Introduction

This model curriculum guide outlines the Montana Arts Content Standards. These standards were adopted by the Montana Board of Public Education in July of 2016, with an effective date of July 1, 2017.

The Montana Arts Content Standards embrace the idea of Artistic Literacy – the ability of students to create art, perform and present art, respond or critique art, and connect art to their lives and the world around them. The arts are essential to a world-class education. Studying the arts helps to develop critical habits of mind—creativity, collaboration, communication and critical thinking that lead to college, career and civic readiness. These skills have been recognized as essential to lifelong success both in and out of school by a variety of education and civic leaders, including the National Association of State Boards of Education, the Education Commission of the States, and The Conference Board.

The revised Montana Standards for Arts in the ARM borrow their structure from the 2014 Voluntary National Core Arts Standards. They contain substantive changes from the 2000 Montana Standards for Arts.

Highlights of the changes

- The standards move from general content standards across all artistic disciplines to five distinct artistic disciplines: visual arts, media arts, dance, theatre and music.
- The music standards reflect that music education in Montana encompasses different kinds of musical learning in elementary, middle, and high school.
- The five artistic disciplines now include media arts standards in order to support artistic literacy in the areas of film, animation, and digital art making. The media arts standards are designed to supplement any existing Career and Technical Education industry standards in the digital communications area.
- The standards are organized by grade level for grades K-5 and by grade band for grades 6-8 and 9-12.
- The standards integrate Montana’s Indian Education for All, acknowledging the contribution of native tribes to Montana’s rich artistic and cultural life.
