are residents of the located school district.

(b) A public charter school may give enrollment preference to:

(i) students who were enrolled in the public charter school the previous school year and to siblings of students already enrolled in the public charter school. An enrollment preference for returning students excludes those students from entering a lottery.

(ii) children of members of a public charter school's governing board and full-time employees, limited to no more than 10% of the school's total student population.

(3) This section does not preclude the formation of a public charter school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend such a school, the public charter school shall select students through a lottery.

(4) If a student who was previously enrolled in a public charter school enrolls in any other public school in this state, the student's new school shall accept credits earned by the student in courses or instructional programs at the public charter school.

(5) A school district shall provide or publicize to parents and the general public information about public charter schools as an enrollment option within the district to the same extent and through the same means that the district provides and publicizes information about noncharter public schools in the district.

(6) The board of public education may not restrict the number of students a public charter school may enroll. The capacity of the public charter school must be determined annually by the governing board in consideration of the public charter school's ability to facilitate the academic success of its students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment does not exceed the capacity of its facility or site.

History: En. Sec. 8, Ch. 510, L. 2023.

20-6-809. Charter school performance and renewal. (1) The performance provisions within the charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide the board of public education's evaluations of each public charter school. The performance framework must include indicators, measures, and metrics for, at a minimum:

(a) student academic proficiency;

(b) student academic growth;

(c) achievement gaps in both proficiency and growth between major student subgroups;

(d) attendance;

(e) recurrent enrollment from year to year;

(f) postsecondary readiness;

(g) financial performance and sustainability; and

(h) governing board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the charter contract.

(2) Each public charter school shall set annual performance targets designed to help each school meet applicable federal, state, and board of public education expectations.

(3) (a) The contract performance framework must allow the inclusion, with the board of public education's approval, of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external evaluations of its performance that are consistent with the purposes of this part.

(b) The board of public education shall collect and analyze data from each public charter school it oversees in accordance with the performance framework.

(c) Multiple schools operating under a single charter contract or overseen by a single governing board of a charter school district shall report their performance as separate, individual schools. Each school must be held independently accountable for its performance.

(4) (a) The board of public education shall monitor the performance and legal compliance of each public charter school district and each public charter school, including collecting and analyzing data to support ongoing evaluation according to the charter contract. The board of public education has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to public charter schools and the supervision and control of a public charter school's governing board but that enable the board to fulfill its responsibilities under this part, including conducting appropriate inquiries and investigations consistent with the intent of this part, and to adhere to the terms of the charter contract.

(b) The board of public education shall annually publish a performance report for each public charter school within the performance framework set forth in the charter contract and 20-6-810. The board may require each public charter school it oversees to submit an annual report to assist the board in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a public charter school's performance or legal compliance appears unsatisfactory, the board of public education shall promptly notify the governing board of the perceived problem and provide a reasonable opportunity for the school to remedy the problem.

(d) The board of public education may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in public charter school performance or legal compliance. The action or sanctions may include, if warranted, requiring a governing board to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter may be renewed for successive 5-year terms, although the board of public education may vary the term based on the performance, demonstrated capacities, and particular circumstances of each public charter school. The board may grant renewal with specific conditions for necessary improvement to a public charter school.

(b) No later than June 30 of each year, the board of public education shall issue a public charter school performance report and charter renewal application guide to the governing board of any public charter school whose charter will expire the following year. The performance report must summarize the public charter school's performance record to date, based on the data required by this part and the charter contract, and must provide notice of any weaknesses or concerns perceived by the board concerning the public charter school that may jeopardize renewal if not promptly rectified. The public charter school shall respond to the performance report and submit any corrections or clarifications within 90 days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the governing board of the public charter school to:

(a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal;

(b) describe improvements undertaken or planned for the public charter school; and

(c) detail the public charter school's plans for the next charter term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the board's renewal decisions, based on the performance framework set forth in the charter contract and consistent with this part.

(8) (a) No later than February 1, the governing board of a public charter school seeking renewal shall submit a renewal application to the board of public education pursuant to the renewal application guide. The board of public education shall rule by resolution on the renewal application no later than 30 days after the filing of the renewal application.

(b) When considering charter renewal, the board of public education shall:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the school and the public; and

(iii) provide a public report summarizing the basis for each decision.

History: En. Sec. 9, Ch. 510, L. 2023.

20-6-810. Charter contract revocation and school closure or charter contract nonrenewal. (1) A charter contract may be subject to nonrenewal or revocation if the board of public education determines that the public charter school:

(a) committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under this part or the charter contract and from which the public charter school was not exempted;

(b) failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) failed to meet public safety standards; or

(d) failed to meet generally accepted standards of fiscal management.

(2) The board of public education shall develop revocation and nonrenewal processes that:

(a) provide the governing board with timely notification of the prospect of revocation or nonrenewal and of the reasons for the possible closure;

(b) allow the governing board a reasonable amount of time in which to prepare a response;

(c) provide the governing board an opportunity to submit documents and testimony at a hearing to challenge the rationale for the closure recommendation and in support of the continuation of the school;

(d) allow the governing board to be represented by counsel and call witnesses on their behalf;

(e) permit the recording of the proceedings; and

(f) provide for a final determination conveyed in writing to the governing board.

(3) If the board of public education revokes or denies renewal of a charter, the board shall clearly state, by resolution, the reasons for the revocation or nonrenewal.

(4) Within 10 days of taking action to renew, not renew, or revoke a charter, the board of public education shall provide a copy of the resolution setting forth the action taken and reasons for the decision.

(5) (a) Prior to a public charter school closure, the board of public education shall develop a public charter school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of this part. The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the governing board of the public charter school and the board of public education.

(b) The board of public education shall oversee the closure and work with the governing board of the public charter school to ensure a smooth and orderly closure and transition for students and parents.

(c) In the event of a public charter school closure for any reason, the nonrestricted distributable assets of the public charter school must be distributed first to satisfy outstanding payroll obligations for employees of the public charter school, then to creditors of the public charter school, then to public school districts to which students previously attending the closed charter school are returning on a prorated per-pupil basis, and then to the state general fund. If the assets of the public charter school are insufficient to pay all obligations, the prioritization of the distribution of assets may be determined by a court of law.

History: En. Sec. 10, Ch. 510, L. 2023.

20-6-811. Public charter school operation and autonomy. (1) (a) A public charter school must be a public education organization.

(d) A single governing board may hold one or more charter contracts. A charter contract may consist of one or more schools, to the extent approved by the board of public education and consistent with applicable law. Each public charter school that is part of a charter school district must be under the supervision and control of the governing board of the charter school district.

(2) A public charter school district or public charter school may not be created within the geographical boundaries of a third-class elementary district, as defined in 20-6-201, or a third-class high school district, as defined in 20-6-301, unless the applicant is the local school board.

(3) The governing board of a public charter school shall function as a local educational agency. A public charter school is responsible for meeting the requirements of a local educational agency under applicable federal, state, and local laws, including those relating to special education.

(4) The governing board of a public charter school is responsible for special education at the school, including identification and service provisions, and is responsible for meeting the needs of enrolled students with disabilities.

(5) The governing board of a public charter school district has all the powers necessary for carrying out the terms of its charter contract, including the following powers:

- (b) to secure appropriate insurance and to enter into contracts and leases, free from prevailing wage laws;
- (c) to incur debt in reasonable anticipation of the receipt of public or private funds;

20-7-101. Accreditation standards — process for adoption. (1) (a) Accreditation standards, as defined in 20-1-101, for all schools must be adopted by the board of public education upon the recommendations of the superintendent of public instruction. The superintendent shall develop recommendations in accordance with subsection (2). For an accreditation standard that requires implementation by school districts, the recommendations presented to the board must include an economic impact statement, as described in 2-4-405, prepared in consultation with the negotiated rulemaking committee under subsection (2).

(b) For accreditation standards addressing academic requirements, program area standards, or content and performance standards, the economic impact statement under subsection (1)(a) must include an analysis of the ability of school districts to implement the standard within existing resources, including time. The intent of this subsection (1)(b) is to

ensure that school districts have the capacity to adhere to required accreditation standards within a basic system of free quality public elementary and secondary schools.

(2) The accreditation standards recommended by the superintendent of public instruction must be developed through the negotiated rulemaking process under Title 2, chapter 5, part 1. The superintendent may form a negotiated rulemaking committee for accreditation standards to consider multiple proposals. The negotiated rulemaking committee may not exist for longer than 2 years. The committee must represent the diverse circumstances of schools of all sizes across the state and must include representatives from the following groups:

- (a) school district trustees;
- (b) school administrators;
- (c) teachers;
- (d) school business officials;

(a) during a regular legislative session, the joint appropriations subcommittee on education; or

(b) during the legislative interim, the education interim budget committee established in 5-12-501, for review at least 1 month in advance of a scheduled committee meeting.

(4) Unless the expenditures by school districts required under the proposal are determined by the appropriate committee under subsection (3) to be insubstantial expenditures that can be readily absorbed into the budgets of existing district programs, the board may not implement the standard until July 1 following:

(a) under subsection (3)(a), the current legislative session; or

(b) under subsection (3)(b), the next regular legislative session and shall request the superintendent of public instruction include a request in the superintendent's budget that the same legislature fund implementation of the proposed standard.

(5) The provisions of this section may not be construed to reduce or limit the authority of the education interim committee to review administrative rules, including accreditation standards, within its jurisdiction pursuant to 5-5-215.

(6) Standards for the retention of school records must be as provided in 20-1-212.

20-7-435. Funding of educational programs for eligible children receiving in-state inpatient treatment of serious emotional disturbances. (1) It is the intent of the legislature that eligible children receiving inpatient treatment of a serious emotional disturbance at in-state qualifying facilities be provided with an appropriate educational opportunity in a cost-effective manner. The legislature further intends that in-state qualifying facilities prioritize treatment of Montana residents over residents of other states.

(2) The superintendent of public instruction may contract with a qualifying facility for provision of an educational program for an eligible child in the qualifying facility. The contract between the superintendent of public instruction and a qualifying facility must include a provision requiring the qualifying facility to provide educational data and regular reports about the academic status and academic progress being made by each eligible child at a qualifying facility.

(3) (a) Whenever the superintendent of public instruction contracts with a qualifying facility for provision of an educational program for an eligible child, the superintendent of public instruction shall establish a daily rate per eligible child for each qualifying facility that reflects actual documented costs of providing an appropriate educational opportunity at that facility and that excludes the cost of services that are eligible for reimbursement under any provision of state or federal law or an insurance policy.

(b) For each eligible child and from appropriations provided for the purposes of this section, the superintendent of public instruction shall pay the qualifying facility the daily rate under subsection (3)(a) minus the amount paid under subsection (3)(c).

(c) For each eligible child, the eligible child's school district of residence shall pay the qualifying facility a daily rate of 40% of the tuition per-ANB amount as defined in 20-5-323 divided by 180 in a manner prescribed by the superintendent of public instruction. The district of residence shall finance the tuition amount from the levy authorized to support the district tuition fund or from the district's general fund or any other legally available fund in the discretion of the trustees.

(d) An eligible child whose appropriate educational opportunity is provided under subsection (5)(a) or (5)(b) may not receive funding under this subsection (3).

(e) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall include a request for funding this section based on the daily rate for each facility as determined under subsection (3)(a). If the money appropriated for the payments to qualifying facilities under this section is not sufficient, the superintendent of public instruction shall request the state budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of the payments.

(4) A supplemental education fee or tuition, beyond those authorized under this section, may not be charged for an eligible child who receives an education under contract with an in-state children's psychiatric hospital or residential treatment facility under subsection (3) or as provided under subsection (5).

(5) If a qualifying facility fails to provide an appropriate educational opportunity for an eligible child at the facility or fails to negotiate a contract under the provisions of subsection (2), the superintendent of public instruction shall, from appropriations provided for the purposes of this section, choose either of the following two options:

(a) provide for an appropriate educational opportunity for the eligible child utilizing qualified specialists who are employees of the office of public instruction or under contract with the office of public instruction for the purposes of this section. The eligible child's district of residence shall reimburse the office of public instruction at the daily rate established in subsection (3)(c). The district of residence may finance the reimbursement from the levy authorized to support the district tuition fund.

(b) negotiate with the school district in which the qualifying facility is located for the supervision and implementation of an appropriate educational opportunity for eligible children attending the facility. The amount to be paid to the district of attendance by the office of public instruction and the amount to be paid by the eligible child's district of residence are determined as provided in 20-5-323 and 20-5-324 for out-of-district attendance agreements approved under 20-5-321(1)(d) and (1)(e).

(6) Funds provided to a district under this section, including funds received under the provisions of 20-7-420:

(a) must be deposited in the miscellaneous programs fund of the district that provides the education program for an eligible child, regardless of the age or grade placement of the child who is served under a negotiated contract; and

(b) are not subject to the budget limitations in 20-9-308.

(7) The superintendent of public instruction may distribute funds appropriated for contracts with in-state children's psychiatric hospitals or residential treatment facilities under subsection (2) to public school districts for the purpose of supporting educational programs for children with significant behavioral or physical needs.

(8) The superintendent of public instruction shall report to the education interim budget committee and the education interim committee in accordance with 5-11-210 no later than September 30 of even-numbered years on the implementation of this section and an analysis that supports each daily rate. The report must include:

(a) the daily rate calculated for each qualifying facility as described in subsection (3)(a); and

(b) an evaluation of education programs at qualifying facilities funded under this section.

These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge.

(3) (a) In alignment with the existing requirements of the Individuals With Disabilities Education Act, rules of the board of public education, and rules of the superintendent of public instruction, school districts shall establish procedures to ensure that all resident children with disabilities, including specific learning disabilities resulting from dyslexia, are identified and evaluated for special education and related services as early as possible.

- (A) a child in the first year that the child is admitted to a school of the district up to grade 2; and

- (ii) be administered by an individual with an understanding of, and training to identify, signs of dyslexia; and
- (iii) be designed to assess developmentally appropriate phonological and phonemic awareness skills.
- (c) If a screening under subsection (3)(b) suggests that a child may have dyslexia or a medical professional diagnoses a child with dyslexia, the child's school district shall take steps to identify the specific needs of the child and implement best practice interventions to address those needs. This process may lead to consideration of the child's qualification as a child with a disability under the Individuals With Disabilities Education Act.
- (4) The office of public instruction shall:
 - (a) endeavor to raise statewide awareness of dyslexia, as well as the attendant rights of students and parents and the responsibilities of school districts related to dyslexia; and
 - (b) provide guidance to school districts related to:
 - (i) the early identification of students with dyslexia, including best practices for universal, valid, and reliable screening methods and other assessments in support of the requirements of subsection (3)(b) that:
 - (A) have minimal or no cost to a district; and
 - (B) are able to be integrated with a district's existing reading programs;
 - (ii) best practice interventions to support students with dyslexia as early as possible, including interventions for those students with dyslexia evaluated as requiring special education and those students with dyslexia evaluated as not requiring special education; and
 - (iii) best practices for collaborating with and supporting parents of students with dyslexia.
 - (5) The legislature urges all entities within the state with authority over, or a role to play in, teacher preparation and professional development to ensure that teachers and other school personnel, especially those in the early grades, are well prepared to identify and serve students with dyslexia.

Written notice of noncompliance may be provided by any party to the contract. All parties subject to a contract voided under this subdivision shall return all pupil records in their possession to the school district.

Transformational Learning

20-7-1601. Forms of personalized learning — legislative intent. (1) The legislature finds and declares pursuant to Article X, section 1, of the 1972 Montana constitution that forms of personalized learning authorized under Montana law, including but not limited to work-based learning pursuant to 20-7-1510, proficiency-based learning as defined in subsection (2) of this section, determinations of course equivalency by an elected board of trustees under 20-3-324(18), remote instruction under 20-7-118, and transformational learning, are appropriate means of fulfilling the people's goal of developing the full educational potential of each person. The provision of and participation in forms of personalized learning under this part and in compliance with accreditation standards of the board of public education are constitutionally compliant and protected. The legislature declares that any public or private regulation that discriminates against a district or pupil participating in forms of personalized learning referenced in this section is inconsistent with constitutional goals and guarantees under Article X of the Montana constitution.

(2) As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(a) “Proficiency” means a measure of competence that is demonstrated through application in a performance assessment.

(b) “Proficiency-based learning” means an education system in which student progress is based on a student’s demonstration of competence rather than on the basis of seat time or the age or grade level of the student.

Applicability: Section 7, Ch. 580, L. 2023, provided: “[This act] applies to school years and years of attendance beginning on or after July 1, 2023.”

20-7-1602. (Temporary) Incentives for creation of transformational learning programs. (1) (a) A school district as defined in 20-6-101 that satisfies the conditions of subsection (2) and is qualified by the board of public education pursuant to subsection (4) is eligible for a 4-consecutive-year provision of the transitional funding and flexibilities in subsections (5) and (6).

(b) A school district may be qualified by the board of public education for no more than one 4-consecutive-year provision of transitional funding and flexibilities in any 8-year period.

(2) To qualify for the transitional funding and flexibilities in subsections (5) and (6), the board of trustees of a district shall submit an application that has been approved by motion of the board of trustees and signed by the presiding officer to the board of public education for approval of a transformational learning program on a form provided by the superintendent of public instruction. The school board’s application must:

(a) identify the number of full-time equivalent educators meeting the criteria of 20-9-327(3) who will participate in the district’s transformational learning program, with full-time equivalence calculated and reported by the district based on the planned portion of each qualifying educator’s full-time equivalent assignment that is dedicated to the district’s transformational learning program;

(b) include the district’s definition of proficiency within the meaning of the term as used in 20-9-311(4)(d). The definition must be incorporated in the district’s policies and must be used for purposes of determining content and course proficiency and other progress, promotion from grade to grade, grades, and graduation for pupils enrolled in the district’s transformational learning program. The district must also describe the district’s plans for the implementation of proficiency-based learning as defined in 20-7-1601; and

(c) include a strategic plan with appropriate planning horizons for implementation, measurable objectives to ensure accountability, and planned strategies to:

(i) develop a transformational learning plan for each participating pupil that honors individual interests, passions, strengths, needs, and culture and that is rooted in relationships with teachers, family, peers, and community members;

(ii) embed community-based, experiential, online, and work-based learning opportunities and foster a learning environment that incorporates both face-to-face and virtual connections;

(iii) provide effective professional development to assist employees in transitioning to a transformational learning model; and

(iv) ensure equality of educational opportunity to participate by all pupils of the district.

(3) The board of public education shall establish by rule the opening and closing dates for receipt of applications and annual reports.

(4) The board of public education shall:

(a) on an annual basis, qualify districts that submit an application meeting, in the determination of the board or the board’s designee, the requirements of subsection (2) for the funding in subsection (5) and the flexibilities in subsection (6) until the annual appropriation is exhausted, after which further applications, including first-time applications and annual reports

requesting an expansion of a previously approved plan, are to be deferred for consideration in a subsequent year, in the order of a lottery system draw, if and when additional funds become available for distribution. The lottery system shall assign every first-time application or request for expansion of a previously approved plan a number that will be placed into a lottery system draw that will be done by a third party. The applications will be assigned a position in the order in which the numbers are drawn. The drawing will continue until all districts are on the qualification list for the current year funding or deferred for consideration in a subsequent year.

(b) require each participating school district to submit an annual report demonstrating, in the determination of the board or the board's designee, continued qualification for funding under this section and including a report of progress toward measurable objectives under the school district's transformational learning plan. The school district shall include any decrease or requested increase in the number of participating full-time equivalent educators under subsection (2)(a) for adjustments to its funding. Any increase in funding based on requested increased levels of participation under subsection (2)(a) must be determined in the year in which the request for a funding increase is received and augmented with a lottery system among all first-time applications and annual reports requesting an expansion of a previously approved plan and must be contingent on the availability of funds within any appropriation of the legislature. An application deferred for consideration in a subsequent year due to lack of funding must be annually updated each year after more than 1 full fiscal year has passed from the date of original submission of the application in order for the application to retain its priority by original date received.

(c) report in accordance with 5-11-210 to the education interim committee on the progress made by districts as submitted in the annual report and strategic plan operating under approved and funded transformational learning plans.

(5) (a) For a period of 4 consecutive fiscal years following the fiscal year in which a district is qualified by the board of public education and contingent on satisfying the annual reporting requirements under subsection (4), the superintendent of public instruction shall provide a transformational learning aid payment to the district equivalent to 50% of the quality educator payment defined in 20-9-306 from the immediate prior fiscal year multiplied by the number of the district's full-time equivalent educators reported under subsection (2)(a) of this section.

(b) The payment under this subsection (5) must be distributed directly to the school district's flexibility fund established under 20-9-543 by October 1 of each year of funding by the superintendent of public instruction. The money must be expended by the district only for the purposes set forth in the district's approved transformational learning program and within 2 years of the date of distribution.

(c) A school district may not receive more than 25% of the total amount of payments made under this subsection (5).

(6) During each year that a school district remains qualified for funding under subsection (5), the district's trustees may:

(a) if the obligations of transparency set forth in 20-9-116 are met, levy an annual permissive property tax not to exceed 100% of any funds distributed to the district under subsection (5). Proceeds of the levy must be deposited in the district's flexibility fund established under 20-9-543 and must be expended by the district only for the purposes of the district's approved transformational learning plan.

(b) transfer state or local revenue from any budgeted or nonbudgeted fund, other than the debt service fund or retirement fund, to the district's flexibility fund.

(7) (a) Any funds transferred pursuant to subsection (6)(b) may be expended by the district solely for the purposes of implementing the district's approved transformational learning plan. Any transfers of funds are not considered expenditures to be applied against budget authority.

(b) Any transfers that are not expended for the purposes of implementing the district's approved transformational learning plan within 2 full school fiscal years after the funds are transferred must be transferred back to the originating fund from which the revenue was transferred.

(c) The intent of subsection (6)(b) and this subsection (7) is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the

district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(8) The present law base calculated for K-12 local assistance under Title 17, chapter 7, part 1, must include transformational learning aid as defined in subsection (9).

(9) For the purposes of this title, the following definitions apply:

(i) is customized to address each pupil’s strengths, needs, and interests; and
 (ii) actively engages each pupil in determining what, how, when, and where each pupil learns.

(b) “Transformational learning aid” means 50% of the quality educator payment defined in 20-9-306 multiplied by 10% of the statewide number of full-time equivalent educators from the fiscal year immediately preceding the year to which distribution of transformational aid applies calculated as provided in 20-9-327. Part 18 Early Literacy Targeted Interventions

Part Compiler's Comments

Effective Date: Section 11, Ch. 608, L. 2023, provided that this part is effective July 1, 2023.

Transition: Section 9, Ch. 608, L. 2023, provided: "(1) The board of public education, the office of public instruction, and the boards of trustees of school districts shall collaborate and prepare for the full implementation of [sections 1 through 4] [this part] in the school year beginning July 1, 2024. The legislature intends that the evaluation methodology be available for administration in the spring of 2024 to determine child eligibility.

(2) The legislature intends that school districts operating multiyear kindergarten programs in the school year beginning July 1, 2023, plan for the transition to early literacy targeted intervention programs under [sections 1 through 4] [this part] for the school year beginning July 1, 2024."

20-7-1801. Findings — purpose — legislative intent. (1) The legislature finds that the ability to read at or above grade level is essential for educational success. The legislature also finds that too many Montana children are not reading proficient at the end of 3rd grade.

(2) The purposes of this bill are to:

- (a) provide parents with voluntary early literacy interventions for their children;

(b) increase the number of children who are reading proficient at the end of 3rd grade and in so doing help those children develop their full educational potential pursuant to Article X, section 1(1), of the Montana constitution; and

(c) foster a strong economic return for the state on early literacy investment through enhancing Montana's skilled workforce and decreasing future reliance on social programs and the criminal justice system.

(3) The legislature intends that the board of public education, the office of public instruction, and the boards of trustees of school districts collaborate to implement this part and achieve the purposes under subsection (2).

(4) The legislature further intends that the board of public education, the office of public instruction, and the boards of trustees of school districts collaborate on an ongoing basis to gather, analyze, and make available outcome data and continually refine the interventions to increase the efficacy and efficiency of each intervention.

History: En. Sec. 1, Ch. 608, L. 2023.

20-7-1802. Definitions. As used in this part, unless the context clearly indicates otherwise, the following definitions apply:

(2) "Eligible child" means a child who is determined through the evaluation methodology selected by the board of public education pursuant to 20-7-1803 to be below a trajectory leading to reading proficiency at the end of 3rd grade.

(3) "Evaluation methodology" means a research-based methodology, instrument, or assessment selected by the board of public education to determine, based on a child's age or grade level, whether the child is above, at, or below a developmental trajectory leading to reading proficiency on completion of 3rd grade.

(4) "Trustees" means the board of trustees of an elementary or K-12 school district.

History: En. Sec. 2, Ch. 608, L. 2023.

20-7-1803. Early literacy targeted interventions. (1) The trustees of a school district may provide eligible children with any of the interventions described in this section. This part may not be construed to limit the duty or authority of trustees to provide educational opportunities described elsewhere in this title.

(2) The board of public education shall determine an evaluation methodology to determine, based on a child's age or grade level, whether the child is above, at, or below a developmental trajectory leading to reading proficiency on completion of 3rd grade. The evaluation must be:

- (a) developmentally appropriate;
- (b) research-based;
- (c) cost-effective; and
- (d) if possible, aligned with formative assessments that inform instruction in the classroom-based program and the jumpstart program.

(3) The superintendent of public instruction shall provide school districts with access to and technical support for the evaluation methodology, instrument, or assessment determined by the board of public education.

(4) A child may not be evaluated for the purposes of this part unless requested by the child's parent or guardian. The trustees may administer the evaluation methodology in April, May, or June to a child who will be 4 years of age or older on or before the following September 10 and who has not yet entered 3rd grade. A child who is evaluated to be below trajectory for 3rd-grade reading proficiency for the child's age or grade level is an eligible child for the subsequent school year.

(5) (a) For an eligible child who is 4 years of age or older on or before September 10 of the year in which the child is to participate in the program and who is not entering and who has not completed kindergarten, the trustees may offer a classroom-based program, which may be a half-time or full-time program. A full-time program must allow a parent or guardian to enroll the child half-time.

(b) The classroom-based program must align with developmentally appropriate early education learning standards as determined by the board of public education. The standards must include a requirement for ongoing evaluation of student progress used to tailor instruction to specific student needs.

(6) (a) For an eligible child who is 4 years of age or older on or before September 10 of the year in which the child is to participate in the program and who has not yet completed 2nd grade, the trustees may offer a home-based program.

(b) The home-based program must be selected by the board of public education and must:

(ii) be research-based and proven effective at developing early literacy skills in populations at risk of not being reading proficient at the end of 3rd grade;

(iii) foster parental engagement; and

(iv) have a cost of no more than \$1,000 a year for each child.

(c) The superintendent of public instruction shall provide school districts with access to and technical support for the home-based early literacy program.

(7) (a) For an eligible child who is 5 years of age or older on or before September 10 of the year in which the child is to participate in the program and who has not yet completed 3rd grade, the trustees may offer a jumpstart program.

(b) The jumpstart program must:

(i) take place during the time between the end of one school calendar year and the start of the next school calendar year, as determined by the trustees, preceding a child's entry into kindergarten, 1st grade, 2nd grade, or 3rd grade;

(ii) be at least 4 weeks in duration and provide at least 120 instructional hours;

(iii) be aligned to a framework determined by the board of public education;

(iv) be designed in a manner to increase the likelihood of a child being evaluated at the end of the ensuing school year to be at or above a trajectory leading to reading proficiency at the end of 3rd grade.

History: En. Sec. 3, Ch. 608, L. 2023.

20-7-1804. Early literacy targeted interventions — funding — reporting. (1) An eligible child participating in a classroom-based program pursuant to 20-7-1803(5) must be included in enrollment counts for the purpose of ANB calculations in the manner described in 20-9-311.

(2) The superintendent of public instruction shall pay for the costs for an eligible child participating in a home-based program pursuant to 20-7-1803(6) from funds appropriated for this purpose. The cost for each child may not exceed \$1,000 a year. If the annual appropriation for this program is not sufficient to fully fund all eligible children participating in the home-based program, the superintendent shall limit participation on a first-come, first-served basis.

(3) An eligible child participating in a jumpstart program pursuant to 20-7-1803(7) must be counted as quarter-time enrollment for the purpose of ANB calculations pursuant to 20-9-311.

(4) Trustees offering an early literacy targeted intervention shall closely monitor the program and report annually to the superintendent of public instruction on the efficacy of the program no later than July 15. The superintendent shall collaborate with trustees in maximizing the efficiency of fulfilling this reporting requirement. The report must include anonymized information on student progress, including the student's performance on:

(a) the evaluation methodology that led to eligibility for the program;

(b) any formative assessments administered;

(c) if administered, the evaluation methodology at the end of the school year in which intervention was provided; and

(d) any statewide reading assessments administered in grades 4 through 6.

(5) Pursuant to 20-7-104, the superintendent of public instruction shall monitor early literacy targeted interventions and gather data to evaluate the efficacy of the interventions while protecting the privacy rights of students and families. The superintendent shall report, in accordance with 5-11-210, to the education interim committee and the education interim budget committee no later than September 1 annually. The report must contain a comparison analysis by intervention type, including no intervention, and must include:

(a) the number of participating and nonparticipating children and districts;

20-9-141. (Temporary) Computation of general fund net levy requirement by county superintendent. (1) The county superintendent shall compute the levy requirement for each district's general fund on the basis of the following procedure:

(a) Determine the funding required for the district's final general fund budget less the sum of direct state aid and the special education allowable cost payment for the district by totaling:

(i) the district's nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(b) Determine the money available for the reduction of the property tax on the district for the general fund by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(iii) anticipated oil and natural gas production taxes;

(iv) pursuant to subsection (4), anticipated revenue from coal gross proceeds under 15-23-703;

(v) if applicable, a coal-fired generating unit closure mitigation block grant as provided in 20-9-638; and

(vi) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the BASE levy budget.

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the over-BASE budget levy; and

(iii) any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(e) Subtract the amount determined in subsection (1)(d) from any additional funding requirement to be met by an over-BASE budget amount and a district levy as provided in 20-9-303 to determine any additional general fund levy requirements.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by dividing the amount determined in subsection (1)(c) by the sum of:

(a) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.

20-9-141. (Effective July 1, 2024) Computation of general fund net levy requirement by county superintendent. (1) The county superintendent shall compute the levy requirement for each district's general fund on the basis of the following procedure:

(a) Determine the funding required for the district's final general fund budget less the sum of direct state aid and the special education allowable cost payment for the district by totaling:

(i) the district's nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(b) Determine the money available for the reduction of the property tax on the district for the general fund by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(iii) anticipated oil and natural gas production taxes;

(iv) pursuant to subsection (4), anticipated revenue from coal gross proceeds under 15-23-703;

(v) if applicable, a coal-fired generating unit closure mitigation block grant as provided in 20-9-638; and

(vi) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the BASE levy budget.

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the over-BASE budget levy; and

(iii) after first applying anticipated tuition revenue to the BASE budget under subsection (2)(b), any remaining tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(e) Subtract the amount determined in subsection (1)(d) from any additional funding requirement to be met by an over-BASE budget amount and a district levy as provided in 20-9-303 to determine any additional general fund levy requirements.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by:

(a) dividing the amount determined in subsection (1)(c) by the sum of:

(i) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

(ii) the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000; and

(b) if applicable, subtracting the result of dividing any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2), that are available for reduction of the district's BASE budget levy by the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202 divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.

20-9-161. Definition of budget amendment for budgeting purposes. As used in this title, unless the context clearly indicates otherwise, the term "budget amendment" for the purpose of school budgeting means an amendment to an adopted budget of the district for the following reasons:

(1) an increase in the enrollment of an elementary or high school district that is beyond what could reasonably have been anticipated at the time of the adoption of the budget for the current school fiscal year whenever, because of the enrollment increase, the district's budget for any or all of the regularly budgeted funds does not provide sufficient financing to properly maintain and support the district for the entire current school fiscal year;

(2) the destruction or impairment of any school property necessary to the maintenance of the school, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering school property unfit for its present school use;

(3) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(4) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district;

(5) the receipt of:

(a) a settlement of taxes protested in a prior school fiscal year;

(b) taxes from a prior school fiscal year as the result of a tax audit by the department of revenue or its agents;

(c) delinquent taxes from a prior school fiscal year; and

(d) a determination by the trustees that it is necessary to expend all or a portion of the taxes received under subsection (5)(a), (5)(b), or (5)(c) for a project or projects that were deferred from a previous budget of the district; or

(6) any other unforeseen need of the district that cannot be postponed until the next school year without dire consequences affecting:

(a) the safety of the students and district employees; or

(b) the educational functions of the district. Any budget amendment adopted pursuant to this subsection (6)(b) that in combination with other budget amendments within the same school fiscal year exceeds 10% of the district's adopted general fund budget must be reported by the school district to the education interim committee in accordance with 5-11-210 and the board of public education with an explanation of why the budget amendment is necessary.

(1) (a) Notwithstanding the provisions of subsections (2) and (3), a budget amendment may be adopted at any time of the school fiscal year, except that a budget amendment required by an enrollment increase as provided in 20-9-161(1) may not be adopted until after October 1.

20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the superintendent of public instruction to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. The superintendent of public instruction shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

A copy of the budget amendment resolution must be published one time in a newspaper that will give notice to the largest number of people of the district as determined by the trustees, and a copy of the resolution must be posted at each schoolhouse of the district. A copy of the budget amendment resolution must also be delivered to the county superintendent and to the county clerk as the clerk of the board of county commissioners of the county. The publication, posting, and delivery of the resolution must be done not less than 1 week before the day specified in the resolution for the consideration and adoption of a budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures.

(1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a final budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the final budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve;

(b) divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the final budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

20-9-166. Financial support for transportation budget amendments and significant enrollment increases. (1) Whenever a final budget amendment has been adopted for the transportation fund, the trustees may apply to the superintendent of public instruction for an increased payment for state transportation reimbursement. The superintendent of public

instruction shall adopt rules for the application for state transportation reimbursement. The superintendent of public instruction shall approve or disapprove each application for state transportation reimbursement. When the superintendent of public instruction approves an application, the superintendent of public instruction shall determine the additional amount of state transportation reimbursement that will be made available to the applicant district because of additional pupil transportation obligations. The superintendent of public instruction shall notify the applicant district of the superintendent's approval or disapproval and, in the event of approval, the amount of additional state aid that will be made available for the transportation fund. The superintendent of public instruction shall disburse the state aid to the eligible district at the time the next regular state aid payment is made.

(2) (a) When a district experiences an enrollment increase based on the October enrollment count, the district may be eligible for a significant enrollment increase payment in support of the district's general fund as described in this subsection (2).

(b) To be eligible for a significant enrollment increase payment, a district's October enrollment count in the current year converted to ANB must exceed the district's budget limit ANB for the school fiscal year 3 years prior by 110% or more. The significant enrollment increase payment the district qualifies for must be calculated by the superintendent of public instruction no later than December 1 following the October enrollment count as the difference between:

(i) an amount equal to 80% of the district's total per-ANB entitlement for that fiscal year if the district's budget limit ANB was calculated using the district's actual October enrollment count minus the absorption factor; and

(ii) 80% of the district's total per-ANB entitlement for that fiscal year.

(c) (i) The superintendent of public instruction shall notify a district of the district's eligibility for a significant enrollment increase payment and the amount by December 15.

(ii) The trustees of the district shall determine at the next scheduled board meeting and no later than March 1 whether to accept the full or a partial amount of the payment and adopt a general fund budget amendment for any accepted amount. A budget amendment under this section must be made by resolution of the trustees of the district and is not subject to the requirements of other budget amendments under Title 20, chapter 9, part 1. The trustees shall provide a copy of the budget amendment to the superintendent of public instruction in a manner determined by the superintendent of public instruction.

(iii) On receiving a copy of the budget amendment, the superintendent of public instruction shall disburse from the BASE aid appropriation in House Bill No. 2 the amount of the accepted payment distributed with the remaining direct state aid payments for that fiscal year pursuant to 20-9-344.

(d) A district receiving additional financial support under this subsection (2) shall deposit the money in the district's general fund and use it to address costs associated with the enrollment increase.

(e) For the purposes of this subsection (2), "absorption factor" means an ANB amount rounded to the nearest whole number equal to the sum of 5 ANB plus 3% of the district's budget limit ANB for that fiscal year.

20-9-201. Definitions and application. (1) As used in this title, unless the context clearly indicates otherwise, “fund” means a separate detailed account of receipts and expenditures for a specific purpose as authorized by law or by the superintendent of public instruction under the provisions of subsection (2). Funds are classified as follows:

(a) A “budgeted fund” means any fund for which a budget must be adopted in order to expend money from the fund. The general fund, transportation fund, bus depreciation reserve fund, tuition fund, retirement fund, debt service fund, building reserve fund, adult education fund, nonoperating fund, and any other funds designated by the legislature are budgeted funds.

(b) A “nonbudgeted fund” means any fund for which a budget is not required in order to expend money on deposit in the fund. Elementary and high school districts shall record the receipt and disbursement of all money in accordance with generally accepted accounting principles. The superintendent of public instruction has general supervisory authority as prescribed by law over the school financial administration provisions, as they relate to elementary and high school districts. The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account balances to any fund considered appropriate by the trustees if the fund does not have a cash or fund balance deficit.

(1) It is unlawful for a trustee to:

(a) have any pecuniary interest, either directly or indirectly, in any contract made by the trustee while acting in that official capacity or by the board of trustees of which the trustee is a member; or

(b) be employed in any capacity by the trustee's own school district, with the exception of officiating at athletic competitions under the auspices of the Montana officials association.

(2) For the purposes of subsection (1):

(a) "contract" does not include:

(i) merchandise sold to the highest bidder at public auctions;

(ii) investments or deposits in financial institutions that are in the business of loaning or receiving money when the investments or deposits are made on a rotating or ratable basis among financial institutions in the community or when there is only one financial institution in the community; or

(iii) contracts for professional services, other than salaried services, or for maintenance or repair services or supplies when the services or supplies are not reasonably available from other sources if the interest of any board member and a determination of the lack of availability are entered in the minutes of the board meeting at which the contract is considered; and

(b) "pecuniary interest" does not include holding an interest of 10% or less in a corporation.

(3) (a) Except for district needs that must be met because of an unforeseen emergency, as defined in 20-3-322(6), or as provided in subsections (4) and (6) of this section, whenever any building, furnishing, repairing, or other work for the benefit of the district or purchasing of supplies for the district is necessary, the work done or the purchase made must be by contract if the sum exceeds \$80,000.

(b) Except as provided in Title 18, chapter 2, part 5, each contract must be let to the lowest responsible bidder after advertisement for bids. The advertisement for bids under this subsection (3)(b) must be published in the newspaper that will give notice to the largest number of people of the district as determined by the trustees. The advertisement must be made once each week for 2 consecutive weeks, and the second publication must be made not less than 5 days or more than 12 days before consideration of bids. A contract not let pursuant to this section is void. The bidding requirements applicable to services performed for the benefit of the district under this section do not apply to:

(4) A district may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of subsection (3) if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list.

(5) This section may not require the board of trustees to let a contract for any routine and regularly performed maintenance or repair project or service that can be accomplished by district staff whose regular employment with the school district is related to the routine performance of maintenance for the district.

(6) Subsection (3) does not apply to the solicitation or award of a contract for an investment grade energy audit or an energy performance contract pursuant to Title 90, chapter 4, part 11, including construction and installation of conservation measures pursuant to the energy performance contract.

20-9-205. Prohibition on division of contracts to circumvent bid requirements.

(1) Whenever any law of this state provides a limitation upon the amount of money that a school district can expend upon any public work or construction project without letting such public work or construction project to contract under competitive bidding procedures, a school district shall not circumvent such provision by dividing a public work or construction project or quantum of work to be performed thereunder which by its nature or character is integral to such public work or construction project, or serves to accomplish one of the basic purposes or functions thereof, into several contracts, separate work orders, or by any similar device.

(2) This section shall apply not only where the public work or construction project is divided into several projects which are constructed at approximately the same period of time but also where the public work or construction project is divided into several projects which are constructed in different time periods or over an extended period of time.

20-9-208. Transfers among appropriation items of fund — transfers from fund to fund. (1) Whenever it appears to the trustees of a district that the appropriated amount of an item of a budgeted fund of the final budget or a budget amendment is in excess of the amount actually required during the school fiscal year for the appropriation item, the trustees may transfer any of the excess appropriation amount to any other appropriation item of the same budgeted fund.

(2) Unless otherwise restricted by a specific provision in this title, transfers may be made between different funds of the same district or between the final budget and a budget amendment under one of the following circumstances:

(a) (i) Except as provided in subsections (2)(a)(ii) through (2)(a)(iv), transfers may be made from one budgeted fund to another budgeted fund or between the final budget and a budget amendment for a budgeted fund whenever the trustees determine, in their discretion, that the transfer of funds is necessary to improve the efficiency of spending within the district or when an action of the trustees results in savings in one budgeted fund that can be put to more efficient use in another budgeted fund. Transfers may not be made with funds approved by the voters or with funds raised by a nonvoted levy unless:

(A) the transfer is within or directly related to the purposes for which the funds were raised and the trustees hold a properly noticed hearing to accept public comment on the transfer; or

(B) the transfer is approved by the qualified electors of the district in an election called for the purpose of approving the transfer, in which case the funds may be spent for the purpose approved on the ballot.

(ii) Unless otherwise authorized by a specific provision in this title, transfers from the general fund to any other fund and transfers to the general fund from any other fund are prohibited.

(iii) Unless otherwise authorized by a specific provision in this title, transfers from the retirement fund to any other fund are prohibited.

(iv) Unless otherwise authorized by a specific provision in this title, transfers from the debt service fund to any other fund are prohibited.

(b) Transfers may be made from one nonbudgeted fund to another nonbudgeted fund whenever the trustees determine that the transfer of funds is necessary to improve the efficiency of spending within the district. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law. Before a transfer can occur, the trustees shall hold a properly noticed hearing to accept public comment on the transfer.

(3) The trustees shall enter the authorized transfers upon the permanent records of the district.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

A person other than the trustees acting as a governing board may not expend money of the district. In conducting the fiscal business of the district, the trustees shall:

(1) cause the keeping of an accurate, detailed accounting of all receipts and expenditures of school money for each fund and account maintained by the district in accordance with generally accepted accounting principles and the rules prescribed by the superintendent of public instruction. The record of the accounting must be open to public inspection at any meeting of the trustees.

(2) authorize all expenditures of district money and cause warrants or checks, as applicable, to be issued for the payment of lawful obligations;

(3) issue warrants or checks, as applicable, on any budgeted fund in anticipation of budgeted revenue, except that the expenditures may not exceed the amount budgeted for the fund;

(4) invest any money of the district, whenever in the judgment of the trustees the investment would be advantageous to the district, either by directing the county treasurer to invest any money of the district or by directly investing the money of the district in eligible securities, as identified in 7-6-202, in savings or time deposits in a state or national bank,

All interest collected on the deposits or investments must be credited to the fund from which the money was withdrawn, except that interest earned on account of the investment of money realized from the sale of bonds must be credited to the debt service fund or the building fund, at the discretion of the board of trustees. The placement of the investment by the county treasurer is not subject to ratable distribution laws and must be done in accordance with the directive from the board of trustees. A district may invest money under the state unified investment program established in Title 17, chapter 6, or in a unified investment program with the county treasurer, with other school districts, or with any other political subdivision if the unified investment program is limited to investments that meet the requirements of this subsection (4), including those investments authorized by the board of investments under Title 17, chapter 6. A school district that enters into a unified investment program with another school district or political subdivision other than the state shall do so under the auspices of and by complying with the provisions governing interlocal cooperative agreements authorized under Title 7, chapter 11, and educational cooperative agreements authorized under Title 20, chapter 9, part 7. (5) cause the district to record each transaction in the appropriate account before the accounts are closed at the end of the fiscal year in order to properly report the receipt, use, and disposition of all money and property for which the district is accountable;

(6) report annually to the county superintendent, not later than August 15, the financial activities of each fund maintained by the district during the last-completed school fiscal year, on the forms prescribed and furnished by the superintendent of public instruction. Annual fiscal reports for joint school districts must be submitted on or before August 15 to the county superintendent of each county in which part of the joint district is situated.

(7) whenever requested, report any other fiscal activities to the county superintendent, superintendent of public instruction, or board of public education;

(1) An elementary school that has an ANB of nine or fewer pupils for 2 consecutive years and that is not approved as an isolated school under the provisions of 20-9-302 may budget and spend the BASE budget amount, but the county and state shall provide one-half of the direct state aid, and the district shall finance the remaining one-half of the direct state aid by a tax levied on the property of the district. When a school of nine or fewer pupils is approved as isolated under the provisions of 20-9-302, the county and state shall participate in the financing of the total amount of the direct state aid.

(2) Funds provided to support the special education program may be expended only for special education purposes as approved by the superintendent of public instruction in accordance with the special education budgeting provisions of this title. Expenditures for special education must be accounted for separately from and in addition to the balance of the school district general fund budgeting requirements provided in 20-9-308. The amount of the special education allowable cost payments that is not matched with district funds, as required in 20-9-321, will reduce by a like amount the district's ensuing year's allowable cost payment for special education.

20-9-305. Proration and calculation of BASE funding program for joint district.

(1) In joint districts, the direct state aid of a joint district must be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the direct state aid for which each county is obligated. The proration of the joint district direct state aid must be calculated as follows:

(a) Divide the joint district direct state aid by the ANB of the joint district to determine the per-ANB amount of the direct state aid.

(b) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties must equal the total ANB for the joint district.

(c) Multiply the per-ANB amount of the direct state aid determined in subsection (1)(a) by the ANB for each county's portion, as determined in subsection (1)(b), to determine the portion of the direct state aid for each county.

(2) The portion of a joint district direct state aid for each county, as determined in subsection (1)(c), is a separate direct state aid amount in the county for the purposes of calculating the various revenues for the BASE funding program. After the calculation of the direct state aid revenues, the remainder of the general fund revenues must be calculated in accordance with the provisions for general fund financing.

(1) Pursuant to Article X, section 1, of the Montana constitution, the legislature is required to provide a basic system of free quality public elementary and secondary schools throughout the state of Montana that will guarantee equality of educational opportunity to all.

(2) As used in this section, a “basic system of free quality public elementary and secondary schools” means:

(a) the educational program specified by the accreditation standards provided for in 20-7-111, which represent the minimum standards upon which a basic system of free quality public elementary and secondary schools is built;

(3) In developing a mechanism to fund the basic system of free quality public elementary and secondary schools and in making adjustments to the funding formula, the legislature shall, at a minimum, consider the following educationally relevant factors:

(a) the number of students in a district;

(b) the needs of isolated schools with low population density;

(c) the needs of urban schools with high population density;

(d) the needs of students with special needs, such as a child with a disability, an at-risk student, a student with limited English proficiency, a child who is qualified for services under 29 U.S.C. 794, and gifted and talented children;

(e) the needs of American Indian students; and

(f) the ability of school districts to attract and retain qualified educators and other personnel.

(4) The legislature shall:

(a) determine the costs of providing the basic system of free quality public elementary and secondary schools;

(b) establish a funding formula that:

(i) is based on the definition of a basic system of free quality public elementary and secondary schools and reflects the costs associated with providing that system as determined in subsection (4)(a);

(ii) allows the legislature to adjust the funding formula based on the educationally relevant factors identified in this section;

(iii) is self-executing and includes a mechanism for annual inflationary adjustments;

(iv) is based on state laws;

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (4)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (4)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (4)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than \$1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of \$1 million or more and was eligible for a significant enrollment increase payment pursuant to 20-9-166 in the fiscal year immediately preceding the fiscal year to which the provisions of this subsection (4) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(5) (a) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district that was eligible for a significant enrollment increase payment pursuant to 20-9-166. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the fiscal year immediately following the fiscal year in which the district was eligible and must be calculated by multiplying \$45,000 times each additional ANB used to calculate the significant enrollment increase payment pursuant to 20-9-166, including the absorption factor reduction.

(b) For a district in nonoperating status under 20-9-505, the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget in the district's most recent operating year, determined in accordance with 20-9-308.

(6) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the

district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall.

2023 Amendment: See 2023 Session Law for amendment made by sec. 5, Ch. 240, L. 2023. Amendment effective April 25, 2023.

Applicability: Section 10, Ch. 240, L. 2023, provided: "[This act] applies to school fiscal years beginning on or after July 1, 2023."

20-9-311. (Bracketed language effective July 1, 2024) Calculation of average number belonging (ANB) — 3-year averaging. (1) Average number belonging (ANB) must be computed for each budget unit as follows:

(a) compute an average enrollment by adding a count of regularly enrolled pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on the first Monday in February of the prior school fiscal year or the next school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of 180 and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than the minimum aggregate hours under 20-9-806, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) (a) Except as provided in subsection (4)(d), for the purpose of calculating ANB, enrollment in an education program:

(i) from 180 to 359 aggregate hours of pupil instruction per school year is counted as one-quarter-time enrollment;

(ii) from 360 to 539 aggregate hours of pupil instruction per school year is counted as half-time enrollment;

(iii) from 540 to 719 aggregate hours of pupil instruction per school year is counted as three-quarter-time enrollment; and

(iv) 720 or more aggregate hours of pupil instruction per school year is counted as full-time enrollment.

(b) Except as provided in subsection (4)(d), enrollment in a program intended to provide fewer than 180 aggregate hours of pupil instruction per school year may not be included for purposes of ANB.

(c) Enrollment in a self-paced program or course may be converted to an hourly equivalent based on the hours necessary and appropriate to provide the course within a regular classroom schedule.

(d) A school district may include in its calculation of ANB a pupil who is enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under subsection (4)(a) or (4)(b) if the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB of a pupil under this subsection (4)(d) must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency.

(e) [(i) Except as provided in subsection (4)(e)(ii),] a pupil in kindergarten through grade 12 who is concurrently enrolled in more than one public school, program, or district may not be counted as more than one full-time pupil for ANB purposes. When a pupil is concurrently enrolled in more than one district, any fractional enrollment under subsection (4)(a) must be attributed first to a pupil's nonresident district.

[(ii) A pupil who participates in a jumpstart program under Title 20, chapter 7, part 18, may be counted as up to 1 ¼ enrollment for ANB purposes. A district shall add one-quarter enrollment for a pupil who participated in an early literacy jumpstart program to the pupil's regular enrollment count under this subsection (4) in both the October and February enrollment counts following the student's participation in the jumpstart program.]

(5) For a district that is transitioning from a half-time to a full-time kindergarten program, the state superintendent shall count kindergarten enrollment in the previous year as full-time enrollment for the purpose of calculating ANB for the elementary programs offering full-time kindergarten in the current year. For the purposes of calculating the 3-year ANB, the superintendent of public instruction shall count the kindergarten enrollment as one-half enrollment and then add the additional kindergarten ANB to the 3-year average ANB for districts offering full-time kindergarten.

(6) When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) (a) The enrollment of preschool pupils, as provided in 20-7-117, may not be included in the ANB calculations.

(b) Except as provided in subsection (7)(c), a pupil who has reached 19 years of age by September 10 of the school year may not be included in the ANB calculations.

(c) A pupil with disabilities who is over 19 years of age and has not yet reached 21 years of age by September 10 of the school year and who is receiving special education services from a school district pursuant to 20-7-411(4)(a) may be included in the ANB calculations if:

(i) the student has not graduated;

(ii) the student is eligible for special education services and is likely to be eligible for adult services for individuals with developmental disabilities due to the significance of the student's disability; and

(iii) the student's individualized education program has identified transition goals that focus on preparation for living and working in the community following high school graduation since age 16 or the student's disability has increased in significance after age 16.

(d) A school district providing special education services pursuant to subsection (7)(c) is encouraged to collaborate with agencies and programs that serve adults with developmental disabilities in meeting the goals of a student's transition plan.

(8) The average number belonging of the regularly enrolled pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled pupils attending the schools of the district, except that:

(a) the ANB is calculated as a separate budget unit when:

(i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled pupils of the school must be calculated as a separate budget unit for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when geographic barriers exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iv) two or more districts consolidate or annex under the provisions of 20-6-422 or 20-6-423, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the consolidation or annexation. Each district shall retain a percentage of its basic entitlement for 3 additional years as follows:

(A) 75% of the basic entitlement for the fourth year;

(B) 50% of the basic entitlement for the fifth year; and

(C) 25% of the basic entitlement for the sixth year.

(b) when a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) when a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) when a school has been designated as nonaccredited by the board of public education because of failure to meet the board of public education's assurance and performance standards, the regularly enrolled pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) The district shall provide the superintendent of public instruction with semiannual reports of school attendance, absence, and enrollment for regularly enrolled students, using a format determined by the superintendent.

(10) (a) Except as provided in subsections (10)(b) and (10)(c), enrollment in a basic education program provided by the district through any combination of in-person or remote instruction may be included for ANB purposes only if the pupil is offered access to the complete range of educational services for the basic education program required by the accreditation standards adopted by the board of public education.

(b) Access to school programs and services for a student placed by the trustees in a private program for special education may be limited to the programs and services specified in an approved individual education plan supervised by the district.

(c) Access to school programs and services for a student who is incarcerated in a facility, other than a youth detention center, may be limited to the programs and services provided by the district at district expense under an agreement with the incarcerating facility.

(d) This subsection (10) may not be construed to require a school district to offer access to activities governed by an organization having jurisdiction over interscholastic activities, contests, and tournaments to a pupil who is not otherwise eligible under the rules of the organization.

(11) A district may include only, for ANB purposes, an enrolled pupil who is otherwise eligible under this title and who is:

(a) a resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school or an offsite instructional setting of the district;

(b) unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(c) unable to attend school due to the student's incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(d) receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the pupil's services are provided at the district's expense under an approved individual education plan supervised by the district;

(e) participating in the running start program at district expense under 20-9-706;

(f) receiving educational services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the department of public health and human services;

(g) enrolled in an educational program or course provided at district expense using remote delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs. The pupil:

(i) must meet the residency requirements for that district as provided in 1-1-215;

(ii) shall live in the district and must be eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or

(iii) must be enrolled in the educational program or course under a mandatory attendance agreement as provided in 20-5-321; or

(iv) must be receiving remote instruction under 20-7-118(1)(c).

(h) a resident of the district attending the Montana youth challenge program or a Montana job corps program under an interlocal agreement with the district under 20-9-707.

(12) A district shall, for ANB purposes, calculate the enrollment of an eligible Montana youth challenge program participant as half-time enrollment.

(13) (a) A district may, for ANB purposes, include in the October and February enrollment counts an individual who is otherwise eligible under this title and who during the prior school year:

- (i) resided in the district;
- (ii) was not enrolled in the district or was not enrolled full time; and
- (iii) completed an extracurricular activity with a duration of at least 6 weeks.

(b) (i) Except as provided in subsection (13)(b)(ii), each completed extracurricular activity under subsection (13)(a) may be counted as one-sixteenth enrollment for the individual, but under this subsection (13) the individual may not be counted as more than one full-time enrollment for ANB purposes.

(ii) Each completed extracurricular activity lasting longer than 18 weeks may be counted as one-eighth enrollment.

(c) For the purposes of this section, “extracurricular activity” means:

(i) a sport or activity sanctioned by an organization having jurisdiction over interscholastic activities, contests, and tournaments;

(ii) an approved career and technical student organization, pursuant to 20-7-306; or

(iii) a school theater production.

(14) (a) For an elementary or high school district that has been in existence for 3 years or more, the district’s maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated using the current year ANB for all budget units or the 3-year average ANB for all budget units, whichever generates the greatest maximum general fund budget.

(b) For a K-12 district that has been in existence for 3 years or more, the district’s maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated separately for the elementary and high school programs pursuant to subsection (14)(a) and then combined.

(15) The term “3-year ANB” means an average ANB over the most recent 3-year period, calculated by:

(a) adding the ANB for the budget unit for the ensuing school fiscal year to the ANB for each of the previous 2 school fiscal years; and

(b) dividing the sum calculated under subsection (15)(a) by three.

(a) the opening of a new elementary school or the reopening of an elementary school has been approved in accordance with 20-6-502. The average number belonging for the school must be established by the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction.

20-9-321. Allowable cost payment for special education. (1) As used in this section, "ANB" means the current year ANB.

(2) The 3-year average ANB provided for in 20-9-311 does not apply to the calculation and distribution of state special education allowable cost payments provided for in this section.

(3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district or special education cooperative using the following factors:

- (a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;
- (b) a per-ANB amount for the special education instructional block grant;
- (c) a per-ANB amount for the special education-related services block grant;
- (d) an amount for cooperatives meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and

(e) any other data required by the superintendent of public instruction to administer the provisions of this section.

(4) (a) The total special education allocation must be distributed according to the following formula:

- (i) 52.5% through instructional block grants;
- (ii) 17.5% through related services block grants;
- (iii) 25% to reimbursement of local districts; and
- (iv) 5% to special education cooperatives for administration and travel.

(b) Special education allowable cost payments outlined in subsection (4)(a) must be granted to each school district and cooperative with a special education program as follows:

(i) The instructional block grant limit prescribed in subsection (4)(a)(i) must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(ii) The special education-related services block grant limit prescribed in subsection (4)(a)(ii) must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education-related services amount, or to a cooperative that meets the requirements of 20-7-457. The special education-related services block grant amount for districts that are members of approved cooperatives must be awarded to the cooperatives.

(iii) If a district's allowable costs of special education exceed the total of the special education instructional and special education-related services block grant plus the required district match required by subsection (6), the district is eligible to receive at least a 40% reimbursement of the additional costs. To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district's block grants plus the required district match.

(iv) Of the amount distributed under subsection (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

(5) The superintendent of public instruction shall adopt rules necessary to implement this section.

(6) A district shall provide a 25% local contribution for special education, matching every \$3 of state special education instructional and special education-related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education-related services grant amount to the special education cooperative.

(7) The superintendent of public instruction shall determine the actual district match based on the trustees' reports. Any unmatched portion reverts to the state and must be subtracted from the district's ensuing year's special education allowable cost payment.

(8) A district that demonstrates severe economic hardship because of exceptional special education costs may apply to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.

20-9-324. Incentives for school districts meeting legislative goal for competitive base pay of teachers in public school districts — definitions. (1) A district, as defined in 20-6-101, must receive an extra quality educator payment for certain quality educators, calculated as provided in 20-9-306(16), if it meets the legislative goal for competitive base pay of teachers in subsection (2).

(2) The legislative goal for competitive base pay of teachers is a teacher base pay that in the applicable year:

(a) is equal to at least 10 times as much as the quality educator payment amount provided in 20-9-306(16); and

(b) for a school district classified as first class pursuant to Title 20, chapter 6, is not less than 70% of the teacher average pay in the school district.

(3) A district seeking an incentive for the subsequent school fiscal year under this section shall, by December 1, provide the data necessary, as determined by the superintendent of public instruction, to verify:

(a) that the district has met the legislative goal established in subsection (2) for the current year; and

(b) the number of full-time equivalent teachers that are in the first 3 years of the teacher's teaching career in the current year. The first 3 years of a teacher's teaching career do not include a year of teaching under an emergency authorization pursuant to 20-4-111.

(4) For the purposes of this section, the following definitions apply:

(a) "Teacher" means an individual who:

(i) holds a current class 1, 2, 4, 5, 6, or 7 license issued by the office of public instruction under rules adopted by the board of public education pursuant to 20-4-102; and

(ii) is employed by a school district in an instructional position requiring teacher licensure.

(b) "Teacher average pay" means the total compensation paid by a school district to all of its teachers, not including bonuses, stipends, or extended duty contracts, divided by the total full-time equivalent teachers employed in the district, with full-time equivalence rounded to the nearest tenth.

(c) "Teacher base pay" means the lowest salary for a beginning teacher incorporated in the district's collective bargaining agreement if the teachers' employment is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, or incorporated in district policy if the teachers' employment is not covered by a collective bargaining agreement, not including bonuses, stipends, or extended duty contracts.

20-9-325. Data-for-achievement payment. (1) The state shall provide a data-for-achievement payment to public school districts as defined in 20-6-101 and 20-6-701. The data-for-achievement payment is calculated as provided in 20-9-306.

(2) Funds received for the data-for-achievement payment must be used by a school district to pay for access fees or other costs associated with use of or participation in the statewide data system administered by the office of public instruction or a comparable data system provided by a private vendor, including data entry and staff training on use of the systems.

(3) Unless funds are otherwise appropriated at higher amounts by the legislature, the office of public instruction may spend no more than \$500,000 per biennium for the purposes of mediating with vendors, developing a plan, preparing a request for proposal solicitation package, managing the vendor contract, and implementing a plan with school districts for the statewide data system. This limitation does not apply if the office of public instruction develops and administers the statewide data system without a vendor.

20-9-326. Annual inflation-related adjustments to basic entitlements and per-ANB entitlements. (1) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall determine the inflation factor for the basic and per-ANB entitlements, the data-for-achievement payment, the per-ANB amount used to calculate the total special education allocation in 20-9-306, and the general fund payments in 20-9-327 through 20-9-330 in each fiscal year of the ensuing biennium. The inflation factor is calculated as follows:

(a) for the first year of the biennium, divide the consumer price index for July 1 of the prior calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the prior calendar year and raise the resulting ratio to the power of one-third; and

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and raise the resulting ratio to the power of one-third.

(2) The present law base for the entitlements referenced in subsection (1), calculated under Title 17, chapter 7, part 1, must consist of any enrollment increases or decreases plus the inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the biennium.

(3) For the purposes of this section, "consumer price index" means the consumer price index, U.S. city average, all urban consumers, for all items, using the 1982-84 base of 100, as published by the bureau of labor statistics of the U.S. department of labor.

20-9-333. Basic county tax for high school equalization and other revenue for county equalization of high school BASE funding program. (1) Subject to 15-10-420, the county commissioners of each county shall levy an annual basic county tax of 22 mills on the dollar of the taxable value of all taxable property within the county, except for property subject to a tax or fee under 61-3-321(2) or (3), 61-3-529, 61-3-537, 61-3-562, 61-3-570, and 67-3-204, for the purposes of high school equalization and state BASE funding program support. (a) In order to determine the amount of revenue raised by this levy that is retained by the county, the sum of the estimated revenue identified in subsection (2) must be subtracted from the sum of the county's high school tuition obligation and the total of the BASE funding programs of all high school districts of the county.

(b) If the basic levy and other revenue prescribed by this section produce more revenue than is required to repay a state advance for county equalization, the county treasurer shall remit the surplus funds to the department of revenue, as provided in 15-1-504, for deposit to the state general fund immediately upon occurrence of a surplus balance and each subsequent month, with any final remittance due no later than June 20 of the fiscal year for which the levy has been set.

(2) The revenue realized from the county's portion of the levy prescribed in this section and the revenue from the following sources must be used for the equalization of the high school BASE funding program of the county as prescribed in 20-9-335, and a separate accounting must be kept of the revenue by the county treasurer in accordance with 20-9-212(1):

(a) any money remaining at the end of the immediately preceding school fiscal year in the county treasurer's accounts for the various sources of revenue established in this section;

(b) any federal or state money distributed to the county as payment in lieu of property taxation, including federal forest reserve funds allocated under the provisions of 17-3-213;

20-9-335. Formula for apportionment of county equalization money. (1) The superintendent of public instruction shall calculate the apportionment of revenue available in the elementary and high school county equalization funds in accordance with the following procedure:

(a) determine the percentage that the county equalization money available for the support of the elementary direct state aid of the districts in the county is of the total elementary direct state aid of all districts in the county;

(b) multiply the elementary direct state aid amount of each district by the percentage determined in subsection (1)(a) to determine the portion of the county equalization money available to each school district.

(2) The procedure in subsection (1) must also be applied for the high school direct state aid.

(3) Territory situated within a county may not be excluded from the calculations of the county equalization money under this section solely because the territory lies within the boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year may not be considered in the apportionment procedure prescribed in this section.

(4) The county equalization money reported under these procedures is the first source of revenue for financing the elementary and high school direct state aid payments.

20-9-336. School equalization and property tax reduction account — uses.

(1) There is a school equalization and property tax reduction account in the state special revenue fund. Contingent on appropriation by the legislature, money in the account is for distribution to school districts as the second source of funding for state equalization aid as provided in 20-9-343. At fiscal yearend, any fund balance in the account exceeding what was appropriated must be transferred to the guarantee account established in 20-9-622.

(2) The account receives revenue as described in 20-9-331, 20-9-333, and 20-9-360.

(3) Beginning in fiscal year 2025, each December the superintendent of public instruction shall forecast the amount of revenue the account will receive in that fiscal year by dividing the sum of the taxable value of all property in the state reported by the department of revenue pursuant to 20-9-369 by 1,000 to determine a statewide value mill and then multiplying that amount by 95 mills, or the number of mills calculated by the department of revenue under 15-10-420(8) for the applicable fiscal year. If the forecasted amount differs from the amount determined through the same calculation in the prior fiscal year by \$2 million or more and is:

(a) less, then the superintendent shall:

(i) decrease the multiplier used to calculate the statewide elementary and high school guaranteed tax base ratios used for funding BASE budgets under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of guaranteed tax base aid distributed to eligible school districts equal to 85% of the decrease in the calculated amount between the 2 years; and

(ii) decrease the multiplier used to calculate the statewide elementary and high school mill value per ANB for school retirement guaranteed tax base purposes under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of retirement guaranteed tax base aid distributed to eligible school districts equal to 15% of the decrease in the calculated amount between the 2 years;

(b) more, then the superintendent shall increase the multipliers used in the guaranteed tax base formulas under 20-9-366 and in the formula for school major maintenance aid under 20-9-525 to the nearest whole number by an amount calculated by the superintendent to result in an increase in the amount of guaranteed tax base aid and school major maintenance aid distributed to eligible counties and school districts equal to 55% of the increase in the calculated amount between the 2 years in the following order, with any amount exceeding the caps under subsections (3)(b)(i) through (3)(b)(iii) flowing to the next mechanism:

(i) first, the multiplier used in calculating the statewide mill value per elementary and high school ANB for retirement purposes, not to exceed 305%;

(ii) second, the multiplier used in calculating the amount of state school major maintenance aid support for each dollar of local effort, not to exceed 365%; and

(iii) third, the multiplier used in calculating the facility guaranteed mill value per ANB for school facility entitlement guaranteed tax base purposes, not to exceed 300%.

(4) (a) The adjustments to the multipliers under subsection (3) are applicable to state equalization aid distributions in the fiscal year following the adjustment.

(b) Adjustments to the multipliers made under subsection (3) remain in effect in subsequent years unless further changed under 20-9-366 or subsection (3) of this section or as otherwise provided by law.

20-9-347. Distribution of BASE aid and special education allowable cost payments in support of BASE funding program — exceptions. (1) The superintendent of public instruction shall:

(a) supply the county treasurer and the county superintendent with a monthly report of the payment of BASE aid in support of the BASE funding program of each district of the county;

(b) in the manner described in 20-9-344, provide for a state advance to each county in an amount that is no less than the amount anticipated to be raised for the elementary and high school county equalization funds as provided in 20-9-331 and 20-9-333; and

(c) adopt rules to implement the provisions of subsection (1)(b).

(2) (a) The superintendent of public instruction is authorized to adjust the schedule prescribed in 20-9-344 for distribution of the BASE aid payments if the distribution will cause a district to register warrants under the provisions of 20-9-212(8).

(b) To qualify for an adjustment in the payment schedule, a district shall demonstrate to the superintendent of public instruction, in the manner required by the office, that the payment

schedule prescribed in 20-9-344 will result in insufficient money available in all funds of the district to make payment of the district's warrants. 20-9-348. Estimation of state equalization aid for budget purposes. The apportionment of state equalization aid shall be the second source of revenue in calculating the financing of the elementary district BASE funding program and the high school district BASE funding program. In order to allow for the estimation of the amount of money to be realized from this source of revenue when the county superintendent is estimating the general fund budget revenues, the county superintendent shall consider that the state BASE funding program revenues and county equalization moneys, together, will be capable of financing 100% of the BASE funding program.

20-9-349 and 20-9-350 reserved.

20-9-351. Funding of deficiency in BASE aid. If the money available for BASE aid is not the result of a reduction in spending under 17-7-140 and is not sufficient to provide the guaranteed tax base aid required under 20-9-366 through 20-9-369 and BASE aid support determined under 20-9-347, the superintendent of public instruction shall request the budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of BASE aid for the elementary and high school districts for the current biennium.

When the trustees of a district determine that a voted amount of financing is required for the general fund budget, the trustees shall submit the proposition to finance the voted amount to the electors who are qualified under 20-20-301 to vote upon the proposition. The ballot for the election must conform to the requirements of 15-10-425.

(3) If the proposition for an increase in the over-BASE budget levy for the general fund is approved by a majority vote of the electors voting at the election, the proposition carries and the trustees may use any portion or all of the authorized amount in adopting the final general fund budget. The trustees shall certify any over-BASE budget levy amount authorized by the election on the budget form that is submitted to the county superintendent, and the county commissioners shall levy the authorized number of mills on the taxable value of all taxable property within the district, as prescribed in 20-9-141.

(4) All levies adopted under this section must be authorized by the election conducted before August 1 of the school fiscal year for which it is effective.

20-9-366. Definitions. Subject to adjustments pursuant to 20-9-336, as used in 20-9-366 through 20-9-371, the following definitions apply:

(1) "County retirement mill value per elementary ANB" or "county retirement mill value per high school ANB" means the sum of the taxable valuation in the previous year of all property in the county divided by 1,000, with the quotient divided by the total county elementary ANB count or the total county high school ANB count used to calculate the elementary school districts' and high school districts' prior year total per-ANB entitlement amounts.

(2) (a) "District guaranteed tax base ratio" for guaranteed tax base funding for the BASE budget of an eligible district means the taxable valuation in the previous year of all property in the district, except for property value disregarded because of protested taxes under 15-1-409(2) or property subject to the creation of a new school district under 20-6-326, divided by the district's prior year GTBA budget area.

(b) “District mill value per ANB”, for school facility entitlement purposes, means the taxable valuation in the previous year of all property in the district, except for property subject to the creation of a new school district under 20-6-326, divided by 1,000, with the quotient divided by the ANB count of the district used to calculate the district’s prior year total per-ANB entitlement amount.

(3) “Facility guaranteed mill value per ANB”, for school facility entitlement guaranteed tax base purposes, means, subject to adjustment under 20-9-336, the sum of the taxable valuation in the previous year of all property in the state, multiplied by 140% and divided by 1,000, with the quotient divided by the total state elementary ANB count or the total state high school ANB count used to calculate the elementary school districts’ and high school districts’ prior year total per-ANB entitlement amounts.

(4) “Guaranteed tax base aid budget area” or “GTBA budget area” means the portion of a district’s BASE budget after the following payments are subtracted:

- (a) direct state aid;
- (b) the total data-for-achievement payment;
- (c) the total quality educator payment;
- (d) the total at-risk student payment;
- (e) the total Indian education for all payment;
- (f) the total American Indian achievement gap payment; and
- (g) the state special education allowable cost payment.

(5) (a) “Statewide elementary guaranteed tax base ratio” or “statewide high school guaranteed tax base ratio”, for guaranteed tax base funding for the BASE budget of an eligible district, means, subject to adjustment under 20-9-336, the sum of the taxable valuation in the previous year of all property in the state, multiplied by 254% for fiscal year 2024 and by 259% for fiscal year 2025 and each succeeding fiscal year and divided by the prior year statewide GTBA budget area for the state elementary school districts or the state high school districts. For fiscal year 2024 and subsequent fiscal years, the superintendent of public instruction shall increase the multiplier, not to exceed 262%, in this subsection (5)(a) as follows:

(i) for fiscal years 2024 through 2031, if the revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year is at least \$1 million more than the revenue transferred in the fiscal year 2 years prior, then:

(A) multiply the amount of increased revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year above the amount of revenue transferred in the fiscal year 2 years prior by 0.25, divide the resulting product by \$500,000, and round to the nearest whole number; and

(B) add the number derived in subsection (5)(a)(i)(A) as a percentage point increase to the multiplier used for the prior fiscal year;

(ii) for fiscal years 2024 through 2031, if the revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year is less than \$1 million more than the revenue transferred in the fiscal year 2 years prior, then the multiplier is equal to the multiplier used for the prior fiscal year;

(iii) for fiscal years 2032 and subsequent fiscal years, the multiplier is equal to the multiplier used for fiscal year 2031; and

(iv) for all multiplier increases under this subsection (5)(a), the calculations are made in the year prior to the year in which the increase to the multiplier takes effect and impacts distribution of guaranteed tax base aid.

(b) “Statewide mill value per elementary ANB” or “statewide mill value per high school ANB”, for school retirement guaranteed tax base purposes, means, subject to adjustment under 20-9-336, the sum of the taxable valuation in the previous year of all property in the state, multiplied by 189% and divided by 1,000, with the quotient divided by the total state elementary ANB count or the total state high school ANB amount used to calculate the elementary school districts’ and high school districts’ prior year total per-ANB entitlement amounts.

2023 Amendment — Coordination: See 2023 Session Law for amendment made by sec. 9, Ch. 745, L. 2023. Amendment effective July 1, 2023.

The amendments made to this section by sec. 4, Ch. 45, L. 2023, and sec. 5, Ch. 772, L. 2023, were replaced by sec. 9, Ch. 745, L. 2023, a coordination section.

20-9-367. Eligibility to receive guaranteed tax base aid or state debt service assistance for school facilities. (1) If the district guaranteed tax base ratio of an elementary or high school district is less than the corresponding statewide elementary or high school guaranteed tax base ratio, the district may receive guaranteed tax base aid based on the number of mills levied in the district in support of up to 35.3% of the basic entitlement, up to 35.3% of the total per-ANB entitlement, and up to 40% of the special education allowable cost payment budgeted within the general fund budget.

(2) If the county retirement mill value per elementary ANB or the county retirement mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or high school ANB, the county may receive guaranteed tax base aid based on the number of mills levied in the county in support of the retirement fund budgets of the respective elementary or high school districts in the county.

(3) For the purposes of 20-9-370 and 20-9-371, if the district mill value per elementary ANB or the district mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or statewide mill value per high school ANB, the district may receive debt service assistance in the form of a state advance or reimbursement for school facilities in support of the debt service fund.

History: En. Sec. 61, Ch. 11, Sp. L. June 1989; amd. Sec. 8, Ch. 711, L. 1991; amd. Sec. 32, Ch. 767, L. 1991; amd. Sec. 31, Ch. 633, L. 1993; amd. Sec. 2, Ch. 586, L. 1995; amd. Secs. 4, 5, Ch. 211, L. 1999; amd. Sec. 9, Ch. 11, Sp. L. May 2000; amd. Sec. 5, Ch. 404, L. 2017.

20-9-368. Amount of guaranteed tax base aid. (1) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the elementary school districts in the county is the difference between the county mill value per elementary ANB and the statewide mill value per elementary ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the elementary districts in the county.

(2) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the high school districts in the county is the difference between the county mill value per high school ANB and the statewide mill value per high school ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the high school districts in the county.

(3) The amount of guaranteed tax base aid that a district may receive in support of up to 35.3% of the basic entitlement, up to 35.3% of the total per-ANB entitlement budgeted within the general fund budget, and up to 40% of the special education payment is calculated in the following manner:

(a) multiply the sum of the district's prior year GTBA budget area by the corresponding statewide guaranteed tax base ratio;

(b) subtract the prior year taxable valuation of the district from the product obtained in subsection (3)(a); and

(c) divide the remainder by 1,000 to determine the equivalent to the dollar amount of guaranteed tax base aid for each mill levied.

(4) Guaranteed tax base aid provided to any county or district under this section is earmarked to finance the fund or portion of the fund for which it is provided. If a county or district receives more guaranteed tax base aid than it is entitled to, the excess must be returned to the state as required by 20-9-344.

(a) providing each school district and county superintendent, by March 1 of each year, with the preliminary statewide and district guaranteed tax base ratios and, by May 1 of each year, with the final statewide and district guaranteed tax base ratios, for use in calculating the guaranteed tax base aid available for the ensuing school fiscal year;

(b) providing each school district and county superintendent, by March 1 of each year, with the preliminary statewide, county, and district mill values per ANB and, by May 1 of each year, with the final statewide, county, and district mill values per ANB, for use in calculating the guaranteed tax base aid and state advance and reimbursement for school facilities available to counties and districts for the ensuing school fiscal year;

(c) requiring each county and district that qualifies and applies for guaranteed tax base aid to report to the county superintendent all budget and accounting information required to administer the guaranteed tax base aid;

(e) distributing the guaranteed tax base aid entitlement to each qualified county or district from the appropriations for that purpose.

(2) The superintendent shall adopt rules necessary to implement 20-9-366 through 20-9-369.

(3) The department of revenue shall provide the superintendent of public instruction by December 1 of each year a final determination of the taxable value of property within each school district and county of the state reported to the department of revenue based on information delivered to the county clerk and recorder as required in 15-10-305.

(4) The superintendent of public instruction shall calculate the district and statewide guaranteed tax base ratios by applying the prior year's direct state aid payment.

History: En. Sec. 63, Ch. 11, Sp. L. June 1989; amd. Sec. 2, Ch. 790, L. 1991; amd. Sec. 34, Ch. 633, L. 1993; amd. Sec. 3, Ch. 586, L. 1995.

20-9-370. Definitions. As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(1) "School facility entitlement" means:

(a) \$300 per ANB for an elementary school district;

(b) \$450 per ANB for a high school district; or

(c) \$370 per ANB for an approved and accredited junior high school or middle school.

(2) "State advance for school facilities" is the amount of state equalization aid distributed to an eligible district to pay the debt service obligation for a bond in the first school fiscal year in which a debt service payment is due for the bond.

(3) "State reimbursement for school facilities" means the amount of state equalization aid distributed to a district that:

(a) has a district mill value per ANB that is less than the corresponding facility guaranteed mill value per ANB; and

(b) has a debt service obligation in the ensuing school year on bonds.

(4) "Total school facility entitlement" means the school facility entitlement times the total ANB for the district.

History: En. Sec. 38, Ch. 633, L. 1993; amd. Sec. 38, Ch. 18, L. 1995; amd. Sec. 4, Ch. 586, L. 1995; amd. Sec. 5, Ch. 550, L. 2003.

20-9-371. Calculation and uses of school facility entitlement amount. (1) The state reimbursement for school facilities for a district is the percentage determined in 20-9-346(2)(b) times (1-(district mill value per ANB/facility guaranteed mill value per ANB)) times the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligations on general obligation bonds that qualify under the provisions of 20-9-370(3).

(2) The state advance for school facilities for a district is determined as follows:

(a) Calculate the percentage of the district's debt service payment that will be advanced by the state using the district ANB, the district mill value and the statewide mill value for the current year, and the percentage used to determine the proportionate share of state reimbursement for school facilities in the prior year.

(b) Multiply the percentage determined in subsection (2)(a) by the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligation for general obligation bonds to which the state advance applies.

(3) Within the available appropriation, the superintendent of public instruction shall first distribute to eligible districts the state advance for school facilities. From the remaining appropriation, the superintendent shall distribute to eligible districts the state reimbursement for school facilities.

(4) The trustees of a district may apply the state reimbursement for school facilities to reduce the levy requirement in the ensuing school fiscal year for all outstanding bonded indebtedness on general obligation bonds sold in the debt service fund of the district. The trustees may apply the state advance for school facilities to reduce the levy requirement in the current school fiscal year for debt service payments on general obligation bonds to which the state advance for school facilities applies.

20-9-406. Limitations on amount of bond issue — definition of federal impact aid basic support payment — oil and natural gas payment. (1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is 100% of the taxable value of the property subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, regardless of whether the general obligation bonds finance elementary program improvements or high school program improvements, is the sum of 100% of the taxable value of the property in its elementary program subject to taxation and 100% of the taxable value of the property in its high school program subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(c) (i) Unless the maximum amount calculated under subsection (1)(a) yields a greater amount, the maximum amount for which an elementary district or a high school district with a district mill value per elementary ANB or per high school ANB that is less than the facility guaranteed mill value per elementary ANB or high school ANB under 20-9-366 may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is the corresponding facility guaranteed mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, unless the maximum amount calculated under subsection (1)(b) yields a greater amount, the maximum amount for which the district may become indebted is the sum of the facility guaranteed mill value per elementary ANB times 1,000 times the elementary ANB of the district and the facility guaranteed mill value per high school ANB times 1,000 times the high school ANB of the district. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(ii) If mutually agreed upon by the affected districts, for the purpose of calculating its maximum bonded indebtedness under this subsection (1)(c), a district may include the ANB of the district plus the number of students residing within the district for which the district or county pays tuition for attendance at a school in an adjacent district. The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB has been included in the ANB of the sending district pursuant to the mutual agreement. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(2) The maximum amounts determined in subsection (1) do not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to general obligation bonds issued for the repayment of tax protests lost by the district. All general obligation bonds issued in excess of the amount are void, except as provided in this section.

(3) The maximum amount of impact aid revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount

equal to three times the average of the school district's annual federal impact aid basic support payments for the 5 years immediately preceding the issuance of the bonds. However, at the time of issuance of the bonds, the average annual payment of principal of and interest on the impact aid bonds each year may not exceed 35% of the total federal impact aid basic support payments of the school district for the current year.

(4) The maximum amount of oil and natural gas revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual oil and natural gas production taxes received pursuant to 15-36-331, 15-36-332, and 20-9-310 for the 2 fiscal years immediately preceding the issuance of the bonds. At the time of the issuance of the bonds, the average annual payment of principal of and interest on the oil and natural gas revenue bonds each year may not exceed 35% of the total oil and natural gas production taxes received by the school district under the limitations in 20-9-310 for the immediately preceding fiscal year. If the oil and natural gas revenue bonds are also secured by a deficiency tax levy as provided in 20-9-437, the debt limitation provided in subsection (1) of this section applies to the bonds.

(5) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(6) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

(7) As used in this part, "federal impact aid basic support payment" means the annual impact aid revenue received by a district under 20 U.S.C. 7703(b) but excludes revenue received for impact aid special education under 20 U.S.C. 7703(d) and impact aid construction under 20 U.S.C. 7707.

20-9-407. Industrial facility agreement for bond issue in excess of maximum.

(1) Pursuant to an agreement between a new major industrial facility and a school district and as a precondition to qualifying as class five property under 15-6-135(1)(c) before the amendment of 15-6-135 in Chapter 644, Laws of 2023, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, as much of the principal and interest on the bonds provided for under former subsection (1) of this section before the amendment in Chapter 644, Laws of 2023 as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in former subsection (1) of this section before the amendment in Chapter 644, Laws of 2023, the new major industrial facility is entitled, after all the current indebtedness of the school district has been paid, to a tax credit over a period of no more than 20 years. The credit must as a total amount be equal to the amount that the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(2) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this part, the following definitions apply:

(1) "Amortization bond" means that form of bond on which a part of the principal is required to be paid each time that interest becomes due and payable. The part payment of principal increases with each following installment in the same amount that the interest payment decreases, so that the combined amount payable on principal and interest is the same on each payment date. However, the payment on the initial interest payment date may be less or greater than the amount of other payments on the bond, reflecting the payment of interest only or the payment of interest for a period different from that between other interest payment dates. The final payment may vary from prior payments in amount as a result of rounding prior payments.

(2) "General obligation bonds" means bonds that pledge the full faith and credit and the taxing power of a school district.

(3) "Impact aid revenue bonds" means bonds that pledge and are payable solely from federal impact aid basic support payments received and deposited to the credit of the fund established in 20-9-514.

(4) "Oil and natural gas revenue bonds" means bonds that pledge and are payable from a first lien on oil and natural gas production taxes received by a school district pursuant to 20-9-310. Oil and natural gas revenue bonds to which a tax deficiency is pledged are not considered general obligation bonds that are eligible to receive guaranteed tax base aid pursuant to 20-9-367 but are to be considered in determining the debt limit of a school district for the purposes of 20-9-406.

(5) "Serial bonds" means a bond issue payable in annual installments of principal commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing or subject to mandatory sinking fund redemption in each installment, commencing with the installment payable in the fourth year after the date of issue, not exceeding three times the principal amount of the bonds payable in the immediately preceding installment.

20-9-410. Limitation of term and interest — timing for redemption. (1) School district bonds may not be issued for a term longer than 30 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. Other than refunding or redeeming bonds, all bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and the redemption option must be stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

History: En. 75-7107 by Sec. 308, Ch. 5, L. 1971; amd. Sec. 7, Ch. 234, L. 1971; amd. Sec. 3, Ch. 284, L. 1973; R.C.M. 1947, 75-7107; amd. Sec. 11, Ch. 500, L. 1981; amd. 20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue refunding bonds, the trustees, at a regular meeting or a special meeting, shall adopt a resolution setting forth:

- (a) the facts regarding the outstanding bonds that are to be redeemed;
- (b) the reasons for issuing new bonds; and
- (c) the term and details of the new bond issue.

(2) After the adoption of the resolution, the trustees shall:

- (a) sell the bonds at a private negotiated sale; or
- (b) at their option, give notice of the sale of the new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell the new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Except for bonds refunded by a school district under the provisions of Title 17, chapter 5, part 16, including any variable rate finance program that is authorized, bonds may not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least $\frac{1}{2}$ of 1% a year less than the rate of interest in the bonds to be refunded or redeemed.

(4) If a refunding bond issue refunds only a portion of an outstanding bond issue, the unrefunded portion of the outstanding bond issue and the refunding bond issue must be treated as a single bond issue for the purposes of 20-9-408.

(5) Refunding bonds may be issued in a principal amount greater than the principal amount of the outstanding bonds if there is a reduction of total debt service cost to the district.

(6) (a) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which the bonds mature or are subject to redemption, provided that the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale of the bonds, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or outside of the state.

(b) Except as provided in subsection (6)(c), funds deposited must be invested in securities that are general obligations of the United States or the principal and interest of which are guaranteed by the United States and that mature or are callable at the option of the holder on the dates and bear interest at the rates and are payable on the dates that are required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each bond being refunded to its maturity or redemption date, if called for redemption, to pay the principal of the bond at maturity or upon the redemption date, and to pay any redemption premium.

(c) If the funds initially deposited in escrow are sufficient, without regard to any investment income on those funds, to redeem in full the bonds being refunded as of their redemption date and to pay the principal of and interest and premium on the bonds being refunded at their stated maturities, the funds may be invested in the securities described in subsection (6)(b) or in a money market fund that is composed exclusively of eligible securities described in 7-6-202 and that otherwise satisfies the requirements of 7-6-202(4).

(d) The escrow account must be irrevocably appropriated to the payment of the principal of and interest and redemption premium on the bonds being refunded. Funds in the debt service fund for the payment of the bonds being refunded and not required for the payment of principal of or interest on the bonds being refunded due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable

costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds that are refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

20-9-438. Preparation of general obligation debt service fund budget — operating reserve. (1) The trustees of each school district having outstanding general obligation bonds shall include in the debt service fund of the final budget adopted in accordance with 20-9-133 an amount of money that is necessary to pay the interest and the principal amount becoming due during the ensuing school fiscal year for each series or installment of bonds, according to the terms and conditions of the bonds and the redemption plans of the trustees.

(2) The trustees shall also include in the debt service fund of the final budget:

(a) the amount of money necessary to pay the special improvement district assessments levied against the school district that become due during the ensuing school fiscal year;

(b) a limited operating reserve for the school fiscal year following the ensuing school fiscal year as provided in subsection (4); and

(c) an amount to satisfy the reserve requirement for oil and natural gas revenue bonds.

(3) The trustees of a school district having outstanding oil and natural gas revenue bonds shall include in the debt service reserve account of the final budget adopted in accordance with 20-9-133 oil and natural gas production taxes received by a school district or other legally available funds sufficient to satisfy the reserve requirement. Funds remaining in the debt service reserve account may not be reappropriated or reverted and must be used for the purposes set forth in 20-9-474.

(4) At the end of each school fiscal year, the trustees of a school district may designate a portion of the end-of-the-year fund balance of the debt service fund to be earmarked as a limited operating reserve for the purpose of paying, whenever a cash flow shortage occurs, debt service fund warrants and bond obligations that must be paid from July 1 through November 30 of the school fiscal year following the ensuing school fiscal year. Any portion of the debt service fund end-of-the-year fund balance not earmarked for limited operating reserve purposes must be reappropriated to be used for property tax reduction as provided in 20-9-439.

(5) The county superintendent shall compare the final budgeted amount for the debt service fund with the bond retirement and interest requirement and the special improvement district assessments for the school fiscal year just beginning as reported by the county treasurer in the statement supplied under the provisions of 20-9-121. If the county superintendent finds that the requirement stated by the county treasurer is more than the final budget amount, the county superintendent shall increase the budgeted amount for interest or principal in the debt service fund of the final budget. The amount confirmed or revised by the county superintendent is the final budget expenditure amount for the debt service fund of the school district.

20-9-439. Computation of net levy requirement for general obligation bonds — procedure when levy inadequate. Subject to 20-6-326, the following provisions apply:

(1) The county superintendent shall compute the levy requirement for each school district's general obligation debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state advance for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371;

(iv) funds transferred from the impact aid fund established pursuant to 20-9-514 that are authorized by 20-9-437(2) to be used to repay the district's bonds; and

(v) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from sources such as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for payment purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county.

20-9-440. Payment of debt service obligations — termination of interest. (1) The school district shall provide the county treasurer with a general obligation bond, oil and natural gas revenue bond, or impact aid revenue bond debt services schedule. The county treasurer shall maintain a separate debt service fund for each school district and, if bonds are to be issued as either impact aid revenue bonds or oil and natural gas revenue bonds, shall maintain a separate impact aid revenue bond debt service fund or oil and natural gas revenue bond debt service fund, as applicable, and an impact aid revenue bond debt service reserve account or oil and natural gas revenue bond debt service reserve account, if required. The school district shall credit all tax money, oil and natural gas revenue, or impact aid revenue collected for debt service to the appropriate fund and use the money credited to the fund for the payment of debt service obligations in accordance with the school financial administration provisions of this title.

(2) The county treasurer or, if a district has established an investment account and subsidiary checking account for the district's debt service fund under 20-9-235, the school district shall pay from the debt service fund all amounts of interest and principal on school district bonds as the interest or principal becomes due when the coupons or bonds are presented and surrendered for payment and shall pay all special improvement district assessments as they become due. If the bonds are held by the state of Montana, then all payments must be remitted to the state treasurer who shall cancel the coupons or bonds and return the coupons

or bonds to the county treasurer with the state treasurer's receipt. If the bonds are not held by the state of Montana and the interest or principal is made payable at some designated bank or financial institution, the county treasurer shall remit the amount due for interest or principal to the bank or financial institution for payment against the surrender of the canceled coupons or bonds.

(3) Whenever any school district bond or installment on school district bonds becomes due and payable, interest ceases on that date unless sufficient funds are available to pay the bond when it is presented for payment or when payment of an installment is demanded. In either case, interest on the bond or installment continues until payment is made.

(4) Any installment on interest and principal on bonds held by the state that is not promptly paid when due draws interest at an annual rate of 6% from the date due until actual payment, irrespective of the rate of interest on the bonds.

20-9-441. Redemption of bonds — investment of debt service fund money.

(1) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more bonds of the school district held by the state of Montana, the county treasurer shall apply the money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice not less than 30 days before the next interest due date to the board of investments that the bonds will be paid on the interest due date. Before the interest due date, the county treasurer shall remit to the state treasurer the amount of money that is necessary to pay the bonds that are being redeemed and the interest due on the bonds. When the state treasurer receives the payment, the treasurer shall cancel the bonds and any unpaid coupons of the bonds and return the canceled bonds and coupons to the county treasurer.

(2) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more optional bonds of the school district not held by the state of Montana, not yet due but then redeemable or becoming redeemable on the next interest due date, the county treasurer shall apply the available money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice to the holder of the bonds, if known, or to any bank or financial institution at which the bonds are payable, at least 30 days before the next interest due date, that the bonds will be paid and redeemed on that date. If the bonds are payable at some bank or financial institution, the county treasurer shall remit to the bank or financial institution, before the interest due date, an amount sufficient to pay and redeem the bonds. If the bonds are not presented for payment and redemption on the interest due date, the accrual of interest ceases on the interest due date.

(3) Whenever there is money available in any school district debt service fund sufficient to pay and redeem one or more outstanding bonds not yet due or redeemable and not held by the state of Montana, the trustees of the school district may direct the county treasurer to purchase the bonds of the district if this can be done at not more than par and accrued interest or at a reasonable premium that the trustees may feel justified in paying, but not exceeding 6%.

(4) Whenever the trustees cannot purchase outstanding bonds of the school district at a reasonable price, the available debt service fund money must be invested by the trustees under the provisions of 20-9-213(4). The investments must be sold in ample time before the debt service fund money is required for the payment of the bonds of the school district.

20-9-443. Disposition of remaining debt service fund. (1) Except as provided in subsection (2), when all of the bonds, bond interest, and special improvement district obligations of a school district have been fully paid, all money remaining in the debt service fund for the school district and all money that may come into the debt service fund from the payment of the delinquent taxes must be transferred by the county treasurer to the building reserve levy fund, the technology acquisition and depreciation fund, or the general fund as designated by the school district if the subsequent use of the funds by the school district is limited to constructing, equipping, or enlarging school buildings or purchasing land needed for school purposes in the district.

(2) Any federal impact aid funding remaining in the debt service fund of a school district that has fully repaid the bonds and bond interest must revert to the district's impact aid fund established pursuant to 20-9-514.

20-9-471. Issuance of obligations — authorization — conditions. (1) The trustees of a school district may, without a vote of the electors of the district, secure loans from or issue and sell to the board of investment, as provided in subsection (2), a bank, building and loan association, savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, obligations for the purpose of financing all or a portion of:

(a) the costs of vehicles and equipment and construction of buildings used primarily for the storage and maintenance of vehicles and equipment;

(b) the costs associated with renovating, rehabilitating, and remodeling facilities, including but not limited to roof repairs, heating, plumbing, electrical systems, and cost-saving measures as defined in 90-4-1102;

(c) the costs of nonpermanent modular classrooms necessary for student instruction when existing buildings of the district are determined to be inadequate by the trustees;

(d) any other expenditure that the district is otherwise authorized to make, subject to subsection (5), including the payment of settlements of legal claims and judgments; and

(e) the costs associated with the issuance and sale of the obligations.

(2) (a) Before seeking to secure a loan or issue and sell obligations to a regulated lender specified in subsection (1), the trustees shall first offer the board of investments a written notice of the board's right of first refusal.

(b) If the board of investments accepts the offer to issue a loan or purchase obligations, the board shall provide a written response to the trustees by the later of:

(i) 120 days following delivery of the trustees' offer to the board; or

(ii) the day after the next meeting of the board of investments.

(c) If the trustees have not received a written acceptance by the deadline provided for in subsection (2)(b), the trustees may seek to secure a loan or issue and sell an obligation to a regulated lender specified in subsection (1).

(3) The term of the obligation, including an obligation for a qualified energy project, may not exceed 15 fiscal years. For the purposes of this subsection, a "qualified energy project" means a project designed to reduce energy use in a school facility and from which the resulting energy cost savings are projected to meet or exceed the debt service obligation for financing the project, as determined by the department of environmental quality.

(4) (a) At the time of issuing the obligation, there must exist an amount in the budget of an applicable budgeted fund of the district for the current fiscal year available and sufficient to make the debt service payment on the obligation coming due in the current year. The budget of an applicable budgeted fund of the district for each following year in which any portion of the principal of and interest on the obligation is due must provide for payment of that principal and interest.

(b) For an obligation sold under subsection (1)(d) for the purposes of paying a tax protest refund, a district may pledge revenue from a special tax protest refund levy for the repayment of the obligation, pursuant to 15-1-402(7).

(5) Except as provided in 20-9-502, 20-9-503, and subsections (1)(a) and (1)(c) of this section, the proceeds of the obligation may not be used to acquire real property or construct a facility unless:

(a) the acquisition or construction project does not constitute more than 20% of the square footage of the existing real property improvements made to a facility containing classrooms;

(b) the 20% square footage limitation may not be exceeded within any 5-year period; and

(c) the electors of the district approve a proposition authorizing the trustees to apply for funds through the board of investments or a bank, building and loan association, savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, for the construction project. The proposition must be approved at an election held in accordance with all of the requirements of 20-9-428, except that the proposition is considered to have passed if a majority of the qualified electors voting approve the proposition.

(6) The school district may not submit for a vote of the electors of the district a proposition to impose a levy to pay the principal or any interest on an obligation that is payable from the guaranteed cost savings under energy performance contracts as defined in 90-4-1102.

(7) Except as provided in subsection (4)(b), the obligation must state clearly on its face that the obligation is not secured by a pledge of the school district's taxing power but is payable from amounts in its general fund or other legally available funds.

(8) An obligation issued is payable from any legally available fund of the district and constitutes a general obligation of the district.

(9) The obligation may bear interest at a fixed or variable rate and may be sold to the board of investments or a bank, building and loan association, savings and loan association, or

credit union that is a regulated lender, as defined in 31-1-111, at par, at a discount, or with a premium and on any other terms and conditions that the trustees determine to be in the best interests of the district.

(10) The principal amount of the obligation, when added to the outstanding bonded indebtedness of the district, may not exceed the debt limitation established in 20-9-406.

20-9-472. Security for impact aid revenue bonds — agreement of state. (1) To secure the payment of principal and interest on impact aid revenue bonds, the trustees of a school district by resolution or indenture of trust may provide that impact aid revenue bonds are secured by a first lien on the federal impact aid basic support payments received and credited to the fund established in 20-9-514 and pledge to the holders of the impact aid revenue bonds all of the money in the impact aid revenue bond debt service fund.

(2) Upon receipt of the federal impact aid basic support payment, the county treasurer shall deposit in the impact aid revenue bond debt service fund the amount that is required to pay the principal of and interest on the impact aid revenue bonds coming due in the next 12-month period and to restore any deficiency in the impact aid revenue bond debt service reserve account. Excess federal impact aid basic support payment revenue must be deposited as provided in 20-9-514. The school district and county treasurer may designate a trustee for holders of the bonds to receive the school district's impact aid revenue for purposes of making the annual debt service payments on impact aid revenue bonds and may authorize the trustee to establish and maintain the impact aid revenue bond debt service fund and impact aid revenue bond debt service reserve account.

(3) Any pledge made pursuant to this section is valid and binding from the time the pledge is made, and the money pledged and received by the county treasurer on behalf of the school district to be placed in the impact aid revenue bond debt service fund account is immediately subject to the lien of the pledge without any future physical delivery or further act. A lien of any pledge is valid and binding against all parties that have claims of any kind against the school district, regardless of whether the parties have notice of the lien. The bond resolution or indenture of trust that creates the pledge, when adopted by the trustees of any district, is notice of the creation of the pledge, and those instruments are not required to be recorded in any other place to perfect the pledge.

(4) The state pledges to and agrees with the holders of impact aid revenue bonds that the state will not limit, alter, or impair the ability of a school district to qualify for impact aid revenue or in any way impair the rights and remedies of the bondholders until all bonds issued under this section, together with interest on the bonds, interest on any unpaid installments of principal or interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders, are fully met and discharged. The trustees of any district, as agents for the state, may include this pledge and undertaking in resolutions and indentures authorizing and securing the bonds.

20-9-473. Security for oil and natural gas revenue bonds. (1) To secure the payment of principal of and interest on oil and natural gas revenue bonds, the trustees of a school district, by resolution or indenture of trust, may provide that oil and natural gas revenue bonds are secured by a first lien on the oil and natural gas production revenue received pursuant to 20-9-310 and pledge to the holders of the oil and natural gas revenue bonds all of the oil and natural gas revenue deposited in the district's debt service fund.

(2) Upon receipt of oil and natural gas revenue, the county treasurer shall deposit in the district's debt service fund the amount that is required to pay the principal of and interest on the oil and natural gas revenue bonds due in the next 12-month period and to restore any deficiency in the oil and natural gas revenue debt service reserve account up to reserve requirements. Any remaining oil and natural gas revenue must be deposited as directed by the board of trustees as provided in 20-9-310. The school district and county treasurer may designate a trustee for holders of the bonds to receive the school district's oil and natural gas revenue for purposes of making the annual debt service payments on oil and natural gas revenue bonds and may

authorize the trustee to establish and maintain the oil and natural gas revenue bond debt service fund and oil and natural gas revenue bond debt service reserve account.

(3) Any pledge made pursuant to this section is valid and binding from the time the pledge is made, and the money pledged and received by the county treasurer on behalf of the school district to be placed in the debt service fund is immediately subject to the lien of the pledge without any future physical delivery or further act. A lien of any pledge is valid and binding against all parties that have claims of any kind against the school district regardless of whether the parties have notice of the lien. The bond resolution or indenture of trust that creates the pledge, when adopted by the trustees of any district, is notice of the creation of the pledge, and those instruments are not required to be recorded in any other place to perfect the pledge.

(4) The state may not limit, alter, or impair the ability of a school district to qualify for oil and natural gas revenue or in any way impair the rights and remedies of the bondholders until all bonds issued under this section, together with interest on the bonds, interest on any unpaid installments of principal or interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders, are fully met and discharged. The trustees of any district, as agents for the state, may include a pledge and undertaking in resolutions and indentures authorizing and securing the bonds as described in this subsection.

History: En. Sec. 27, Ch. 400, L. 2013.

20-9-474. Oil and natural gas revenue bond debt service reserve account. (1) If a school district issues oil and natural gas revenue bonds, the school district shall establish and maintain an oil and natural gas revenue bond debt service reserve account, to which there must be deposited or transferred an amount from bond proceeds or oil and natural gas production taxes received by a school district or other legally available funds sufficient to satisfy the reserve requirement.

(2) All money held in the oil and natural gas revenue bond debt service reserve account must be used solely for the payment of the principal of or interest on the bonds secured in whole or in part by the account or the debt service fund payments with respect to the bonds, the purchase or redemption of the bonds, the payment of interest on the bonds, or the payment of any redemption premium required to be paid when the bonds are redeemed prior to maturity.

(1) The trustees of a district or the management board of a cooperative employing personnel who are members of the teachers' retirement system or the public employees' retirement system, who are covered by unemployment insurance, or who are covered by any federal social security system requiring employer contributions shall establish a retirement fund for the purposes of budgeting and paying the employer's contributions to the systems as provided in subsection (2)(a). The district's or the cooperative's contribution for each employee who is a member of the teachers' retirement system must be calculated in accordance with Title 19, chapter 20, part 6. The district's or the cooperative's contribution for each employee who is a member of the public employees' retirement system must be calculated in accordance with 19-3-316. The district's or the cooperative's contributions for each employee covered by any federal social security system must be paid in accordance with federal law and regulation. The district's or the cooperative's contribution for each employee who is covered by unemployment insurance must be paid in accordance with Title 39, chapter 51, part 11.

(2) (a) The district or the cooperative shall pay the employer's contributions to the retirement, federal social security, and unemployment insurance systems from the retirement fund for the following:

(i) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from state or local funding sources;

(ii) a cooperative employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the cooperative's interlocal cooperative fund if the fund is supported solely from districts' general funds and state special education allowable cost payments, pursuant to 20-9-321, or are paid from the miscellaneous programs fund, provided for in 20-9-507, from money received from the medicaid program, pursuant to 53-6-101;

(iii) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the district's school food services fund provided for in 20-10-204; and

(3) The trustees of a district required to make a contribution to a system referred to in subsection (1) shall include in the retirement fund of the final budget the estimated amount of the employer's contribution. After the final retirement fund budget has been adopted, the trustees shall pay the employer contributions to the systems in accordance with the financial administration provisions of this title.

(4) When the final retirement fund budget has been adopted, the county superintendent shall establish the levy requirement by:

(a) determining the sum of the money available to reduce the retirement fund levy requirement by adding:

(i) any anticipated money that may be realized in the retirement fund during the ensuing school fiscal year;

(ii) oil and natural gas production taxes;

(iii) coal gross proceeds taxes under 15-23-703;

(iv) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the retirement fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the retirement fund. The retirement fund operating reserve may not be more than 20% of the final retirement fund budget for the ensuing school fiscal year and must be used for the purpose of paying retirement fund warrants issued by the district under the final retirement fund budget.

(v) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid;

(b) notwithstanding the provisions of subsection (9), subtracting the money available for reduction of the levy requirement, as determined in subsection (4)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(5) The county superintendent shall:

(a) total the net retirement fund levy requirements separately for all elementary school districts, all high school districts, and all community college districts of the county, including any prorated joint district or special education cooperative agreement levy requirements; and

(b) report each levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values as the respective county levy requirements for elementary district, high school district, and community college district retirement funds.

(6) The county commissioners shall fix and set the county levy or district levy in accordance with 20-9-142.

(7) The net retirement fund levy requirement for a joint elementary district or a joint high school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

(8) The net retirement fund levy requirement for districts that are members of special education cooperative agreements must be prorated to each county in which the district

is located in the same proportion as the special education cooperative budget is prorated to the member school districts. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county in the same manner as provided in 20-9-151, and the county commissioners shall fix and levy the net retirement fund levy for each county in the same manner as provided in 20-9-152.

(9) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (5)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

(10) The levy for a community college district may be applied only to property within the district.

(11) The county superintendent of each county shall submit a report of the revenue amounts used to establish the levy requirements for county school funds supporting elementary and high school district retirement obligations to the superintendent of public instruction on or before September 15. The report must be completed on forms supplied by the superintendent of public instruction.

20-9-502. Purpose and authorization of building reserve fund — subfund structure. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(i) the purpose or purposes for which the new or addition to the building reserve will be used;

(ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). The trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified improvements or projects meeting the requirements of 20-9-525(2). The 10-mill limit under this subsection (3) must be calculated using the district's total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) may not exceed the district's school major maintenance amount. For the purposes of this section, the term "school major maintenance amount" means the sum of \$15,000 and the product of \$110 multiplied by the district's budgeted ANB for the prior fiscal year. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than March 31 of each fiscal year a resolution:

(A) identifying the anticipated improvements or projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to 20-9-525(3), and the resulting estimated number of mills to be levied using the district's taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.

(b) Proceeds from the levy may be expended only for the purposes under 20-9-525(2), and the expenditure of the money must be reported in the annual trustees' report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this subsection (3) during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) in the district's building reserve fund budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this subsection (3) is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3).

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised

by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district's local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

- (i) open a new school under the provisions of Title 20, chapter 6;
- (ii) close a school;
- (iii) replace a school building;
- (iv) consolidate with or annex another district under the provisions of Title 20, chapter 6;

or

(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or \$250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for consolidation or annexation:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) (a) A subfund in the building reserve fund must be created for:

(i) the funds transferred to the building reserve fund for school safety and security pursuant to 20-9-236; and

(ii) funds generated by a voter-approved levy for school and student safety and security pursuant to subsection (5)(b) of this section.

(b) A voted levy may be imposed with the approval of the qualified electors of the district to provide funding for improvements to school and student safety and security that meet any of the criteria set forth in 20-9-236(1)(a) through (1)(e). A voted levy for school and student safety and security may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406. The election for a voted levy for school and student safety and security must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

20-9-503. Budgeting, tax levy, and use of building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include the authorized amount in the building reserve fund of the final budget. The county superintendent shall report the amount as the building reserve fund levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund may:

(a) pledge the revenue from the building reserve fund levy for up to 15 years to repay loans used only for projects authorized by the electors of the district pursuant to 20-9-502.

(b) expend money from the fund for the purpose or purposes for which it was authorized without the specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to begin the authorized projects. The expenditures may not invalidate the district's authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest the money in accordance with 20-9-213(4). The interest earned from the investment must be credited to the building reserve fund or the debt service fund, at the discretion of the trustees, and expended for any purpose authorized by law for the fund.

20-9-504. Extracurricular fund for pupil functions. (1) The trustees of a district may establish an extracurricular fund for the purposes of receiving and expending money collected for pupil extracurricular functions. All extracurricular money of a pupil organization of the school must be deposited and expended by check from a bank account maintained for the extracurricular fund.

(2) An accounting system for the extracurricular fund recommended by the superintendent of public instruction must be implemented by the trustees. The accounting system must provide for:

- (a) the internal control of the cash receipts and expenditures of the money; and
- (b) a general account that can be reconciled with the bank account for the extracurricular fund and reconciled with the detailed accounts within the extracurricular fund maintained for each student function.

(3) The trustees may invest any excess money in the extracurricular fund in accordance with the provisions of 20-9-213(4). Interest earned as a result of the investments may either be:

- (a) credited to a general operating account within the fund to be used to offset expenses incurred in administering the fund; or
- (b) distributed to the fund from which the money was withdrawn for investment.

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

- (a) elementary tuition obligations to other districts;
- (b) transportation of the resident pupils;
- (c) maintenance of district-owned property; and

(d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(1) The trustees of any district that does not operate a school or will not operate a school during the ensuing school fiscal year shall adopt a nonoperating school district budget in accordance with the school budgeting provisions of this title. The nonoperating budget must contain the nonoperating fund and, when appropriate, a debt service fund. The nonoperating budget form must be promulgated and distributed by the superintendent of public instruction under the provisions of 20-9-103.

(2) After the adoption of a final budget for the nonoperating fund, the county superintendent shall compute the net levy requirement for the fund by subtracting from the amount authorized by the budget the sum of:

- (a) the end-of-the-year cash balance of the nonoperating fund or, if it is the first year of nonoperation, the cash balance determined under the transfer provisions of 20-9-505;

(2) The purpose of the account is to provide, contingent on appropriation from the legislature, funding for school major maintenance aid as provided in subsection (3) for school facility projects, including the payment of principal and interest on obligations issued pursuant to 20-9-471 for school facility projects, that support a basic system of free quality public elementary and secondary schools under 20-9-309, including but not limited to:

(a) improvements to school and student safety and security as described in 20-9-236(1); and

(b) projects designed to produce operational efficiencies such as utility savings, reduced future maintenance costs, improved utilization of staff, and enhanced learning environments for students, including but not limited to projects addressing:

- (i) roofing systems;
- (ii) heating, air-conditioning, and ventilation systems;
- (iii) energy-efficient window and door systems and insulation;
- (iv) plumbing systems;
- (v) electrical systems and lighting systems;
- (vi) information technology infrastructure, including internet connectivity both within and

to the school facility; and

(vii) other critical repairs to an existing school facility or facilities.

(3) (a) In any year in which the legislature has appropriated funds for distribution from the school major maintenance aid account, the superintendent of public instruction shall administer the distribution of school major maintenance aid from the school major maintenance aid account for deposit in the subfund of the building reserve fund provided for in 20-9-502(3)(e). Subject to proration under subsection (5) of this section, aid must be annually distributed no later than the last working day of May to a school district imposing a levy pursuant to 20-9-502(3) in the current school fiscal year, with the amount of state support per dollar of local effort of the applicable elementary and high school program of each district determined as follows:

(i) using the taxable valuation most recently determined by the department of revenue under 20-9-369:

(A) divide the total statewide taxable valuation by the statewide total of school major maintenance amounts and, subject to adjustment under 20-9-336, multiply the result by 187%;

(B) multiply the result determined under subsection (3)(a)(i)(A) by the district's school major maintenance amount;

(C) subtract the district's taxable valuation from the amount determined under subsection (3)(a)(i)(B); and

(D) divide the amount determined under subsection (3)(a)(i)(C) by 1,000;

(ii) determine the greater of the amount determined in subsection (3)(a)(i) or 18% of the district's mill value;

(iii) multiply the result determined under subsection (3)(a)(ii) by the district's school major maintenance amount, then divide the product by the sum of the result determined under subsection (3)(a)(ii) and the district's mill value; and

(iv) divide the result determined under subsection (3)(a)(iii) by the difference resulting from subtracting the result determined under subsection (3)(a)(iii) from the district's school major maintenance amount.

(b) For a district with an adopted general fund budget in the prior year greater than or equal to 97% of the district's general fund maximum budget in the prior year, the amount determined in subsection (3)(a)(iv) rounded to the nearest cent is the amount of school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(c) For a district with an adopted general fund budget in the prior year less than 97% of the district's maximum budget in the prior year, multiply the amount determined in subsection (3)(a)(iv) by the ratio of the district's adopted general fund budget in the prior year to the district's maximum general fund budget in the prior year. The result, rounded to the nearest cent, is the amount of state school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(4) Using the taxable valuation most recently determined by the department of revenue under 20-9-369, the superintendent shall provide school districts with a preliminary estimated amount of state school major maintenance aid per dollar of local effort for the ensuing school year no later than March 1 and a final amount for the current school year no later than July 31.

(5) If the appropriation from or the available funds in the school major maintenance aid account in any school fiscal year are less than the amount for which school districts would otherwise qualify, the superintendent of public instruction shall proportionally prorate the aid distributed to ensure that the distributions do not exceed the appropriated or available funds.

(6) If in any fiscal year the amount of revenue in the school major maintenance aid account is sufficient to fund school major maintenance aid without a proration reduction pursuant to subsection (5) and if in that same fiscal year the amount of revenue available in the school facility and technology account established in 20-9-516 will result in a proration reduction in debt service assistance pursuant to 20-9-346(2)(b) for that fiscal year, the state treasurer shall transfer any excess funds in the school major maintenance aid account to the school facility and technology account, not to exceed the amount required to avoid a proration reduction.

(7) For the purposes of this section, the following definitions apply:

(a) "Local effort" means an amount of money raised by levying no more than 10 mills pursuant to 20-9-502(3) and, provided that 10 mills have been levied, any additional amount of money deposited or transferred by trustees to the subfund pursuant to 20-9-502(3).

(b) “School major maintenance amount” means the sum of \$15,000 and the product of \$110 multiplied by the district’s budgeted ANB for the prior fiscal year.

The amount budgeted pursuant to levies approved prior to July 1, 2013, may not, over time, exceed 150% of the original cost of the equipment.

(4) The annual revenue requirement for each district’s technology acquisition and depreciation fund determined within the limitations of this section must be reported by the county superintendent of schools to the board of county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values as the technology acquisition and depreciation fund levy requirement for that district, and a levy must be made by the county commissioners in accordance with 20-9-142.

In seeking approval of the proposition, the district shall specify a proposed revised duration of the underlying perpetual levy previously approved and a proposed duration for the proposed increase in the amount of the levy, neither of which may exceed 10 years. If the proposition is approved by the qualified electors, both the underlying levy previously approved for a perpetual duration and the increase in the amount of the levy are subject to the revised durational limit specified on the ballot.

(2) A school district may enter into an interlocal agreement pursuant to Title 7, chapter 11, with a postsecondary institution to institute a “running start” program to allow 11th and 12th grade students, as defined by the district, to attend classes at the postsecondary institution at a cost determined by the interlocal agreement and to obtain credits in classes not available through the school district.

(3) An agreement entered into by the district and the postsecondary institution must state the amount for each credit to be paid to the postsecondary institution by the district or the student.

(4) To participate in the program, a student shall complete a running start application provided by the district. The district shall determine whether the student has the skills needed to succeed in the proposed college coursework. If accepted, a student may earn both high school and college credits as determined by the interlocal agreement.

(6) If accepted into the program, the student is responsible for transportation, books, and all supplies.

Upon accumulating the necessary credits at a school in the district of residence or at the Montana youth challenge program or an accredited Montana job corps program pursuant to an interlocal cooperative agreement, a student must be allowed to graduate from the school in the student's district of residence.

(3) A school district that, pursuant to an interlocal cooperative agreement, allows an enrolled student to attend the Montana youth challenge program or a Montana job corps program accredited as prescribed in subsection (1) is not responsible for payment of the student's transportation costs to the job corps program.

(4) A student attending the Montana youth challenge program or a job corps program may not claim the Montana youth challenge program's or job corps program's facility as the student's residence for the purposes of this section.

If the trustees adopt the resolution, the pupil-instruction time lost during the closure need not be rescheduled to meet the minimum requirement for aggregate hours that a school district must conduct during the school year in order to be entitled to full BASE aid.

(b) At least 75% of the pupil-instruction time lost due to the unforeseen emergency must have been made up before the trustees can declare that a reasonable effort has been made.

(2) The board of trustees may close school for 1 school day each school year because of an unforeseen emergency and may not be required to reschedule the pupil-instruction time lost because of the unforeseen emergency. (1) Every district, its trustees and employees, and every person under a transportation contract with a district is subject to the policies prescribed by the board of public education and the rules prescribed by the superintendent of public instruction. When a district knowingly violates a transportation law or board of public education transportation policy, the district shall forfeit any reimbursement otherwise payable under 20-10-145 and 20-10-146 for any bus miles actually traveled during that fiscal year in violation of the law or policies.

As provided in 20-10-141(1), a district that operates a bus route not approved by its county transportation committee may not receive transportation reimbursement on that route, but if the route is operated in compliance with transportation law, the operation of the routes is not a violation that will result in the forfeiture of all transportation aid to the district.

(3) The county superintendent shall suspend all reimbursements payable to the district under 20-10-145 and 20-10-146 for all miles being traveled, including both miles being traveled in compliance with the transportation laws or policies and miles being traveled in violation of the transportation laws or policies, until the district corrects the violation. The trustees of a district shall order the operation of a bus operated under contract suspended when the bus is being operated in violation of transportation law or policies and the trustees find that the violation jeopardizes the safety of pupils.

(2) A representative of the applicable district and a parent or guardian of the child to be transported shall be present when the distance is measured.

(3) The measurement shall begin 6 yards from the family home and end 6 yards from the entrance of the school grounds closest to the route.

(4) The route traversed for the measurement shall be the route designated by the trustees, except that the route shall be reasonably passable during the entire school fiscal year by the vehicle that provides the child's transportation. (b) such contracted services for school bus transportation by a private party have been actually furnished except that the failure to perform may be excused by the trustees for reasons not under the control of the contractor; or

(c) such contracted services for individual transportation have been actually furnished as confirmed by the actual attendance of school by the eligible transportees and recorded on the school attendance records or, in the case of a supervised correspondence course or supervised home study, as confirmed by the trustees; except that the contracted services furnished one way on any school day shall be reimbursed at one-half the daily contract amount.

20-10-126. Establishment of transportation service areas. (1) The territory of a transportation service area is the territory of a school district unless the county transportation committee approves alternative boundaries after determining that the adjustments will improve pupil safety, transportation efficiency, or the cost-effectiveness of the pupil transportation system of the county.

(2) (a) Except as provided in subsection (2)(b), a district may not extend a bus route to transport pupils from outside its transportation service area unless the district has a written agreement with the district that the county transportation committee has assigned to transport the pupils.

(b) A district may extend a bus route across another transportation service area if the district determines that it is necessary in order to provide transportation to pupils in the district's own transportation service area. Under this subsection (2)(b), a district may not transport pupils from outside its transportation service area.

(3) When the trustees of two or more districts enter into a written agreement to authorize transportation services among transportation service areas, a copy of the agreement must be submitted to the county superintendent and approved by the county transportation committee. Upon approval by the committee, the transportation agreements are valid for the current school year.

(4) The trustees of any district who object to a particular bus route or transportation service area to which the district has been assigned may request a transfer to another bus route or transportation service area. The county transportation committee may transfer the territory of the district to an adjacent transportation service area or approved bus route with the consent of the district providing transportation in the adjacent transportation service area.

(5) The trustees of any district who object to a bus route operated by another district may bring that route to the attention of the county transportation committee. If the committee agrees that the district is operating a portion of its route as an unapproved route outside of its district boundaries, the committee shall file with the district a written warning concerning the unapproved route, and if the district, in spite of the warning, continues to operate the route, the committee may withdraw its approval of the entire route.

(6) If the qualified electors of the district object to the decision of the county transportation committee and the adjacent district is willing to provide school bus service, 20% of the qualified electors, as prescribed in 20-20-301, may petition the trustees to conduct an election on the proposition that the territory of the district be transferred for pupil transportation purposes to the adjacent transportation service area. If a satisfactory petition is presented to the trustees, the trustees shall call an election on the proposition in accordance with 20-20-201 for the next ensuing regular school election day. The election must be conducted in accordance with the school election laws. If a majority of those voting at the election approve the transfer, the transfer is effective on July 1 of the ensuing school fiscal year.

(7) Unless a transfer of territory from one transportation service area or approved bus route to another area or bus route is approved by the superintendent of public instruction and the county transportation committee, the state transportation reimbursement is limited to the reimbursement amount for pupil transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

20-10-141. Schedule of maximum reimbursement by mileage rates. (1) The mileage rates in subsection (2) for school transportation constitute the maximum reimbursement to districts for school transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal year. All bus miles traveled on bus routes approved by the county transportation committee are reimbursable. Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) (a) The rate for each bus mile traveled must be determined in accordance with the following schedule:

- (i) 50 cents for a school bus as defined in 20-10-101(5)(a)(ii);
 - (ii) 95 cents for a school bus with a rated capacity of not more than 49 passenger seating positions;
 - (iii) \$1.15 for a school bus with a rated capacity of 50 to 59 passenger seating positions;
 - (iv) \$1.36 for a school bus with a rated capacity of 60 to 69 passenger seating positions;
 - (v) \$1.57 for a school bus with a rated capacity of 70 to 79 passenger seating positions; and
 - (vi) \$1.80 for a school bus with 80 or more passenger seating positions.
- (b) Nonbus mileage, as provided in subsection (1), must be reimbursed at a rate of 50 cents a mile.

(3) The rated capacity is the number of passenger seating positions of a school bus as determined under the policy adopted by the board of public education. If modification of a school bus to accommodate pupils with disabilities reduces the rated capacity of the bus, the reimbursement to a district for pupil transportation is based on the rated capacity of the bus prior to modification.

(4) The number of pupils riding the school bus may not exceed the passenger seating positions of the bus.

20-10-142. Schedule of maximum reimbursement for individual transportation.

The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section may not be altered by any authority other than the legislature. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian for actual miles transported on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement for each day of attendance is determined by multiplying the

distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if the schools are operated by different school districts, the total amount of the reimbursement must be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian must be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop that are located within 3 miles of one another, the total reimbursement must be determined under the provisions of this subsection (1) and must be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section is limited to one round trip a day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), a reimbursement may not be less than 35 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if the eligible transportees attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian must be separately reimbursed for transportation to each bus.

(3) When, because of excessive distances, impassable roads, or other special circumstances of isolation, the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, a parent or guardian may request an increase in the reimbursement rate. A request for increased rates because of isolation must be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances that exist to justify the increase. Before an increased rate because of isolation may be paid to the requesting parent or guardian, the rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the committee and the superintendent of public instruction, the trustees shall pay the increased rate because of isolation. The increased rate is 1½ times the rate prescribed in subsection (1).

(4) The state and county transportation reimbursement for an individual transportation contract may not exceed \$12.95 for each day of attendance for the first eligible transportee and \$8.40 for each day of attendance for each additional eligible transportee.

(5) When the isolated conditions of the household where an eligible transportee resides require an eligible transportee to live away from the household in order to attend school, the eligible transportee is eligible for the room and board reimbursement. Approval to receive the room and board reimbursement must be obtained in the same manner prescribed in subsection (3). The per diem rate for room and board is \$12.95 for one eligible transportee and \$8.40 for each additional eligible transportee of the same household.

(6) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate is the cost of the study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

- (a) an adequate amount to finance the maintenance and operation of school buses owned and operated by the district;
- (b) the annual contracted amount for the maintenance and operation of school buses by a private party;
- (c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;
- (d) any amount necessary for the purchase, rental, or insurance of school buses; and
- (e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

- (a) pupils not residing in the district at the time of the adoption of the final budget and who subsequently became residents of the district during the school fiscal year;
- (b) pupils who have become eligible transportees since the adoption of the final budget because their legal residence has been changed; or
- (c) other unforeseen increases in bus route mileage or obligations for payment of additional contracts for individual transportation for an eligible transportee for which state and county reimbursement is authorized under 20-10-141 and 20-10-142. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than \$100, in which case \$100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The trustees shall report the transportation fund budget on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted final budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation to the county superintendent. The contracts must substantiate all contracted school bus transportation services incorporated in the final budget.

20-10-144. Computation of revenue and net tax levy requirements for district transportation fund budget. Before the second Monday of August, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

- (a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate for each bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by the district); plus

(b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted in the budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or \$100, whichever is larger, the contingency amount on the budget must be reduced to the limitation amount and used in this determination of the schedule amount; plus

(e) any estimated costs for transporting a child out of district when the child has mandatory approval to attend school in a district outside the district of residence.

(2) (a) The schedule amount determined in subsection (1) or the total transportation fund budget, whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) one-half is the budgeted state transportation reimbursement; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of fund balance for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and fund balance reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of 20 U.S.C. 7701, et seq., or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

(c) anticipated payments from a parent or guardian for providing school bus transportation services for a child;

(d) anticipated or reappropriated interest to be earned by the investment of transportation fund cash in accordance with the provisions of 20-9-213(4);

(e) anticipated revenue from coal gross proceeds under 15-23-703;

(f) anticipated oil and natural gas production taxes;

(g) anticipated transportation payments for out-of-district pupils under the provisions of 20-5-320 through 20-5-324;

(h) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year that may be used to finance the transportation fund; and

(i) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

(4) The district levy requirement for each district's transportation fund must be computed by:

(a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation budget amount; and

(b) subtracting the amount of money available to reduce the property tax on the district, as determined in subsection (3), from the amount determined in subsection (4)(a).

(5) The transportation fund levy requirements determined in subsection (4) for each district must be reported to the county commissioners on or before the later of the first Tuesday

in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the transportation fund levy requirements for the district, and the levy must be made by the county commissioners in accordance with 20-9-142.

20-10-145. State transportation reimbursement. (1) A district providing school bus transportation or individual transportation in accordance with this title, board of public education transportation policy, and superintendent of public instruction transportation rules must receive a state reimbursement of its transportation expenditures under the transportation reimbursement rate provisions of 20-10-141 and 20-10-142. The state transportation reimbursement is one-half of the reimbursement amounts established in 20-10-141 and 20-10-142 or one-half of the district's transportation fund budget, whichever is smaller, and must be computed on the basis of the number of days the transportation services were actually rendered to transport eligible transportees, as defined in 20-10-101, to or from school to participate in the minimum aggregate hours of instruction required pursuant to 20-1-301. In determining the amount of the state transportation reimbursement, an amount claimed by a district may not be considered for reimbursement unless the amount has been paid in the regular manner provided for the payment of other financial obligations of the district.

(2) Requests for the state transportation reimbursement must be made by each district semiannually during the school fiscal year on the claim forms and procedure promulgated by the superintendent of public instruction. The claims for state transportation reimbursements must be routed by the district to the county superintendent, who after reviewing the claims shall send them to the superintendent of public instruction. The superintendent of public instruction shall establish the validity and accuracy of the claims for the state transportation reimbursements by determining compliance with this title, board of public education transportation policy, and the transportation rules of the superintendent of public instruction. After making any necessary adjustments to the claims, the superintendent of public instruction shall order a disbursement from the state money appropriated by the legislature of the state of Montana for the state transportation reimbursement.

(3) The superintendent of public instruction shall make the disbursement to each school district according to the following schedule:

(a) By September 1 of each year, the superintendent of public instruction shall make a payment equal to 50% of the state transportation reimbursement paid to the district in the previous school year.

(b) By March 31 of each year, the superintendent of public instruction shall make a payment to the district equal to the approved amount of state reimbursement for first semester transportation claims less the amount distributed to the district under subsection (3)(a).

(c) By June 30 of each year, the superintendent of public instruction shall make a payment to the district to pay the balance of the approved amount due to the district for first and second semester transportation.

(4) Unless authorized for payment to a school district investment account established under 20-9-235, the payment of all the district's claims within one county must be made to the county treasurer of the county, and the county superintendent shall apportion the payment in accordance with the apportionment order supplied by the superintendent of public instruction.

(5) After adopting a budget amendment for the transportation fund in accordance with 20-9-161 through 20-9-166, the district shall send to the superintendent of public instruction a copy of each new or amended individual transportation contract and each new or amended bus route form to which the budget amendment applies. State reimbursement for the additional obligations must be paid as provided in subsection (1).

(1) The apportionment of the county transportation reimbursement by the county superintendent for school bus transportation or individual transportation that is actually rendered by a district in accordance with this title, board of public education transportation policy, and the transportation rules of the superintendent of public instruction must be the same as the state transportation reimbursement payment, except that:

(a) if any cash was used to reduce the budgeted county transportation reimbursement under the provisions of 20-10-144(2)(b), the annual apportionment is limited to the budget amount;

(b) when the county transportation reimbursement for a school bus has been prorated between two or more counties because the school bus is conveying pupils of more than one district located in the counties, the apportionment of the county transportation reimbursement must be adjusted to pay the amount computed under the proration; and

(c) when county transportation reimbursement is required under the mandatory attendance agreement provisions of 20-5-321.

(2) The county transportation net levy requirement for the financing of the county transportation fund reimbursements to districts is computed by:

(a) totaling the net requirement for all districts of the county, including reimbursements to a special education cooperative or prorated reimbursements to joint districts or reimbursements under the mandatory attendance agreement provisions of 20-5-321;

(b) determining the sum of the money available to reduce the county transportation net levy requirement by adding:

(i) anticipated money that may be realized in the county transportation fund during the ensuing school fiscal year;

(ii) oil and natural gas production taxes;

(iii) coal gross proceeds taxes under 15-23-703;

(iv) any fund balance available for reappropriation from the end-of-the-year fund balance in the county transportation fund;

(v) federal forest reserve funds allocated under the provisions of 17-3-213; and

(vi) other revenue anticipated that may be realized in the county transportation fund during the ensuing school fiscal year; and

(c) subtracting the money available, as determined in subsection (2)(b), to reduce the levy requirement from the county transportation net levy requirement.

(3) The net levy requirement determined in subsection (2)(c) must be reported to the county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) The county superintendent of each county shall submit a report of the revenue amounts used to establish the levy requirements to the superintendent of public instruction on or before September 15. The report must be completed on forms supplied by the superintendent of public instruction.

(5) The county superintendent shall apportion the county transportation reimbursement from the proceeds of the county transportation fund. The county superintendent shall order the county treasurer to make the apportionments in accordance with 20-9-212(2) and after the receipt of the semiannual state transportation reimbursement payments.

(b) The oversight fee must be calculated as a uniform percentage of the state funding allocated to each choice school and is to be paid from the choice school's budget share of the per-pupil funding, not to exceed 3% of each community choice school's state funding in a single school year.

(c) The commission may establish a sliding scale for authorizer funding, with the funding percentage decreasing after the authorizer has achieved a certain threshold after a certain number of years of authorizing, after a certain number of schools have been authorized, or for other reasons determined at the discretion of the commission.

(d) An authorizer's oversight fee may not include any costs incurred in delivering services that a choice school may purchase at its discretion from the authorizer. The authorizer shall use the funding provided under this section exclusively for the purpose of fulfilling authorizing obligations in accordance with this part.

(2) The commission is responsible for overseeing the performance and effectiveness of all authorizers established under this part.

(5) Persistently unsatisfactory performance of an authorizer's portfolio of community choice schools, a pattern of well-founded complaints about the authorizer or its choice schools, or other objective circumstances may trigger a special review by the commission.

(6) In reviewing or evaluating the performance of authorizers, the commission shall apply nationally recognized principles and standards for authorizing.

(7) If at any time the commission finds that an authorizer is not in compliance with an existing charter contract, its authorizing contract with the commission, or the requirements of authorizers under this part, the commission shall notify the authorizer in writing of the identified problems and shall provide the authorizer reasonable opportunity to respond and remedy the problems.

(8) If an authorizer fails to respond and remedy the problems identified by the commission, the commission shall notify the authorizer, within a reasonable amount of time under the circumstances, that it intends to revoke the authorizer's authority unless the authorizer demonstrates a timely and satisfactory remedy for the violation or deficiencies.

(9) In the event of revocation of an authorizer's authority, the commission shall manage the timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state, with the mutual agreement of each affected choice school and proposed new authorizer. The new authorizer shall assume the existing charter contract for the remainder of the charter contract term.

(10) On or before December 1 of each year, beginning in the first year that choice schools have been in operation for a full school year, the commission shall issue to the board of public education, the education interim committee, and the public an annual report on the state's community choice schools that includes data from the annual reports submitted by every authorizer, as well as any additional relevant data compiled by the commission, for the school year ending in the preceding calendar year. (2) A choice school may choose to purchase services from its authorizer. In that event, the choice school and authorizer shall execute an annual service contract, separate from the charter contract, stating the parties' mutual agreement concerning any services to be provided by the authorizer and any service fees to be charged to the choice school. An authorizer may not charge more than market rates for services provided to a choice school.

(14) (a) The authorizer shall approve or deny a choice school proposal within 60 days after the filing of the proposal, except that the commission has up to 120 days if more than three proposals have been submitted to the commission within 30 days. The commission shall notify the applicant of the expected timeline for approval or denial.

(b) The authorizer shall adopt by resolution all choice school proposal approval or denial decisions in an open meeting of the authorizer's governing body.

(c) An approval decision may include, if appropriate, reasonable conditions that the applicant must meet before a charter contract may be executed pursuant to 20-11-112.

(d) For any choice school proposal denial, the authorizer shall clearly state for the public record the reasons for denial. A denied applicant may subsequently reapply to that authorizer or apply to any other authorizer in the state.

(e) Within 10 days of taking action to approve or deny a choice school proposal, the authorizer shall report its decision to the commission. The authorizer shall provide a copy of the report to the applicant at the same time that the report is submitted to the commission. The report must include a copy of the resolution of the authorizer's governing body setting forth the action taken and reasons for the decision and providing assurances of compliance with all of the procedural requirements and proposal elements set forth in this section.

(15) An applicant may submit a proposal for a particular choice school to only one authorizer at a time.

History: En. Sec. 9, Ch. 513, L. 2023.

20-11-112. Charter contract — terms. (1) An initial charter contract must be granted for a term of 5 operating years, commencing on the community choice school's first day of operation. An approved choice school may delay its opening for 1 school year to plan and prepare for the school's opening. If the school requires an opening delay of more than 1 school year, the school shall request an extension from its authorizer. The authorizer may grant or deny the extension depending on the school's circumstances.

(2) Within 45 days of approval of a choice school proposal, the authorizer and the governing board of the approved choice school shall execute a charter contract that clearly sets forth the academic and operational performance expectations and measures by which the choice school will be judged and the administrative relationship between the authorizer and the choice school, including each party's rights and duties.

(3) The performance provisions of the charter contract may be refined or amended by mutual agreement after the choice school is operating and has collected baseline achievement data for its enrolled students.

(4) The charter contract for a full-time virtual community choice school must include a description and agreement regarding the methods by which the school will:

(a) monitor and verify full-time student enrollment, student participation in a full course load, credit accrual, and course completion;

(b) monitor and verify student progress and performance in each course through regular, proctored assessments and submissions of coursework; and

(c) conduct parent-teacher conferences.

(5) The charter contract must be signed by the president of the authorizer's governing body and the president of the choice school's governing board. Within 10 days of executing a charter contract, the authorizer shall submit to the commission written notification of the charter contract execution, including a copy of the executed charter contract and any attachments.

(6) A community choice school may not commence operations without a charter contract executed in accordance with this section and approved in an open meeting of the authorizer's governing body.

(7) Authorizers may establish reasonable pre-opening requirements or conditions to monitor the startup progress of a newly approved choice school to ensure that the school is prepared to open smoothly on the date agreed and to ensure that each school meets all building, health, safety, insurance, and other legal requirements for school opening.

History: En. Sec. 10, Ch. 513, L. 2023.

20-11-113 through 20-11-115 reserved.

20-11-116. Enrollment. (1) (a) A community choice school must be open to any student residing in the state.

(b) A school district may not require a student enrolled in the school district to attend a choice school.

(c) A choice school may limit admission to students within a given age group or grade level.

(d) A choice school may be organized for a special emphasis, theme, or concept as stated in the school's proposal.

(e) A choice school shall enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level, or building.

(f) If capacity is insufficient to enroll all students who wish to attend the school, the choice school shall select students through a lottery.

(2) A traditional public school converting to a choice school shall adopt and maintain a policy giving enrollment preference to students who reside within the former attendance area of that public school.

(3) (a) A choice school shall give enrollment preference to students who were enrolled in the choice school the previous school year and to siblings of students already enrolled in the choice school. An enrollment preference for returning students and siblings excludes those students from entering a lottery.

(b) A choice school may give enrollment preference to children of a choice school's employees and governing board, limited to no more than 10% of the school's total student population.

(4) This section does not preclude the formation of a community choice school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend a school, the choice school shall select students through a lottery.

(5) If a student who was previously enrolled in a choice school enrolls in any other public school in this state, the student's new school shall accept credits earned by the student in courses or instructional programs at the choice school.

(6) A traditional school district shall provide or publicize to parents and the general public information about choice schools as an enrollment option within the district's physical, geographical boundaries to the same extent and through the same means that the district provides and publicizes information about traditional public schools in the district.

(7) An authorizer may not restrict the number of students a choice school may enroll. The capacity of the choice school must be determined annually by its governing board in conjunction with the authorizer and in consideration of the choice school's ability to facilitate the academic success of its students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment does not exceed the capacity of its facility or site.

(8) If the choice school is the only public school in a town, the choice school must give preference to enrolling pupils residing in the town or within 5 miles of the school if the next closest public school is more than 10 miles away from the student's residence.

History: En. Sec. 11, Ch. 513, L. 2023.

20-11-117. Community choice school performance and renewal. (1) The performance provisions within the charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each choice school. The performance framework must include indicators, measures, and metrics for, at a minimum:

- (a) student academic proficiency;
- (b) student academic growth;

- (c) achievement gaps in both proficiency and growth between major student subgroups;
- (d) attendance;
- (e) recurrent enrollment from year to year;
- (f) postsecondary readiness;
- (g) financial performance and sustainability; and
- (h) governing board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the charter contract.

(2) Each choice school, in conjunction with its authorizer, shall set annual performance targets designed to help each school meet applicable federal, state, and authorizer expectations.

(3) (a) The contract performance framework must include rigorous, valid, and reliable indicators proposed by a choice school to evaluate its performance that are consistent with the purposes of this part.

(b) The authorizer shall collect and analyze data from each choice school it oversees in accordance with the performance framework.

(c) Multiple schools operating under a single charter contract or overseen by a single governing board shall report their performance as separate, individual schools. Each school must be held independently accountable for its performance.

(4) (a) An authorizer shall monitor the performance and legal compliance of the choice schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the charter contract. Every authorizer has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to choice schools but that enable the authorizer to fulfill its responsibilities under this part, including conducting appropriate inquiries and investigations consistent with the intent of this part, and to adhere to the terms of the charter contract. Required oversight activities may not encumber the choice school financially and may be appealed by the choice school through the commission.

(b) Each authorizer shall annually publish and provide as part of its annual report to the commission a performance report for each choice school it oversees, within the performance framework set forth in the charter contract and 20-11-112. The authorizer may require each choice school it oversees to submit an annual report to assist the authorizer in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a choice school's performance or legal compliance appears unsatisfactory, the authorizer shall promptly notify the choice school of the perceived problem and provide a reasonable opportunity for the school to remedy the problem.

(d) An authorizer may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in choice school performance or legal compliance. The action or sanctions may include, if warranted, requiring a choice school to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter contract may be renewed for successive 5-year terms, although the authorizer may vary the term based on the performance, demonstrated capacities, and particular circumstances of each choice school. An authorizer may grant renewal with specific conditions for necessary improvement to a choice school.

(b) No later than June 30 of each year, the authorizer shall issue a choice school performance report and charter renewal application guide to any choice school whose charter contract will expire the following year. The performance report must summarize the choice school's performance record to date, based on the data required by this part and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the choice school that may jeopardize renewal if not promptly rectified. The choice school shall respond to the performance report and submit any corrections or clarifications within 90 days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the choice school to:

- (a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter contract renewal;

- (b) describe improvements undertaken or planned for the choice school; and

- (c) detail the choice school's plans for the next charter contract term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, based on the performance framework set forth in the charter contract and consistent with this part.

(8) (a) No later than February 1 of each year, the governing board of a community choice school seeking renewal shall submit a renewal application to the authorizer pursuant to the renewal application guide issued by the authorizer. The authorizer shall rule by resolution on the renewal application no later than 30 days after the filing of the renewal application.

(b) Every authorizer shall, when considering charter contract renewal:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the choice school and to the public; and

(iii) provide a public report summarizing the basis for each decision.

History: En. Sec. 12, Ch. 513, L. 2023.

20-11-118. Charter contract revocation and school closure or charter contract nonrenewal. (1) A charter contract may be subject to nonrenewal or revocation if the authorizer determines that the community choice school:

(a) committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under this part or the charter contract and from which the choice school was not exempted;

(b) failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) failed to meet public safety standards; or

(d) failed to meet generally accepted standards of fiscal management.

(2) An authorizer shall develop revocation and nonrenewal processes that:

(a) provide the charter contract holders with timely notification of the prospect of revocation or nonrenewal and of the reasons for the possible closure;

(b) allow the charter contract holders a reasonable amount of time in which to prepare a response;

(c) provide the charter contract holders an opportunity to submit documents and testimony at a hearing to challenge the rationale for the closure recommendation and in support of the continuation of the school;

(d) allow the charter contract holders to be represented by counsel and call witnesses on their behalf;

(e) permit the recording of the proceedings; and

(f) provide for a final determination conveyed in writing to the charter contract holders.

(3) If an authorizer revokes or denies renewal of a charter contract, the authorizer shall clearly state, by resolution of its governing body, the reasons for the revocation or nonrenewal.

(4) Within 10 days of taking action to renew, not renew, or revoke a charter contract, the authorizer shall report to the commission the action taken and at the same time shall provide a copy of the report to the choice school. The report must include a copy of the resolution of the authorizer's governing body setting forth the action taken and reasons for the decision and providing assurances of compliance with all the requirements set forth in this part. The authorizer's decision is appealable to the commission in writing within 30 days of the commission's receipt of the authorizer's report.

(5) (a) Prior to a choice school closure, an authorizer shall develop a choice school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of this part. The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the choice school and the authorizer.

(b) The authorizer shall oversee the closure and work with the closing choice school to ensure a smooth and orderly closure and transition for students and parents.

(c) In the event of a choice school closure for any reason, the nonrestricted distributable assets of the choice school must be distributed first to satisfy outstanding payroll obligations for employees of the choice school, then to creditors of the choice school, then to resident school

districts of students previously attending the closed choice school on a prorated per-pupil basis, and then to the state general fund. If the assets of the choice school are insufficient to pay all obligations, the prioritization of the distribution of assets may be determined by a court of law.

(d) If a closing choice school was converted from an existing traditional public school, the closing choice school is not responsible for any financial obligation or debt of the previously existing traditional public school unless the choice school assumed the debt or obligation at the time of conversion.

(6) Transfer of a charter contract, and of oversight of that choice school from one authorizer to another before the expiration of the charter contract term, may occur only if the authorizer violates the provisions of 20-11-108 or by special petition to the commission by a choice school or its authorizer. The commission shall consider a petition for transfer on a case-by-case basis and may grant transfer requests in response to special circumstances and to evidence that the transfer would serve the best interests of the community choice school's students.

History: En. Sec. 13, Ch. 513, L. 2023.

(c) Except as provided in this part, a choice school is not subject to the provisions of Title 20 or any state or local rule, regulation, policy, or procedure relating to traditional public schools within an applicable traditional local school district.

(d) For the purposes of the public employee retirement system and the teacher retirement system under Title 19, choice schools are not "employers" and choice school employees are not "employees" as those terms are defined in 19-2-303 and 19-20-101.

(e) A single governing board may hold one or more charter contracts. A charter contract may consist of one or more schools, to the extent approved by the authorizer and consistent with applicable law. Each choice school that is part of a charter contract is separate and distinct from any other choice school.

(f) The founding governing board of a choice school may apply for and operate with a charter contract for a period up to 3 years before holding an election. The founding board shall ensure an elected governing board is in place within 3 years of the school commencing operations. The governing board must be elected by a process outlined in the choice school bylaws. The election process must include the following requirements:

(i) the qualified electors consist of parents and guardians of students enrolled in the school and the choice school's employees. The qualified electors shall nominate and vote for candidates for the governing board on a cycle outlined in the choice school's bylaws.

(iv) the terms of board members must be staggered to ensure continuity on the governing board.

(2) A choice school may only be created within the geographical boundaries of a third-class elementary district, as described in 20-6-201, or a third-class high school district, as described in 20-6-301, if:

(4) For purposes of special education, a community choice school shall serve as its own local education agency. A choice school is responsible for special education services at the school, including identification and service provisions, and is responsible for meeting the needs of enrolled students with disabilities.

(5) A choice school has all the powers necessary for carrying out the terms of its charter contract, including the following powers:

- (a) to receive and disburse funds for school purposes;

(9) A choice school's location is determined exclusively by its governing board and only encompasses the property lines of where the school exists as a tenant, guest, or owner of the property. The community choice school is a separate public education entity authorized by and under control of the state of Montana. A choice school is separate from the traditional local school district in which it is physically located and is exempt from Title 20 except as provided in this part.

The ANB determined by the superintendent must be used for budgeting and BASE funding program purposes for the upcoming school year.

(b) A choice school must have a separate basic entitlement included in the general fund budget of the school district in which the choice school is physically located. The authorizer of the choice school shall determine the choice school's need for a basic entitlement and, not later than February 1, communicate to the superintendent of public instruction the percentage, not to exceed 80%, of the basic entitlement amount under 20-9-306 to be included in the located school district's general fund budget for the ensuing school fiscal year for the choice school.

(7) A choice school may obligate the choice school to indebtedness and is solely responsible for those debts. A choice school is not responsible for any debt service obligations that exist in the school district in which the choice school is physically located.

(8) Nothing in this part may be construed to prohibit any person, organization, business, or foundation from providing funding or other assistance for the establishment or operation of a choice school. The governing board of a choice school is authorized to accept gifts or donations of any kind made to the choice school and to expend or use the gifts or donations in accordance with the conditions prescribed by the donor. A gift or donation may not be accepted if the gift or donation is subject to a condition that is contrary to any provision of law or term of the charter contract.

as determined by the commissioner of higher education in [20-15-328(2)], then multiplied by the inflationary factor for the second year of the current biennium.

(b) “Base year” means the first year of the current biennium.

(c) “Concurrent enrollment” means the form of dual enrollment through which a high school student receives instruction in a community college course from a high school instructor.

(d) “CTE FTE” means the FTE derived from students in courses determined by the commissioner of higher education to be career and technical education, based on national standard course classifications. For the purposes of the community college funding formula, FTE generated from a dual enrollment CTE course must be included in the calculation of CTE FTE and not in the concurrent enrollment or early college FTE categories.

(e) “Dual enrollment” means the circumstance in which a high school student is enrolled in both the student’s high school and in a community college.

(f) “Early college” means the form of dual enrollment through which a high school student receives instruction in a community college course from a faculty member of the community college.

(h) “FTE categories” means CTE FTE, general education FTE, the FTE derived from concurrent enrollment, and the FTE derived from early college. For the purposes of the community college funding formula, FTE generated from a dual enrollment CTE course must be included in the calculation of CTE FTE and not in the concurrent enrollment or early college FTE categories.

(i) “FTE decrease funding factor” means a dollar figure for each year of the ensuing biennium that is determined by the legislature and must be specified in the appropriations act appropriating funds to the community colleges for each biennium.

(l) “General education FTE” means the FTE derived from nondual enrollment students in courses determined by the commissioner of higher education to not be career and technical education, based on national standard course classifications.

(m) “Inflationary factor” means the percentage calculated pursuant to 20-9-326, not to exceed 3% and subject to final determination by the legislature as specified in the appropriations act appropriating funds to the community colleges for each biennium.

(n) “Weighted FTE” means the sum of the FTE in each FTE category multiplied by the corresponding FTE weighting factor.

(2) It is the intent of the legislature that all community college spending, other than from restricted funds, designated funds, or funds generated by an optional, voted levy, be governed by the provisions of this part and the state general appropriations act.

(3) The state general fund appropriation for each community college must be determined as follows:

(a) For the first year of the next biennium, multiply the adjusted base by the inflationary factor for the first year of the next biennium, and to this number add the result of multiplying:

(i) any change in the projected weighted resident FTE changes for the first year of the next biennium from the actual weighted resident FTE in the base year; and

(ii) the FTE decrease funding factor or the FTE increase funding factor as appropriate for the first year of the next biennium.

(b) For the second year of the next biennium, multiply the adjusted base by the inflationary factor for the first year of the next biennium, multiply this result by the inflationary factor for the second year of the next biennium, and to this number add the result of multiplying:

(i) any change in the projected weighted resident FTE changes for the second year of the next biennium from the actual weighted resident FTE in the base year; and

20-15-315. Funding for new community college district. (1) The board of trustees of a newly created community college district shall, by August 1 immediately preceding the regular legislative session at which the district will first seek a state appropriation, submit to the board of regents enrollment projections for each year of the ensuing biennium and an annual budget pursuant to 20-15-312 for the first year of the ensuing biennium.

(2) The state general fund appropriation for the district must be determined as follows:

(a) For the first year of the ensuing biennium:

(i) divide the total adjusted base of all community colleges by the total FTE of all community colleges in the base year;

(ii) multiply the result of subsection (2)(a)(i) by the inflationary factor for the second year of the current biennium and then multiply by the inflationary factor for the first year of the ensuing biennium; and

(iii) multiply the result of subsection (2)(a)(ii) by the projected weighted resident FTE of the new community college for the first year of the ensuing biennium.

(b) For the second year of the ensuing biennium:

(i) multiply the number calculated in subsection (2)(a)(ii) by the inflationary factor for the second year of the ensuing biennium; and

(ii) multiply the result of subsection (2)(b)(i) by the projected weighted resident FTE of the new community college for the second year of the ensuing biennium.

(3) (a) After each fiscal year of the first biennium the new community college district receives a state appropriation, the commissioner of higher education shall determine the fiscal impacts that would have resulted had the actual FTE for that fiscal year been used to determine that fiscal year's state appropriation and determine any overpayment or underpayment to the community college for that fiscal year.

(b) At the end of each odd fiscal year, the commissioner shall calculate the net underpayment or overpayment resulting from the underpayment or overpayment of the prior fiscal year and current fiscal year determined under subsection (2) and:

(i) the commissioner shall distribute any net underpayment determined under this subsection (3) to a community college from the community college FTE adjustment account by October 15 of the current calendar year; or

(ii) a community college receiving a net overpayment determined under this subsection (3) shall pay a fee equal to the overpayment to the commissioner by October 15 of the current calendar year for deposit in the community college FTE adjustment account.

(4) After the first biennium a new community college district receives a state appropriation, the state appropriation for the district in subsequent bienniums must be determined as described in 20-15-310.

History: En. Secs. 1, 27(3), Ch. 351, L. 2021.

20-15-316. Operating levy for community college districts created on or after January 1, 2021. (1) This section applies only to community college districts created on or after January 1, 2021. The legislature intends that a newly created community college district have a single unified operating district levy to support the district's current fund.

(2) Subject to 15-10-420, a community college district may impose an operating levy to support the district's current unrestricted subfund under the provisions of this section.

(3) A newly created community college district may impose an operating levy under this section only after voter approval for a new mill levy as described in 15-10-425.

(4) A community college district may exceed the mill levy limit under 15-10-420 for the operating levy only after voter approval for increasing a mill levy as described in 15-10-425.

History: En. Sec. 2, Ch. 351, L. 2021.

20-15-317 through 20-15-320 reserved.

20-15-321. Current unrestricted subfund cash reserve. At the end of each school fiscal year the board of trustees of a community college district may designate a portion of the current unrestricted subfund end-of-the-year cash balance as a cash reserve for the purpose of paying current unrestricted subfund warrants issued by the district from July 1 to November 30 of the ensuing school fiscal year. The amount of the current unrestricted subfund cash balance that is earmarked as cash reserve may not exceed 10% of the final general fund budget for the ensuing school fiscal year.

History: En. Sec. 3, Ch. 488, L. 1989; amd. Sec. 24, Ch. 351, L. 2021.

20-15-322 reserved.

20-15-323. Definition of emergency for budgeting purposes. As used in this chapter, unless the context clearly indicates otherwise, the term "emergency" for the purpose of community college budgeting means:

(1) the destruction or impairment of any community college district property necessary to the maintenance of the district, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering the property unfit for its present use;

(2) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(3) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district; or

(4) any other reason of similar consequence that has been approved by the board of regents upon petition by the trustees of the district.

History: En. Sec. 51, Ch. 767, L. 1991.

20-15-324. Resolution for emergency budget — petition to board of regents. (1) Whenever the trustees of a community college district decide that an emergency exists, they may adopt a resolution proclaiming the emergency by a unanimous vote of all members present at any meeting for which each trustee has been given reasonable notice of the time and place of holding the meeting. The emergency resolution must also state the facts constituting the emergency, the estimated amount of money required to meet the emergency, the funds affected by the emergency, and the time and place the board will meet for the purpose of considering and adopting an emergency budget for the funds for the current school fiscal year.

(2) If the trustees decide that an emergency exists for any reason other than the conditions specified in 20-9-161(1) through (3), they shall petition the board of regents for permission to adopt a resolution of emergency. The petition must set forth in writing the reasons for the request, the district funds affected by the emergency, the estimated amount of money required to meet the emergency for each affected fund, the anticipated sources of financing for the emergency expenditures, and any other information required by the board of regents. The petition must be signed by each trustee.

(3) The board of regents shall promptly approve or disapprove the petition requesting approval to adopt a resolution of emergency. If the petition is approved, the trustees may adopt a resolution of emergency and take all other steps required for the adoption of an emergency budget. Approval of a petition by the board of regents authorizes the board of trustees to initiate emergency budget proceedings by resolution and does not relieve the trustees of the necessity of complying with the requirements of the emergency budgeting laws.

History: En. Sec. 52, Ch. 767, L. 1991.

20-15-325. Emergency budget limitation, preparation, and adoption procedures.

(1) The meeting of the trustees of a community college district to consider and adopt an emergency budget must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that an emergency exists, the trustees may make and adopt a preliminary emergency budget, on the regular budget form, setting forth fully the facts constituting the emergency. In adopting the preliminary emergency budget, the trustees may budget for any fund that was included on the final budget of the district for the current fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the emergency is the result of increased enrollment, the maximum amount of the emergency budget for all funds must be determined by budget amendment.

(3) If another type of emergency occurs, the budget must be limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the emergency, and the preliminary emergency budget must include the details of the proposed expenditures.

(4) After a majority of the trustees have voted to adopt the emergency budget, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the board of regents.

History: En. Sec. 53, Ch. 767, L. 1991; amd. Sec. 9, Ch. 260, L. 1995.

20-15-326. Determination of available financing — fixing and levying property taxation for emergency budget. (1) After the last day of the fiscal year for which an emergency budget has been adopted, the board of trustees shall determine the amount of the cash balance that is available to finance the emergency budget's outstanding warrants or registered warrants for each fund included on the emergency budget. The available amount of the cash balance of each fund must be determined by deducting from the county treasurer's yearend cash balance for the fund the outstanding warrants or registered warrants issued under the regularly adopted final budget for the fund and the cash reserve for the fund that the trustees have established, within the limitations of law, for the following fiscal year.

(2) The county treasurer shall prepare and deliver a statement on the financial cash status of each fund included on an emergency budget for a district that had an emergency budget during the preceding year to the board of county commissioners by the first Monday in August. The statement for each district emergency budget must include:

(a) the total amount of emergency warrants that are registered against each fund of the district; and

(b) the additional amount of money that is required to finance the registered warrants and interest on the warrants and that must be raised by a tax levy.

(3) For each fund of the emergency budget of each district requiring a tax levy as established by subsection (2)(b), the board of county commissioners shall at the time all other district and county taxes are fixed and levied, levy a tax on the taxable value of all taxable property of each applicable district that will raise sufficient financing to pay the amount established by the county treasurer.

History: En. Sec. 54, Ch. 767, L. 1991; amd. Sec. 10, Ch. 260, L. 1995; amd. Sec. 116, Ch. 42, L. 1997; amd. Sec. 120, Ch. 584, L. 1999; amd. Sec. 126, Ch. 574, L. 2001.

The charges, admissions, and fees are not considered tuition and may be collected from any or all students.

(3) hold the net income derived from the operation of the facilities and the charges, admissions, and fees collected and devote the revenue from these sources to debt service and reserves, repairs, replacements, and betterments of the facilities or, so far as the revenue has not been previously obligated for these purposes, to the acquisition, erection, equipping, enlarging, or improvement of additional facilities of the types described in this section;

(4) exercise full control and complete management of the facilities;

(5) rent the facilities to other public or private persons, firms, and corporations for uses, at times, for periods, and at rates that in the board of trustees' judgment will be consistent with the full use of the facilities for academic purposes and will add to the revenue available for capital costs and debt service;

(6) do all things necessary to plan for and propose financing, including all necessary loan applications, for:

(a) classroom, laboratory, library, bookstore, and other instructional facilities;

(b) office, recordkeeping, storage, equipment maintenance, and other administrative and operational facilities;

(c) stadiums, fieldhouses, armories, arenas, gymnasiums, swimming pools, and other facilities for athletic and military instruction, exhibitions, games, and contests;

(d) auditoriums, theaters, music halls, and other assembly, theatrical, musical, and entertainment facilities;

(e) hospital, nursing, and other health instruction and service facilities;

(f) nurseries, barns, arenas, pavilions, and other facilities for agricultural and livestock breeding, development, and exhibition;

(g) parking lots and ramps and other parking facilities; and

(h) land needed for the facilities;

(7) borrow money for any purpose stated in this section, including, if considered desirable by the board of trustees, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(8) make purchases on a time or installment basis;

(9) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(10) pledge for the payment of the purchase price of a facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(a) the net income received from rents, board, or both in housing, food service, and other facilities;

- (b) receipts from student building, activity, union, and other special fees prescribed by the board of trustees for all students;
- (c) other income in the form of:
 - (i) gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;
 - (ii) receipts from athletic and other contests, exhibitions, and performances; and
 - (iii) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions; and
- (d) the sum of subsections (10)(a) through (10)(c) in part or in whole;
- (11) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, including land; and
- (12) issue and sell or exchange bonds for the refunding of any outstanding bonds or other obligations issued for revenue-producing facilities.

20-15-328. Adjustments based on actual weighted FTE — special revenue account — statutory appropriation. (1) There is a community college FTE adjustment account in the state special revenue fund provided for in 17-2-102. The account is statutorily appropriated, as provided in 17-7-502, to the commissioner of higher education for the purposes described in this section.

(2) Beginning at the end of fiscal year 2024, at the end of each fiscal year the commissioner of higher education, utilizing the FTE decrease funding factor and the FTE increase funding factor as appropriate, shall determine the fiscal impacts resulting from the weighted FTE projections on which that fiscal year's state appropriation to a community college was based, pursuant to 20-15-310, and the fiscal impacts that would have resulted had the actual weighted FTE for that fiscal year been used to determine that fiscal year's state appropriation and shall determine any overpayment or underpayment to the community college for that fiscal year.

(3) At the end of each odd fiscal year, the commissioner shall calculate the net underpayment or overpayment resulting from the underpayment or overpayment of the prior fiscal year and current fiscal year determined under subsection (2) and:

(a) the commissioner shall distribute any net underpayment determined under this subsection (3) to a community college from the community college FTE adjustment account by October 15 of the current calendar year; or

(b) a community college receiving a net overpayment determined under this subsection (3) shall pay a fee equal to the overpayment to the commissioner by October 15 of the current calendar year for deposit in the community college FTE adjustment account.

(3) In disposing of any estate or interest in land pursuant to subsection (1), the board of regents shall obtain consideration that equals or exceeds the full market value of the land. For sales and exchanges, full market value must be determined by the board of regents after an appraisal by a certified or licensed appraiser. If the appraiser determines that the valuation is not complicated and estimates, based on available data, that the full market value of the property is \$10,000 or less, the board of regents may use a restricted or limited appraisal.

The sale procedure must provide reasonable opportunity for members of the public to submit proposals to purchase the land. The board of regents may sell the land only if it determines that the sale is in the best interests of the system. If the board of regents sells the land, the sale must be to the offeror whose proposal the board determines to be the most advantageous to the system, taking into consideration the price and the other evaluation criteria listed in the request for proposals.

(6) (a) The board of regents may sell or exchange the land only if the board of regents first:

(iii) complies with the requirements of the Montana Environmental Policy Act provided in Title 75, chapter 1, parts 1 through 3; and

(iv) complies with the requirements of Montana antiquities laws provided in Title 22, chapter 3, part 4.

(i) the sale or exchange does not return to the state full market value;

(ii) the evaluation criteria in the request for proposals or the sale procedure and proposal selection process did not provide the public with a reasonable opportunity to submit proposals to purchase the land or to have reasonable proposals selected;

(iii) the sale or exchange is not in the best interests of the state; or

(iv) the system has not complied with the requirements of subsections (6)(a)(ii) through (6)(a)(iv).

(7) After obtaining written concurrence of the board of land commissioners required in subsection (6), the board of regents shall convey the land by deed, executed by the presiding officer of the board or other person designated by the board, without covenants of warranty.

20-25-402. Borrowing by regents. (1) In carrying out the powers provided in 20-25-107, 20-25-301, and 20-25-302, the regents may:

(a) borrow money for any purpose or purposes stated in parts 3 and 4 of this chapter, including, if considered desirable by the regents, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(b) make purchases on a time or installment basis;

(c) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(d) pledge for the payment of the purchase price of any facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(i) the net income received from rents, board, or both in housing, food service, and other facilities;

(ii) receipts from student building, activity, union, and other special fees prescribed by the regents for all students; and

(iii) (A) other income in the form of gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;

(B) receipts from athletic and other contests, exhibitions, and performances; and

(C) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions;

(e) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, other than land;

(f) secure any bonds authorized under this section by a trust indenture between the regents and any bank or trust company within or outside of the state of Montana or by a resolution establishing covenants of the regents with the holders of the bonds relating to:

(i) the construction, operation, use, and insurance of the facilities;

(ii) the segregation, expenditure, and audit of accounts of the bond proceeds and of the income pledged;

(iii) the establishment and collection of rents, charges, admissions, and fees sufficient to provide net income adequate for prompt payment of principal and interest on bonds and creation and maintenance of reserves for that purpose; and

(iv) other matters that the regents may determine to be necessary or desirable for the security and marketability of the bonds;

(g) subject to the following provisions, issue and sell or exchange bonds, secured as provided in this section, for the refunding of any outstanding bonds or other obligations issued by the regents:

(i) refunding bonds may, with the consent of the holders of the bonds to be refunded, be exchanged at par plus accrued interest for all or part of the bonds or may be sold at a price not less than par plus accrued interest. They may be secured by a pledge of the same revenue as the bonds refunded or by a pledge of different or additional revenues received at the same unit of the university. This subsection (1)(g) may not require the holder of any outstanding bond to accept payment of the bond or the delivery of a refunding bond in exchange for the bond, except in accordance with the terms of the outstanding bond. Bonds may be issued to refund interest as well as principal actually due and payable if the revenue pledged for the bonds are not sufficient, but not to refund any bonds or interest due that can be paid from revenue then on hand.

(ii) refunding bonds may bear interest at a rate lower or higher than the bonds refunded by the refunding bonds if they are issued to refund matured principal or interest for the payment of which revenue on hand is not sufficient, for the purpose of releasing revenue required for payment of the outstanding bonds permitting the pledge of the revenue for the security of other bonds as well as the refunding bonds, subject to the rights of the holders of the outstanding bonds until those bonds are fully paid and redeemed. Except as authorized in the preceding sentence, refunding bonds may not be issued unless their average annual interest rate, computed to their stated maturity dates and excluding any premium from the computation, is at least $\frac{3}{8}$ of 1% less than the average annual interest rate on the bonds refunded, computed to their respective stated maturity dates.

(iii) in any case in which refunding bonds are issued and sold 6 months or more before the earliest date on which all bonds refunded by the refunding bonds mature or are prepayable in accordance with their terms, the proceeds of the refunding bonds, including any premium and accrued interest, must be deposited in escrow with a suitable bank or trust company having its principal place of business within or outside of the state, which is a member of the federal reserve system and has a combined capital and surplus of not less than \$1 million, and must be invested in the amount and in securities maturing on the dates and bearing interest at the rates that will be required to provide funds sufficient to pay when due the interest to accrue on each bond refunded to its maturity or, if it is prepayable, to the earliest prior date upon which the bond may be called for redemption from the proceeds of the refunding bonds and to pay and redeem the principal amount of each bond at maturity or, if prepayable, on that redemption date and any premium required for redemption on that date. The resolution or indenture authorizing the refunding bonds must irrevocably appropriate for these purposes the escrow fund and all income from the escrow fund and must provide for the call of all prepayable bonds in accordance with their terms. The securities to be purchased with the escrow funds must be limited to general obligations of the United States, securities for which principal and interest payments are guaranteed by the United States, and securities issued by the following United States government agencies, including only banks for cooperatives, federal home loan banks, federal intermediate credit banks, federal land banks, and the federal national mortgage association. The securities must be purchased simultaneously with the delivery of the refunding bonds.

(iv) revenue or other funds on hand in excess of the amount pledged by resolutions or indentures authorizing outstanding bonds for the payment of principal and interest currently due on the outstanding bonds and reserves securing the payment may be used to pay the expenses incurred by the regents for the purpose of refunding, including but without limitation the cost of advertising and printing refunding bonds, legal and financial advice and assistance in connection with refunding the bonds, and the reasonable and customary charges of escrow agents and paying agents. Revenue and other funds on hand, including reserves pledged for the payment and security of outstanding revenue bonds, may be deposited in an escrow fund created for the retirement of those bonds and may be invested and disbursed as provided in subsection (1)(g)(iii) to the extent consistent with the resolutions or indentures authorizing the outstanding bonds.

(h) sell bonds and sell or exchange refunding bonds issued under this section in the manner and upon the terms as to maturities, interest rates, and redemption privileges and for the price that the regents determine with the approval of the department of administration.

(2) If applicable, the regents shall specify whether the bonds issued under this section are tax credit bonds as provided in 17-5-117.

(2) As part of the program, the board of regents shall:

- (a) provide a donor with a receipt that reflects the contribution in sufficient detail for the donor to claim any applicable credits or deductions for state and federal income tax purposes;
- (b) deposit donations to the program in the state special revenue account established by 20-25-456;

(c) develop procedures and forms that enable a donor to make contributions by cash, check, or money order for the benefit of a specific qualifying institution. If a donor does not select an institution, the donation must be allocated on an equal basis to all qualifying institutions by dividing the total donation by the number of qualifying institutions.

(d) develop procedures and forms that enable a donor to select the percentage of the donation that will be used by a qualifying institution for building projects, educational programs, and academic scholarships. If a donor does not make a selection, the donation may be used for the general support, maintenance, or improvement of the institution as provided in 17-3-1001(2).

(e) maintain adequate records to account for contributions that are allocated to each specific qualifying institution and any donor selection preference;

(f) provide each qualifying institution with a schedule showing the total donations credited to the institution at the end of each fiscal year; and

(g) distribute donor contributions to the qualifying institution's endowment fund as provided in 20-25-456.

(3) For the purposes of 20-25-456 and this section, "qualifying institution" means:

(a) a Montana community college that is part of a community college district, defined and organized as provided in 20-15-101; and

(b) a unit of the Montana university system, as described in 20-25-201, or any of its affiliated campuses.

History: En. Sec. 1, Ch. 202, L. 2011.

20-25-456. Voluntary contribution account for Montana's universities, colleges, and community colleges. (1) There is an account in the state special revenue fund established by 17-2-102 to be known as the Montana university system assistance account. The board of regents shall deposit donations to the Montana university system assistance program in the account as provided in 20-25-455.

(2) All donations must be from a private source and may not be expended for any purpose other than for the benefit of qualifying institutions.

(3) Earnings in the account are allocable to each qualifying institution in proportion to each qualifying institution's share of the account balance.

(4) The board of regents shall distribute donor contributions to the qualifying institution's endowment fund. A distribution may not exceed the institution's allocation and must be used for the purpose established by the donor as provided in 20-25-455(2)(d). The distributions are derived from a private nonstate source and are payable without an appropriation pursuant to 17-8-101.

20-25-501. Definitions. (1) Terms used in this part are defined as follows:

(a) "Domicile" means a person's true, fixed, and permanent home and place of habitation.

(b) "Minor" means a male or female, as defined in 1-1-201, person who has not obtained the age of 18 years.

(c) "Qualified person" means a person legally qualified to determine the person's own domicile.

(d) "Resident student" means:

(i) a student who has been domiciled in Montana for 1 year immediately preceding registration at any unit for any term or session for which resident classification is claimed. Attendance as a full-time student at any college, university, or other institution of higher education is not alone sufficient to qualify for residence in Montana.

(ii) any graduate of a Montana high school who is a citizen or resident alien of the United States and whose parents, parent, or guardian has resided in Montana at least 1 full year of

the 2 years immediately preceding the student's graduation from high school. The classification continues for not more than 4 academic years if the student remains in continuous attendance at a unit; or

(iii) a member of the armed forces of the United States assigned to and residing in Montana, the member's spouse, or the member's dependent children.

(2) In the event that the definition of residency or any portion of the definition is declared unconstitutional as it is applied to payment of nonresident fees and tuition, the regents of the Montana university system may make rules on what constitutes adequate evidence of residency status not inconsistent with those court decisions.

20-25-503. Presumptions and rules as to domicile. (1) Unless the contrary appears to the unit registering authority, it is presumed the domicile of a minor is that:

(a) of the parents or, if one of them is deceased or they do not share the same domicile, of the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides; or

(b) of the minor's guardian when the court appointing the guardian certifies that the primary purpose of the appointment is not to qualify the minor as a resident of this state.

(2) A resident student who marries a nonresident does not by that fact alone lose resident status for tuition and fee purposes for a period of 4 years after marriage.

(3) Residence is not lost because of relocation as a member of the armed forces of the United States.

(4) A new domicile is established by a qualified person if the person is physically present in Montana with no intention to acquire a domicile outside of Montana.

(5) Domicile is not lost by absence from Montana with no intention to establish a new domicile.

(6) Montana high school graduates who are citizens or resident aliens of the United States are resident students of the system for 4 consecutive years of attendance if:

(a) they apply for admittance to the system within 1 year after graduation; and

(b) their parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom they customarily reside has resided in Montana in one of the 2 years immediately preceding the graduation.

(7) Upon moving to Montana, an adult employed on a full-time basis within the state of Montana may apply for in-state tuition classification for the adult's spouse or any dependent minor child, or both. If the person meets the requirement of full-time employment within the state of Montana and files for the payment of Montana state income taxes or files estimates of those taxes or is subject to withholding of those taxes and renounces residency in any other state and is not in the state primarily as a student, the person's spouse or any dependent minor child, or both, may at the next registration after qualifying be classified at the in-state rate so long as the person continues a Montana domicile. In the administration of this subsection, neither the full-time employee or spouse is eligible for in-state tuition classification if the primary purpose for coming to Montana was the education of the employee or spouse.

(8) A member of the Montana national guard as defined in 10-1-101 is presumed to be domiciled in the state for purposes of qualifying for in-state tuition classification for a postsecondary certificate or undergraduate, postgraduate, or professional degree program.

20-25-504. Evidence as to domiciliary intent — changes in status. (1) To determine the domicile of a person, the units of the system shall apply the following rules:

(a) Nonpayment of Montana income tax by a person whose income is sufficient to be taxed is highly persuasive evidence of non-Montana domicile.

(b) A person shall intend to establish a domicile in Montana.

(2) After registration, a student's classification for tuition and fee purposes remains unchanged in the absence of evidence to the contrary. A written statement of the evidence must be filed with the registering authority of the unit. Changes in classification must be in writing signed by the registering authority and take effect at the student's next registration.

(3) A minor shall qualify for a change in status only if the minor's parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides or legal guardian or person having legal custody completes the requirements for establishing domicile.

(4) It is presumed a minor or adult registered as a full-time student at any unit is not qualified for a change in the person's dependent's classification for tuition and fee purposes unless the person completes 12 continuous months of residence while not attending a unit of the system or other institution of higher learning or while serving in the armed forces.

(5) Any student whose request for classification as a resident student is denied has the right of appeal to the executive secretary of the Montana university system. Immediately upon rejection and at the request of the student, the registering authority shall forward a copy of the authority's decision and a complete file on the student to the executive secretary. The executive secretary may accept other evidence of residence from either the student, the registering authority, or other interested persons. Within 30 days of the receipt of the decision of the registering authority, the executive secretary shall determine the resident status of the student and shall notify the student and the registering authority of the decision. The executive secretary's decision may be appealed to the regents if the regents agree to entertain an appeal.

20-25-511. Student's right of privacy — legislative intent. It is the legislature's intent that an institution of the university system of Montana is obligated to respect a student's right of privacy. This obligation must be observed by establishing procedures to safeguard the institution's activities that are necessary to protect the health, safety, and privacy of a person's residence and the privacy of the person's records. Intrusions by peace officers and other officials exercising responsibility for law enforcement must be governed by standards and procedures no less stringent than those applicable to intrusions on private quarters outside the institutions. A student may not be subjected to discrimination by the use of covert records.

20-25-1315. Legislative findings and purpose. (1) The legislature finds that:

- (a) air ambulance services provide a necessary, and sometimes lifesaving, means of transporting Montanans experiencing health emergencies;
- (b) Montanans desire adequate access to air ambulance services;
- (c) in many cases the high charges assessed by out-of-network air ambulance services and limited insurer and health plan reimbursements have resulted in Montanans incurring excessive out-of-pocket expenses; and
- (d) the federal Airline Deregulation Act preempts states from enacting any law related to a price, route, or service of an air carrier, which is interpreted as applying to air ambulance services.

(2) The purpose of 20-25-1315 through 20-25-1320 is to prevent Montanans from incurring excessive out-of-pocket expenses in out-of-network air ambulance situations in a manner that is not preempted by the Airline Deregulation Act.

History: En. Sec. 1, Ch. 231, L. 2017.

20-25-1316. Hold harmless. (1) If a covered person receives services from a non-Montana hospital-controlled out-of-network air ambulance service for an emergency medical condition, an insurer or health plan shall assume the covered person's responsibility, if any, for amounts charged in excess of allowed amounts for covered services and supplies, applicable copayments, coinsurance, and deductibles.

(2) An insurer or health plan that assumes a responsibility pursuant to subsection (1) shall notify the air ambulance service of that assumption no later than the date the insurer or health plan issues payment under subsection (4).

(3) If an air ambulance service receives notice pursuant to subsection (2), with the exception of amounts owed for applicable copayments, coinsurance, and deductibles, the air ambulance service may not:

- (a) bill, collect, or attempt to collect from the covered person for the responsibility assumed under subsection (1);
- (b) report to a consumer reporting agency that the covered person is delinquent on the responsibility assumed under subsection (1); or
- (c) obtain a lien on the covered person's property in connection with the responsibility assumed under subsection (1).

(4) (a) An insurer or health plan is responsible for payment or denial of a claim within 30 days after receipt of a proof of loss, except as provided in 33-18-232(1). Within the timeframe provided in this subsection (4)(a), the insurer or health plan shall notify the covered person of the amount of deductible, coinsurance, or copayment that is the covered person's responsibility to pay.

(b) The insurer or health plan responsible under subsection (1) shall make payment based on:

- (i) the billed charges of the air ambulance service;
- (ii) another amount negotiated with the air ambulance service; or
- (iii) the median amount the insurer or health plan would pay to an in-network air ambulance service for the services performed.

(5) If after payment is made under subsection (4) the insurer or health plan and air ambulance service dispute whether any further payment obligation exists, the insurer or health plan and air ambulance service shall enter into the dispute resolution process set forth in 20-25-1318 through 20-25-1320. After the independent dispute resolution process is exhausted, the aggrieved party may pursue any available remedies in a court of competent jurisdiction.

(6) For the purposes of this section:

(a) “emergency medical condition” means a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, so that a person who possesses knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in:

(i) placing the health of the individual or, with respect to a pregnant woman, the health of the woman or her unborn child in serious jeopardy;

(ii) serious impairment to bodily functions; or

(iii) serious dysfunction of any bodily organ or part; and

(b) “insurer” means a health insurance issuer as defined in 33-22-140 and includes issuers of health insurance under Titles 2 and 20.

(7) Sections 20-25-1315 through 20-25-1320 do not apply if a covered person used an air ambulance membership subscription, as provided in 50-6-320, for the services provided by the air ambulance service.

History: En. Sec. 2, Ch. 231, L. 2017.

20-25-1317. Disclosures by air ambulance service. An out-of-network nonhospital-controlled air ambulance service must disclose by July 1 of each year any relationships or financial arrangements with health care providers, insurers, or health plans. This includes but is not limited to employment arrangements, ownership interests, first call agreements, and board memberships. This information must be filed with the department of public health and human services and also posted prominently on the commissioner of insurance’s website. The air ambulance service must ensure the continued accuracy of this information throughout the year by submitting written updates within 5 days of any changes to the information.

History: En. Sec. 3, Ch. 231, L. 2017.

20-25-1318. Independent dispute resolution. (1) If an insurer or health plan and air ambulance service enter into dispute resolution, the procedure in 20-25-1319 is to be used to determine the fair market price of the services that are the subject of the claim.

(2) Payment of the fair market price calculated pursuant to 20-25-1319 constitutes payment in full of the claim.

(3) A determination under this section is not binding on the insurer or health plan and the air ambulance service.

(4) Unless otherwise agreed to by the parties, each party shall:

(a) bear its own attorney fees and costs incurred under the procedure provided in 20-25-1319; and

(b) equally bear all fees and costs of the independent reviewer.

(5) As used in this section, “fair market price” means the value of the services provided as determined by the independent reviewer based on the factors provided in 20-25-1319(6).

History: En. Sec. 4, Ch. 231, L. 2017.

20-25-1319. Independent dispute resolution procedure — exemptions. (1) To initiate a dispute resolution procedure under 20-25-1315 through 20-25-1320, the parties shall file a written notice of dispute with the insurance commissioner.

(2) Except as provided in subsection (3), within 30 days after the date of receipt of the notice of dispute, and if no independent reviewer is mutually agreed to by the insurer or health plan and air ambulance service under subsection (3), the insurance commissioner shall appoint an independent reviewer having the qualifications listed in 20-25-1320. The insurance commissioner shall select an independent reviewer randomly from a list established under 20-25-1320.

(3) The insurer or health plan and air ambulance provider may by mutual agreement select an independent reviewer. The parties shall notify the insurance commissioner of the

mutually agreed independent reviewer prior to the appointment of an independent reviewer under subsection (2).

(4) An independent reviewer's sole substantive determination under this part is the fair market price of the services that are the subject of the claim.

(5) The independent reviewer may make procedural rulings necessary to regulate the proceedings.

(6) The factors to be used in the independent reviewer's determination are:

(a) the training, qualifications, and composition of the air ambulance service personnel;
(b) the fees for rotor wing or fixed wing services originating or provided entirely within the state of Montana that are:

(i) usually charged by the air ambulance service in Montana;

(ii) usually accepted as payment in full by the air ambulance service in Montana;

(iii) usually charged by other air ambulance services doing business in Montana;

(iv) usually accepted as payment in full by other air ambulance services doing business in Montana; and

(v) usually paid by the insurer or health plan for the service provided in Montana;

(c) whether the air ambulance service was provided in a rural or urban context;

(d) the applicable medicare rate of payment for the services that are the subject of the claim; and

(e) any other factors the independent reviewer determines to be relevant in determining fair market price in accordance with established precedent.

(7) Participation in a dispute resolution procedure under 20-25-1318 through 20-25-1320 exempts an insurer from 33-18-201(6) and (8) and 33-18-232(2).

History: En. Sec. 5, Ch. 231, L. 2017.

20-25-1320. Insurance commissioner duties — independent reviewer qualifications. (1) The insurance commissioner shall:

(a) approve any independent reviewer that is eligible to adjudicate disputes under 20-25-1315 through 20-25-1320;

(b) maintain a list of independent reviewers eligible to adjudicate disputes under 20-25-1315 through 20-25-1320;

(c) terminate approval of an independent reviewer and remove the independent reviewer from the list of approved independent reviewers upon determining that an independent reviewer no longer meets the requirements to adjudicate disputes; and

(d) adopt rules necessary to implement 20-25-1315 through 20-25-1320, including rules regarding discovery and other procedures regarding the dispute resolution process and eligibility of an independent reviewer.

(2) An individual is eligible to be an independent reviewer under 20-25-1315 through 20-25-1320 if the individual is knowledgeable and experienced in applicable principles of contract and insurance law.

(3) In approving an individual as an independent reviewer, the insurance commissioner shall ensure that the individual does not have a conflict of interest that would adversely impact the individual's independence and impartiality in rendering a decision in an independent dispute resolution procedure under 20-25-1318 and 20-25-1319. A conflict of interest includes but is not limited to an ownership or direct familial interest in an insurer, a health care provider, or an air ambulance service that may be involved in an independent dispute resolution procedure under 20-25-1318 and 20-25-1319.

(4) In approving an individual as an independent reviewer, the insurance commissioner may not approve an individual who is currently serving in any matter as a hearing officer for the commissioner.

The purpose of this part is to establish the structure by which the Montana university system may develop a self-insured student health plan, to work in conjunction with available campus student health services for enrolled students of the Montana university system and their dependents, including students of a community college district, and to clarify that the plan is not regulated by or subject to the provisions of Title 33.

History: En. Sec. 1, Ch. 199, L. 2011.

20-25-1402 reserved.

20-25-1403. Authorization to establish self-insured health plan for students — requirements — exemption. (1) The commissioner may establish a self-insured student health plan for enrolled students of the system and their dependents, including students of a community college district. In developing a self-insured student health plan, the commissioner shall:

- (a) maintain the plan on an actuarially sound basis;
- (b) maintain reserves sufficient to liquidate the unrevealed claims liability and other liabilities of the plan; and
- (c) deposit all reserve funds, contributions and payments, interest earnings, and premiums paid to the plan. The deposits must be expended for claims under the plan and for the costs of administering the plan, including but not limited to the costs of hiring staff, consultants, actuaries, and auditors, purchasing necessary reinsurance, and repaying debts.

(2) Prior to the implementation of a self-insured student health plan, the commissioner shall consult with affected parties, including but not limited to the board of regents and representatives of enrolled students of the system.

(3) A self-insured student health plan developed under this part is not responsible for and may not cover any services or pay any expenses for which payment has been made or is due under an automobile, premises, or other private or public medical payment coverage plan or provision or under a workers' compensation plan or program, except when the other payor is required by federal law to be a payor of last resort. The term "services" includes but is not limited to all medical services, procedures, supplies, medications, or other items or services provided to treat an injury or medical condition sustained by a member of the plan.

(4) The provisions of 20-25-1315 through 20-25-1320 apply to any self-insured student health plan developed under this part.

(5) (a) Except as provided in subsection (5)(b), the provisions of Title 33 do not apply to the commissioner when exercising the duties provided for in this part.

(b) A self-insured student health plan established under this part must include coverage for telehealth services as provided in 33-22-138.

20-25-1404. Authorization to finance self-insured health plan for students. The commissioner may, subject to the approval of the board of regents, finance the initial costs to establish the plan established pursuant to 20-25-1401 by using any of the following methods:

(1) authorizing a long-term loan of university funds. The loan must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool.

(2) issuing and selling bonds and notes in whole or in part for this purpose; or

(3) using any other lawful means, including the assessment of student fees.

History: En. Sec. 3, Ch. 199, L. 2011.
