From June through December, we will be contacting schools to conduct monitoring assessments and helping to strengthen ESSER documentation. Part of this process will include a Self-Monitoring Assessment Survey. This survey was developed through feedback from the ESSER Review Committee (LEA and OPI staff), review of other state monitoring processes, and direction provided by the Department of Education ESSER Monitoring. The Self Monitoring survey made available in September 2023 is required to be completed by the Final Expenditure Report process for ESSER II in November 2023. A major ESSER requirement is **Meaningful Stakeholder/Community Support**. If the community has a partnership and a vested interest in your district, then the ESSER funding “cliff” won’t pose a threat. When the federal funding ends, the community partnership will continue.

- Be very public with everything ESSER allows you to accomplish - show **student gains/benefits**.
- Publish your ESSER plan, and take progress pictures.
- Host events and give tours, so the public has a chance to come in and **see** your success.
- Bring in the local newspaper, radio station, or TV news station, and show them all that is being achieved.
- Partner with Booster clubs, Parent/Family Committees, Local Guilds or Unions, Mayor’s Office, Chamber of Commerce, Local Churches, Restaurants, Post Offices, Community Centers, Community Bulletin Boards, etc...
- Anywhere people **gather**, visually present ESSER student gains.

Always keep in mind, this is for our **students**. Everything you’re doing with ESSER will benefit the students and give them a better future. Make sure you’re helping your community see that as well.
