

Attendees:

<i>Required (DT):</i>	<i>Optional (RT):</i>	<i>Optional (OPI):</i>	<i>Optional (EDNW):</i>
Jennifer Brackney Matt Roscoe Bill Becker Jennifer Luebeck Tina Blair	Pat Baltzley Sharon Carroll Lisa Scott	Marie Judisch Katrina Engeldrum	Jacob Williams Erich Stiefvater

Agenda:

- 6-8 Development Team (DT) examines [6-8 Math Standards - Cleaned Up - Sept. 2023](#) and the comments provided by the team.
- Edits on standards
- Verification that justifications match the task force’s intent
- Clarification of 6th and 8th questions
- Establish the date that all final revisions will be added to the document and final clean-up will be conducted to move forward in the process.

Discussion

- The committee does not feel that “Done” is the correct verbiage for the IEFA statement and proposed the following alternatives: addressed, implemented, enacted, taught, and incorporated. They would like the vertical alignment and review teams to consider alternate compositions of this statement in a way that seems less like a box being “checked off” and more like an authentic attempt to integrate cultural ways of thinking.
- Clarified intent and justifications on some standards that Katrina had follow-up questions on. Established justification for some standards that previously lacked these items.
- The committee reviewed the 7th Grade Geometry standards and these changes will be reflected in the document going forward.
