PRIVATE SCHOOL PARTICIPATION IN FEDERAL PROGRAMS

Jack O’Connor
Ombudsman &
Federal Grants Unit Director
Montana Office of Public Instruction
AGENDA

1. Title I
2. Title II
3. Title III
4. Title IV
5. Equitable Share
6. Egrants
7. ESSER I, II, and III (EANS)
8. Forms
The Ombudsman is a requirement under the ESSA
Role is to work on behalf of the private schools to make sure that high-quality services are provided
Assists private schools if they are not being treated fairly
Title I is the largest, federally funded educational program developed under the Elementary and Secondary Education Act of 1965

Present law is called the Every Student Succeeds Act-ESSA

Established to give supplemental educational services to at-risk students for them to catch up to their peers

All services must be in addition to regular classroom instruction

All services, materials, professional development, etc. must be in addition to, not in replacement of the regular educational program both in programmatic and fiscal components

WHAT IS TITLE I?
Under Title I, LEA's must provide services to eligible private school students if requested

In Montana, homeschools are considered private schools

Services must be to eligible elementary and secondary students, their teachers, and their families

“Equitable share”

Services must be equitable to those provided to eligible public school children, teachers, and families

Services must be secular, neutral, and nonideological

ESEA/ESSA SEC. 1117
Each spring the OPI sends out an email to public schools to begin the process of notifying private/non-public schools of their right to participate in federal programs.

The district must then contact each private/non-public school to determine if that entity wants to participate (2 weeks minimum).

The public school is required to keep track of all contact.

This must be reported to the OPI.

All completed through the web app: [https://apps.opi.mt.gov/nonpublicschool/frmLogin.aspx](https://apps.opi.mt.gov/nonpublicschool/frmLogin.aspx)

**CONTACTING PRIVATE SCHOOLS**
▪ Discussions must be held between the LEA and private schools on the key issues related to Title I services
▪ This gives both groups an opportunity to express their views about the services
▪ Helps to foster productive working relationships between the groups to better impact student achievement
CONSULTATION REQUIREMENTS

- Ways the LEA will identify eligible students
- Services to be provided
- How and when the LEA will make decisions about the delivery of services
- How, where, and by whom the LEA will provide services
- The method and sources of data the LEA will use to identify eligible students
MORE REQUIREMENTS

- Services the LEA will provide to teachers and families of eligible students
- Discussion of the delivery mechanisms the LEA will use to provide services
- If a third-party contractor should be used
  - MOU
  - LOA
  - Other contract
LEA must keep records related to the consultations-Montana Open Meetings Law

Signed affirmations from private school

Consultation should be on-going

Private schools have the right to complain

Title I application (Egrants) must be available to the private school

GENERAL CONSULTATION INFORMATION
STEPS IN THE PLAN

- Decide on the instructional plan based upon the Needs Assessment.
- Discuss what supplies will be needed by the public school and private to run the program (Third-party provider)
- What types of professional development will be needed
- How, when, and what types of assessments will be used to determine progress
- Exiting criteria
- Program evaluation
- Program should be assessed for effectiveness at the end of the year
- Students should be assessed before program entry, during the program, and at the end of the year (progress/benchmark testing)
- Next steps should be discussed with the private school
- Prepare for the next year

PROGRAM ASSESSMENT
There are six main sources to determine poverty data:
- Census count
- Free and reduced lunch
- Temporary Assistance for Needy Families (TANF)
- Medicaid assistance
- Proportionality
- Community Eligibility Provision (CEP)

These processes may be difficult in a private school, but it can be done every two years

ALLOCATING FUNDS
USES OF FUNDS

- Equitable services funds must be primarily for a Title I program
- May not just be for professional development and supplies
- General rule of thumb-85% of the funds should be for salaries and benefits; the remainder for PD and supplies
- If there is no educational program, then there is no need for PD and supplies to support it
- The public school owns all instructional materials and supplies!

USES OF FUNDS
• Child must reside in a participating public school attendance area
• Must meet the requirements to be served under Title I
• LEA must work with the private school to determine eligibility

</table>
To avoid the previous scenario, the OPI uses another format to allocate funds to some public/private schools. It can only be used if there are 20,000 people or fewer in a district. Enrollment numbers for students and students on free/reduced lunch are combined between the public and private schools. Districts must have an agreement for one entity to supply services for another-interlocal agreement.

ALTERNATIVE FORMULA
LEA designs the Title I program with input from the private school
Must supplement and be well coordinated with the regular program
Service types: instructional services, extended day, family literacy, counseling, computer-aided instruction, home tutoring, etc.
Must be secular, neutral, and nonideological

TYPES OF SERVICES
- Title I services to private school students must be set up like a TAS program
- Students must be identified for services based upon multiple, educationally-related criteria
- Services can be in any subject area, not just reading or math
- Must develop a prioritized list of eligible students
- Materials and supplies purchased must supplement the regular educational program at the private school

TARGETED ASSISTANCE SERVICES
- Teachers and paraprofessionals who are employed by the LEA must meet the licensed/certified rules under the ESSA
- Third-party providers
- Third-party providers do not have to meet the licensed/certified rules
- Hires outside of existing contracts with LEA/private school
- All staff paid for with Title I funds are employees of the public school during Title I instructional time

QUALIFICATIONS
If the district receives $500,000 or more in Title I funds, it must set aside 1% for parent and family engagement and a portion of this must be used for activities for private school parents.

- This amount is usually small.

PARENT AND FAMILY ENGAGEMENT
• Should assist public and private school staff
• Must have meaningful consultation
• Services must be equitable and paid for by the public school
• Can share PD opportunities.
• Must only be for private school teaching staff directly working with identified Title I students—which is just about everyone!
• Must be secular, neutral, and nonideological
▪ Reasonable amounts may be set aside to run the program at the public and private school
▪ Third-party administrative costs are allowable
▪ Expenses: furniture, purchase or lease of property, insurance and maintenance costs, transportation, etc.
▪ Cannot be used to renovate the private school site

ADMINISTRATIVE COSTS
- All requisitions must be done on the public school’s forms
- The public school buys airline tickets, makes reservations, pays all fees
- No funds can go to the private school!!!
- Other reimbursements can go to employees: per diem, parking fees, etc.
- All need to be agreed to in the consultation process—there should be no surprises!
Supporting Effective Instruction

- Based upon a school needs assessment and teacher growth plans
- Private school staff may also participate in Title II, Part A
- Private school equitable share funds may only be used for professional development activities
- Private school is required to complete a needs assessment for school PD needs, and it should also look at teacher professional growth plans
- District may invite private school staff to its own PD activities, and a portion of those costs may come out of the equitable share set aside
- Private schools may use a portion of the equitable share funds to attend PD like the National Catholic Schools conference
- District may not reimburse the private school but may directly pay staff members
- Christy Hendricks, Title II coordinator, Christy.Hendricks@mt.gov or 406-444-0794
• Title III assists ELs, including immigrant children and youth, to develop English proficiency and to meet the same challenging state academic standards that other children are expected to meet.

• Schools must use Title III funds to implement language instruction educational programs that are keyed to the overall standards. SEAs, districts, and schools must report the English proficiency and core academic content knowledge of ELs.

• Title III has a dual purpose: to help ELs meet the same state academic achievement standards applicable to all students, and that they develop proficiency in the English language. These goals are closely related but distinct.

Title IV Part A is also known as Student Support and Academic Enrichment (SSAE). The SSAE program is intended to improve students’ academic achievement by increasing the capacity to provide all students with:

- Access to a well-rounded education
- Improve school conditions for student learning, safe and healthy students
- Improve the use of technology to improve the academic achievement and digital literacy of all students

The LEA should consult with its private school(s) prior to making any decisions to transfer Title IV-A funds. If the public school determines, based on their needs assessment, that a transfer will occur, the private school students will receive their equitable share of services based upon the program to which the funds are transferred.

**TITLE IV-A**

For more information contact: Tammy Lysons, [tamara.lysons@mt.gov](mailto:tamara.lysons@mt.gov), (406) 444-0829
The equitable share is determined before district level set asides.

All funds must be expended in the year they were allocated—there is no more carryover of equitable share dollars unless there was some unforeseen situation—shown on Targeting Step 4 in Egrants.

District must manually calculate the amount of available funds for each private/non-public school in Egrants under the Private School participation tab.

**EQUITABLE SHARE SET ASIDES**
After consultation, and even if the non-public objects, the district can move funds from one federal program to another, even if this removes all federal funds from a program.

For example, the district moves Title II, III, and IV funds to Title I. This means that there would be no equitable share funds for the private school in those programs as the fund balance would be zero. However, there would be an increase in the equitable share dollars for Title I.

Funds may not be left behind in a federal program just for equitable share.

The equitable share for this situation would be based upon any amount left behind.
Consultation, final equitable share agreement, and interlocal agreement forms, if necessary, are due to the OPI no later than July 31, of each year.

The ombudsman must review all the agreements.

Extensions can be granted when requested.

Agreements need to be established before the Egrant application is submitted.

TIMELINES
Egrants is the online federal funds application system used by MT districts.

It does not need any special software; you just need the ability to connect to the Internet.

The program calculates the equitable share, and districts will budget set aside funds within the program.

Private/non-public tab shows how much each non-public gets.

The budget pages show where the funds are being used.

ESSER I-funds were handled by the LEA’s
ESSER II and III (EANS)-handled by the SEA
Will use the Egrants system for funds
ESSER II-reimbursement is allowed
ESSER III-no reimbursement allowed

For more information please contact:

- Mindi Askelson- Mindi.Askelson@mt.gov

ESSER I, II, AND III
ALLOWABLE ACTIVITIES IN ESSER I

Any activities authorized under ESEA, IDEA, Perkins, Family Literacy and McKinney-Vento Act
Coordination of preparedness and response efforts of LEAs
Providing resources for school leaders
Activities to address unique needs of at-risk students
Developing and implementing procedures and system to improve readiness
Training and professional development
Purchasing supplies for sanitation
Planning and coordination during long term closures (including meals)
Purchasing educational technology
Providing Mental Health services
Planning and implementing summer/supplemental learning activities
Other activities necessary to maintain the operation and continuation of services in LEAs
NEW ALLOWABLE USES IN ESSER II

Addressing learning loss among all students in all subgroups
• Administering high quality reliable assessments
• Implementing evidence-based activities
• Providing information and assistance to parents and families to support students
• Tracking student performance and engagement in distance learning

Facilities and repairs and improvements to reduce risk of virus transmission

HVAC systems
Information will be forth-coming at a future date.
