

School Elections - Package of 4 Bills

Being drafted for OPI for legislators to introduce

- **OPI 1 – Task Force** – develop specific path forward to have counties administer school elections and combine school elections with statewide general (in even years) and determine how best to handle school funding elections and odd years
- **OPI 2 – Incentive – grant program** – participating counties to administer school elections in May 2024, still optional for schools and counties, costs paid by GF appropriation
- **OPI 3 – School boundary information accuracy** – state library to assist county superintendents, ensure information in state library’s geospatial database is accurate
- **OPI 4 – Misc. revisions – no change to date of regular May election** - address timelines for calling an election, candidate filing so there is more time to certify and print ballots, election judge residency, a few other items, timeline changes are incremental steps not intended to harmonize dates with the statewide general election

As of January 17, 2023

Summary and initial bill drafts prepared by Sheri S. Scurr, special project worker for OPI,
