

VARIANCES TO STANDARDS APPLICATION

Renewal Application (three years)

Purpose: <u>ARM 10.55.604(4)</u> "Following the second year of implementation of a variance to standards, the school district shall provide evidence to the Superintendent of Public Instruction that the methods selected by the district implement, meet, or exceed results that could have been achieved under established standards."

DUE DATE:

First Monday in March

COUNTY: Lake

DISTRICT: #23

LIST EACH SCHOOL THAT IS REQUESTING THE VARIANCE: Polson High School

- Standard(s) for which a variance is requested, e.g., 10.55.709. If there is a program delivery standard, be sure to list it as well, e.g., 10.55.1801.
 10.55.709: Library Media Services 1.5 FTE for schools with 501-1000 students
 10.55.1801: Library Media Program Delivery Standards
- 2. Provide evidence that local community stakeholders were involved in the consideration and development of the proposed renewal variance application. Community stakeholder groups include parents, community members, and students as applicable.

The sign-in sheet for the February 8, 2016 meeting of the Polson School District Board of Trustees

will be submitted with this application. The agenda and draft minutes for the meeting, including

approval of this application, are attached. The official minutes will follow upon approval of the

Board.

- 3. Provide evidence local school stakeholders were involved in the consideration and development of the proposed renewal variance application. School stakeholder groups include trustees, administrators, teachers and classified school staff. The sign-in sheet for the February 8, 2016 meeting of the Polson School District Board of Trustees will be submitted with this application.
- 4. Attach Board of Trustee meeting minutes that show the Board of Trustees approved the application for a renewal variance at an official, properly noticed meeting.

5. Reflection upon initial variance:

a. Describe the specific measurable objectives that were listed in the initial variance application that demonstrated how the proposed variance was to meet or exceed the results under the current standard(s).

Polson High School Library fulfills the Llbrary/Media Program Delivery Standards which include the essential functions of a teacher-librarian; information technology instruction, reading advocacy, and information management. The teacher librarian also performs in a leadership role as a teacher, instructional partner and program administrator.

Montana Common Core Standards for Grades 9-10 in English Language Arts, Informational Reading Standards: RI. 9-10.1 through RI. 9-10.3 on Key Ideas and Details address the students' ability to find and use text resources for key ideas and specific information to support their research needs. Standards RI. 9-10.7 through RI.9-10.9 on the Integration of Knowledge and Ideas, and Standard RI. 9-10.10 on Range of Reading and Level of Text Complexity address the students' ability to utilize information in different formats and levels of complexity and decide if the details and statements are relevant and credible.

These skills are taught during Freshmen and Sophomore Library Skills and reinforced in the upper grades through teacher collaboration and student work on assigned term paper research and classroom projects. The proposed Alternative Standard allows the librarian to co-teach with the Freshmen and Sophomore English teachers in the classroom and library. The librarian delivers content on the skills needed to access the library's print and electronic resources, Internet search skills and evaluating resources in the classroom through demonstrations, activities, on-line content and video content, while the para-professional staffs the library.

b. Provide a summary of the evidence or data gathered to demonstrate that the initial variance meets or exceeds results that could have been achieved under the established standard.

* The number of hours of collaboration with each core department and the library/media staff was recorded using Google Calendar. The Google Calendar link on the PHS webpage informs staff of availability of library space and computer workstations. Calendars of department use for the 2014-15 school year are attached. (www.polson.k12.mt.us/phs)

* Charts recording library use by core departments are attached.

* The number of total patrons (students and staff) using the library either individually or with classes was logged using a "people counter" that records the number of visits each day. Patron visits were recorded on each day of the Google calendars.

* Circulation statistics were retrieved from Destiny Library Manager software. Monthly circulation statistics for the 2014-15 school year and 2015-16 school year are attached.

5 b. continued

* Library and information skills questions were not included in the semester final for English 9. The Polson High School English Department adopted new textbooks for grades 9 -12 during the 2014-15 school year. English faculty and the librarian are working to update, adapt and integrate information skills into new teaching units. Assessments will be adapted or created. Our goal is to authentically integrate information skills into classroom assignments and projects so these skills can be introduced and reinforced throughout the year.

* The TRAILS Online Assessment of Information Literacy Skills was not used for the 2014-15 school year.

c. After reflection on the initial variance, describe any adjustments that need to be made to meet the specific needs of the students in the school(s).

On reflection, the staffing variance in place at Polson High School continues to meet the needs of our school, library program, students and staff. The current para-professional has been on the library staff for one and a half years. This staff member is highly valued as she provides an exceptional level of support to students and staff.

(Use check boxes provided in items 6-11 if the information requested remains unchanged from the initial variance application.)

6. Describe the renewal variance requested.

□ Renewal variance is the same as the initial variance.

We request renewal of our 2014 application for an alternative standard regarding our library staffing. We would like to continue staffing the Polson High School Library with 1 FTE certified teacher librarian and 1 FTE para-professional library assistant. This staffing arrangement allows us to offer flexible scheduling, co-teaching, expanded hours and services to students and staff, and keep the library open during the lunch hour.

The para-professional on staff provides coverage and supervision of the library while the teacher librarian is administering the library, collaborating with staff, and teaching students in the library and classroom. The full-time para-professional is also able to complete the clerical and technical tasks essential to operation of the library programs and facility.

7. Provide a statement of the mission and goals of this proposed renewal variance.

 \boxtimes Mission and goals are the same as the initial variance.

Montana

Office of Public Instruction Denise Juneau, State Superintendent

8. List specific measurable objectives that demonstrate the proposed renewal variance will meet or exceed the results under the current standard(s).

Measurable objects are the same as the initial variance.

9. What data or evidence will be gathered to document progress toward meeting the measurable objectives of the renewal variance?

Data or evidence gathered in the same manner as the initial variance.

* The number of hours of collaboration with each core department and the library/media staff will be recorded using Google Calendar. The Google Calendar link on the PHS webpage also serves to inform staff of availability of library space and computer workstations. (www.polson.k12.mt.us/phs) * A chart that summarizes use of the PHS Library by department will be completed.

* The number of total patrons (students and staff) using the library either individually or with classes will be logged using a "people counter" that records the number of visits each day. Our goal is to realize an average of 300 patron visits per day. Number of patron visits each day are noted on Google calender.

* Circulation statistics will be retrieved from Destiny Library Manager software. We would like to maintain a monthly circulation for print materials at or above 500 items. Circulation statistics for the 2015-16 school year are attached.

*Library and Information Skills questions will be included in the 2nd semester final for English 9. Test results will be used to adjust teaching methods and content.

10. In what way does this variance meet the specific needs of the students in the school(s)?

The renewal variance will meet the specific needs of the students in the same manner as the initial variance.

The presence of the FTE library para-professional allows the teacher librarian to collaborate with staff and teach students throughout the day in the classroom or the library. The library's daily schedule is posted on Google Calendar through a link on the Polson High School webpage (www.polson.k12.mt.us/phs). Teachers can access the link to check availability of the library classroom areas and computer workstations.

Information skills, including the research process, ethical use of information, the use of school-wide resource databases and educational software subscriptions are taught in grades 9 - 12. The library staff work with classes and individual students to assist with information seeking strategies, giving proper credit for information sources and the synthesis and presentation of classroom assignments.

Montana Office of Public Instruction Denise Juneau, State Superintendent

10 continued.

Through flexible scheduling, the library is used by all departments in the school including Math, Science, Physical Education/Health, Foreign Language, Business, Tech Education, Art and Music. We also work with the Special Services department and Study Support para-professionals.

The library para-professional ensures skilled assistance and access to the library when the teacher librarian is engaged in lesson planning and delivery. As well as many clerical and technical tasks, the library para-professional handles textbook management for the English Department.

The Alternative Standard of 1 FTE teacher librarian and 1 FTE para-professional fulfills the needs of our school, library program and patrons.

11. Describe how and why the proposed variance would be:

a. Workable.

 \boxtimes Renewal variance is the same as the initial variance.

b. Educationally sound.

Renewal variance is the same as the initial variance.

c. Where applicable, aligned with program standards under ARM 10.55.1101 through 10.55.2101.

□ Renewal variance is the same as the initial variance.

The teacher librarian is fulfilling the administrative duties of the library which are outlined in Standard 10.55.1801. Selection and management of the print collection and electronic resources, long range planning and program development, communication and cooperation with local and regional libraries and staffs, and participation in school-wide and district level committees are priorities, including the High School English Language Arts Professional Learning Community and the Support of At-Risk Students Professional Learning Community. The teacher librarian chairs the Polson High School Indian Education for All Committee and is a member of the Mentoring Committee which supports new faculty. STAR Reading test administration and data management is a responsibility of the teacher librarian. Polson Schools K-12 teacher librarians meet regularly to develop and implement curriculum, plan for teacher training, cooperative purchases and professional development. The teacher librarian has participated in the development and pilot year implementation of the Polson Professional Advancement System. Polson High School is compliant with Administrative Rule 10.55.1801.

d. Where applicable, aligned with contend standards under ARM Chapters 53 and 54.

□ Renewal variance is the same as the initial variance.
