Agenda Items:	1. General Updates 2. Connected Intelligence Update 3. Unified Insights Update 4. Other project information
Topic:	**Discussion:**
General Updates	Continuing to make progress each week on project tasks. PowerSchool will provide a demo to the SAM Administrators Institute Conference with OPI in July.
Connected Intelligence	Moving forward with next steps to replicate GEMS. Moving forward with setting up the VPN for the first on-prem district. Will continue GEMS replication work and custom connector development work for the PS SIS replication. Scope out development work, cost, and timeline for this customization. Lower priority than UI work.
Unified Insights: Essentials	Crosswalk development is completed and OPI is reviewing. Assessment review is complete for ACT and WIDA ACCESS. Will begin configuring iC connector to load data. Additional conversations are scheduled to review options for a statewide security solution. This risk is reopened because of blockers that have arisen since the last report. New connectors need to be completed for AMSA, MSAA, MSA, and SBAC. OPI will create a survey to help confirm direction on customer education training.
Unified Insights: Other Modules	Continuing conversations and analysis to move this forward. Provisioning has been completed. The next step is to replicate GEMS (as noted above).
Project Governance	Future milestone; no updates.
