

APPENDIX 5

Model Examples

The Evaluations System Work Group working on the Montana Educator Performance Appraisal System (Montana-EPAS) found it very difficult to come up with one single model superintendent evaluation instrument. The Evaluations System Work Group recognizes the differences in size of school districts, the make-up of local trustees, and the models of governance. The model superintendent evaluation instrument examples that follow are meant to reflect the differences in approaches that trustees and superintendents may take in effective evaluation. For example, some trustees and superintendents find that a narrative response works well and leads to a rich discussion during the evaluation process. In other instances, trustees and superintendents may find a numerical ranking works best. In any case, the most important element in effective evaluation is that the evaluation instrument should lead to a rich discussion of the performance of the superintendent and the success of the district.

These models are not the only superintendent evaluation instruments that can work – please feel free to adopt, adapt, or re-create your own instrument. The goal of the Evaluations System Work Group is for this process guide to assist you as you develop your evaluation instrument and the process you will use for an effective superintendent evaluation.
