**Title I Equitable Share Services Agreement**  
**School Year 2025-26**

This document serves as the official record of the equitable share services that will be provided by the public-school district to the private school that has chosen to participate in Title I, Part A under the ESEA/ESSA. These services were developed as a result of the consultation between the school district and the private school. **This form, or one that encompasses the same information, must be completed for each private school that participates in Title I, Part A Equitable Services.**

*Upon completion, the district will maintain a copy in its files, provide the private school with a copy, and email/mail a copy to the Montana Office of Public Instruction. This is required under Section 1117 of the Every Student Succeeds Act (ESSA), and it only applies to Title I, Part A.*

1. Identify the method or source of 2023-24 data used to determine the number of children from low-income families in participating public school attendance areas who attend the private school as described in 1117(c)(1)(A)(B)(C)(D) and Title I Services to Eligible Private School Children, Non-Regulatory Guidance, October 7, 2019, B-11).
  - ☐ Same measure of low income used to count public school children. (Using measures such as Free-Reduced Lunch Program or Community Eligible Provision data.)
  - ☐ Comparable Poverty Data—Family Income Survey. (Using the results of a survey to obtain poverty data comparable to those used for public school students. The income survey that, to the extent possible, (1) protects the identity of families of private school students, and (2) may allow such survey results to be extrapolated if complete actual data are unavailable.)
  - ☐ Comparable Poverty Data—Sources other than a Family Income Survey. (Using comparable poverty data from a different source, such as scholarship applications based on comparable family income criteria, Temporary Assistance to Needy Families, or other.)
  - ☐ Proportionality. (Applying the low-income percentage of each participating public-school attendance area to the number of private school children who reside in that school attendance area.)
  - ☐ Correlated or Equated Measure. (Using an equated measure of low income by correlating sources of data; that is, measuring the proportional relationship between two sources of data on public school children and applying that ratio to a known source of data on private school children.)

2. Will the private school pool Title I, Part A funds with other private schools?
