Agenda Items:	<ol style="list-style-type: none"> 1. Recent Presentations 2. Q&A 3. Future Meetings: April 17
Topic:	Discussion:
Recent Presentations	<ul style="list-style-type: none"> • We've had a few recent presentations for legislative committees and Board of Public Education recently • One of the questions was to see if we were going to gather enough data to populate tables: we will be gathering all data we are required to by law
Q&A	<ul style="list-style-type: none"> • Is the hesitation coming from districts not wanting to give the data? No, we do not want to collect more data than is required nor do we want to create an additional burden for schools to report extra data • What is the discrepancy with what data isn't collected that the legislature wants? We do not have a list of data elements that the legislature wants us to collect. • Why are we using both PowerSchool and Infinite Campus? We did not purchase a new State SIS, we purchased the tools to better analyze and make data actionable. • What about MAEFAIRS? We did not purchase a data collection tool, so other collection tools will still need to be used. • What is the security of the information we are going to be collecting and the purpose of collecting? We want to collect only the data required to protect the security and privacy of students and align with FERPA.
Reminder	<ul style="list-style-type: none"> • PowerSchool On-Prem districts will need a VPN, please reach out if there are questions or concerns about this
Next meeting	<ul style="list-style-type: none"> • April 17 from 3:30-4:30 pm
