### Regular Tuition Agreement Rates per 20-5-323, MCA and 20-5-324, MCA

The OPI will calculate the percentages necessary to determine the tuition rate once all the budgets have been submitted in the fall. The percentages are calculated based on the adopted general fund budget funded by BASE and over-BASE property tax levies in the year of attendance not to exceed 35.3%. The tuition rate will be determined based upon the lowest percentage calculated between the District of Residence and the District of Attendance.

#### To calculation tuition to charge the resident district:

Compare the percentage rates for the two districts, choose the lowest percentage.

Multiply the appropriate Tuition Per-ANB Amount by the percentage to equal the amount of tuition to charge.
