Coronavirus Relief Funds for Schools

Introduction
The purpose of this document is to share information regarding funding for schools through the Governor’s Coronavirus Relief Fund (CRF) contained in the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act").

On July 15, Governor Bullock announced $75 million to schools for the purposes of reopening schools this fall. $10 million will be set aside to assist schools with incremental transportation costs. The remaining $65 million will be distributed on a per ANB basis to 155,294 budgeted ANB. This is approximately $418.50 per budgeted ANB.

CARES Act
The CARES Act provides that payments from the CRF may only be used to cover costs that:
1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID–19); and
2. were incurred during the period that begins on March 1, 2020 and ends on December 30, 2020.

Application and Deadlines
The application is available on Friday, July 24, 2020 at https://www.covidreliefmt.org/submit. Applications submitted by July 31 will receive funding August 7. Applications submitted by August 14 will receive funding August 21. There are only two deadlines and two payments.

Reporting
Per the federal government guidelines, the state of Montana must report quarterly any Coronavirus Relief Funds that have been allocated. Schools will be asked to report any funding that has been expended and what the funding was used for, keeping in mind only COVID-related expenditures are allowed (see below).

We recommend that schools use the CRF funds prior to any other funding, as CRF funds must be expended by December 30, 2020. A final report of expenditures will be due January 15, 2021. Any funds not spent on eligible activities by December 30, 2020 must be returned to the State of Montana for repayment to the federal government under the conditions authorized in the CARES Act. These funds may be offset, reduced, or returned to the State of Montana should Congress authorize the timely release of additional funds to be used by schools for identical purposes.
Allowable Expenses

Expenses must be specifically related to adjusting, adapting, and providing accommodations for students, parents, educators, and schools and their learning environment due to the needs generated by COVID-19.

1. Public Health Expenses Such As:
   - Expenses for communication by education officials to students, families, staff, and other related parties about public health orders related to COVID-19.
   - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment in connection with the COVID-19 public health emergency.
   - Expenses for disinfection of public areas in response to the COVID-19 public health emergency.
   - Expenses for quarantining individuals.

2. Additional Expenses Such As:
   - Expenses for providing nutritional programs to students in connection with the COVID-19 public health emergency.
   - Expenses to improve remote learning for students and staff required due to the COVID 19 pandemic.
   - Expenses required due to COVID 19 to provide instructional materials to students which can include items such as internet services.
   - Expenses for providing instructional materials, supplies, and software licenses necessary due to COVID 19.
   - Expenses for providing technological equipment purchased by the school district and loaned to students and staff without such equipment to accommodate COVID 19.
   - Expenses to improve services to students with an IEP in connection with the COVID-19 public health emergency.
   - Expenses for staff and personnel in connection with the COVID-19 public health emergency.
   - Expenses related to modifications to satisfy social distancing requirements related to COVID 19.
   - Other expenses specifically documented and necessary related to COVID 19.

The OPI and the Board Public Education continue to work together to determine critical flexibilities that can aid districts in providing student learning for the 2020-2021 school year. The common goal is to relieve burdensome regulations in this complex, uncertain learning environment of today.

The two key areas being considered for further action:

**Accreditation**

Maintain the accreditation status of schools identified in the 2019-2020 school year for the 2020-21 school year by suspending 10.55.606 (5), “Categories of assurance standards and student performance standards shall be used to determine accreditation status”, for the 2020-2021 school year. If a school district chooses to successfully resolve an accreditation violation from the 2020, in time for the 2020-2021 school year, the district will be given credit for the resolution, including any accreditation status that would represent an improvement in their status over the 2019-2020 status.

**Licensure**

The OPI is recommending to the BOPE subcommittee that the August 31, 2020 renewal deadline for licensure be waived until September 30, 2020 (ARM 10.57.215 (2)). This waiver will add more time for licenses to be renewed, preserve funding for the BOPE and CSPAC, and in the end maintain higher numbers of licensed teachers available to Montana school districts.
