

OPI AIM Data Collection Schedule Changes

2020-2021

Every year the [AIM Data Collection Schedule](#) undergoes several changes. These changes can include such things as date changes for collections, requirements for collections, and adjustments in descriptions or resources available for collections. This document is intended to provide a detailed summary of the changes for the upcoming collection schedule compared to the previous year's schedule.

Changes to Collections/Descriptions/Resources:

- An Optional Assessment Registration for Interims was added to schedule and was not a part of the 19-20 schedule. It falls under ALL YEAR data entry. Assessment will provide a new TIDE user guide and an OPI TIDE Overview.
- The Fall CTE collection opens on 11/2 this year instead of on 10/1. The description of Fall CTE was expanded to include a note to contact these students during the second quarter.
- A note to enter KG Under 5 Board Approval Date was added to the Fall Enrollment Count description.
- The MPDG Annual Performance Report information was removed from the 20-21 collection.
- The Spring CTE collection was renamed to be End of Year CTE and was moved from the Spring Collection category and into the End of Year Collections category. User guides and upload templates will be updated to reflect changes.
- The word 'Validation' was added to the EOY Behavior Final Certification process to be 'Behavior Final Validation & Certification'.
- The Behavior Guides were updated, and additional links were added to the corresponding Behavior and Final Validation & Certification collection.
- Calculating 'absences' is being moved from Test Window collection to Spring Enrollment count and so the descriptions for these two collections were adjusted to reflect that change. User guides and templates will also reflect this change.
- Added the State Student Photo Repository as an 'ALL Year' categorial collection.

Date Changes by Collection:

Fall CTE: From 10/1/20-12/31/20 to 11/2/20-12/31/20
