SketchUp Pro K-12 Statewide License Grant Program -
License Code(s) for MONTANA

THE FOLLOWING INFORMATION IS PROVIDED BY TRIMBLE:

Here's a rundown of how our grant licensing works and what information you will need to know:

- **To determine which version of SketchUp Pro a school should use, please visit; SketchUp Hardware & Software Requirements**
  - **Make sure you have downloaded the corresponding version of SketchUp Pro here.**
  - **You can use the below table as a 'quick guide' to help determine the proper version of SketchUp to Download.**

wSketchUp Pro 2016	SketchUp Pro 2017	SketchUp Pro 2018
Windows OS 7+, 8+, 10	Windows OS 7+, 8+, 10	Windows OS 7+,8+,10
Mac OS X 10.9 and above	Mac OS X 10.10 and above	Mac OS X 10.11 and above
Open GL 2.0	Open GL 3.0	Open GL 3.0

- **Your SketchUp Pro license is platform agnostic, which means the license codes will work on both Mac or Windows machines.**
- **A Single license code for each corresponding version of SketchUp Pro is provided for use on all school computers within your locality - the same code can be used for individual teacher computers, school lab computers, or school laptops.**
- **Each time a license is applied to a computer, that computer is node-locked with one license activation from the total pool of license activations (we have provided your state with plenty of activations).**
- **Computer Tech Administrators: To authorize multiple computers at once, this is your imaging workflow: Review the steps in this Knowledge Center article to see how to use the "activation_info.txt" file. Go to the section titled, Authorizing SketchUp on a Network as an Administrator.**
- **Computers need to be connected to the internet when authorizing SketchUp Pro. Internet connectivity is not required after SketchUp Pro has been successfully authorized.**
- **You can download SketchUp Pro from our website here**

- Your schools are welcome to use any of the aforementioned versions of SketchUp as long as those licenses have not yet expired.
- Please refer to our **SketchUp website** and **Knowledge Center** for **download** and **install** instructions, **training materials**, **getting started guides**, **video tutorials**, and more.
- Please be sure to keep these codes within your school or district. They are not to be shared with schools of higher education, facilities personnel, or other government departments/officials/staff/parents.
- Please do not post the license code on any publicly accessible site.
- Grant Licenses cannot be used for commercial (for-profit) work of any kind.
- For questions regarding SketchUp , please see our **Knowledge Center**.
- These licenses are provided free of charge by Trimble Inc. You are NOT PERMITTED to charge any fee whatsoever to any school/district/educator receiving them.

Each version of SketchUp Pro has a unique license that cannot be used with different versions of SketchUp Pro.

Special note regarding private schools: Trimble does not issue license grants to individual or private schools. Trimble offers highly discounted SketchUp Pro EDU licenses to schools, for as little as $15 per seat, per year. Please Trimble's licensing information page, with links to their network of resellers who can fulfill your request. All schools are also permitted to download and use the free product, SketchUp Make.

If you have read the preceding instructions, qualify and are ready to receive a Montana K12 SketchUp Pro grant license, please email your request to:
