

# Early Literacy Road Show

We're excited to bring this dynamic, hands-on event to Comprehensive School Leaders, Administrators and communities across Montana, where we'll provide important information about the Early Literacy Targeted Intervention programs created under HB 352 ([20-7-1803, MCA](#)). Whether you're an educator, community leader, administrator, or part of one of the Special Education Cooperatives in Montana, we hope you will join us to find out more about how to bring these programs to your schools.
