Terms of Employment, Accreditation, and Master Schedule (TEAMS)

These collections will fulfill a number of new and anticipated reporting requirements in addition to replacing the previous Annual Data Collection (ADC). In the Terms of Employment collection, districts will report raw data on the employee status of each employee of the district, including position code, FTE, full-time/part-time status, and employment start and end dates. The Accreditation component will include data collection, which contains information on course catalog, and teaching assignments at the class level.

Requirements and Details of the LEA ARP-ESSER Plan
The requirements for the school district plans include, at a minimum, how districts will:

1. use funds to implement prevention and mitigation strategies;
2. use the funds totaling not less than 20% to address lost instructional time;
3. spend its remaining 80% of ARP ESSER funds;
4. respond to needs of student disproportionately affected by the pandemic; and
5. meaningfully engage with and consult stakeholders in crafting their plans. Each of these federally required components are embedded into this school district ARP ESSER plan.
In addition, the USED requires the OPI to support and monitor each school district's use of ARP ESSER funds, including:

i. implementation of evidence-based interventions;

ii. address the student groups specifically that were disproportionately impacted by the pandemic; and

iii. identify, reengage, and support students who have experienced the impact of lost instructional time. The plan will provide the information necessary for the OPI to support and monitor school districts as they move forward.
Throughout this school district ARP ESSER plan, the OPI has emphasized local control and coordination of state initiatives and requirements so that school districts can identify and innovate solutions for unique local needs and priorities.

These components are embedded in the school district ARP ESSER plan.

Additionally, on July 15, 2021 the OPI sought and was approved flexibility from the Board of Public Education to use the Goals section of this plan in place of the Continuous School Improvement Plan (CSIP).
Template sections

The template sections are as follows:

1. School District-Identified Priorities
2. Meaningful Consultation
3. Goals
4. Coordinating Funds
5. Creating Safe and Healthy Learning Environment
6. Addressing Lost Instructional Time
7. Supporting the Educator Workforce
8. Monitoring and Measuring Impact of ARP ESSER funds
Prior to beginning your school district ARP ESSER plan, consider the following:

• Has your district and/or individual schools within the district completed a Gap Analysis to assist in **identifying the top needs** due to COVID19? If no, click on Gap Analysis.

• What kinds of data assisted you in **identifying the gaps**?

• What were the **needs you identified in your subgroups**?

• Did you meet with **all stakeholders** to get input on needs and possible solutions to formulate a plan for the funds? (Parents, Students, Teachers, Staff, Community Members, Tribal Members, School Board, etc....) If not, how will you make this happen prior to creating your plan?
• When you reach a stopping point, click Next to save your work. Return anytime before August 24 to finish your submission.

• When you're ready, click Submit at the end of the plan.

• After you click Submit, your responses will display in a PDF file. Download the PDF file.

• Upload the PDF file of your responses to your district's webpage.

• Note: The option to edit is no longer available once the plan is submitted by clicking the Submit button. If you click Submit and then determine later that you need to make changes, contact OPITeams@mt.gov.
While completing your school plan

• What would you like to achieve before the funding ends in September of 2024?
• What goals will need to be established in order to get there?
• You may need to leave and come back to this form as you formulate your plan.
• You will still need to complete the eGrants application for ESSER III that is due September 1, 2021. It is important that your school district ARP ESSER plan aligns with the budget amounts reported in eGrants.

Hot topics about the LEA ARP-ESSER Template
Hot Topics

• Stakeholder Input/meaningful Consultation
• Lost instructional time vs. Learning Acceleration
• Gap Analysis
What are recommended best practices for LEAs to meet the stakeholder input requirement?

**Answer:** Best practices might include a community-wide public notice and comment process with an optional survey to gather input from the various required stakeholder groups. School board meetings, small group meetings or public forums would also supplement the process. Regardless of the process followed, the LEA must document that all the applicable stakeholder groups were included in the process and that meaningful consultation occurred. Documentation of all plans and public comment need to be saved locally as OPI may request the documents as part of compliance monitoring of ESSER grantees.

• **Note:** Public comment should be sought in a manner that is consistent with your existing local procedures.
How have you gathered stakeholder input?

• Survey
• Virtual input webinar
• Board meeting with public comment
• Mass email/bulletin with options to gather stakeholder input
• Other?
The primary focus of remediation is mastering concepts of the past. Acceleration, on the other hand, strategically prepares students for success in the present—this week, on this content. Rather than concentrating on a litany of items that students have failed to master, acceleration readies students for new learning.

Planning for Acceleration in the 2020-2021 School Year
April 2020

RECOMMENDATIONS FOR ACCELERATING STUDENT LEARNING

1. Prioritize the most critical prerequisite skills and knowledge for each subject area and grade level now.

2. Plan your approach to diagnosing students’ unfinished learning in that prerequisite content knowledge and those prerequisite skills.

3. Adapt your scope and sequence/pacing guidance for each subject area and grade level to reflect where teachers might need to provide acceleration support.

4. Train your teachers and leaders to diagnose students’ unfinished learning and provide acceleration support.

5. Monitor your students’ progress on grade-appropriate assignments and adjust your supports for teachers and leaders based on student results.
