

Funding Instructions REAP/Flex Authority

Instructions

The Allocation page provides “view only” access to project and multi-district Allocation information as well as enterable fields for transferring funds across multiple programs. It is an excellent source of information for consolidated planning.

The page is divided into three sections: **Current Year Allocation, Multi-district, and Transfer Funds.**

Current Year Allocation

The first section displays adjustments to the **Current Year Allocation** through:

- **Reallocated Funds** or **Released Funds** resulting from the ESEA Title I reallocation process;
- **Prior Year(s) Funds** (unbudgeted and unexpended) funds carried into the project from the prior year or awarded throughout the current fiscal year.

Multi-district

The next section displays **Multi-district** transfers. **Transfers In** to the administrative agent of a multi-district agreement and **Transfers Out** for participating member districts are shown here. The **Administrative Agent** link lists the administrative agent and all participating members with their contributing Allocations.

Private School Consultation and Equitable Services Required

Before an LEA may flex any funds, it must engage in timely and meaningful consultation with private school officials. Participating private/nonpublic schools must be served before the public district flexes funds or uses the schoolwide option.
