ACCREDITATION STANDARDS FOR
HEALTH ENHANCEMENT PROGRAM

Health Enhancement teaches children the importance of personal and community health through the promotion of a responsible lifestyle. It helps them actively develop, maintain, and improve their health as well as an awareness of society’s critical health issues.

Health Enhancement is a comprehensive program that combines the traditional disciplines of “health” and “physical education” in a more balanced program. Concepts learned in the classroom are reinforced and put into practice in the gymnasium. Healthy, well-nourished and physically fit children learn better, miss less school, and take a more active role in their own education. A healthy state transcends the physical and also includes the emotional, social and intellectual dimensions of health.

   (iv) maintain a program that meets the educational requirements of health enhancement; and
   (v) maintain adequate first aid materials and communication device capabilities.
