- 2. Remember that set asides that are listed on Targeting Step 4 under the Consolidated Application must show up on the budget pages. (These set asides maybe on the Basic, Schoolwide, or a combination of both budget pages.)
- 3. If the district has, and chooses to use its indirect cost rate, that amount is calculated on the lower, left-hand corner of the page. The indirect cost rate amount cannot exceed the

maximum amount. The amount that the district wants to use must be placed in the open box (G) Budgeted Indirect Cost Rate on the lower, right-hand corner of the page.

4. After this page has been calculated and saved, the district must then go back to the Consolidated Application, click on Select Eligible Attendance Areas, go to Targeting Step 4, place the budgeted indirect cost rate amount in the Indirect Cost Rate Box directly about the "ghosted" out Indirect Cost rate amount, and then recalculate the page.

Property and Equipment Tab

- 1. Should a district purchase any singular item with a cost of \$5,000 or more, this page must be completed. The district will give a description of the item, how many are being purchased, and the unit cost. The page will automatically calculate the total costs.
- 2. If needed, further clarification can be given in the textbox at the bottom of the page.

Budget Summary Tab

This page just gives an overview of the budgeted items saved on the Budget Detail page. Data cannot be entered on this tab.
