Agenda:

- 3-5 Development Team (DT) examines [3-5 Math Standards- Cleaned Up - Sept. 2023](#) and the comments provided by the team.
- Edits on standards
- Verification that justifications match the task force's intent
- Establish the date that all final revisions will be added to the document and final clean-up will be conducted to move forward in the process.

Discussion

- Katrina clarified how the document was drafted from the working document that your team developed. IEFA statement was changed to separate from this committee's recommendations and in accordance with the Tribal panel members and the K-12 revision team's vote last month.
- Clarification of some standards' intent and wording
- Next steps: this will go to the review committee for review. Anyone interested in participating is welcome to attend. We specifically want to look at the vertical alignment of these standards.
