Introduction

This guide outlines the Montana Content Standards for 5th grade students in English Language Arts. This is a grade-specific look at the standards. A grade-by-grade level progression is available in a separate document, Montana Content Standards for English Language Arts and Literacy.

Adopted in November 2011, the standards provide a framework for literacy not only in English Language Arts, but across content areas in history/social studies, science, and technical subjects. Just as students must learn literacy skills and conceptual understandings to be college and career ready, they must be able to read, write, speak, listen, and use language effectively in a variety of content areas. Students who meet the standards develop the skills in reading, writing, speaking, and listening that are the foundation for any creative and purposeful expression in language. This guide provides resources and guidance to educators as they align their curriculum to these standards. These standards reflect the constitutional mandate that all educators must provide instruction including the distinct and unique heritage and contemporary contributions of American Indians in a culturally responsive manner (See IEFA; MCA 20-1-501 Article X; resources; and materials).
