2017 Amendment: Chapter 165 inserted (9) relating to bona fide volunteer positions. Amendment effective July 1, 2017.

19-20-303. Inactive membership. Any person's active membership in the retirement system terminates, but the person is an inactive member, when the person:

(1) ceases to be employed in a capacity that allows membership and the person has 5 or more years of creditable service in the retirement system;

(2) ceases to be employed in a capacity that allows membership and the person has less than 5 years of creditable service in the retirement system, but the loss of capacity to be a member was caused by a personal illness determined by the retirement board to be a disability or was caused by service in the armed forces of the United States, which includes the army, navy, marine corps, air force, and coast guard, or by service in the American red cross or merchant marine during time of war; or

(3) has 5 or more years of creditable service and becomes a member of any other retirement or pension system supported wholly or in part by the money of another government agency, except the federal social security retirement system, and the membership in the other retirement system would allow credit for the same employment service in two retirement systems. However, a person may not be excluded from active membership solely because the person is receiving or is eligible to receive retirement benefits from another retirement system.

History: En. 75-6210 by Sec. 105, Ch. 5, L. 1971; R.C.M. 1947, 75-6210; Sec. 19-4-303, MCA 1991; redes. 19-20-303 by Code Commissioner, 1993; amd. Sec. 259, Ch. 56, L. 2009.

19-20-304. Membership termination. The active or inactive membership in the retirement system of any person terminates when the person:

(1) retires on a retirement allowance of the retirement system;

(2) dies;

(3) withdraws the person's accumulated contributions to the retirement system under the provisions of 19-20-603; or

(4) ceases to be employed in a capacity that allows membership, has less than 5 years of creditable service in the retirement system, and cannot qualify under the provisions of 19-20-303(2).

19-20-305. Alternate payees — family law orders. (1) A participant in a retirement system may have the participant's rights modified or recognized by a family law order.

(2) For purposes of this section:

(a) "actuarially equivalent amount" means the portion of the participant's benefit transferred to an alternate payee and actuarially adjusted to provide a benefit payable for the alternate payee's lifetime;

(b) "alternate payee" means the former spouse of the member or retiree who is entitled to an actuarially equivalent amount or a fixed amount of the member's or retiree's retirement benefit;

(c) "family law order" means a certified copy of an order of a court with competent jurisdiction, on a form prescribed and provided by the retirement system, concerning spousal maintenance or marital property rights that includes a transfer of all or a portion of a participant's right to payments from the retirement system to an alternate payee in compliance with this section; and

(d) "participant" means a member or retiree of the retirement system.

(3) A family law order must identify an alternate payee by full name, current address, date of birth, current phone number, and social security number. An alternate payee's rights and interests granted in compliance with this section are not subject to assignment, execution, garnishment, attachment, or other process. An alternate payee's rights or interests may be modified only by a family law order amending the family law order that established the right or interest or by a full renunciation of the alternate payee's rights by the alternate payee.

(4) A family law order may not require:

(a) a type or form of benefit, option, or payment that is not available to the affected participant under the retirement system or that would require administration in a manner different from the administrative processes used by the retirement system for administration of retirement benefits in general; or

(b) an amount of payment greater than that available to a participant.

(5) (a) The service, disability, or survivor retirement benefit payments or withdrawals of member contributions may be apportioned to an alternate payee by directing payment of:

(i) an actuarially equivalent amount payable for the life of the alternate payee; or

(ii) a fixed amount, to be deducted from the participant's benefit, of no more than the amount payable to the participant. A fixed amount must be payable for a determinate period of time not greater than the life of the participant or the life of the benefit recipient under a retirement allowance elected pursuant to 19-20-702.

(b) (i) When a family law order directs payment of an actuarially equivalent amount payable to the alternate payee, either the amount of the participant's retirement benefit to be transferred to the alternate payee must be expressed as a percentage share of the retirement benefit payable to the participant or the percentage share must be readily determinable based on the factors provided in the family law order. The participant's benefit must be reduced by the amount determined under this subsection (5)(b)(i).

(ii) The amount payable to the alternate payee, calculated under subsection (5)(b)(i), must be actuarially adjusted to provide a benefit payable for the alternate payee's lifetime.

(iii) A copy of the alternate payee's birth certificate must be submitted with the family law order.

(6) If a participant elects to withdraw the accumulated contributions and forfeit all rights to service, disability, or survivor benefits, the alternate payee is entitled to a lump-sum payment up to the total fixed amount or equal to the percentage share of the participant's benefit transferred to the alternate payee as directed in the family law order.

(7) Retirement benefit adjustments for which a participant is eligible after retirement must be apportioned between the participant and the alternate payee receiving an actuarially equivalent amount in the same manner as determined under subsection (5)(b)(i).

(8) Payments of monthly benefits to the alternate payee must commence on the latest of the following dates:

(a) the date the participant begins receiving benefits; or

(b) the first day of the month following receipt of a certified family law order and approval of the family law order by the retirement system.

(9) The board may assess a participant or an alternate payee for all costs of reviewing and administering a family law order, including reasonable attorney fees. The board may adopt rules to implement this section.

(10) Each family law order establishing a final obligation concerning payments by the retirement system must contain a statement that the order is subject to review and approval by the board.

(11) If the participant retired on a disability retirement benefit and the benefit is subsequently canceled pursuant to 19-20-903 or 19-20-905, the alternate payee's payments also terminate. When the participant again qualifies for retirement benefits, the amount payable to the alternate payee must be recalculated pursuant to this section.

(12) (a) In every circumstance, an actuarially equivalent amount payable to an alternate payee must terminate upon the death of the alternate payee. The amount may not be devised, bequeathed, or otherwise transferred by the alternate payee.

(b) A family law order may expressly provide that a fixed amount payable to an alternate payee may be transferred upon the death of the alternate payee to a beneficiary designated by the alternate payee. If a family law order does not expressly authorize an alternate payee to designate a beneficiary or if there is no beneficiary designation on file with the retirement system at the time of the alternate payee's death, the fixed amount payable to the alternate payee reverts to the participant or to the joint annuitant or beneficiary of the participant. A fixed amount payable to an alternate payee may not be devised, bequeathed, or otherwise transferred by the alternate payee in any other manner.

(13) The retirement system shall give effect to a family law order in a manner that conforms with all other applicable law pertaining to the administration of the retirement system. A family law order may not be construed to provide rights or benefits to any person beyond those rights or benefits expressly provided by law.

(b) an amount or duration of payment greater than that available to a participant under the retirement system.

(4) The execution or income-withholding order may only provide for payment as follows:

(a) Service retirement benefit payments or withdrawals of member contributions may be apportioned by directing payment of a percentage of the amount payable or payment of a fixed amount of no more than the amount payable to the participant.

(b) The maximum amount of disability or survivorship benefits that may be apportioned and paid under this section is the monthly benefit amount that would have been payable on the date of termination of service if the member had retired without disability or death.

(c) Retirement benefit adjustments for which a participant is eligible after retirement may be apportioned only if existing benefit payments are apportioned. The adjustments must be apportioned in the same ratio as existing benefit payments.

(d) Payments must be limited to the life of the appropriate participant. The duration of payments under this section may be further limited only to a specified maximum time or the life of a specified participant. Payments may also be limited to a specific amount per month if the number of payments is specified.

Part 4 Creditable Service

19-20-401. Creditable service. (1) The creditable service of a member begins on the date of the member’s employment in a capacity prescribed for eligibility in 19-20-302.

(2) Subject to 19-20-405, the creditable service of a member includes the following:

(a) each period of active membership service in a position reportable to the retirement system as described in 19-20-302 and credited as provided in this section;

(b) any creditable service awarded by the retirement board under 19-20-402 for out-of-state employment;

(c) any creditable service awarded by the retirement board under 19-20-403 for employment while on leave;

(d) any creditable service awarded by the retirement board under 19-20-404 for service in the military, the red cross, or the merchant marine;

(e) any creditable service awarded by the retirement board under 19-20-408 for employment in private schools;

(f) any creditable service awarded by the retirement board under 19-20-409 for service transferred after October 1, 1989, from the public employees' retirement system;

(g) any creditable service awarded by the retirement board under 19-20-410 for extension service employment;

(h) any creditable service awarded by the retirement board under 19-20-411 for absence because of employment-related injury; and

(i) any creditable service awarded by the retirement board under 19-20-426 for service provided under the university system retirement program.

(3) The retirement board's determination of creditable service under this section is final and conclusive for the purposes of the retirement system unless, at any time, the board discovers an error or fraud in the establishment of creditable service, in which case the board shall redetermine the creditable service.

(4) Creditable service may be awarded only for a period of membership service or purchased service for which all required contributions and interest, if applicable, have been paid.

(5) All accrued creditable service must be forfeited upon withdrawal from the retirement system and may not be reinstated unless the member redeposits the withdrawn contributions as set forth in 19-20-427.

(6) Creditable service must be awarded on the basis of a fiscal year beginning July 1 and ending June 30 regardless of the member's term of employment service or benefit accrual as established in an employment agreement, in an employer policy, or in another manner and regardless of the term of the employer's school year or fiscal year.

(7) Creditable service must be credited based on the full-time or part-time service of the member, as follows:

(a) Service provided over 7 or more hours in a day is a full-time day.

(b) Full-time service is service that is at least 180 days in a fiscal year, at least 140 hours a month during 9 months in a fiscal year, or full-time under an alternative school calendar adopted by a school board that is less than 180 days but meets minimum accreditation requirements of 1,080 hours.

(c) Part-time service is service that is less than full-time. Part-time creditable service must be calculated based on the total number of hours, days, or months reported to the retirement system in each fiscal year, divided by the number of hours, days, or months of equivalent full-time service.

(8) Creditable service and earned compensation credit must be awarded for extra duty service subject to the following:

(a) A member who is credited with full-time creditable service without consideration of the extra duty service may not be awarded additional creditable service for the extra duty service, and the extra duty compensation must be reported and credited as earned compensation to the member.

(b) A member who is credited with less than full-time creditable service without consideration of the extra duty service must be awarded additional creditable service and compensation credit for the extra duty service, and time worked must be reported and creditable service and compensation credit awarded as provided in subsection (8)(d).

(c) A member who is not employed in a position reportable to the retirement system other than to perform extra duty service must be awarded additional creditable service and compensation credit for the extra duty service, and time worked must be reported and creditable service and compensation credit awarded as provided in subsection (8)(d).

(d) (i) If the member is employed by the employer to perform service other than the extra duty service, whether or not in a position reportable to the retirement system, and is compensated for that service on an hourly or daily basis, the employer must report the actual number of hours or days worked in extra duty service with compensation at the hourly or daily rate of pay that the employee earns for service other than extra duty service. The compensation reported for extra duty service must include any increase in the rate of pay or total compensation required to

be paid for overtime. Creditable service must be awarded on the basis of the actual time worked in extra duty service.

(ii) If the member is not employed by the employer to perform service other than the extra duty service and the extra duty service is compensated at an hourly or daily rate of pay, the employer must report the actual hours or days worked, the hourly or daily rate of pay, and the total compensation paid for the extra duty service. Creditable service must be awarded based on the actual time worked in extra duty service.

(iii) If the member is not employed by the employer to perform service other than the extra duty service and the extra duty service is compensated on a single fee or stipend basis:

(A) the employer must report the total fee or stipend paid for the extra duty service and must provide the retirement system with the employer's base rate of pay for an entry-level teacher for the fiscal year in which the extra duty service is provided; and

(B) creditable service must be awarded for the extra duty service based on the following calculations:

(I) the base rate of pay must be divided by 187 to determine a daily rate of pay;

(II) the total fee or stipend must be divided by the daily rate of pay to determine the number of days eligible for creditable service; and

(III) the number of days eligible for creditable service must be divided by 180 to determine the portion of a year to be credited as creditable service for the extra duty service.

(9) Creditable service may not be awarded in excess of full-time service for any period of time regardless of the amount of time actually worked in the time period. No more than 1 day of creditable service may be awarded for any calendar day, no more than 1 month of creditable service may be awarded for any calendar month, and no more than 1 year of creditable service may be awarded for any fiscal year. Service may not be carried over or otherwise reported for the accrual of creditable service in any month other than the month in which the service was actually performed.

(10) For a member completing only part-time service during the fiscal year of membership service on which a service purchase cost will be calculated, the member's compensation must be annualized to calculate the service purchase cost.

(11) A member may not purchase creditable service under this part after retirement benefit payments to the member have started, even if the member returns to active member status.

Amendment effective July 1, 2017.

19-20-402. Creditable service for employment in out-of-state public and federal schools. (1) (a) Subject to 19-20-405, a vested member who has completed 1 full year of active membership in the retirement system subsequent to the member's out-of-state service and contributes to the retirement system as provided in subsection (2) may receive creditable service in the retirement system for out-of-state service that would have been acceptable under the provisions of this chapter if the service had been performed in the state of Montana.

(b) If the member contributed to a public retirement plan, other than social security, while performing the out-of-state service, the member shall roll the member's contributions over into

the retirement system or must receive a refund of the member's contributions for the service before purchasing service under this section.

(c) For the purpose of this section, out-of-state service means service performed:

(i) within the United States in a federal or other public school or institution; and

(ii) outside the United States in a federal or other public or private school or institution.

(2) (a) To purchase the service described in subsection (1)(c)(i), a member who became a member before July 1, 1989, shall contribute for each year of service to be purchased an amount equal to the combined employer and employee contribution for the member's first full year's salary earned in a position reportable to the retirement system after the member's out-of-state service, plus interest. The contribution rate must be the rate in effect at the time the member is eligible for the service.

(b) To purchase the service described in subsection (1)(c)(ii), a member who became a member before July 1, 1989, shall contribute for each year of service to be purchased an amount equal to the combined employer and employee contribution for the member's first full year's teaching salary earned in Montana after the member's out-of-state service or after the salary was reported to the system for the fiscal year beginning July 1, 1989, whichever date is later, plus interest. The contribution rate must be the rate in effect at the time the member is eligible to purchase the service or the rate in effect on July 1, 1989, whichever date is later.

(c) For each year of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The interest on contributions required under subsection (2)(a) must be paid:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(4) The contributions and interest required under subsection (2) may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

(5) The provisions of 19-20-405 apply to creditable service purchased under this section.

19-20-403. Creditable service for employment while on leave. (1) (a) Subject to 19-20-405, a member who is eligible under subsection (1)(b) and who contributes to the retirement system as provided in subsection (2) may receive up to 2 years of creditable service for employment while on leave following a break in service.

(b) To be eligible to purchase the service, a member:

(i) must be vested in the retirement system;

(ii) must have been an active member prior to the leave; and

(iii) must have earned at least 1 full year of creditable service in active membership in the retirement system subsequent to the member's leave.

(2) (a) For each period of service to be credited, a member who became a member before July 1, 1989, shall contribute an amount equal to the combined employer and employee contributions for the member's first full year's salary earned in a position reportable to the retirement system after the member's return from leave, plus interest.

(b) For each period of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent actuarial valuation of the system.

(c) The interest on contributions required under subsection (2)(a) must be paid:

(i) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(ii) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(d) The contributions and interest may be made in a lump-sum payment or in installments as agreed between the member and the retirement board.

(3) Subject to 19-20-405, a member who is eligible under subsection (5) and who contributes to the retirement system as provided in subsection (6) may receive up to 2 years of creditable service for unpaid inservice leave.

(4) (a) To be eligible for purchase as inservice leave, the leave must be:

(i) a period of temporary absence from work in a position reportable to the retirement system, whether full leave or intermittent leave and whether the leave is provided solely at the discretion of the employer or is required to be provided pursuant to generally applicable state or federal law; and

(ii) unpaid. Inservice leave is unpaid to the extent that the employer is not compensating the member for the period of absence from work. If the inservice leave is intermittent leave or is partially paid full leave, the leave is unpaid to the extent that any compensation received for the day, week, or month that includes the leave is less than the amount of compensation the member would have earned but for the leave.

(b) Inservice leave does not include:

(i) a period of leave or other absence from work that is included as part of the member's regular term of employment, such as personal days, vacation leave, sick leave, summer break, or other nonwork days;

(ii) a period of time for which creditable service may be purchased or credited under any other section of this part;

(iii) a period designated as a leave of absence pursuant to an oral or written settlement agreement or other agreement between the member and the employer to resolve an employment dispute and resulting in:

(A) termination of the member's employment; or

(B) other circumstances in which the member and employer do not actually intend for the member to return to regular employment in the preleave position; or

(iv) a leave of absence after which the member does not actually return to regular employment in the preleave position.

(5) A member is eligible to purchase inservice leave if the member:

(a) was regularly employed by the preleave employer with a regular work schedule in a position reportable to the retirement system;

(b) remained either employed or in a job-attached status with the preleave employer with a definite date specified to return to work with the preleave employer; and

(c) returned to regular work with the preleave employer at the end of the inservice leave.

(6) (a) An eligible member may purchase inservice leave at any time after returning to regular work with the preleave employer in a position reportable to the retirement system, subject to the following:

(i) A service purchase agreement for the inservice leave must be established for all leave that may be purchased for a fiscal year following the end of that fiscal year.

(ii) The service must be purchased and will be credited beginning with the earliest date of the leave.

(iii) The amount of leave that may be purchased may not exceed the amount of time that the member would have worked but for the leave as specified in a written employment contract. If the member was not employed under a written employment contract, the amount of leave purchased may not result in the member receiving total creditable service in the fiscal year in which the service is being purchased that exceeds the amount of creditable service the member accrued in the last fiscal year preceding the inservice leave during which the member accrued membership service that did not include purchased service.

(b) To purchase inservice leave, the member shall contribute the actuarial cost of the service based on the most recent actuarial valuation of the system subject to the following:

(i) Upon completing the purchase, the member must receive earned compensation credit equal to the sum of any earned compensation reported by the employer plus the amount of compensation attributable to the purchased leave.

(ii) Failure to return for any reason to regular work in the preleave position on the specified return date or at the end of the inservice leave must be considered a break in service subject to the leave purchase requirements of subsections (1) and (2).

(1) (a) Subject to 19-20-405, a vested member who has completed 1 full year of active membership in the retirement system subsequent to the member's private school employment and contributes to the retirement system as provided in subsection (2) may receive up to 5 years of creditable service in the retirement system for employment within the United States in a private elementary, secondary, or postsecondary educational institution.

(b) Employment to be credited must be of an instructional nature, as an administrative officer, or as a member of the scientific staff. If the employment is for teaching kindergarten through grade 12, the service must have been performed as a certified teacher.

(c) Members may not receive credit for service as a student employed by a private elementary, secondary, or postsecondary educational institution.

(2) (a) For each year of service to be credited, a member who became a member before July 1, 1989, shall contribute to the retirement system an amount equal to the combined employer and employee contribution for the member's first full year's salary earned in a position reportable to the retirement system after becoming a member of the retirement system or after returning to the retirement system, whichever is later, plus interest. The contribution rate must be that rate in effect at the time the member is eligible to purchase the service.

(b) For each year of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The interest on contributions required under subsection (2)(a) must be paid:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

19-20-409. Transfer of service credits and contributions from public employees' retirement system. (1) An active member may at any time before retirement file a written application with the retirement board to purchase all of the member's previous service credit in the public employees' retirement system. The amount that must be paid to the retirement system to purchase this service under this section is the sum of subsections (2) and (3).

(2) The public employees' retirement system shall transfer to the teachers' retirement system an amount equal to 72% of the amount paid by the member.

(3) The member shall pay either directly or by transferring contributions on account with the public employees' retirement system an amount equal to the member's accumulated contributions at the time that active membership was terminated, plus accrued interest. Interest must be calculated from the date of termination until a transfer is received by the retirement system, based on the interest tables in use by the public employees' retirement system.

(4) A member who purchases service from the public employees' retirement system in the teachers' retirement system must have completed 5 years of membership service in the teachers' retirement system to be eligible to receive creditable service pursuant to 19-20-402, 19-20-403, 19-20-404, 19-20-410, or 19-20-426.

(5) The retirement board shall determine the service credits that may be transferred.

(6) If an active member who also has service credit in the public employees' retirement system before becoming a member of the teachers' retirement system dies before purchasing this service in the teachers' retirement system and if the member's service credits from both systems, when combined, entitle the member's beneficiary to a death benefit, the payment of the death benefit is the liability of the teachers' retirement system. Before payment of the death benefit, the public employees' retirement board must transfer to the teachers' retirement system the contributions necessary to purchase this service in the teachers' retirement system as provided in subsections (2) and (3).

(7) (a) If the teachers' retirement board determines that an individual's membership was erroneously classified and reported to the public employees' retirement system, the public employees' retirement board shall transfer to the teachers' retirement system the member's accumulated contributions and service, together with employer contributions plus interest.

(b) For the period of time that the employer contributions are held by the public employees' retirement system, interest paid on employer contributions transferred under this subsection (7) must be calculated at the short-term investment pool rate earned by the board of investments in the fiscal year preceding the transfer request.

(c) Any employee and employer contributions due as calculated in 19-20-602, 19-20-605, 19-20-608, and 19-20-609, plus interest, are the liability of the employee and the employing entity where the error occurred.

(8) A member who participated in the public employees' retirement system defined contribution plan provided for in Title 19, chapter 3, part 21, may purchase creditable service for the time spent as a participant in the defined contribution plan if:

(a) the member is vested in the teachers' retirement system and has completed at least 1 full year of active membership in the teachers' retirement system following the member's public employees' retirement system service;

(b) for each full year or portion of a year to be purchased pursuant to this subsection (8), the member contributes the actuarial cost of the service based on the most recent valuation of the system; and

(c) the member has withdrawn the member's money in the member's public employees' retirement system defined contribution plan account or has rolled over the amount required to purchase service in accordance with this subsection (8).

(9) Creditable service purchased under subsection (8) must be determined according to the laws and rules governing service credit in the public employees' retirement system.

(ii) the service involved instructional service at a unit of the Montana university system; and

(iii) the member received a refund of membership contributions under the civil service retirement system or the federal employees' retirement system for the service to be purchased.

(b) For each year of service to be purchased under subsection (1)(a), the member shall contribute to the retirement system an amount equal to the combined employer and employee contribution rate in effect at the time that the member is eligible to purchase the service multiplied by the member's first full year's salary earned in a position reportable to the retirement system subsequent to the member's extension service employment, plus interest paid as follows:

(i) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contribution would have earned had the contribution been in the member's account upon the member becoming vested; or

(ii) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(2) In addition to service purchased under subsection (1) and subject to 19-20-407, a member who has purchased 5 years or more of creditable service in the retirement system may purchase additional years of cooperative extension service by contributing to the system the full actuarial cost of the service.

(3) Contributions to purchase service under this section may be made in a lump-sum payment or in installments as agreed upon by the member and the retirement board.

History: En. Sec. 1, Ch. 79, L. 1987; amd. Sec. 6, Ch. 113, L. 1989; Sec. 19-4-410, MCA 1991; redes. 19-20-410 by Code Commissioner, 1993; amd. Sec. 3, Ch. 408, L. 1997; amd. Sec. 11, Ch. 45, L. 2001; amd. Sec. 6, Ch. 151, L. 2011; amd. Sec. 13, Ch. 55, L. 2015; amd. Sec. 19, Ch. 210, L. 2015.

19-20-411. Absence because of employment-related injury. (1) Subject to the limitation in subsection (6), a member who is absent because of an injury entitling the member to workers' compensation payments may purchase as creditable service the time during which the member is absent. To purchase this service, a member shall contribute to the retirement system as provided in subsection (2) upon the member's return to contributing membership service.

(2) (a) A member who became a member before July 1, 1989, shall contribute an amount equal to:

(i) the contributions that the member would have made had the member not been absent, based on the member's compensation at the commencement of the absence;

(ii) the interest that begins to accrue 1 year from the date that the member returns to covered employment; and

(iii) the interest not paid by the employer under subsection (3).

(b) A member who became a member on or after July 1, 1989, shall pay the actuarial cost of the service based on the most recent valuation of the system.

(3) When a member elects to contribute under subsection (2)(a), the employer shall contribute an amount equal to the contributions that would have been made by the employer had the member not been absent, based on the member's compensation at the commencement of the absence. The employer may contribute an amount equal to the interest accruing on the employer's contributions calculated in the same manner as interest on the employee's contributions under subsection (2)(a). If the employer elects not to pay the interest, this amount must be paid by the employee.

(4) A member shall file with the retirement board a written notice of the member's intent to pay the contributions under subsection (2).

(5) Payment of the employee's contributions may be made in one sum at the time of filing the notice or in installments before termination of covered employment as agreed between the board and the member.

(6) A member absent as provided in subsection (1) loses the right to contribute under this section if the member's accumulated normal contributions are refunded under 19-20-603.

19-20-414. Payment methods for purchase of service credit. (1) An active or vested member who is eligible to purchase service under this chapter may at any time before retirement apply to purchase the service credit by making payment as provided in this section.

(2) Subject to subsection (3), service credit may be purchased by one or a combination of the following methods:

(a) a lump-sum payment;

(b) installment payments;

(c) direct rollover of eligible distributions from a retirement plan in section 402(c)(8)(B)(iii) or 402(c)(8)(B)(iv) of the Internal Revenue Code;

(d) rollover of a distribution from an individual retirement account or annuity described in section 408(a) or 408(b) of the Internal Revenue Code that is eligible to be rolled over and would otherwise be included in gross income;

(e) a direct trustee-to-trustee transfer from a governmental 457(b) deferred compensation plan or a 403(b) tax-sheltered annuity for permissive service credit, as defined in section 415(n) of the Internal Revenue Code.

(3) (a) The total amount transferred or rolled over to the retirement system pursuant to subsection (2) may not exceed the amount due to purchase the service.

(b) If, in the case of a transfer, the transferred account includes both tax-deferred and taxed amounts, the transferring agency shall identify the member's tax-deferred and taxed amounts at the time the transfer is made.

(4) To the extent permitted by section 401(a)(31) of the Internal Revenue Code and as limited by this section, the board shall accept a direct rollover of eligible distributions from another eligible retirement plan.

(5) If the member dies before having completed the payment required to purchase the service that the member had applied to purchase, the member's surviving spouse may, subject to the rules and regulations of the Internal Revenue Code, apply to complete the member's service purchase as provided in this section. The surviving spouse must apply to complete the payments and pay the balance due to the system prior to the distribution of benefits.

19-20-415. Procedure for purchase of service credit and pick up. (1) A member who wishes to redeposit, pursuant to 19-20-427, amounts previously withdrawn or who is eligible to purchase service credit pursuant to this part shall make the following series of elections to accomplish the redeposit or purchase:

(a) The member may elect a lump-sum payment, a series of installment payments, or a combination of lump-sum payments and installment payments.

(b) If a series of installment payments is elected by the member, the member may elect to pay the installments directly to the board or to have the installments paid by payroll deduction or the member may select a combination of both.

(c) With respect to installments payable by payroll deduction, if the member's employer has adopted the resolution described in subsection (2), the member shall complete the irrevocable written application to purchase service provided for in subsection (4). If the member's employer has not adopted the resolution, the member may elect only a revocable written application to purchase service.

(2) An employer may adopt a resolution to pick up and pay the member's elective contributions made pursuant to a binding, irrevocable written application. The contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member. The resolution must contain the following statements:

(a) that the member contributions, even though designated as member contributions for state law purposes, are being paid by the employer in lieu of the contributions by the member; and

(b) that the member may not choose to receive the contributed amounts directly instead of having them paid by the employer to the system.

(3) (a) With respect to any member's elective contributions, the effective date of the employer pickup is the later of:

(i) the adoption of the employer's resolution; or

(ii) the date that the irrevocable written application is signed by both the member and the member's employer.

(b) The pickup does not apply to a contribution made before the effective date of the employer's resolution. A written application to purchase additional service that is in effect on the effective date of the employer's resolution is void, and the provisions of subsection (1) apply.

(4) The irrevocable written application to purchase service must be signed by the member and the member's employer and filed with the board. Subject to any maximum amounts or duration established by state or federal law, the irrevocable written application must specify:

(a) the amount of the deduction;

(b) the number of installments;
 (c) the number of years and type of service that the member is purchasing; and
 (d) that the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the board in lieu of contributions by the member.

(5) The minimum duration of the installments required by subsection (4)(b) is 3 months, and the maximum duration is 5 years. The maximum number of years that may be purchased may not exceed the total number of years that the member is eligible to purchase.

(6) The irrevocable written application does not give the member the option of receiving the deduction amounts directly instead of having them paid by the employer to the system. A member may not prepay any amounts under a binding, irrevocable written application.

(7) If a member terminates or dies prior to completion of the installment payments, the binding, irrevocable written application expires and the board shall prorate the service credit purchased based upon the amount paid as of the date of termination or death. In the case of a termination, the member may make a lump-sum contribution for the balance of the service subject to the limitations of section 415 of the Internal Revenue Code. In the case of the member's death, the payment to purchase service may be made from the member's estate subject to the limitations of section 415 of the Internal Revenue Code.

History: En. Sec. 9, Ch. 111, L. 1999; amd. Sec. 14, Ch. 45, L. 2001; amd. Sec. 6, Ch. 320, L. 2005.

19-20-416. Credit for legislative service required. (1) A legislator who did not elect to continue to participate in the system, as provided under 5-2-304, and who subsequently participates as a member must be awarded creditable service for legislative service if the legislator contributes an amount equal to the member contributions that would have been made if the legislator had elected membership plus interest paid as follows:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned if they had been on deposit with the retirement system; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(2) The employer contribution must be made by the legislative branch in the amount that would have been contributed if the legislator had elected membership plus interest at the rate that the contributions would have earned if they had been on deposit with the retirement system.

History: En. Sec. 10, Ch. 111, L. 1999; amd. Sec. 7, Ch. 151, L. 2011.

19-20-417. Credit for substitute teaching service, teacher's aide service, or other service not reported. (1) A substitute teacher or part-time teacher's aide who did not elect membership under 19-20-302 and who subsequently becomes a member must be awarded creditable service for the service not reported if the member contributes the employee and employer contributions that would have been made if the member had been a member from the date of hire, plus interest.

(2) A person who was employed in a capacity that would have been eligible for membership except for the fact that the person was employed for less than 30 days and who subsequently becomes an active member may purchase this service if the person contributes the employee and employer contributions that would have been made if the person had been a member from the date of hire, plus interest.

(3) If an employer fails to report a person who was eligible for membership under 19-20-302, the employee and employer shall make the contributions required by this chapter, plus interest.

(4) The contributions and interest may be made in a lump-sum payment or in installments as agreed to between the person and the board.

History: En. Sec. 11, Ch. 111, L. 1999; amd. Sec. 15, Ch. 45, L. 2001.

(1) (a) Subject to 19-20-405, a vested member who has completed 1 full year of active membership in the retirement system subsequent to the member's participation in the university system retirement program pursuant to 19-21-201 and contributes to the retirement system as provided in subsection (2) may receive up to 5 years of creditable service in the retirement system for service covered under the university system retirement program.

(b) Employment to be credited must be of an instructional nature, as an administrative officer, or as a member of the scientific staff with an individual contract under the authority of the board of regents.

(c) A member may not receive credit for service as a student employed by the institution.

(2) For each year of service to be credited under this section, the member shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The contributions and interest may be made in a lump-sum payment or in installments as agreed between the person and the retirement board.

History: En. Sec. 7, Ch. 320, L. 2005; amd. Sec. 9, Ch. 282, L. 2013; amd. Sec. 20, Ch. 210, L. 2015.

19-20-427. Redeposit of contributions previously withdrawn. (1) Except as provided in subsection (3), in addition to the contributions required under 19-20-602 and 19-20-608, subject to the approval of the retirement board, and to the extent permitted by section 415(k)(3) of the Internal Revenue Code, a member may redeposit in the annuity savings account, by a single payment or by an increased rate of contribution, an amount equal to the accumulated contributions that the member has previously withdrawn, plus interest paid as follows:

(a) if a written application to purchase service is signed prior to July 1, 2012, at the rate the contributions would have earned had the contributions not been withdrawn; or

(b) if a written application to purchase service is signed on or after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

19-20-602. Annuity savings account — member's contribution. (1) The annuity savings account is an account in which the contributions for the members to provide for their retirement allowance or benefits must be accumulated in individual accounts for each member.

(2) (a) The normal contribution rate of each tier one member is 7.15% of the member's earned compensation.

(b) The normal contribution rate of each tier two member is 8.15% of the member's earned compensation.

(3) Contributions under 19-20-608 and this section to the annuity savings account must be made in the following manner:

(a) Each employer, pursuant to section 414(h)(2) of the Internal Revenue Code:

(i) shall pick up and pay the contributions that would be payable by the member under this subsection (3) for service rendered after June 30, 1985;

(ii) shall pick up and pay the contributions that would be paid in the manner provided in 19-20-716; and

(iii) may pick up and pay the contributions that would be payable by the member pursuant to 19-20-415.

(b) The member's contributions picked up by the employer must be designated for all purposes of the retirement system as the member's contributions, except for the determination of a tax upon a distribution from the retirement system. These contributions must become part of the member's accumulated contributions but must be accounted for separately from those previously accumulated.

(c) The member's contributions picked up by the employer must be payable from the same source as is used to pay compensation to the member and must be included in the member's earned compensation as defined in 19-20-101. The employer shall deduct from the member's compensation an amount equal to the amount of the member's contributions picked up by the employer and remit the total of the contributions to the retirement board.

(d) The deductions must be made notwithstanding that the minimum compensation provided by law for a member may be reduced by the deductions. Each member is considered to consent to the deductions prescribed by this section, and payment of salary or compensation less the deductions is a complete discharge of all claims for the services rendered by the member during the period covered by the payment, except as to the benefits provided by the retirement system.

(4) The accumulated contributions of a member withdrawn by the member or paid to the member's estate or to the member's designated beneficiary in event of the member's death must be paid from the annuity savings account. Upon the retirement of a member, the member's accumulated contributions must be transferred from the annuity savings account to the pension accumulation account.

(1) An inactive member under the provisions of 19-20-303(1) or (3) may elect, without right of revocation, to withdraw the member's accumulated contributions. If the member does not withdraw the accumulated contributions, the member remains an inactive member of the retirement system with the right to qualify for its benefits.

(2) Upon recovery from a disabling illness or separation from the armed forces, a person qualifying as an inactive member under the provisions of 19-20-303(2) may withdraw the member's accumulated contributions unless the member returns to active membership.

(3) Upon written application to the board, a terminating member may have the payment of all or any portion of the member's accumulated contributions rolled over or transferred

into another eligible retirement plan or a Roth IRA, provided for under 26 U.S.C. 408A, designated by the member. The portion not rolled over or transferred must be paid directly to the terminating member. The board shall provide forms for filing the written application. The terminating member is responsible for correctly designating an account or plan eligible to receive the tax-deferred amount in order to continue the tax-deferred status of the amount. To the extent required by section 401(a)(31) of the Internal Revenue Code, the board shall allow members and qualified beneficiaries to elect a direct rollover of eligible distributions to another eligible retirement plan.

(4) If a nonvested member terminates with accumulated contributions of less than \$200, the board shall pay the accumulated contributions in a lump sum as soon as administratively feasible without a written application from the member unless there is a return to service. Upon the payment of accumulated contributions, the member is considered to have withdrawn from the system.

(i) 10 years if the member is 75 years of age or younger at the time of retirement; or

(ii) 20 years if the member is 65 years of age or younger at the time of retirement.

Unless limited by a family law order, the nominated beneficiary may be changed by the member at any time by filing with the board a written notice nominating different beneficiaries.

(4) (a) Upon written application to the retirement board, a retired member whose effective date of retirement is before October 1, 1993, and who is receiving an optional retirement allowance may select a different actuarially equivalent optional allowance and designate a different joint annuitant if:

(i) the original joint annuitant has died. The benefit must convert to the normal form retirement allowance effective the first of the month following the death of the joint annuitant.

(ii) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must convert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(b) Upon receipt of the written application, the board shall actuarially adjust the member's monthly retirement or disability allowance to reflect the change.

(5) A retired member receiving an optional retirement allowance pursuant to subsection (2)(a), (2)(b), or (2)(c) that is effective after October 1, 1993, may file a written application to select a different actuarially equivalent optional allowance and designate a different joint annuitant or to revert the optional retirement allowance to the normal form retirement allowance available at the time of retirement if:

(a) the original joint annuitant has died. The benefit must revert to the normal form retirement allowance effective the first of the month following the death of the original joint annuitant.

(b) the member has been divorced from the original joint annuitant and the original joint annuitant has not been granted the right to receive any ongoing or future distribution of any portion of the retiree's benefits as part of the divorce settlement. The benefit must revert to the normal form retirement allowance effective the first of the month following receipt of a written application and verification that the original joint annuitant has not been granted the right to receive the optional retirement allowance as part of the divorce settlement.

(6) The normal form retirement allowance available must be increased by the value of any postretirement adjustments received by the member since the effective date of retirement.

(7) The retired member shall file the written application required by subsection (4) or (5) with the board within 18 months of the death or divorce of the joint annuitant.

19-20-715. Earned compensation — limitations. (1) Compensation in excess of the limitations set forth in section 401(a)(17) of the Internal Revenue Code as adjusted for cost-of-living increases must be disregarded for individuals who are not eligible employees. The limitation on compensation for eligible employees may not be less than the amount that was allowed to be taken into account under this chapter on July 1, 1993. For purposes of this section, an eligible employee is an individual who was a member in the retirement system prior to July 1, 1996. Any changes in the maximum limits under section 401(a)(17) of the Internal Revenue Code must be applied prospectively.

(2) (a) The earned compensation reported in each year that is used to make up the average final compensation may not be greater than 110% of the previous year's reported earned compensation, not including increases that result from movement on the employer's adopted salary matrix.

(b) Earned compensation in excess of the amount specified in subsection (2)(a) is considered termination pay and must be included in the calculation of average final compensation as provided in 19-20-716(1)(b).

History: En. Sec. 8, Ch. 111, L. 1995; amd. Sec. 21, Ch. 442, L. 1997; amd. Sec. 9, Ch. 174, L. 2003; amd. Sec. 11, Ch. 59, L. 2011; amd. Sec. 9, Ch. 151, L. 2011; amd. Sec. 23, Ch. 210, L. 2015.

19-20-716. Termination pay. (1) If a member terminates and receives termination pay at the time of retirement, the member shall select, subject to subsections (4) and (5), one of the following options:

(a) Option 1—The member may use the total termination pay in the calculation of the member's average final compensation. The member and the employer shall pay contributions to the retirement system as determined by the board to adequately compensate the system for the additional retirement benefit. The contributions must be made at the time of termination.

(b) Option 2—The member may use a yearly amount of the total termination pay added to each of the consecutive years' salary used in the calculation of the member's average final compensation under 19-20-805. To determine the amount of termination pay used in the calculation of average final compensation, termination pay must be divided by the total number of years of creditable service to determine a yearly amount. The member and the employer shall pay contributions on the termination pay according to the rates provided for in 19-20-602, 19-20-605(1), 19-20-608, and 19-20-609. For the purposes of this subsection (1)(b), the employer shall also pay as a contribution an amount equal to the termination pay multiplied by the rate established in 19-20-607 that would have been payable by the state as a supplemental contribution. The contributions must be made at the time of termination.

(c) Option 3—The member may exclude the termination pay from the average final compensation. A contribution is not required of either the member or the employer.

(2) If a member signs a binding, irrevocable written election for either an option 1 or option 2 benefit at least 90 days prior to the member's termination date, the employee contributions required by this section must be picked up by the employer. The binding, irrevocable written election required by this subsection (2) must be signed by both the member and the employer and must contain statements with regard to the contributions required to be made by the member under subsections (1)(a) and (1)(b) that:

(a) the contributions being picked up, although designated as member contributions, are being paid by the employer directly to the system in lieu of contributions by the member and that the picked up contributions are paid from the same source as compensation is paid;

(b) the member may not choose to directly receive the amounts deducted from the member's termination pay instead of having them paid by the employer to the system;

(c) the member may not prepay any portion of the contributions; and
(d) the effective date of the pickup is the date that the irrevocable written election is signed by both the member and employer. The effective date must be at least 90 days prior to the member's date of termination. The pickup does not apply to a contribution made before the effective date of the pickup.

(3) Pursuant to subsection (2), contributions required under subsection (1)(a) or (1)(b) must be:

(a) deducted from the portion of termination pay that:
(i) constitutes wages for the purposes of section 3121 of the Internal Revenue Code, determined without regard to the wage base limitation; and
(ii) can be included in the member's gross income for federal tax purposes; and
(b) picked up by the employer, except as provided in subsections (4) and (5).
(4) A member's contributions greater than the total amount of the member's termination pay may not be picked up by the employer and are subject to the limitations of section 415 of the Internal Revenue Code.

(5) If a member and the member's employer fail to sign the written election within the time period required in subsection (1), the member may contribute for the purposes specified in subsections (1)(a) and (1)(b) on all or any part of the termination pay received. A contribution made pursuant to this subsection may not be picked up by the employer and is subject to the limitations of section 415 of the Internal Revenue Code.

19-20-717. Effect of no designation or no surviving beneficiary or joint annuitant.

(1) If a beneficiary is not designated or if no designated beneficiary or joint annuitant survives the member or retired member, the estate of the member or retired member is the beneficiary and is entitled to any lump-sum payment or retirement benefit accrued but not received prior to the death of the member or retired member. If the estate would not be probated but for the amount due from the retirement system, all of the amount due must be paid directly, without probate, to the surviving next of kin of the deceased or to the personal representative or executor of the survivor's estate.

(2) Payment must be made in the same order in which the following groups are listed:

- (a) husband or wife;
- (b) children;
- (c) father and mother;
- (d) grandchildren;
- (e) brothers and sisters; or
- (f) nieces and nephews.

(3) A payment may not be made to a person included in any of the groups listed in subsection (2) if at the date of payment there is a living person in any of the groups preceding the group of which the person is a member, as listed. Payment must be made upon receipt from the person of an affidavit, upon a form supplied by the system, that there are no living individuals in the groups preceding the group of which the person is a member and that the estate of the deceased will not be probated.

(4) The payment must be in full and complete discharge and acquittance of the board and system on account of the member's or payment recipient's death.

History: En. Sec. 4, Ch. 442, L. 1997; amd. Sec. 15, Ch. 90, L. 2007; amd. Sec. 12, Ch. 59, L. 2011.

19-20-718. Maximum contribution limitation. (1) Notwithstanding any other provision of law to the contrary, the board may modify a request by a participant to make a contribution to the system required under part 4 or 6 of this chapter that would exceed the limits in section 415(c) or 415(n) of the Internal Revenue Code by using the following methods:

(a) The board may establish a periodic payment plan in order to avoid a contribution in excess of the limits of section 415(c) or 415(n) of the Internal Revenue Code.

(b) If the board's option in subsection (1)(a) will not avoid a contribution in excess of the limits in section 415(c) of the Internal Revenue Code, the board may direct the excess contribution to the qualified governmental excess benefit arrangement pursuant to section

415(m) of the Internal Revenue Code if a qualified governmental excess benefit arrangement has been established pursuant to 19-20-212.

(2) If the board's options in subsections (1)(a) and (1)(b) will not avoid a contribution in excess of the limits of section 415(c) of the Internal Revenue Code, the board shall reduce or refuse the contribution.

(3) The board shall use the provisions of section 415(n) of the Internal Revenue Code, as the provisions apply to a government plan, to facilitate member's service purchases. An eligible participant in a retirement plan, as defined by section 1526 of the Taxpayer Relief Act of 1997, 26 U.S.C. 415, may purchase service credit without regard to the limitations of section 415(c)(1) of the Internal Revenue Code under the Montana statutes in effect on August 5, 1997.

(4) (a) For the purpose of calculating the maximum contribution under section 415 of the Internal Revenue Code, the definitions of "compensation", "wages", and "salary" include the amount of any elective deferral, as defined in section 402(g) of the Internal Revenue Code, or any contribution that is contributed or deferred by the employer at the election of the member and that is not includable in the gross income of the member by reason of section 125, 132(f), 403(b), or 457 of the Internal Revenue Code. Any changes in the maximum limits under section 415 of the Internal Revenue Code must be applied prospectively.

(b) For limitation years beginning after December 31, 2000, compensation must also include any elective amounts that are not able to be included in the gross income of the member by reason of section 132(f)(4) of the Internal Revenue Code.

(c) For limitation years beginning on and after September 1, 2009, compensation for the limitation year must also include compensation paid by the later of 2.5 months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if:

(i) the payment is regular compensation for services during the member's regular working hours or compensation for services outside the member's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

(ii) the payment is for unused accrued sick, vacation, or other leave that the member would have been able to use if employment had continued.

(d) For limitation years beginning on or after September 1, 2009, a member's compensation for purposes of this section may not exceed the annual limit under section 401(a)(17) of the Internal Revenue Code.

(e) Beginning January 1, 2009, to the extent required by section 414(u)(12) of the Internal Revenue Code, 26 U.S.C. 414(u)(12), a member receiving from an employer differential wage payments as defined under section 3401(h)(2) of the Internal Revenue Code, 26 U.S.C. 3401(h)(2), must be treated as employed by that employer. The differential wage payments must be treated as compensation for purposes of applying the limits on annual additions under section 415(c) of the Internal Revenue Code, 26 U.S.C. 415(c). This provision must be applied to all similarly situated employees in an equivalent manner.

19-20-719. Guaranteed annual benefit adjustment — rulemaking. (1) On January 1 of each year, the retirement allowance payable to each tier one member or benefit recipient of a tier one member who is eligible under subsection (3) must be increased by the amount provided in either subsection (1)(a) or (1)(b) as follows:

(a) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are less than 90% funded, 0.5%; or

(b) if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are at least 90% funded and the provision of the increase is not projected to cause the system's liabilities to be less than 85% funded, an amount greater than 0.5% but no more than 1.5%, as set by the retirement board.

(2) On January 1 of each year, the retirement allowance payable to each tier two member or benefit recipient of a tier two member who is eligible under subsection (3) must, if the most recent actuarial valuation of the retirement system shows that retirement system liabilities

are at least 90% funded and the provision of the increase is not projected to cause the system's liabilities to be less than 85% funded, be increased by an amount equal to or greater than 0.5% but no more than 1.5%, as set by the retirement board.

(3) A benefit recipient is eligible for and must receive the annual benefit adjustment provided for in this section if at least 36 monthly retirement benefit payments have been made prior to January 1 of the year in which the adjustment is to be made.

19-20-721. Designation of beneficiary. (1) Except as otherwise provided in this chapter, each member shall file with the board a written election designating a beneficiary who may be eligible to receive the benefit provided pursuant to this chapter. The board shall provide a form that may be used for this purpose. A member may revoke the written election and designate a different beneficiary by filing a new form for this purpose with the board.

(2) A beneficiary who renounces an interest in the right to a payment of a benefit will be considered, for the purposes of further payment by the board of a renounced interest, to have predeceased the member or beneficiary.

(1) (a) Except as provided in 19-20-732 or as otherwise provided in this section, a retired member may be employed in a position that is reportable to the retirement system and may earn, without an adjustment of retirement benefits, an amount not to exceed the greater of:

(i) one-third of the sum of the member's average final compensation; or

(ii) one-third of the median of the average final compensation for members retired during the preceding fiscal year as determined by the retirement board.

(i) health insurance premiums directly paid by the employer on the retired member's behalf for health care coverage provided by the employer;

(ii) the value of housing provided by the employer to the retired member;

(iii) the amount of employment-related travel expenses reimbursed to the retired member by the employer;

(iv) de minimis fringe benefits, as defined in 26 U.S.C. 132(e), paid by the employer to or on behalf of the retired member; and

(v) payroll taxes paid by the employer on behalf of the retired member.

(c) A member applying for a retirement allowance or resumption or recalculation of a retirement allowance based on a termination date of January 1, 2014, or later is required to complete the break-in-service period set forth in 19-20-734 before the retired member may be employed in a position reportable to the retirement system.

(2) On July 1 of each year following the member's retirement effective date, the maximum that a retired member may earn under subsection (1)(a)(i) is increased by an amount equal to the consumer price index increase for urban wage earners compiled by the bureau of labor statistics of the United States department of labor or its successor agency in the preceding calendar year.

(3) Except as provided in 19-20-732, the retirement benefit of a retired member:

(a) employed and earning more than allowed by subsections (1) and (2) must be temporarily reduced by \$1 for each dollar earned over the maximum allowed. Monthly benefits must be reduced beginning as soon as practical after the excess earnings have been reported to the retirement system by the employer. The retirement benefit must be suspended if the retired member's earnings over the maximum allowed exceed the gross monthly benefit amount.

(5) For purposes of this section, the employment status and maximum compensation of a retired member who is employed in more than one position or under more than one contract, whether with one employer or more than one employer, is the aggregate full-time equivalency and compensation derived from all positions reportable to the retirement system in which the retired member is employed.

(6) Within 30 days of the date of the execution of an agreement for the employment of a retired member or of the first date on which the retired member provides services if no agreement is entered into, the retired member shall provide written notice of the postretirement employment to the retirement system.

(7) For purposes of this section, if a retired member is employed by an employer in a position that is reportable to the retirement system and the retired member is concurrently working for the employer in another position that is not reportable to the system, the position that is not reportable is considered to be part of the position that is reportable to the retirement system. All earnings of the retired member that are generated by these positions are reportable to the retirement system.

(8) The retirement allowance of any retired member who is employed in a position and who elects to participate in the university system retirement program under Title 19, chapter 21, must be suspended until the member is no longer employed in the position and is no longer participating in the university system retirement program.

(b) the employer certification required by this section must include the retired member’s name and social security number and a copy of the proposed contract of employment for the retired member;

19-20-805. Calculation of average final compensation. (1) Except as limited by this section, average final compensation is calculated by averaging the earned compensation paid to:

(a) a tier one member in 3 consecutive fiscal years of full-time service that yields the highest average; or

(b) a tier two member in 5 consecutive fiscal years of full-time service that yields the highest average.

(2) (a) The earned compensation of a tier one member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 3 consecutive years of full-time service during the 5 years immediately preceding the member's termination is the compensation that the member

would have earned in the 3 years used to calculate average final compensation had the member's part-time service during the 5 years preceding termination been full-time service.

(b) The earned compensation of a tier two member who retires under 19-20-802, 19-20-804, or 19-20-902 and has less than 5 consecutive years of full-time service during the 7 years immediately preceding the member's termination is the compensation that the member would have earned in the 5 years used to calculate average final compensation had the member's part-time service during the 7 years preceding termination been full-time service.

(3) To determine the compensation that the member would have earned under subsection (2), the compensation reported must be divided by the part-time service credited to the member's account.

(4) (a) Subject to subsection (4)(b), if a member has transferred service from the public employees' retirement system as provided under 19-20-409 and does not have 3 consecutive years of full-time service if a tier one member or 5 consecutive years of full-time service if a tier two member reported to the teachers' retirement system, the member's average final compensation must be calculated as follows:

(i) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals 1 year in any of the fiscal years used in determining average final compensation, then the member's annual salary for that fiscal year must be the member's salary as a member of the public employees' retirement system plus the member's salary as a member of the teachers' retirement system; or

(ii) if the member's part-time service credit in the public employees' retirement system plus the member's part-time service credit in the teachers' retirement system equals less than 1 year in any of the fiscal years used to determine average final compensation, then the member's part-time salary as a member of the public employees' retirement system plus the member's part-time salary as a member of the teachers' retirement system must be divided by the sum of the member's part-time teachers' retirement system service credit and the member's part-time public employees' retirement system service credit.

(b) Compensation reported to the public employees' retirement system used to calculate average final compensation must be adjusted to exclude any compensation that would be considered termination pay under this chapter.

(b) If benefits have been converted to earned compensation as described in subsection (5)(a) but have been reported as earned compensation for less than 5 fiscal years or if the member has been given the option to have benefits converted to earned compensation, any converted benefits reported as earned compensation in the 3 years used to calculate average final compensation may be included in the calculation of average final compensation only as termination pay under 19-20-716(1)(b)." (3) (a) A member who has not attained normal retirement age has not terminated employment in a position reportable to the retirement system if the member and the employer have a prearranged agreement for postretirement service.

(b) For purposes of this subsection (3), a “prearranged agreement for postretirement service” means an oral or written agreement between a member and an employer made before the member attains retired member status for the member to provide service or perform work, in any capacity, on behalf of the employer in the future.

(4) A member has not terminated employment in a position reportable to the retirement system if the member provides any service or performs any work, in any capacity, on behalf of the employer after the certified date of termination but prior to attaining retired member status.

(5) A member must be in retired member status before the member is eligible to be employed as a working retiree pursuant to 19-20-731. 19-20-902. Allowance for disability retirement. (1) Upon retirement for disability, a member must receive a disability retirement allowance equal to the greater of:

(a) one-sixtieth of the member's average final compensation multiplied by the sum of the number of years of creditable service, including service transferred under 19-20-409; or

(b) one-fourth of the member's average final compensation.

(2) The earned compensation in the year of termination that is included in the calculation of average final compensation of a member who is awarded a disability retirement allowance prior to the completion of a full year is the compensation, pay, or salary that the member would have received under the member's contract had the member completed the full year. Any termination pay received by the member is limited to the amount actually paid and is not the amount that the member would have earned had the member completed the full year.

19-20-903. Medical examination of disability retiree. (1) Once each year during the first 5 years following the retirement of a member on a disability retirement allowance and once in every 3-year period thereafter, the retirement board may require a disability benefit recipient who has not yet attained the age of 60 to undergo a medical examination by a physician or physicians designated by the retirement board. The examination must be made at the place of residence of the benefit recipient or other place mutually agreed upon. Based on the examination, the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of the position held by the member when the member retired. If the board determines that the member is not incapacitated, the member's retirement benefit must be canceled. If the member disagrees with the board's determination, the member may request the board to reconsider its action. The request for reconsideration must be made in writing within 60 days after the receipt of the notice of the status change.

(2) A member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be given preference by the member's former employer for the position held at the time of retirement or for a comparable position that becomes available within 1 year of cancellation of the disability retirement. The member may agree to accept an offer of employment by an employer. Employment in any capacity by an employer terminates any right granted by this section. The fact that the former employee was retired on disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have. This section does not affect any requirement for the former employee to meet or to be able to meet professional certification and licensing standards unrelated to the previous disability, otherwise necessary for reinstatement to duty.

(3) If a disability benefit recipient who has not yet attained the age of 60 refuses to submit to a medical examination as required in subsection (1), the recipient's allowance may be discontinued until withdrawal of the refusal. If a refusal continues for 1 year, all rights in and to a disability pension may be revoked by the retirement board.

19-20-904. Adjustment of allowance. (1) (a) Except as provided by subsection (1)(b), if a retiree receiving a disability retirement allowance is engaged in or is able to engage in a

gainful occupation paying more than the difference between the retiree's retirement allowance and the retiree's average final compensation or the difference between the median average final compensation of those members retired during the preceding fiscal year and the retiree's retirement allowance, whichever is greater, the retirement allowance must be reduced to an amount that, together with the amount earnable by the retiree, is equal to the retiree's average final compensation or the median average final compensation of those members retired during the preceding fiscal year, whichever is greater.

(b) If a disabled retiree is reemployed with the same employer within 30 days from the member's effective date of retirement or if the retired member is guaranteed reemployment with the same employer, the member must be considered to have continued in the status of an active member and not to have separated from service. Any retirement allowance payments received by the member must be repaid to the system, together with interest, at the actuarially assumed rate, and the retirement benefit must be terminated.

(2) If the disabled retiree's earning capacity is changed later, the retirement allowance may be further modified, but the new allowance may not exceed the retirement allowance originally granted or an amount that, when added to the amount earnable by the retiree, equals the retiree's average final compensation.

(3) The board may, in its discretion, require a recipient of a disability retirement allowance to annually submit an earning statement and any documentation necessary to support the earnings of the recipient.

19-20-905. Cancellation of allowance and restoration of membership. (1) If a disabled retiree is employed in a position reportable to the retirement system and earns compensation in any fiscal year in excess of the limitation provided in 19-20-904, the retiree's retirement allowance must cease and the retiree must again become an active member of the retirement system effective on the first day of the month following the month in which the earnings limitation was exceeded.

(2) If the member is restored to active membership on or after the attainment of the age of 55 years, the member's retirement allowance upon subsequent retirement may not exceed the retirement allowance that the member would have received had the member remained in service during the period of the member's previous retirement or the sum of the retirement allowance that the member was receiving immediately prior to the member's last restoration to service and the retirement allowance that the member would have received on account of the member's service since the member's last restoration had the member entered service at that time as a new member.

2017 Amendment: Chapter 39 in (1) after "employed" substituted "in a position reportable to the retirement system and earns compensation in any fiscal year in excess of the limitation provided in 19-20-904" for "full-time in a capacity that would otherwise meet the eligibility requirements of active membership, as provided under 19-20-302", in middle after "cease" substituted "and" for "If the retiree is employed full-time by an employer covered under this chapter", and near end after "system" inserted "effective on the first day of the month following the month in which the earnings limitation was exceeded"; and made minor changes in style. Amendment effective July 1, 2017.

Part 10 Death Benefits

19-20-1001. Allowances for death of member prior to retirement. (1) If a member dies before retirement, the member's accumulated contributions must be paid to the member's estate or to the beneficiary that the member nominated by a written application in a manner prescribed by the board and filed with the retirement board prior to the member's death.

(2) (a) In lieu of benefits provided for in subsection (1), if the deceased member qualified by reason of service for a retirement benefit, the designated beneficiary may elect to receive a retirement allowance. The retirement allowance for the beneficiary of the member must be determined as prescribed in 19-20-804, without reference to 19-20-715(2)(a), in the same manner as if the member elected option A provided for in 19-20-702(2)(a).

(b) The effective date of the retirement allowance provided for in subsection (2)(a) is the earlier of:

(i) the first of the month following the date of death; or

(ii) the effective date of the member's retirement, as acknowledged in writing by the retirement system before the member's death.

(c) In the event that a beneficiary receiving payments under subsection (2)(a) dies and payments made to the beneficiary do not equal the amount of the member's accumulated contributions at the time of the member's death, the difference between the total retirement allowance payments made and the amount of the accumulated contributions at the time of the member's death must be paid to the beneficiary's estate.

(3) If the deceased member had 5 or more years of creditable service and was an active member in the retirement system within 1 year before the member's death, a lump-sum death benefit of \$500 is payable to the member's designated beneficiary.

(4) If a deceased member had 5 or more years of creditable service and was an active member in the retirement system within 1 year prior to the member's death, the sum of \$200 a month must be paid to each minor child of the deceased member until the child reaches 18 years of age.

(5) If the member nominated more than one beneficiary to receive payment of a benefit provided by this section upon the member's death, then:

(a) each beneficiary is entitled to share in that benefit; and

(b) if a beneficiary predeceases the member, the benefit must be divided among the surviving beneficiaries.

(6) If a family law order has been issued, an alternate payee's rights under the family law order must be given priority over the rights of a beneficiary.

19-20-1002. Payments upon death of retiree. (1) In the event of the death of a retired member, a death benefit of \$500 is payable to the joint annuitant or designated beneficiary.

(2) Except as provided in subsection (4), if the deaths of a retired member and of the joint annuitant or all designated beneficiaries occur before the total retirement allowance payments made to the retired member and to the joint annuitant or all designated beneficiaries equal the amount of the member's accumulated contributions at the time of the member's retirement, the difference between the total retirement allowance paid and the amount of the accumulated contributions must be paid to the estate of the joint annuitant or to the estate of the longest-surviving beneficiary.

(3) If a deceased member had 5 or more years of creditable service and was retired at the time of death, the sum of \$200 a month must be paid to each minor child of the deceased retiree until the child reaches 18 years of age.

(4) If the retired member elected a 10-year or 20-year period certain and life retirement allowance, the following provisions apply:

(a) If benefits remain payable upon the death of the retired member, the monthly benefit amount will be paid for the remainder of the period certain to the retired member's designated beneficiary or beneficiaries.

(b) If benefits remain payable upon the death of the retired member's last surviving designated beneficiary, a lump-sum distribution of the amount actuarially determined by the retirement system to be the present value of the remainder of the benefits payable for the period certain must be paid to the court-appointed personal representative of the last surviving beneficiary's estate on behalf of the estate. If the last surviving beneficiary's estate is not

probated, the payment must be made to the last surviving beneficiary's next of kin as set forth in 19-20-717.

If the beneficiary has not elected the form of payment by the date on which the beneficiary is to receive the benefit and the beneficiary is eligible for a monthly benefit, the benefit must be paid as provided in 19-20-702(3)(a)(i) or a lump sum must be paid if that is the only benefit due the beneficiary.

Group Insurance

19-20-1101. Withholding of group insurance premium from retirement allowance.

Premiums withheld must be paid directly to the sponsoring employer.

(2) Upon the death of a retired member, the joint annuitant or beneficiary, if eligible, may elect to continue to have the monthly insurance premium withheld from a monthly retirement benefit.

(3) Each month, using the retirement system's online employer reporting system, the employer shall commence withholding, cease withholding, or process any necessary adjustments to the premium amount on behalf of the benefit recipient, including verification that all authorized insurance deductions are correct.

(4) The employer shall notify the benefit recipient of any changes related to the premiums, including any changes to the premium amount, prior to the effective date of the change.

(2) “Benefit recipient” means a benefit recipient as defined in 19-20-101, an alternate payee, or any other person or entity that is entitled to a future payment or that received an overpayment on behalf of the member.

(3) “Error” means any of the following, whether or not intended, that has resulted in or may result in the retirement system paying more or less on behalf of a member than is authorized to be paid or in the retirement system receiving more or less in contributions than is required to be paid to the retirement system pursuant to plan terms:

- (a) a clerical mistake;
- (b) a failure to fully and correctly perform a required act or provide required information;
- (c) an assertion or other representation of fact or circumstance that is not complete and accurate; or
- (d) an incorrect understanding, construction, or application of plan terms or other applicable law or policy.

(5) “Unpaid contributions” means the total amount of all monthly contributions or other contribution amounts not received by the retirement system due to an error.

History: En. Sec. 1, Ch. 210, L. 2015.

19-20-1202. Correction of errors. The retirement system shall correct errors and, as far as practicable, shall:

(1) in the case of underpaid benefits, adjust future benefit payments so the actuarial equivalent of the benefit to which the member or benefit recipient is correctly entitled will be paid;

(2) in the case of overpaid contributions, refund the excess contributions;

(3) in the case of unpaid contributions, recover the amounts owed for unpaid contributions; and

(4) in the case of overpaid benefits, recover the amounts owed for overpayment.

History: En. Sec. 2, Ch. 210, L. 2015.

19-20-1203. Recovery of unpaid employer contributions. An amount owed for unpaid employer contributions must be paid to the retirement system by the employer and is not subject to reduction for any reason.

History: En. Sec. 3, Ch. 210, L. 2015.

19-20-1204. Recovery of unpaid employee contributions. (1) An amount owed for unpaid employee contributions must be paid to the retirement system by the employer if, at the time the contributions were due, the employer was legally required to pick up and remit the contributions to the retirement system on behalf of the member pursuant to 19-20-602(3)(a) and the unpaid contributions resulted from or were furthered by the employer’s error.

(2) An amount owed for unpaid employee contributions not payable by the employer under subsection (1) must be paid to the retirement system by the member or benefit recipient.

History: En. Sec. 4, Ch. 210, L. 2015.

(a) from any retirement benefit or other amount payable by the retirement system to a benefit recipient; or

(b) through repayment by a benefit recipient who received an overpayment or by the estate of the benefit recipient.

(2) If an overpayment resulted from or was furthered by an employer's error, the employer is jointly and severally liable for all amounts owed to the retirement system for the overpayment.

History: En. Sec. 5, Ch. 210, L. 2015.

19-20-1206. Interest on overpayments and unpaid contributions. (1) Except as provided in subsection (2), overpaid benefits and unpaid contributions accrue interest at the retirement system's actuarially assumed annual rate of return, compounded monthly. Interest accrues beginning on the date that the first erroneous payment was made or that the contributions were first due and continues to accrue until the amount owed to the retirement system is fully paid.

(2) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the amount owed may not include interest.

History: En. Sec. 6, Ch. 210, L. 2015.

19-20-1207 through 19-20-1210 reserved.

19-20-1211. Notices required — initial notice — final staff determination. (1) (a) Before taking action to correct an error or recover overpaid benefits or unpaid contributions, the retirement system shall provide a written initial notice to any person or entity from whom the overpayment or unpaid contributions may be recovered.

(b) The initial notice must:

(i) specify the grounds for the retirement system's initial determination that an error has occurred;

(ii) specify, to the extent practicable, the amount owed for overpaid benefits or unpaid contributions;

(iii) identify additional documentation or information, if any, required to be provided to the retirement system for a final staff determination; and

(iv) provide an opportunity for the noticed party or parties to submit additional documentation or information they believe is relevant to the retirement system's determination.

(2) (a) Unless additional time is required for good cause, the retirement system shall issue a final staff determination within 180 days after the date the initial notice was issued.

(b) The final staff determination must specify the process required for a party to appeal the final staff determination to the retirement board.

(3) Notice provided pursuant to this section may be provided to multiple persons or entities as a standardized notice directed to multiple recipients.

History: En. Sec. 7, Ch. 210, L. 2015.

19-20-1212. Recovery methods. (1) The retirement system may use any or all of the following methods to recover amounts owed from a member or benefit recipient:

(b) accept installment payments;

(c) accept a rollover payment from a member;

(d) actuarially adjust monthly benefit payments;

(e) withhold up to 50% of each monthly benefit payment;

(f) withhold up to 100% of a lump-sum distribution; or

(g) withhold up to 100% of the death benefit payable under 19-20-1001(3) or 19-20-1002(1).

(2) For payment of amounts owed by an employer, the retirement system may use any or all of the following methods:

(a) adjust the amount of subsequent contributions due from the employer;

(b) accept installment payments; or

(c) accept a lump-sum payment.

History: En. Sec. 9, Ch. 210, L. 2015.

19-20-1213. Retirement system's discretion — priority right to recover. (1) Nothing in this part is intended to prohibit retirement system staff from working informally with an employer, a member, or a benefit recipient to mutually resolve an error and recover amounts owed to the retirement system prior to the retirement system taking formal action as provided in this part.

(2) The retirement system has sole discretion to determine the most appropriate method for correcting errors and recovering amounts owed to it.

(3) The retirement system's right to recover amounts owed to it as set forth in this part does not prohibit the retirement system from pursuing any other remedy or penalty available to the retirement system.

(4) The retirement system's right to recover amounts owed to it has priority over the claim of any member, benefit recipient, or other individual or entity claiming an interest in any amount payable by the retirement system to or on behalf of the member.

History: En. Sec. 10, Ch. 210, L. 2015.

19-20-1214. Costs and fees for recovering amounts owed. (1) Unless an overpayment or unpaid contributions resulted solely from an error of the retirement system, in any contested case or other civil proceeding for correction of an error or recovery of an overpayment or unpaid contributions, the retirement system is entitled to the costs enumerated in 25-10-201 and to reasonable attorney fees if:

(a) the retirement system prevails in its claim or defense; and

(b) the court finds, upon judicial review, that the claim or defense of the other party that brought or defended the action was frivolous or was pursued in bad faith.

(2) If there are multiple parties adverse to the retirement system in a contested case, the parties are jointly and severally liable for the costs and fees awarded to the retirement system.

History: En. Sec. 11, Ch. 210, L. 2015.

19-20-1215. Statute of limitations. (1) If overpaid benefits or unpaid contributions resulted solely from an error made by the retirement system, the retirement system may recover amounts owed for overpayments or unpaid contributions only for benefits or other amounts actually paid by the retirement system or for contributions that were actually due in the timeframe beginning 24 months prior to the date on which the retirement system issues an initial notice and ending when all amounts owed for overpayments or unpaid contributions are fully paid.

(2) An employee may enter into a written agreement with the state or a political subdivision to defer a part of the employee’s compensation to one or more of the investment options provided in subsection (4) for the purpose of investment as provided by this chapter. (6) "Extracurricular activities" means voluntary activities sponsored by the school or local education agency or an organization sanctioned by the local education agency. Extracurricular activities include but are not limited to preparation for and involvement in public performances, contests, athletic competitions, demonstrations, displays, and club activities.

(7) “Interstate Commission on Educational Opportunity for Military Children” or “Interstate Commission” means the commission that is created under Article IX of this compact.

The term includes the amendment, repeal, or suspension of an existing rule.

(14) “Sending state” means the state from which a child of a military family is sent, brought, or caused to be sent or brought.

(15) “State” means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Northern Marianas Islands, and any other U.S. territory.

(16) “Student” means the child of a military family for whom the local education agency receives public funding and who is formally enrolled in kindergarten through 12th grade.

(17) “Transition” means:

(a) the formal and physical process of transferring from school to school; or

(b) the period of time during which a student moves from one school in the sending state to another school in the receiving state.

(18) “Uniformed service” means the army, navy, air force, marine corps, or coast guard.

(19) “Veteran” means a person who served in the uniformed services and who was discharged or released from service under conditions other than dishonorable.

ARTICLE III APPLICABILITY

(1) Except as otherwise provided in subsection (3), this compact applies to the children of:

(a) active duty members of the uniformed services as defined in this compact, including members of the national guard and reserve on active duty orders pursuant to 10 U.S.C. 12301(d) and 12304;

(b) members or veterans of the uniformed services who are severely injured and medically discharged or retired for a period of 1 year after medical discharge or retirement; and

(c) members of the uniformed services who die on active duty or as a result of injuries sustained on active duty for a period of 1 year after death.

(2) The provisions of this compact apply only to local education agencies as defined in this compact.

(3) The provisions of this compact do not apply to the children of:

(a) inactive members of the national guard and military reserves;

(b) members of the uniformed services now retired, except as provided in subsection (1);

(c) veterans of the uniformed services, except as provided in subsection (1); and

(d) other U.S. department of defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV EDUCATIONAL RECORDS AND ENROLLMENT

(1) In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records from a local education facility,

as defined by federal law, containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records, pending validation by the official records, as quickly as possible.

(2) Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state shall process and furnish the official education records to the school in the receiving state within 10 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(3) Receiving states shall give 30 days from the date of enrollment or a time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunizations required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within 30 days or within a time that is reasonably determined under the rules promulgated by the Interstate Commission.

(4) Students must be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level, including kindergarten, from a local education agency in the sending state at the time of transition regardless of age. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state must be eligible for enrollment in the next highest grade level in the receiving state regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on the student's validated level from a school in the sending state.

ARTICLE V PLACEMENT AND ATTENDANCE

(1) When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school, educational assessments conducted at the school in the sending state, or both, if the courses are offered and space is available. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, and vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

(2) The receiving state school shall initially honor placement of the student in educational programs based on space availability and current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include but are not limited to gifted and talented programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student. This section does not require a local education agency to create programs or offer services that were not in place prior to the enrollment of the student unless the programs or services are required by federal or state law.

(3) (a) In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. 1400, et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program.

(b) In compliance with the requirements of section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794, and with Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. 12131 through 12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

(4) Local education agency administrative officials have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

(5) A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting must be granted additional excused absences at the discretion of the local education agency superintendent to visit with the student's parent or legal guardian relative to the leave or deployment of the parent or guardian.

ARTICLE VI ELIGIBILITY

(1) A special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, is sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

(2) A local education agency is prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

(3) A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which the child was enrolled while residing with the custodial parent.

(4) State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

(1) Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. If a waiver is not granted to a student who would qualify to graduate from the sending state, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

(2) (a) In lieu of testing requirements for graduation in the receiving state, states shall accept:

- (i) exit or end-of-course exams required for graduation from the sending state;
- (ii) national norm-referenced achievement tests; or
- (iii) alternative testing.

(b) In the event that the above alternatives cannot be accommodated by the receiving state for a student transferring to the school during the student's senior year, the provisions of subsection (3) of this article apply.

(3) If a military student transferring at the beginning of or during the student's senior year is ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections (1) and (2) of this article.

ARTICLE VIII STATE COORDINATION

(1) Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in and compliance with this compact and Interstate Commission activities. While each member state may determine

the membership of its own state council, its membership must, at a minimum, include the state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups that the state council considers appropriate.

(2) The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

(3) The compact commissioner responsible for the administration and management of the state's participation in the compact must be appointed by the governor or as otherwise determined by each member state.

(4) The compact commissioner and the military family education liaison designated herein are ex-officio members of the state council unless either is already a full voting member of the state council.

ARTICLE IX INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function.

(1) The Interstate Commission is a body corporate and joint agency of the member states and has all the responsibilities, powers, and duties set forth herein and additional powers that may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

(2) (a) The Interstate Commission consists of one voting representative from each member state who is that state's compact commissioner.

(b) Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

(c) A majority of the total member states constitute a quorum for the transaction of business unless a larger quorum is required by the bylaws of the Interstate Commission.

(d) A representative may not delegate a vote to another member state. In the event that the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or state council may delegate voting authority to another person from the state for a specified meeting.

(e) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(3) The Interstate Commission consists of ex-officio, nonvoting representatives who are members of interested organizations. The ex-officio members, as defined in the bylaws, may include but may not be limited to members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

(4) The Interstate Commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

(5) The Interstate Commission shall establish an executive committee, whose members must include the officers of the Interstate Commission and any other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve 1-year terms. Members of the executive committee are entitled to one vote each. The executive committee has the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact and its bylaws and rules and

other duties considered necessary. The U.S. department of defense shall serve as an ex-officio, nonvoting member of the executive committee.

(6) The Interstate Commission shall establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

(7) Public notice must be given by the Interstate Commission of all meetings, and all meetings must be open to the public except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting or portion thereof if it determines by a two-thirds vote that an open meeting would be likely to:

- (a) relate solely to the Interstate Commission's internal personnel;
- (b) disclose matters specifically exempted from disclosure by federal and state statute;
- (c) disclose trade secrets or commercial or financial information that is privileged or confidential;
- (d) involve accusing a person of a crime or formally censuring a person;
- (e) disclose information of a personal nature when disclosure would constitute a clearly unwarranted invasion of personal privacy;
- (f) disclose investigative records compiled for law enforcement purposes; or
- (g) specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

(8) For a meeting or portion of a meeting closed pursuant to this provision, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting, and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the Interstate Commission.

(9) The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules, which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. The methods of data collection, exchange, and reporting must, in so far as is reasonably possible, conform to current technology, and the Interstate Commission shall coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

(10) The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section may not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

ARTICLE X POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission may:

- (1) provide for dispute resolution among member states;
- (2) adopt rules that have the force and effect of law and are binding in the compact states to the extent and in the manner provided in this compact and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact;
- (3) issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact and its bylaws, rules, and actions;
- (4) monitor compliance with the compact provisions, the rules adopted by the commission, and the bylaws;
- (5) establish and maintain offices, which must be located within one or more of the member states;

- (6) purchase and maintain insurance and bonds;
- (7) borrow, accept, hire, or contract for services of personnel;
- (8) establish and appoint committees, including but not limited to an executive committee as required by subsection (5) of Article IX of this compact, which has the power to act on behalf of the Interstate Commission in carrying out its powers and duties under this compact;
- (9) elect or appoint officers, attorneys, employees, agents, or consultants, fix their compensation, define their duties, and determine their qualifications, and establish the Interstate Commission's personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;
- (10) accept any and all donations and grants of money, equipment, supplies, materials, and services and receive, utilize, and dispose of it;
- (11) lease, purchase, accept contributions or donations of, or otherwise own, hold, improve, or use any property, whether real, personal, or mixed;
- (12) sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;
- (13) establish a budget and make expenditures;
- (14) adopt a seal and bylaws governing the management and operation of the Interstate Commission;
- (15) report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. The reports must also include any recommendations that may have been adopted by the Interstate Commission.
- (16) coordinate education, training, and public awareness regarding the compact and its implementation and operation for officials and parents involved in such activity;
- (17) establish uniform standards for the reporting, collecting, and exchanging of data;
- (18) maintain corporate books and records in accordance with the bylaws;
- (19) perform functions that may be necessary or appropriate to achieve the purposes of this compact;
- (20) provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

ARTICLE XI ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

- (1) The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including but not limited to:
 - (a) establishing the fiscal year of the Interstate Commission;
 - (b) establishing an executive committee and other committees as may be necessary;
 - (c) providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;
 - (d) providing reasonable procedures for calling and conducting meetings of the Interstate Commission and ensuring reasonable notice of each meeting;
 - (e) establishing the titles and responsibilities of the officers and staff of the Interstate Commission;
 - (f) providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;
 - (g) providing startup rules for initial administration of the compact.
- (2) The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom has authority and duties as specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the Interstate Commission. The officers shall serve without compensation or remuneration from the Interstate Commission. However, subject to the availability of budgeted funds, the officers must be reimbursed for

ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

(3) The executive committee has authority and duties as set forth in the bylaws, including but not limited to:

(a) managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

(b) overseeing an organizational structure and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

(c) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

(4) The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for a period, upon terms and conditions, and for compensation as the Interstate Commission considers appropriate. The executive director shall serve as secretary to the Interstate Commission, but may not be a member of the Interstate Commission. The executive director shall hire and supervise other persons as authorized by the Interstate Commission.

(5) The Interstate Commission's executive director and its employees are immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred or that the person had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities. However, that person is not protected from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(6) The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within their state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection may be construed to protect a person from suit or liability for damage, loss, injury, or liability caused by the person's intentional or willful and wanton misconduct.

(7) The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend the Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the person.

(8) To the extent not covered by the state involved, the member state, the Interstate Commission, or the representatives or employees of the Interstate Commission must be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against those persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities or that the persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities if the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of the persons.

ARTICLE XII

RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope

of the purposes of this compact or the powers granted under the compact, then such an action by the Interstate Commission is invalid and has no force or effect.

(2) Rules must be made pursuant to a rulemaking process that substantially conforms to the Model State Administrative Procedure Act revised as of 2012 as may be appropriate to the operations of the Interstate Commission.

(3) Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule. However, the filing of a petition does not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and may not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

(4) If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then the rule has no further force and effect in any member state.

ARTICLE XIII OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

(1) Each member state shall enforce this compact to effectuate the compact's purposes and intent.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the Interstate Commission.

(3) The Interstate Commission is entitled to receive all service of process in any such proceeding and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission renders a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

(4) The purpose of this compact is not to supersede the sovereignty of any member state but instead to facilitate the collective exercise of each state's sovereignty to allow a uniform solution without federal intervention. No provision of the interstate compact may be construed as a waiver of a state's sovereignty.

(5) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the bylaws or promulgated rules, the Interstate Commission shall:

(a) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state is required to cure its default.

(b) provide remedial training and specific technical assistance regarding the default.

(6) If the defaulting state fails to cure the default, the defaulting state must be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact must be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default, except that in the event of a default by this state, its total financial responsibility is limited to the amount of its most recent annual assessment.

(7) Suspension or termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(8) The state that has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination up to a maximum amount of \$5,000 multiplied by the number of years that the state has been a member of the compact. In the event that this state is suspended or terminated, its total financial responsibility is limited to the amount of its most recent annual assessment.

(9) The Interstate Commission may not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(10) The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. district court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party must be awarded all costs of litigation, including reasonable attorney fees.

(11) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

(12) The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

ARTICLE XIV FINANCING OF THE INTERSTATE COMMISSION

(1) The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states to the limits as specified herein.

(3) The annual assessment applicable to this state may not exceed an amount equal to \$2 multiplied by the latest available number of children of military families in this state.

(4) This state may not be held liable for the payment of any special assessment or other assessment other than the annual assessment in the amount established by subsection (3).

(5) The Interstate Commission may not incur obligations of any kind prior to securing the funds adequate to meet those obligations, and the Interstate Commission may not pledge the credit of any of the member states except by and with the authority of the member state.

(6) The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the Interstate Commission.

(7) All expenditures for the state, including withdrawal or dissolution costs, or both, may not exceed an amount of \$5,000 annually.

ARTICLE XV MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

(1) Any state is eligible to become a member state, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from the compact must be by the enactment of a statute repealing the compact, except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The Interstate Commission may propose amendments to the compact for enactment by the member states. An amendment may not become effective and binding upon the Interstate Commission and the member states unless it is enacted into law by unanimous consent of the member states.

ARTICLE XVI WITHDRAWAL AND DISSOLUTION

(1) Once effective, the compact continues in force and remains binding upon each and every member state. However, a member state may withdraw from the compact by specifically repealing the statute that enacted the compact into law, except that in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for expiration of this section.

(2) Withdrawal from this compact must be by the enactment of legislation repealing the compact except in the case of this state, withdrawal from the compact may also be accomplished by statutorily allowing for the expiration of this section.

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state, except that if this state elects to withdraw from the compact by statutorily allowing for the expiration of this section, this state shall notify the chairperson of the commission when it becomes evident that the expiration will take effect. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt of the notice.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal up to a maximum amount equal to \$2 multiplied by the latest available number of children of military families in this state.

(5) Reinstatement following withdrawal of a member state may occur upon the withdrawing state reenacting the compact or upon a later date as determined by the Interstate Commission.

(6) (a) This compact dissolves on the date of the withdrawal or default of the member state that reduces the membership in the compact to one member state.

(b) Upon the dissolution of this compact, the compact becomes null and void and is of no further force or effect and the business and affairs of the Interstate Commission must be concluded and surplus funds must be distributed in accordance with the bylaws.

ARTICLE XVII SEVERABILITY AND CONSTRUCTION

(1) The provisions of this compact are severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact are enforceable.

(2) The provisions of this compact must be liberally construed to effectuate its purposes.

(3) Nothing in this compact may be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII BINDING EFFECT OF COMPACT AND OTHER LAWS

(1) Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with this compact. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

(2) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

(3) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(4) In the event that any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, that provision is ineffective to the extent of the conflict with the constitutional provision in question in that member state.

20-2-501. Compact for Education approved. The Compact for Education established by the education commission of the states is enacted into law and entered into with all other jurisdictions legally joining in the compact, in the form substantially as follows:

THE COMPACT FOR EDUCATION

ARTICLE I

PURPOSE AND POLICY

(1) It is the purpose of this compact to:

(a) establish and maintain close cooperation and understanding among executive, legislative, professional educational, and lay leadership on a nationwide basis at the state and local levels;

(b) provide a forum for the discussion, development, crystallization, and recommendation of public policy alternatives in the field of education;

(c) provide a clearinghouse of information on matters relating to education problems and how they are being met in different places throughout the nation; and

(d) facilitate the improvement of state and local education systems.

(2) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement, and administration of education systems and institutions.

(3) The states that have entered into this compact recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own education systems and institutions.

ARTICLE II STATE DEFINED

As used in this compact, “state” means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

ARTICLE III THE COMMISSION

(1) The education commission of the states (commission) is hereby established. The commission consists of seven members representing each state that has entered into the compact. One of the state members must be the governor, two must be members of the legislature selected by its respective houses and serving in a manner as the legislature may determine, one must be the state superintendent of public instruction, and three must be appointed by and serve at the pleasure of the governor. The guiding principle for the composition of the membership on the commission from each party state must be that the members representing the state shall, by virtue of their training, experience, knowledge, or affiliations, reflect broadly the interests of the state government, higher education, the state education system, local education, and public and nonpublic educational leadership. In addition to the members of the commission representing the party states, there may be no more than 10 nonvoting commissioners selected by the steering committee for terms of 1 year. The commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(2) The members of the commission are entitled to one vote each on the commission. Any action of the commission is not binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of the action. Any action of the commission must be taken only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to any directions and limitations as may be contained in the bylaws, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV, and adoption of the annual report pursuant to Article III(10).

(3) The commission must have a seal.

(4) The commission shall elect annually, from among its members, a presiding officer, who must be a governor; a vice presiding officer; and a treasurer. The commission shall appoint an executive director. The executive director shall serve at the pleasure of the commission and, together with the treasurer and other personnel as the commission may consider appropriate, must be bonded in an amount determined by the commission. The executive director shall serve as secretary.

(5) The executive director, subject to the approval of the steering committee, shall appoint, remove, or discharge any personnel as may be necessary for the performance of the functions of the commission. The executive director shall fix the duties and compensation of the personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(6) The commission may borrow, accept, or contract for the services of personnel.

(7) The commission may accept for any of its purposes and functions under this compact any donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation and may receive, utilize, and dispose of any gifts and grants. Any donation or grant accepted by the commission pursuant to this section or services borrowed pursuant to subsection (6) of this article must be reported in the annual report of the commission. The report must include the nature, amount, and conditions, if any, of the donation, grant, or services borrowed and the identity of the donor or lender.

(8) The commission may establish and maintain any facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest in property.

(9) The commission shall adopt bylaws for the conduct of its business and may amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file

a copy of its bylaws and any amendments with the appropriate agency or officer in each state that has entered into this compact.

(10) The commission annually shall make and provide to the governor and legislature of each state that has entered into the compact a report covering the activities of the commission for the preceding year. The commission may make any additional reports as it considers desirable.

ARTICLE IV POWERS

In addition to any authority conferred on the commission by other provisions of the compact, the commission may:

(1) collect, correlate, analyze, and interpret information and data concerning educational needs and resources;

(2) encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public education systems;

(3) develop proposals for adequate financing of education as a whole and at each of its many levels;

(4) conduct or participate in research in any instance where it finds that the research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional organizations for higher education, and other agencies and institutions, both public and private;

(5) formulate suggested policies and plans for the improvement of public education as a whole, or for any segment of public education, and make recommendations with respect to public education available to the appropriate governmental units, agencies, and public officers; and

(6) do other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to the compact.

ARTICLE V COOPERATION WITH FEDERAL GOVERNMENT

(1) If the laws of the United States specifically provide, or if administrative provision is made within the federal government, the United States may be represented on the commission by not more than 10 representatives. A representative of the United States must be appointed and serve in the manner as may be provided by federal law and may be drawn from any one or more branches of the federal government. A representative of the United States may not have a vote on the commission.

(2) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states and may confer with any federal agencies or officers concerning any matter of mutual interest.

ARTICLE VI COMMITTEES

(1) To assist in the conduct of its business when the full commission is not meeting, the commission shall elect a steering committee that, subject to the provisions of this compact and consistent with the policies of the commission, is constituted and functions as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee must consist of governors, one-fourth must consist of legislators, and the remainder must consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but may not vote. The voting members of the steering committee shall serve a term of 2 years. The presiding officer, vice presiding officer, and treasurer of the commission must be members of the steering committee and, notwithstanding anything in this section to the contrary, shall serve during their continuance in these offices. Vacancies on the steering committee do not affect its authority to act, but the commission at its next regular meeting following the occurrence of any vacancy shall fill it for the unexpired term. A person may not serve more than two terms as a member of the steering committee, provided that service for a partial term of 1 year or less may not be counted toward the limitation.

(2) The commission may establish advisory and technical committees composed of state, local, or federal officers and private persons to advise it with respect to any one or more of its functions. An advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the states that have entered into this compact.

(3) The commission may establish any additional committees as its bylaws may provide.

ARTICLE VII FINANCE

(1) The commission shall advise the governor or designated officer of each state that has entered into this compact of its budget and estimated expenditures for any period as may be required by the laws of that state. Each of the commission's budgets of estimated expenditures must contain specific recommendations of the amount to be appropriated by each of the states.

(2) The total amount of appropriation requests under any budget must be apportioned among the states. In making the apportionment, the commission shall devise and employ a formula that takes equitable account of the population and per capita levels of income of the states.

(3) The commission may not pledge the credit of any state. The commission may meet any of its obligations in whole or in part with money available to it pursuant to Article III of this compact, provided that the commission takes specific action setting aside the money before incurring an obligation to be met in whole or in part in that manner. Except when the commission makes use of money available to it pursuant to Article III, the commission may not incur any obligation before receiving an allotment of money from the states that is adequate to meet the obligation.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the procedures for audit and accounting established by its bylaws. However, all receipts and disbursements of money handled by the commission must be audited yearly by a qualified public accountant. The report of the audit must be included in and become part of the annual report of the commission.

(5) The accounts of the commission must be open at any reasonable time for inspection by officers of the states that have entered into this compact and by any other persons authorized by the commission.

(6) The provisions in this compact may not prohibit compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII ELIGIBLE PARTIES — ENTRY INTO AND WITHDRAWAL

(1) This compact has as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. With respect to any jurisdiction not having a governor, the term "governor", as used in this compact, means the closest equivalent officer of the jurisdiction.

(2) Any state or other eligible jurisdiction may enter into this compact and it becomes binding when it is adopted by that state or jurisdiction, except that in order to enter into initial effect, adoption by at least 10 eligible jurisdictions is required.

(3) Any state may withdraw from this compact by enacting a statute repealing the compact, but withdrawal may not take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other states that have entered into this compact. Withdrawal does not affect any liability already incurred by or chargeable to a state before its withdrawal.

ARTICLE IX AMENDMENTS TO THE COMPACT

This compact may be amended by a vote of two-thirds of the members of the commission present and voting when ratified by the legislatures of two-thirds of the states that have entered into this compact.

ARTICLE X CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to accomplish its purposes. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of this compact is declared to be unconstitutional, or the application of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact may not be affected. If this compact is held to be contrary to the constitution of any state participating in the compact, the compact remains in effect as to the state affected as to all severable matters.

20-3-302. Legislative intent to elect less than majority of trustees. (1) It is the intention of the legislature that the terms of a majority of the trustee positions of any district with elected trustees may not regularly expire and be subject to election on the same regular school election day. In elementary districts, there may not be more than three trustee positions in first-class districts, two trustee positions in second-class districts or third-class districts having five trustee positions, or one trustee position in third-class districts having three trustee positions regularly subject to election at the same time. In high school districts there may not be more than two additional trustee positions in first- or second-class districts or more than one in third-class districts regularly subject to election at the same time. (3) If the change of a district's classification under 20-6-201 or 20-6-301 decreases the number of trustee positions, the positions must be eliminated in a manner that complies with the intent of subsection (1).

(4) Although the legislature intends that the terms of a majority of trustees of any district may not regularly expire and be subject to election at the same time, it is recognized that filling a vacancy under 20-3-308 may lead to a subsequent school election in which a majority of trustee positions are subject to election at the same time.

(1) There must be seven trustee positions in a first-class elementary district.

(2) There must be five trustee positions in a second-class elementary district; however, on a majority vote of the board of trustees, the number may be increased to seven trustee positions at the next trustee election if notice of the action of the board of trustees is published by the clerk of the district in a newspaper of general circulation in the county prior to January 1 of the year of the trustee election. The board of trustees may reduce the number of trustee positions from seven to five upon receiving a petition for that purpose from at least 10 qualified electors of the district.

(3) There must be three trustee positions in a third-class elementary district; however, on a majority vote of the board of trustees, the number may be increased to five trustee positions at the next trustee election if notice of the action of the board of trustees is published by the clerk of the district in a newspaper of general circulation in the county prior to January 1 of the year of the trustee election. The board of trustees may reduce the number of trustee positions from five to three upon receiving a petition for that purpose from at least 10 qualified electors of the district.

20-3-352. Request and determination of number of high school district additional trustee positions — nonvoting trustee. (1) As provided in 20-3-351(1)(b), a high school district, except a county high school district, may have additional trustee positions when the trustees of a majority of the elementary districts with territory located in the high school district, but without equitable representation on the high school district trustees under the provision of 20-3-351(1)(a), request the establishment of additional trustee positions under the provisions of subsection (2) or when the electors approve an alternative method of electing members of the board of trustees under the provisions of subsection (3).

(2) A request for additional trustee positions must be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure:

(a) The taxable valuation of the elementary district that has its trustees placed on the high school trustees must be divided by the number of positions on the trustees of the elementary district to determine the taxable valuation per trustee position.

(b) The taxable valuation used for the calculation in subsection (2)(a) must be subtracted from the taxable valuation of the high school district to determine the taxable valuation of the territory of the high school district without representation on the high school district trustees.

(c) The taxable valuation determined in subsection (2)(b) must be divided by the taxable valuation per trustee position calculated in subsection (2)(a). The resulting quotient must be rounded off to the nearest whole number, except that when the quotient is less than 0.5, at least one nonvoting trustee position must be established for the territory without representation on the high school district board of trustees under the provision of 20-3-351(1)(a).

(d) Except for a nonvoting trustee position, the number determined in subsection (2)(c) must be the number of additional trustee positions, except that the number of additional trustee positions may not exceed four in a first- or second-class high school district or two in a third-class high school district except when two-thirds or more of the high school enrollment of the high school district and two-thirds or more of the taxable valuation of the high school district are located outside of the elementary district that has its trustees placed on the high school district trustees. When this situation exists, three additional trustees must be elected from the elementary school districts in which the high school is not located and one additional trustee must be elected at large in the high school district.

(e) An additional trustee may serve as the presiding officer of the board of trustees of an elementary district in accordance with 20-3-321(3).

(3) (a) If more than half of the electors of the high school district reside outside the territory of the elementary school district in which the high school district buildings are located, at least 10% of the electors of the high school district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent, requesting an election to consider a proposition on the question of establishing one of the following alternative methods of electing the members of the high school district board of trustees:

(i) one trustee must be elected from each elementary school district with territory included in the high school district and two or three trustees must be elected at large in the high school district, whichever number results in an odd number of members on the board of trustees; or

(ii) the county superintendent shall establish four trustee nominating districts within the high school district but outside the territory of the elementary school district in which the high school buildings are located. One trustee must be elected from each trustee nominating district and three trustees must be elected from the elementary district in which the high school buildings are located, for a total of seven trustees on the high school district board of trustees. Trustees elected from the elementary district in which the high school buildings are located shall serve

on both the high school district board of trustees and on the elementary school district board of trustees.

(b) (i) When the county superintendent receives a valid petition, the county superintendent shall order the trustees of the high school district to conduct an election on the next regular school election day on the proposition allowed under the provisions of subsection (3)(a).

(ii) If the electors of the district approve a proposition to establish the alternative method of electing the high school district board of trustees, the county superintendent shall order that the members of the board of trustees be elected according to subsection (3)(a) at the next regular school election.

(c) Whenever the trustees are elected at one regular election under subsection (3)(b), the members who are elected shall draw by lot to determine their terms of office. The terms of office by trustee position must be divided as equally as practicable among 1-year, 2-year, and 3-year terms.

(d) A petition to call an election for the purposes of subsection (3) may not be submitted to the county superintendent more than one time in each 5-year period.

20-3-353. Establishment and purpose of trustee nominating districts. (1) After the county superintendent has determined the number of additional trustee positions, the county superintendent shall establish trustee nominating districts in that portion of the high school district without representation on the high school trustees. There must be one trustee nominating district for each additional trustee position, except the additional trustee-at-large. Unless it is impossible, the trustee nominating district boundaries must be coterminous with elementary district boundaries.

(2) The purpose of the trustee nominating district is to establish a representative district for the nomination and election of a resident of the district to be an additional member of the trustees of a high school district. The electors qualified to vote in the high school district under the provisions of 20-20-301 and who reside in the trustee nominating district are the only electors who may vote for the additional trustee representing the district. They must also be permitted to vote for a trustee position at large, if there is one, but not for any other high school trustee position.

(3) Any additional trustee position established under the provisions of this section must be filled in a manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

History: En. 75-5904 by Sec. 33, Ch. 5, L. 1971; R.C.M. 1947, 75-5904; amd. Sec. 283, Ch. 56, L. 2009.

20-3-354. Redetermination of additional trustee positions and subsequent adjustments. Whenever there is a revision of the taxable valuation of the high school district or the elementary districts within the high school district or there is a reclassification of the elementary district that has its trustees placed on the high school district board of trustees, the county superintendent shall redetermine the number of additional trustee positions for the high school district in accordance with 20-3-352. If there is a change in the allowable number of additional trustee positions, the county superintendent shall reestablish the trustee nominating districts in accordance with 20-3-353. If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions are to terminate upon the order reestablishing the trustee nominating districts. If the number of additional trustee positions is more than the previous number of positions, the additional trustee positions must be filled in the manner prescribed under the provisions of 20-3-309. Each additional trustee position filled by appointment under this section is subject to election at the next regular school election.

20-3-355. Determination of terms after establishment or reestablishment of additional trustee positions. (1) Whenever all of the additional trustee positions are subject to election at one regular school election under the circumstance described in 20-3-302(2)(b), the

members who are elected shall draw by lot to determine their terms of office. The terms of office by number of members elected must be:

- (a) two for 3 years, if four are elected;
- (b) one for 3 years, if one, two, or three are elected;
- (c) one for 2 years, if two, three, or four are elected; and
- (d) one for 1 year, if three or four are elected.

(2) Whenever the reestablishment of the additional trustee positions for a high school district under the provisions of 20-3-354 results in an increased number of additional trustee positions, the members who are elected at the next regular school election shall draw by lot to determine their terms of office and the terms must be determined in accordance with the additional trustee terms prescribed in this section.

20-3-356. Membership of elected trustees of county high school district and nomination of candidates. (1) The trustees of a county high school district must include the following:

(a) four trustee positions filled by members residing in the elementary district where the county high school building is located; and

(b) three trustee positions filled by members one of whom resides in each of the three trustee nominating districts in the territory of the high school district outside of the elementary district where the county high school building is located. The county superintendent shall establish the nominating districts, and, unless it is impossible, the districts must have coterminous boundaries with elementary district boundaries.

(1) The board of trustees of two or more school districts may form a joint board of trustees for the purpose of coordinating any educational program or support service of the districts. A joint board of trustees may coordinate only those programs and services agreed to by the participating boards of trustees.

(2) When a joint board of trustees is formed, all of the members of the districts' trustees must be members of the joint board of trustees and each member must have the right to participate in the meetings, but voting on matters considered by the joint board is limited by the provisions of this section.

(3) At the first meeting of the joint board of trustees, a presiding officer of the joint board of trustees must be selected from among the membership. A secretary of the joint board must be selected from the membership. The presiding officer, when selected as a voting member, may not be disqualified from voting because of the position. The secretary may not be a voting member except that the secretary shall cast the deciding vote when three successive ballots have resulted in a tie vote of the joint board of trustees.

(4) The voting membership of the joint board of trustees must be equalized among the trustee membership of the participating districts. After the selection of the presiding officer and the secretary, if necessary, the voting membership is:

(a) all of the membership of the board of trustees of the smallest class of district, according to 20-6-201 or 20-6-301, unless one of its members is selected as secretary, in which case that member may not be a voting member; and

(b) the members of the board of trustees of the other district or districts who are selected by the trustees as voting members of the joint board in a number equal to the number of voting members of the district as established under subsection (4)(a). The names of the voting membership selected by the trustees must be submitted in writing to the secretary of the board

and are the only members of the district's trustees eligible to vote on joint board matters unless the list is revised in writing by the trustees.

(5) Each voting member is entitled to cast one vote, individually, upon every matter submitted to the joint board for a vote.

(6) A joint board shall remain in existence for at least 1 school year and may not be dissolved until the end of a school year.

20-3-363. Multidistrict agreements — fund transfers. (1) The boards of trustees of any two or more school districts may enter into a multidistrict agreement to create a multidistrict cooperative to perform any services, activities, and undertakings of the participating districts and to provide for the joint funding and operation and maintenance of all participating districts upon the terms and conditions as may be mutually agreed to by the districts subject to the conditions of this section. An agreement must include provisions for dissolution of the cooperative, including the conditions under which dissolution may occur and the disposition of any remaining funds that had been transferred to an interlocal cooperative fund in support of the cooperative. An agreement must be approved by the boards of trustees of all participating districts and must include a provision specifying terms upon which a district may exit the multidistrict cooperative. The agreement may be for a period of up to 3 years.

(2) All expenditures in support of the multidistrict agreement may be made from the interlocal cooperative fund as specified in 20-9-703 and 20-9-704. Each participating district of the multidistrict cooperative may transfer funds into the interlocal cooperative fund from the district's general fund, budgeted funds other than the retirement fund or debt service fund, or nonbudgeted funds other than the compensated absence liability fund. Transfers to the interlocal cooperative fund from each participating school district's general fund are limited to an amount not to exceed the direct state aid in support of the respective school district's general fund. Transfers from the retirement fund and debt service fund are prohibited. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law.

(3) Expenditures from the interlocal cooperative fund under this section are limited to those expenditures that are permitted by law and that are within the final budget for the budgeted fund from which the transfer was made.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(5) As used in this title, “multidistrict cooperative” means a public entity created by two or more school districts executing a multidistrict agreement under this section or any school district or other public entity participating in an interlocal cooperative agreement under the provisions of Title 20, chapter 9, part 7, as either a coordinating or a cooperating agency.

Part 1**Certification of Teaching and Supervisory Personnel**

20-4-101. System and definitions of teacher and specialist certification — student teacher exception. (1) In order to establish a uniform system of quality education and to ensure the maintenance of professional standards, a system of teacher and specialist certification must be established and maintained under the provisions of this title and a person may not be permitted to teach in the public schools of the state until the person has obtained a teacher or specialist certificate or the district has obtained an emergency authorization of employment from the state.

(2) As used in this part, “teacher or specialist certificate” means a certificate issued or applied for under 20-4-106. The term “teacher or specialist” refers to a person certified under 20-4-106.

(3) The certification requirement does not apply to a student teacher who is a student enrolled in an institution of higher learning approved by the board of regents of higher education for teacher training and who is jointly assigned by the institution of higher learning and the governing board of a district or a public institution to perform practice teaching in a nonsalaried status under the direction of a regularly employed and certificated teacher.

(4) A student teacher, while serving a nonsalaried internship under the supervision of a certificated teacher, must be accorded the same protection of the laws as that accorded a certificated teacher and shall, while acting as a student teacher, comply with all rules of the governing board of the district or public institution and the applicable provisions of 20-4-301 relating to the duties of teachers.

(a) making any statement of material fact in applying for a certificate that the applicant knows to be false;

(b) any reason that would have required or authorized the denial of the teacher, administrator, or specialist certificate to the person if it had been known at the time the certificate was issued;

(c) incompetency;

(d) gross neglect of duty;

(e) conviction of, entry of a guilty verdict, a plea of guilty, or a plea of no contest to a criminal offense involving moral turpitude in this state or any other state or country;

(h) denial, revocation, suspension, or surrender of a teacher, administrator, or specialist certificate in another state for any reason constituting grounds for similar action in this state.

(2) The board may initiate proceedings under this section if a request for the suspension or revocation of the teacher, administrator, or specialist certificate of any person is made to it by:

(a) the trustees of a district as to a teacher, administrator, or specialist employed by that school or school district within the 12 months immediately preceding receipt of the request by the board of public education; or

(b) the superintendent of public instruction.

(3) (a) If the employment relationship between a school district and a teacher, administrator, or specialist is terminated or not renewed or if a teacher, administrator, or specialist resigns to prevent termination or nonrenewal because the trustees have reason to believe that the teacher, administrator, or specialist engaged in conduct described in subsection (1)(e) or (1)(f), the trustees shall make a written report to the superintendent of public instruction describing the circumstances of the termination, nonrenewal, or resignation.

(b) The superintendent shall review the report and any supporting evidence included in the report and may conduct further investigation. Service of the notice must be accomplished by sending the notification by registered mail to the last address that the person has provided to the school district or the superintendent of public instruction.

(5) The board shall conduct an investigation of the reasons for the suspension or revocation charge and then, if the investigation warrants further action, conduct a hearing in the manner provided by board policies. At the hearing, the board shall afford the person an opportunity for defense against the charge.

(6) After a hearing, the board may place a written reprimand in the person's certification file or may suspend or revoke the person's teacher, administrator, or specialist certificate, except that in the case of a first violation under subsection (1)(g), the maximum penalty is a 2-year suspension of the person's certificate. The board may, upon a request by a school district, inform the school district that a person's certification file includes a letter of reprimand, but the board may not provide a copy of the letter without first determining that the public's right to know outweighs the person's right to privacy.

(7) Whenever the superintendent of public instruction denies the issuance or the renewal of a teacher, administrator, or specialist certificate, the applicant may appeal the denial to the board of public education. The board shall hear the appeal in the same manner provided in this section for suspension or revocation and in accordance with the policies of the board. The decision of the board is final.

20-4-121. Interstate agreement on qualification of educational personnel. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I. Purpose — Findings — Policy

(1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

(2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators are lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational personnel.

Article II. Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise, the following definitions apply:

(1) “Educational personnel” means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

(2) “Designated state official” means the educational official of a state selected by that state to negotiate and enter into, on behalf of the official’s state, contracts pursuant to this agreement.

(3) “Accept” or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

(4) “State” means a state, territory, or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

(5) “Originating state” means a state (and the subdivisions thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

(6) “Receiving state” means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III. Interstate Educational Personnel Contracts

(1) The designated state official of a party state may make one or more contracts on behalf of the designated state official’s state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the designated state official finds that there are programs of education, certification standards, or other acceptable qualifications that assure preparation or qualification of

educational personnel on a basis sufficiently comparable even though not identical to that prevailing in the designated state official's own state.

(2) Any such contract shall provide for:

(a) its duration;

(b) the criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state;

(c) such waivers, substitutions, and conditional acceptance as shall aid the practical effectuation of the contract without sacrifice of basic educational standards; and

(d) any other necessary matters.

(3) No contract made pursuant to this agreement shall be for a term longer than 5 years, but any such contract may be renewed for like or lesser periods.

(4) Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

(5) The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

(6) A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report not less than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV. Approved and Accepted Programs

(1) Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

(2) To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V. Interstate Cooperation

The party states agree that:

(1) they will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement; and

(2) they will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI. Agreement Evaluation

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII. Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII. Effect — Withdrawal

(1) This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

(2) Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

(3) No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX. Construction — Severability

This agreement shall be liberally construed so as to effectuate the purpose thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement is held to be contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

20-4-122. Designated official for purposes of interstate agreement. The designated state official for this state is the state superintendent of public instruction. (6) A quorum for a meeting is not less than four council members.

(7) Council members are entitled to travel expenses incurred for each day of attendance at council meetings or in the performance of any duty or service as a council member in accordance with 2-18-501 through 2-18-503.

History: En. Sec. 3, Ch. 465, L. 1987; amd. Sec. 290, Ch. 56, L. 2009.

20-4-133. Duties of the council. (1) The council shall study and make recommendations to the board of public education in the following areas:

- (b) administrator certification standards, including but not limited to precertification training and education requirements and certification renewal requirements and procedures;
- (c) specialist certification standards, including but not limited to precertification training and education requirements and certification renewal requirements and procedures;
- (d) feasibility of establishing standards of professional practices and ethical conduct;
- (e) the status and efficacy of approved teacher education programs in Montana; and
- (f) policies related to the denial, suspension, and revocation of teacher, administrator, and specialist certification and the appeals process. For the purpose of preparing recommendations in this area, the council is authorized to review the individual cases and files that have been submitted to the board of public education.

(2) The council shall submit a written report annually to the board of public education with its recommendations for the above areas. The council may submit recommendations to the board of public education at other times that the council considers appropriate.

(3) The board of public education shall:

- (a) at a regularly scheduled meeting, consider any recommendations and reports of the council; and
- (b) approve, disapprove, or modify each recommendation of the council by majority vote of the board.

20-4-134. Professional stipends for teachers certified by national board for professional teaching standards. (1) Pursuant to subsection (5), an annual stipend of up to \$1,500 must be provided to each teacher who holds a current certificate from the national board for professional teaching standards if the teacher is:

- (a) a full-time classroom teacher, librarian, or other full-time employee serving in an assignment covered by national board certification assessment;
- (b) certified to teach in Montana under the provisions of 20-4-103; and
- (c) a full-time employee of:
 - (i) a Montana public school district, as defined in 20-6-101;

- (b) a school impacted by a critical quality educator shortage pursuant to 20-4-503.

(3) A teacher becomes eligible for the stipend in subsection (1) in the school year beginning July 1 after the teacher obtains certification or recertification from the national board for professional teaching standards.

(4) By March 1, the superintendent of public instruction shall distribute stipend payments to any entity listed in subsections (1)(c)(i) through (1)(c)(iv) that employs an eligible teacher.

(5) The obligation for funding a portion of the professional stipends is an obligation of the state. This section may not be construed to require a school district to provide its matching portion of a stipend to a qualifying teacher without a payment from the state to the district. If the money appropriated for the stipends is not enough to provide the full amount for each eligible teacher, the superintendent of public instruction shall request the state budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of the stipends.

(6) (a) For a stipend under subsection (1), the state shall pay \$500 and another \$1 for each \$1 contributed by the teacher's school district, up to a maximum state contribution of \$1,000.

(b) For a stipend under subsection (2), the state shall pay \$1,000 and another \$2 for each \$1 contributed by the teacher's school district, up to a maximum state contribution of \$2,000.

Part 2

Teacher Employment — Tenure

20-4-201. Employment of teachers and specialists by contract. (1) The trustees of any district have the authority to employ any person as a teacher or specialist, but only a person who holds a valid Montana teacher or specialist certificate or for whom an emergency authorization of employment has been issued that qualifies the person to perform the duties prescribed by the trustees for the position of employment. Each teacher or specialist must be employed under written contract, and each contract of employment must be authorized by a proper resolution of the trustees and must be executed in duplicate by the presiding officer of the trustees and the clerk of the district in the name of the district and by the teacher or specialist.

(2) A contract of employment with a teacher or specialist may not require the teacher or specialist to teach more than 5 days a week or on any holiday recognized by 20-1-305. A deduction may not be made from a teacher's or specialist's salary by reason of the fact that a holiday falls on a school day. A teacher's or specialist's contract made in conflict with the 5-days-a-week provision of this section is not enforceable against the teacher or specialist.

(3) Whenever the boards of trustees of two or more school districts form a joint board of trustees under the provisions of 20-3-361 or when the boards of trustees of two or more school districts enter into an interlocal agreement pursuant to Title 7, chapter 11, part 1, to cooperatively share the employment of a teacher or specialist, the joint board of trustees or the boards of trustees of two or more school districts, pursuant to an interlocal agreement, may execute a contract of employment with a teacher or specialist who shall serve the districts. When a contract is executed, the districts shall prorate the compensation provided by the contract on the basis of the total number of instructional hours expended by the teacher or specialist within each district.

(4) Any contract executed under the provisions of this section may contain the oath or affirmation prescribed in 20-4-104, and the teacher or specialist shall subscribe to the oath or affirmation before an officer authorized by law to administer oaths.

20-4-202. Teacher and specialist certification registration. (1) Any person employed as a teacher, specialist, principal, or district superintendent shall register the person's certificate

or the district shall register its emergency authorization of employment for a teacher with the county superintendent of the county in which the person is employed in order to validate the person's employment status and permit payment under the employment contract. If a teacher or specialist does not register the person's certificate with the county superintendent within 60 calendar days after the person begins to perform services, the person is not eligible to receive any further compensation under the contract of employment until the person has registered the certificate. After the schools of a district have been open for 60 calendar days in the current school fiscal year, the county superintendent shall notify each district of the county of each teacher or specialist who has registered a current valid certificate, and the district may not pay any teacher who has not registered the person's certificate until the county superintendent does notify the district of the registration.

(2) A teacher or specialist employed by a joint district shall register the person's certificate with the county superintendent of the county in which the person is working. A teacher or specialist employed by a special education cooperative shall register the person's certificate with the county superintendent of the county in which the special education cooperative is based.

20-4-203. Teacher tenure. (1) Except as provided in 20-4-208, whenever a teacher has been elected by the offer and acceptance of a contract for the fourth consecutive year of employment by a district in a position requiring teacher certification except as a district superintendent or specialist, the teacher is considered to be reelected from year to year as a tenured teacher at the same salary and in the same or a comparable position of employment as that provided by the last-executed contract with the teacher unless the trustees resolve by majority vote of their membership to terminate the services of the teacher in accordance with the provisions of 20-4-204.

(2) The tenure of a teacher with a district may not be impaired upon termination of services of the teacher if the following conditions exist:

(a) the tenure teacher is terminated because the financial condition of the district requires a reduction in the number of teachers employed; and

(b) continued employment rights are provided for in a collectively bargained contract of the district.

(3) (a) For the purposes of subsection (1), "same salary" means the daily rate of pay, excluding benefits and excluding stipends for nonteaching duties, multiplied by the number of days worked under the last-executed contract with the teacher, up to the total number of days funded by the state in the per-ANB entitlements, as provided in 20-9-311, including pupil-instruction-related days. The calculation of daily rate of pay is determined by dividing the salary in the last-executed contract with the teacher for pupil-instruction and pupil-instruction-related days, excluding benefits and excluding stipends for nonteaching duties, by the total number of contracted days under the last-executed contract.

(b) The definition of same salary may be modified if negotiated and agreed to in a collective bargaining agreement executed by the district and the teacher's exclusive representative pursuant to Title 39, chapter 31, or in an individual contract between the district and a teacher in a district in which the teachers have no exclusive representative as provided in Title 39, chapter 31.

(4) Upon receiving tenure, the employment of a teacher may be terminated for good cause.

20-4-204. Termination of tenure teacher services. (1) (a) The following persons may make a recommendation in writing to the trustees of the district for termination of the services of a tenure teacher:

(i) a district superintendent;

(ii) in a district without a district superintendent, a principal;
(iii) in a district without a district superintendent or a principal, the county superintendent or a trustee of the district.

(b) The recommendation must state clearly and explicitly the specific reason or reasons leading to the recommendation for termination.

(2) Whenever the trustees of a district receive a recommendation for termination, the trustees shall notify the teacher of the recommendation for termination and of the teacher's right to a hearing on the recommendation. The notification must be delivered by certified letter or by personal notification for which a signed receipt is returned. The notification must include:

(a) the statement of the reason or reasons that led to the recommendation for termination; and

(b) a printed copy of this section for the teacher's information.

(3) The teacher may, in writing, waive the right to a hearing. Unless the teacher waives the right to a hearing, the trustees shall set a hearing date, giving consideration to the convenience of the teacher, not less than 10 days or more than 20 days from receipt of the notice of recommendation for termination.

(4) The trustees shall:

(a) conduct the hearing on the recommendation at a regularly scheduled or special meeting of the board of trustees and in accordance with 2-3-203; and

(b) resolve at the conclusion of the hearing to terminate the teacher or to reject the recommendation for termination.

(5) The tenure teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher's employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, who may appoint a qualified attorney as a legal adviser who shall assist the superintendent in preparing findings of fact and conclusions of law. If the employment of the teacher is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a tenure teacher shall appeal a decision to terminate an employment contract to an arbitrator agreed upon by the district and the teacher's exclusive representative. If the exclusive representative has declined to represent the teacher, the teacher or the district may request that the board of personnel appeals provide a list of arbitrators from which the teacher and the district shall, after the toss of a coin to determine the order of striking, alternately strike names from the list until one arbitrator is selected and appointed. By mutual agreement between the parties, the county superintendent of schools may be appointed as the arbitrator.

(6) In a termination involving a teacher whose employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31, either the teacher or the trustees may appeal to the district court of the county in which the teacher was employed. The proceedings must be commenced no later than 60 days after the date of the decision of the county superintendent.

(7) In a termination involving a teacher whose employment is covered by a collective bargaining agreement pursuant to Title 39, chapter 31, a request for arbitration must be made within 20 days from the date of termination unless an alternative time period is provided by the terms of a collective bargaining agreement.

(8) The decision of the arbitrator is final and binding. Each party shall pay one-half of an arbitrator's charges unless a different cost allocation arrangement is agreed upon by the parties.

(9) An arbitrator may order a school district to reinstate a teacher who has been terminated without good cause and to provide compensation, with interest, to a teacher for lost wages and fringe benefits from the date of termination to the date that the teacher is offered reinstatement to the same or a comparable position. Interim earnings, including the amount that the teacher could have earned with reasonable diligence, must be deducted from the amount awarded for lost wages. Before interim earnings are deducted from lost wages, reasonable amounts spent by a teacher in searching for, obtaining, or relocating to new employment must be deducted from interim earnings.

(10) Except as provided in this section, an arbitrator may not order a school district to provide compensation for punitive damages, pain and suffering, emotional distress, compensatory damages, attorney fees, or any other form of damages.

(11) Upon submission of the termination decision to an arbitrator, the teacher or the teacher's exclusive representative may not file an action against the district for reinstatement or compensation of lost wages and fringe benefits.

(12) As used in this section, the following definitions apply:

(a) "Fringe benefits" means the value of any employer-paid vacation leave, sick leave, medical insurance plan, disability or life insurance plan, or pension benefit in effect on the date of termination.

(b) "Lost wages" means the gross amount of wages that would have been reported to the internal revenue service on form W-2 and includes any compensation deferred at the option of the employee.

(2) A nontenure teacher who receives notification of reelection for the ensuing school fiscal year shall provide the trustees with written acceptance of the conditions of reelection within 20 days after the receipt of the notice of reelection. (3) (a) Whenever the trustees of any district receive a recommendation for dismissal, the trustees shall notify the teacher of the right to a hearing before the trustees either by certified letter or by personal notification for which a signed receipt must be returned. The teacher may

in writing waive the right to a hearing. Unless the teacher waives the right to a hearing, the teacher and trustees shall agree on a hearing date not less than 10 days or more than 20 days from the notice of intent to recommend dismissal.

(b) The trustees shall conduct a hearing on the recommendation and resolve at the conclusion of the hearing to dismiss the teacher or to reject the recommendation for dismissal.

(4) With the exception of a county superintendent, a person who recommends dismissal pursuant to subsection (2) may suspend the teacher from active performance of duty with pay pending the hearing date if the teacher's behavior or acts that led to the recommendation for dismissal are contrary to the welfare of the students or the effective operation of the school district.

(5) Any teacher who has been dismissed may in writing within 20 days appeal the dismissal under the guidelines set forth in 20-4-204. The teacher may appeal a decision to terminate an employment contract to the county superintendent if the teacher's employment is not covered by a collective bargaining agreement pursuant to Title 39, chapter 31. If the employment of the teacher is covered by a collective bargaining agreement, a teacher shall appeal a decision to terminate an employment contract to an arbitrator.

The salary for the new position must be the same as the salary that the teacher would have received if the teacher had been continuously employed in the new position rather than in the administrative position.

(2) If a board policy or a collective bargaining agreement provides seniority rights for teachers, a district that assigns a tenure teacher serving in an administrative position to a teaching position shall recognize for seniority purposes the tenure teacher's time of service in the administrative position.

(ii) teaching the pupils to avoid idleness, profanity, and falsehood;

(iii) instructing the pupils in the principles of free government and training them to comprehend the rights, responsibilities, and dignity of American citizenship.

(2) The trustees are authorized to withhold the salary warrant of any teacher who does not comply with the provisions of subsection (1)(a) or (1)(b) until the teacher does comply with the provisions.

20-4-302. Discipline and punishment of pupils — definition of corporal punishment — penalty — defense. (1) A teacher or principal has the authority to hold a pupil to a strict accountability for disorderly conduct in school, on the way to or from school, or during intermission or recess.

(2) For the purposes of this section, "corporal punishment" means knowingly and purposely inflicting physical pain on a pupil as a disciplinary measure.

(3) A person who is employed or engaged by a school district may not inflict or cause to be inflicted corporal punishment on a pupil.

(4) (a) A person who is employed or engaged by a school district may use physical restraint, defined as the placing of hands on a pupil in a manner that is reasonable and necessary to:

(i) quell a disturbance;

(ii) provide self-protection;

(iii) protect the pupil or others from physical injury;

(iv) obtain possession of a weapon or other dangerous object on the person of the pupil or within control of the pupil;

When either a district superintendent or a school principal is employed, only the superintendent or principal has the authority to suspend a pupil for good cause. Whenever a teacher suspends a pupil, the teacher shall notify the trustees and the county superintendent immediately of the action.

(6) A teacher has the duty to report the truancy or incorrigibility of a pupil to the district superintendent, the principal, the trustees, or the county superintendent, whichever is applicable.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" means a parent or guardian or the trustees of the district of residence.

(3) An out-of-district attendance agreement approved under this section requires that the parent or guardian initiate the request for an out-of-district attendance agreement and that the trustees of both the district of residence and the district of choice approve the agreement.

(4) If the trustees of the district of choice waive tuition, approval of the resident district trustees is not required.

(5) The trustees of a school district may approve or disapprove the out-of-district attendance agreement consistent with this part and the policy adopted by the local board of trustees for out-of-district attendance agreements.

(6) The approval of an out-of-district attendance agreement by the applicable approval agents or as the result of an appeal must authorize the child named in the agreement to enroll in and attend the school named in the agreement for the designated school year.

(7) The trustees of the district where the child wishes to attend have the discretion to approve any attendance agreement.

(8) This section does not preclude the trustees of a district from approving an attendance agreement for educational program offerings not provided by the resident district, such as the kindergarten or grades 7 and 8 programs, if the trustees of both districts agree to the terms and conditions for attendance and any tuition and transportation requirement. For purposes of this subsection, the trustees of the resident district shall initiate the out-of-district agreement.

(9) (a) A provision of this title may not be construed to deny a parent or guardian the right to send a child, at personal expense, to any school of a district other than the resident district when the trustees of the district of choice have approved an out-of-district attendance agreement and the parent or guardian has agreed to pay the tuition as prescribed by 20-5-323. However, under this subsection (9), the tuition rate must be reduced by the amount that the parent or guardian of the child paid in district property taxes during the immediately preceding school fiscal year for the benefit and support of the district in which the child will attend school.

(b) For the purposes of this section, "parent or guardian" includes an individual shareholder of a domestic corporation as defined in 35-1-113 whose shares are 95% held by related family members to the sixth degree of consanguinity or by marriage to the sixth degree of affinity.

(c) The tax amount to be credited to reduce any tuition charge to a parent or guardian under subsection (9)(a) is determined in the following manner:

(i) determine the percentage of the total shares of the corporation held by the shareholder parent or parents or guardian;

(ii) determine the portion of property taxes paid in the preceding school fiscal year by the corporation, parent, or guardian for the benefit and support of the district in which the child will attend school.

(d) The percentage of total shares as determined in subsection (9)(c)(i) is the percentage of taxes paid as determined in subsection (9)(c)(ii) that is to be credited to reduce the tuition charge.

(10) As used in 20-5-320 through 20-5-324, the term "guardian" means the guardian of a minor as provided in Title 72, chapter 5, part 2.

History: En. Sec. 1, Ch. 563, L. 1993; amd. Sec. 1, Ch. 464, L. 2001.

20-5-321. Attendance with mandatory approval — tuition and transportation.

(1) An out-of-district attendance agreement that allows a child to enroll in and attend a school in a Montana school district that is outside of the child's district of residence or in a public school district of a state or province that is adjacent to the county of the child's residence is mandatory whenever:

(a) the child resides closer to the school that the child wishes to attend and more than 3 miles from the school the child would attend in the resident district and the resident district does not provide transportation;

(b) (i) the child resides in a location where, because of geographic conditions between the child's home and the school that the child would attend within the district of residence, it is impractical to attend school in the district of residence, as determined by the county transportation committee based on the following criteria:

(A) the length of time that is in excess of the 1-hour limit for each bus trip for an elementary child as authorized under 20-10-121;

(B) whether distance traveled is greater than 40 miles one way from the child's home to school on a dirt road or greater than a total of 60 miles one way from the child's home to school in the district of residence over the shortest passable route; or

(C) whether the condition of the road or existence of a geographic barrier, such as a river or mountain pass, causes a hazard that prohibits safe travel between the home and school.

(ii) The decision of the county transportation committee is subject to appeal to the superintendent of public instruction, as provided in 20-3-107, but the decision must be considered as final for the purpose of the payment of tuition under 20-5-324(5)(a)(ii) until a decision is issued by the superintendent of public instruction. The superintendent of public instruction may review and rule upon a decision of the county transportation committee without an appeal being filed.

(c) the child is a member of a family that is required to send another child outside of the elementary district to attend high school and the child of elementary age may more conveniently attend an elementary school where the high school is located, provided that the child resides more than 3 miles from an elementary school in the resident district or that the parent is required to move to the elementary district where the high school is located to enroll another child in high school. A child enrolled in an elementary school pursuant to this subsection (1)(c) may continue to attend the elementary school after the other child has left the high school.

(d) the child is under the protective care of a state agency or has been adjudicated to be a youth in need of intervention or a delinquent youth, as defined in 41-5-103; or

(e) the child is required to attend school outside of the district of residence as the result of a placement in foster care or a group home licensed by the state.

(2) (a) Whenever a parent or guardian of a child, an agency of the state, or a court wishes to have a child attend a school under the provisions of this section, the parent or guardian, agency, or court shall complete an out-of-district attendance agreement in consultation with an appropriate official of the district that the child will attend.

(b) The attendance agreement must set forth the financial obligations, if any, for costs incurred for tuition and transportation as provided in 20-5-323 and Title 20, chapter 10.

(c) (i) The trustees of the district of choice may waive any or all of the tuition rate. The trustees of the district of choice may waive the tuition for all students whose tuition is required to be paid by one type of entity and may charge tuition for all students whose tuition is required to be paid by another type of entity. However, any waiver of tuition must be applied equally to all students whose tuition is paid by the same type of entity.

(ii) As used in this subsection (2)(c), "entity" means a parent, a guardian, the trustees of the district of residence, or a state agency.

(3) Except as provided in subsection (4), the trustees of the resident district and the trustees of the district of attendance shall approve the out-of-district attendance agreement. The trustees of the district of attendance shall:

(a) notify the county superintendent of schools of the county of the child's residence of the approval of the agreement within 10 days; and

(b) submit the agreement for a student attending under the provisions of subsection (1)(d) or (1)(e) to the superintendent of public instruction for approval for payment under 20-5-324.

(4) Unless the child is a child with a disability who resides in the district, the trustees of the district where the school to be attended is located may disapprove an out-of-district attendance agreement whenever they find that, because of insufficient room and overcrowding, the accreditation of the school would be adversely affected by the acceptance of the child.

20-5-322. Residency determination — notification — appeal for attendance agreement. (1) In considering an out-of-district attendance agreement, except as provided in 20-9-707, the trustees shall determine the child's district of residence on the basis of the provisions of 1-1-215.

(2) Within 10 days of the initial application for an agreement, the trustees of the district of choice shall notify the parent or guardian of the child and the trustees of the district of residence involved in the out-of-district attendance agreement of the anticipated date for approval or disapproval of the agreement.

(3) Within 10 days of approval or disapproval of an out-of-district attendance agreement, the trustees shall provide copies of the approved or disapproved attendance agreement to the parent or guardian and to the child's district of residence.

(4) Within 15 days of receipt of an approved out-of-district attendance agreement, the trustees of the district of residence shall approve or disapprove the agreement under the provisions of this part and forward the completed agreement to the county superintendent of schools of the county of residence, the trustees of the district of choice, and the parent or guardian.

(5) If an out-of-district attendance agreement is disapproved or no action is taken, the parent may appeal the disapproval or lack of action to the county superintendent and, subsequently, to the superintendent of public instruction under the provisions for the appeal of controversies in this title.

(6) For purposes of payment under 20-5-324(2), a nonresident student who becomes a resident by reaching 18 years of age during the school year may continue to have tuition paid on the student's behalf for the duration of the student's enrollment in the district for that school year.

History: En. Sec. 3, Ch. 563, L. 1993; amd. Sec. 1, Ch. 132, L. 2005; amd. Sec. 2, Ch. 215, L. 2005; amd. Sec. 22, Ch. 44, L. 2007.

20-5-323. Tuition and transportation rates. (1) Except as provided in subsections (2) through (5), whenever a child has approval to attend a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the rate of tuition charged for a Montana resident student may not exceed 20% of the per-ANB maximum rate established in 20-9-306 for the year of attendance.

(2) The tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils.

(3) The tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district, person, or entity responsible for the tuition payments shall approve an agreement with the district of attendance for the tuition cost;

(b) for a Montana resident student, 80% of the maximum per-ANB rate established in 20-9-306, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this section may not exceed \$2,500 per ANB.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that

amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

- (a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;
- (b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-314;
- (c) an order issued under Title 40, chapter 4, part 2; or
- (d) out-of-state placement by a state agency.
- (5) When a child is placed by a state agency in an out-of-state residential facility, the state agency making the placement is responsible for the education costs resulting from the placement.
- (6) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost for each student in the child's district of residence or 35 cents a mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year.

History: En. Sec. 4, Ch. 563, L. 1993; amd. Sec. 60, Ch. 633, L. 1993; amd. Sec. 2, Ch. 529, L. 1997; amd. Sec. 99(4), Ch. 51, L. 1999; amd. Sec. 1, Ch. 409, L. 2001; amd. Sec. 3, Ch. 464, L. 2001; amd. Sec. 1, Ch. 462, L. 2005; amd. Sec. 5, Ch. 4, Sp. L. December 2005.

20-5-324. Tuition report and payment provisions. (1) Following the close of each school fiscal year, the trustees of a district shall report to the superintendent of public instruction:

- (a) the name and district of residence of each child who attended a school of the district under a mandatory out-of-district attendance agreement approved under the provisions of 20-5-321(1)(d) or (1)(e) in the previous school year;

- (b) the number of days of enrollment for each child reported under the provisions of subsection (1)(a);

- (c) the annual tuition rate for each child's tuition payment, as determined under the provisions of 20-5-323, and the tuition cost for each child reported under the provisions of subsection (1)(a);

- (d) the names, districts of attendance, and amount of tuition paid by the district for resident students attending public schools out of state in the previous school year; and

- (e) the names, schools of attendance, and amount of tuition to be paid by the district for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools in the previous school year.

(2) Subject to the limitations of 20-5-323, the superintendent of public instruction shall:

- (a) pay the district of attendance the amount of the tuition obligation reported under subsection (1)(c), prorated for the actual days of enrollment;

- (b) determine the total per-ANB entitlement for which the district would have been eligible if the students reported in subsections (1)(d) and (1)(e) had been enrolled in the resident district in the prior year; and

- (c) reimburse the district of residence for the state portion of the per-ANB entitlement for each student, not to exceed the district's actual payment of tuition or fees for service for the student in the previous year.

(3) In order to be eligible to receive payment under subsection (2), the trustees of the district of attendance shall submit the report required by subsection (1) within the school fiscal year following the year of attendance.

(4) Notwithstanding the requirements of subsection (5)(a), tuition payment provisions for out-of-district placement of students with disabilities must be determined pursuant to Title 20, chapter 7, part 4.

(5) (a) (i) When a child has approval to attend a school outside the child's district of residence at the resident district's expense under the provisions of 20-5-320 or 20-5-321(1)(a) or (1)(b) or when a child has approval to attend a day-treatment program under an approved individualized education program at a private, nonsectarian school located in or outside of the child's district of residence, the district of residence shall finance the tuition amount from the levy authorized to support the district tuition fund and any transportation amount from the levy authorized to support the transportation fund.

(ii) By December 31 of the school fiscal year following the year of attendance, the district of residence shall pay at least one-half of any tuition and transportation obligation established under subsection (5)(a)(i) out of the money realized to date from the district tuition or transportation fund levy. The remaining tuition and transportation obligation must be paid by June 15 of the school fiscal year following the year of attendance.

(iii) In addition to use of a tuition levy to pay tuition for out-of-district attendance of a resident pupil, a school district may also include in its tuition levy an amount necessary to pay for the full costs of providing a free appropriate public education, as defined in 20-7-401, in the district to any child with a disability who lives in the district. The amount of the levy imposed for the costs associated with educating each child with a disability under this subsection (5)(a)(iii) is limited to the actual cost of service under the child's individualized education program minus:

- (A) the student's state special education payment;
- (B) the student's federal special education payment;
- (C) the student's per-ANB amount;
- (D) the prorated portion of the district's basic entitlement for each qualifying student; and
- (E) the prorated portion of the district's general fund payments in 20-9-327 through 20-9-330 for each qualifying student.

(b) When a child has approval to attend a school outside the child's district of residence because of a parent's or guardian's request under the provisions of 20-5-320 or 20-5-321(1)(c), the parent or guardian of the child shall finance the tuition and transportation amount.

(6) (a) Except as provided in subsections (6)(b) through (6)(d), the district shall credit tuition receipts to the district general fund and transportation receipts to the transportation fund.

(b) Any tuition receipts received under the provisions of 20-5-323(3) for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(c) Any tuition receipts received for the current school fiscal year for a pupil who is a child with a disability that exceed the tuition amount received for a pupil without disabilities may be deposited in the district miscellaneous programs fund and must be used for that year in the manner provided for in 20-9-507 to support the costs of the program for which the tuition was received.

(d) Any other tuition receipts received for the current school fiscal year that exceed the tuition receipts of the prior year may be deposited in the district miscellaneous programs fund and may be used for that year in the manner provided for in that fund. For the ensuing school fiscal year, the receipts must be credited to the district general fund budget.

(7) The reimbursements paid under subsection (2)(c) must be deposited into the district tuition fund and must be used by the district to pay obligations for resident students attending public schools out of state or for resident students attending day-treatment programs under approved individualized education programs at private, nonsectarian schools at district expense.

(8) The provisions of this section do not apply to out-of-state placements made by a state agency pursuant to 20-7-422.

(b) The opioid antagonist must be prescribed by a physician, advanced practice registered nurse, or physician assistant. The school must be designated as the patient, and each prescription for an opioid antagonist must be filled by a licensed pharmacy.

Part 5

Enrollment of Pupil by Caretaker Relative

20-5-501. Purpose — legislative intent — parental rights — definitions. (1) The legislature recognizes that the rights of parents to the custody and control of a child are based upon liberties secured by the United States and Montana constitutions and that a parent’s rights to that custody and control of a child are therefore normally supreme to the interests of other persons. The legislature also recognizes a growing phenomenon in which absent or otherwise unavailable parents have temporarily surrendered the custody and care of their children to a grandparent or other relative for lengthy periods of time. Regardless of the purpose of the absence, a child willfully surrendered to a relative for an extended time period still has the same needs as a child in the care of its parents. In this situation, a caretaker relative assumes responsibilities for the child but has no legal right of control over the child, a situation that interferes in the caretaker relative’s ability to perform routine functions of child rearing, including tending to the educational and educationally related medical needs of the child. It is therefore the purpose of the legislature in these instances to protect the rights of a child granted by Article II, section 15, of the Montana constitution by granting a caretaker relative limited authority for a child left in the relative’s care.

(2) It is the intent of the legislature that a caretaker relative given the responsibility of caring for a child with little or no warning and without any other provision having been made

for the child's care, such as the appointment of a guardian or the provision of a power of attorney, be granted authority to enroll the child in school, discuss with the school district the child's educational progress, and consent to an educational service and to medical care for the child related to an educational service without superseding any parental rights regarding the child.

(3) This part is not intended to affect the rights and responsibilities of a parent, legal guardian, or other custodian regarding the child, does not grant legal custody of the child to the caretaker relative, and does not grant authority to the caretaker relative to consent to the marriage or adoption of the child or to receive notice of a medical procedure, including abortion, not consented to by the relative, if notice is required by law, for the child except as expressly provided in this section.

(4) For the purposes of this part, the following definitions apply:

(a) "Caretaker relative" or "relative" means an individual related by blood, marriage, or adoption by another individual to the child whose care is undertaken by the relative, but who is not a parent, foster parent, stepparent, or legal guardian of the child.

(b) "Caretaker relative educational authorization affidavit" or "affidavit" means an affidavit completed in compliance with 20-5-503.

(c) "Health care provider" means a person who provides medical care.

(d) "Medical care" means care by a health care provider, for which parental consent is normally required, for the prevention, diagnosis, or treatment of a mental, physical, or dental injury or disease.

(e) "Parent" means a biological parent, adoptive parent, or other legal guardian of the child whose parental rights have not been terminated.

History: En. Sec. 1, Ch. 442, L. 2007.

20-5-502. Enrollment by caretaker relative — residency — affidavit. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may, in accordance with this section, enroll the child in school using the rules of residence provided in 1-1-215 if:

(a) in leaving the child with the caretaker relative, the parent expressed no definite time period in which the parent would return for the child;

(b) the child is residing with the caretaker relative on a full-time basis;

(c) the caretaker relative is unable to contact either of the parents after the parents voluntarily leave the child with the caretaker relative or a parent whom the caretaker relative is able to contact is unable or unwilling to regain custody of the child;

(d) no adequate provision, such as the appointment of a guardian ad litem or execution of a power of attorney, has otherwise been made for the educational needs of the child; and

(e) a caretaker relative educational authorization affidavit is completed in compliance with 20-5-503.

(2) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child may enroll the child in school unless the child's residency with the caretaker relative is primarily for the purpose of:

(a) attending a particular school; or

(b) participating in athletics at a particular school.

(3) If the child was subject to formal disciplinary action, including suspension or expulsion, at the child's previous school, the school district in which the caretaker relative seeks to enroll the child may either implement the previous school district's disciplinary action without further due process or hold a hearing and determine whether the student's conduct in the previous school district merits denial of enrollment. If the district decides to enroll the child, then the school district may require the child to comply with a behavior contract as a condition of enrollment.

(4) The school district may require additional reasonable evidence that the caretaker relative lives at the address provided in the affidavit.

History: En. Sec. 2, Ch. 442, L. 2007; amd. Sec. 3, Ch. 211, L. 2011.

20-5-503. Caretaker relative educational authorization affidavit — use — immunity — format. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child has the same authority as a custodial parent of the child to discuss with an educator the educational progress of the child, consent to an educational

service, and consent to medical care related to an educational service for the child for which parental consent is usually required if a caretaker relative educational authorization affidavit is completed in compliance with this section.

(2) An affidavit is effective only if it is signed by the caretaker relative, under oath, before a notary public. A clear photographic copy of an affidavit completed in compliance with this section is sufficient in any instance in which an original is required by a school official or health care provider.

(3) Unless parental rights have been judicially terminated or unless the ability to give legal consent for the child to receive an educational service and any medical care related to the educational service for which parental consent is usually required has been granted to the caretaker relative pursuant to 40-4-211 and 40-4-228, a decision by a parent of the child communicated to a school official, a health care provider, or both, regarding the child supersedes a conflicting decision by a caretaker relative made pursuant to an affidavit completed in compliance with this section. However, a decision by a parent does not supersede a decision by a caretaker relative pursuant to an affidavit completed in compliance with this section if the decision by the parent endangers the life of the child. A school official or health care provider may require reasonable proof of authenticity of a decision by a parent intended to supersede a decision by a caretaker relative.

(4) (a) A public or private entity or individual who acts in good faith reliance on a caretaker relative educational authorization affidavit completed in compliance with this section and who has no actual knowledge of facts contrary to those indicated in the affidavit is not subject to civil liability or criminal prosecution or to a professional disciplinary procedure for an action that would have been proper if the facts had been as the entity or individual believed them to be.

(b) This subsection (4) applies even if an educational service or educationally related medical care, or both, are provided to a child against the wishes of a parent of that child if the person rendering the service does not have actual knowledge of the parent's wishes.

(5) A person who relies on an affidavit completed in compliance with this section has no obligation to make further inquiry or investigation.

(6) An affidavit completed in compliance with this section is effective for the earlier of:

(a) the end of the first school year after delivery of the affidavit to a school district;

(b) until it has been revoked by the caretaker relative; or

(c) until the child no longer resides with the caretaker relative.

(7) If the child ceases to live with the caretaker relative or the caretaker relative revokes the affidavit, the caretaker relative shall provide written notice of that fact to all persons to whom the caretaker relative has given the affidavit or to whom the caretaker relative has caused the affidavit to be given.

(8) This section does not relieve a person from a violation of other law, and this section does not affect the rights of a child's parent except as provided in this section.

(9) A caretaker relative educational authorization affidavit is invalid unless it is written in substantially the following form and contains the warning provided for in paragraph 5 of the format below:

Part 1 School Districts — General Provisions

20-6-101. Definition of elementary and high school districts. (1) As used in this title, except as defined in 20-9-402 for bonding purposes or unless the context clearly indicates otherwise, the term “district” means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one or more elementary districts.

(2) (a) An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade 8 and for preschool programs and kindergartens. An elementary district may be inactive if the district attaches to a high school district under the provisions of 20-6-701 to form a K-12 school district.

(b) A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade 8, including postsecondary programs, except those programs administered by community college districts or the Montana university system. A high school district with an attached elementary district may provide the educational services for an elementary district through the procedures established in 20-6-701 through 20-6-703.

(3) An elementary district is known as “District No....., County” and a high school district, except a high school district where a county high school is operated, is known as “High School District No....., County”. A district is a body corporate and, as a body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use, and dispose of real or personal property for school purposes, within the limitations prescribed by law. Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

(4) As used in this title, unless the context clearly indicates otherwise, a county high school is a high school district that has not unified with an elementary district under 20-6-312.

(1) The board of county commissioners shall maintain a permanent record that plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in the superintendent’s office and is responsible for keeping the record current.

(2) If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, the superintendent shall change, harmonize, and describe the boundaries accurately and shall make a report of the boundary adjustments to the board of county commissioners. When the board of county commissioners approves a district boundary report submitted by the county superintendent, the boundaries are the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

20-6-104. Moratorium on creation of new district — exceptions. (1) Except as provided in subsections (2) and (3), a school district may not initiate the creation of a new elementary district or a new high school district.

(2) Pursuant to the provisions of 20-6-326, the trustees or the electors of an existing elementary district may initiate the creation of a new high school district solely for the purpose of expanding into a K-12 district.

(3) The moratorium in subsection (1) does not apply to a district that results from the procedure for the dissolution of a K-12 school district pursuant to 20-6-704.

20-6-105. Transfer of territory from one district to another — hearing on effects of proposed transfer — burden of proof — standard of proof — appeal to district court. (1) (a) Except as provided in 20-6-214, 20-6-215, 20-6-308, 20-6-322, and subsections (1)(b) and (1)(c) of this section, a petition to transfer territory from one school district to another may be presented to the county superintendent if:

(i) the petition is signed by 60% of the registered electors qualified to vote at general elections in the territory proposed for transfer;

(ii) the territory to be transferred is contiguous to the district to which it is to be attached, includes taxable property, and has school-age children living in it;

(iii) the territory to be transferred is not located within 3 miles, over the shortest practicable route, of an operating school in the district from which it is to be transferred; and

(iv) the board of trustees of the school district that would receive the territory has approved the proposed transfer by a resolution adopted by a majority of the members of the board of trustees at a meeting for which proper notice was given.

(b) A petition to transfer territory to or from a K-12 district may not be presented to a county superintendent unless both school boards and the county superintendents have agreed in writing.

(c) Registered voters within the exterior boundaries of school districts that consolidated during the years 2004 to 2008 may petition for changes in their boundaries under the law in effect on July 1, 2005.

(2) Once a petition to transfer territory has been filed, an additional petition to transfer that territory may not be filed for 4 years unless the county superintendents have agreed in writing.

(3) The petition for a transfer of territory must be delivered to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the district to which the territory is to be transferred;

(b) state the reasons why the transfer is requested; and

(c) state the number of school-age children residing in the territory.

(4) If both the trustees of the receiving and transferring school districts have approved the proposed territory transfer in writing, the county superintendent shall grant the transfer.

(5) For any petition that meets the criteria specified in subsection (1) and contains the information required by subsection (3) but that has not been approved in writing by the board of trustees of the school district that would transfer the territory, the county superintendent shall:

(a) not more than 40 days after receipt of the petition, set a place, date, and time for a hearing to consider the petition; and

(b) give notice of the place, date, and time of the hearing. The notice must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for notices for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(6) The county superintendent shall conduct a hearing as scheduled, and any resident, taxpayer, or representative of the receiving or transferring district must, upon request, be heard. At the hearing, the petitioners have the initial burden of presenting evidence on the proposed transfer's effect on:

(a) the educational opportunity for the students in the receiving and transferring districts, including but not limited to:

(i) class size;

(ii) ability to maintain demographic diversity;

(iii) local control;

(iv) parental involvement; and

(v) the capability of the receiving district to provide educational services;

(b) student transportation, including but not limited to:

(i) safety;

(ii) cost; and

(iii) travel time of students;

(c) the economic viability of the proposed new districts, including but not limited to:

(i) the existence of a significant burden on the taxpayers of the district from which the territory will be transferred;

(ii) the significance of any loss in state funding for the students in both the receiving and transferring districts;

(iii) the viability of the future bonding capacity of the receiving and transferring districts, including but not limited to the ability of the receiving district and the transferring district to meet minimum bonding requirements;

(iv) the ability of the receiving district and the transferring district to maintain sufficient reserves; and

(v) the cumulative effect of other transfers of territory out of the district in the previous 8 years on the taxable value of the district from which the territory is to be transferred. In cases

where the cumulative effect of other transfers of territory out of the district in the previous 8 years is equal to or greater than 25% of the district's taxable value, the following additional factors must be considered and weighed in the decision:

(A) the district's rate of passage of discretionary levies placed before the voters over the previous 8 years;

(B) the district's reduction or elimination of instructional staff or programs over the previous 8 years; and

(C) any increase in district taxes over the previous 8 years and the likely increase in district taxes if the transfer is granted.

(7) After receiving evidence from both the proponents and opponents of the proposed territory transfer on the effects described in subsection (6), the county superintendent shall, within 30 days after the hearing, issue findings of fact, conclusions of law, and an order.

(8) If, based on a preponderance of the evidence, the county superintendent determines that the evidence on the effects described in subsection (6) supports a conclusion that a transfer of the territory is in the best and collective interest of students in the receiving and transferring districts and does not negatively impact the ability of the districts to serve those students, the county superintendent shall grant the transfer. If the county superintendent determines that, based on a preponderance of the evidence presented at the hearing, a transfer of the territory is not in the best and collective interest of students in the receiving and transferring districts and will negatively impact the ability of the districts to serve those students, the county superintendent shall deny the territory transfer.

(9) The decision of the county superintendent is final 30 days after the date of the decision unless it is appealed to the district court by a resident, taxpayer, or representative of either district affected by the petitioned territory transfer. The county superintendent's decision must be upheld unless the court finds that the county superintendent's decision constituted an abuse of discretion under this section.

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. If the number of county superintendents involved is an even number, the county superintendents shall jointly appoint an additional county superintendent from an unaffected county to join them in conducting the hearing required in subsection (6) and in issuing the decision required in subsection (8). The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

20-6-110. Student construction project — disclosure — immunity. (1) The entity that transfers title to a construction project constructed as part of a public education program shall disclose the fact that the construction project was constructed as part of a public education program on at least one document, form, or application executed prior to or contemporaneously with an offer for the purchase, sale, rental, or lease of the construction project. The disclosure provided for in this subsection must be in the following form or in a substantially similar form: "Student Construction Project: This property was constructed as part of a public education program and was in whole or in part constructed by students. The school district or public postsecondary institution responsible for the education program is not liable for civil damages resulting from construction projects constructed as part of a public education program except in cases of gross negligence or willful misconduct."

(2) Except in cases of gross negligence or willful misconduct, a school district or public postsecondary institution is not liable for civil damages resulting from a construction project

constructed as part of a public education program if the disclosure required in subsection (1) is made.

(3) As used in this section, “public education program” means a program operated by a public school or a public postsecondary institution.

Part 2 Elementary School Districts

20-6-201. Elementary district classification. (1) Each elementary district shall have a classification of:

- (a) first class, if it has a population of 6,500 or more;
- (b) second class, if it has a population of 1,000 or more but less than 6,500; or
- (c) third class, if it has a population of less than 1,000.

(2) The population of an elementary district must be determined by the county superintendent on the basis of the best available population information for the district.

(3) The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare the district’s classification to be changed in accordance with the determined population, except that the classification of an elementary district may not be changed more than once every 5 years.

(4) Whenever the county superintendent changes an elementary district’s classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions must be filled in the manner provided for in 20-3-302.

the district to a contiguous district or districts of the county or, with the consent of the county superintendent of an adjacent county, to a contiguous district or districts in the adjacent county when:

(a) a school has not been operated by a district for at least the minimum aggregate hours under the provisions of 20-1-301 for each of 3 consecutive school fiscal years or a lesser number of aggregate hours as approved by the board of trustees under the provisions of 20-9-806; or

(b) there is an insufficient number of residents who are qualified electors of the district that can serve as the trustees and clerk of the district so that a legal board of trustees can be organized.

(2) The county superintendent shall notify the elementary district that has not operated a school for 2 consecutive years before the first day of the third year that the failure to operate a school for the minimum aggregate hours or a lesser number of aggregate hours than approved by the board of trustees under the provisions of 20-9-806 during the ensuing school fiscal year constitutes grounds for abandonment of the district at the conclusion of the succeeding school fiscal year. Failure by the county superintendent to provide the notification does not constitute a waiver of the abandonment requirement prescribed in subsection (1)(a).

(3) Any abandonment under subsection (1)(a) becomes effective on July 1. Any abandonment of an elementary district under subsection (1)(b) becomes effective immediately on the date of the abandonment order.

Part 3 High School Districts

20-6-301. High school district classification. The classification of a high school district must be the same as the classification of the elementary district (20-6-201) where the high school building is located. If there is more than one elementary district in which operating high school buildings are located, the classification of the high school district must be the same as the classification of the elementary district described in 20-6-201 in which the operating high school building that was first constructed is located. Whenever the classification of such elementary district is changed, the classification of a high school district must be changed accordingly and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in 20-3-354 for the determination of the number of additional trustee positions required for a high school district. An increased number of trustee positions must be filled by the appointment of the county superintendent, and those positions are subject to election at the next regular trustee election. When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances may not be filled until the number of trustee positions has been reduced to the number required by law.

20-6-312. County high school unification. (1) Any county high school may be unified with the elementary district where the county high school building is located to establish a unified school system under a unified board of trustees. The territory of an existing joint high school district must remain a part of the joint high school district.

(2) A proposition to unify a county high school with the elementary district where the county high school building is located must be introduced whenever:

(a) the trustees of the county high school and the trustees of the elementary district individually pass resolutions requesting the county superintendent to order an election to consider a unification proposition; or

(b) not less than 20% of the electors of the high school district where the county high school is located who are qualified to vote under the provisions of 20-20-301 petition the county superintendent to order an election to consider a unification proposition.

(3) When the county superintendent has received the trustees' resolutions or a valid petition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and under the provisions of 20-20-201, order the county high school to call an election to consider a unification proposition. The trustees of the county high school shall call and conduct an election in the manner prescribed in this title for school elections. An elector who may vote on the unification proposition must be qualified to vote under the provisions of 20-20-301. The ballot for a county high school unification proposition must be substantially in the following form:

“OFFICIAL BALLOT

COUNTY HIGH SCHOOL UNIFICATION ELECTION

Shall.... County High School be unified with District No....., County to establish a unified school system under a unified board of trustees?

☐ FOR the unification of the county high school.

☐ AGAINST the unification of the county high school.”

(4) When the county superintendent receives the election certificate from the trustees of the county high school, the county superintendent shall issue an order declaring the unification of the county high school with the elementary district identified on the ballot as of the next July 1, if a majority of those electors voting at the election have voted for the unification proposition.

(5) If a majority of those electors voting at the election have voted against the unification proposition, the county superintendent shall order the disapproval of the unification proposition.

20-6-313. Transactions after approved county high school unification.

(1) Whenever a county high school is unified with the elementary district where the county high school building is located, the following transactions must be completed on or before the July 1 when the unification becomes effective:

(a) The county high school trustees, who do not have the capacity to govern the high school district upon unification, shall surrender all minutes, documents, and other records of the county high school to the trustees of the high school district.

(b) The county superintendent shall order the establishment of additional high school trustee nominating areas in the manner prescribed in 20-3-352 and 20-3-353, if requested to do so by a majority of the outlying elementary districts located in the high school district. When the county superintendent establishes the areas, the county superintendent shall appoint additional high school district trustees from each area, who shall hold office until a successor is elected at the next regular school election and qualified.

(c) The county treasurer, after allowing for any outstanding or registered warrants, shall transfer all end-of-the-year fund cash balances of the county high school to similar funds established for the high school district. All previous years' taxes levied and collected for the county high school shall be credited to the appropriate fund of the high school district.

(2) All county high school bonds outstanding at the time of unification shall remain the obligation of the county or that portion of the county against which the bonds were originally issued. The high school district is responsible for the maintenance of the debt service fund for the bonds. It is the duty of the board of county commissioners and the trustees of the high school district to perform the duties prescribed in the school budgeting and bond redemption provisions of this title for the redemption and interest payments of the county high school bonds in the same manner and by the same means as though the county high school had not been unified.

20-6-326. Procedure for expansion of elementary school district into K-12 school district — trustee resolution. (1) An existing elementary district that is not part of a unified school system or governed by a joint board with a high school district may expand into a K-12 district under the procedures outlined in this section only if the elementary district's ANB, as calculated under the provisions of 20-9-311, is at least 1,000.

(2) The expansion to a K-12 district may be requested by the trustees of an existing elementary district through passage of a resolution that includes the information outlined in 20-6-105(3) and requests the county superintendent to order an election to allow the electors of the elementary district to consider the proposition of expanding the elementary school district into a K-12 district. The trustees of an existing elementary district with an ANB of at least 1,000 may not pass a resolution for expansion more than one time within a 5-year period.

(3) (a) If the proposition for the expansion is approved by the electors of the elementary district and the trustees issue a certificate of election as provided in 20-20-416, for a period of 2 years from the date of the certification of the election the elementary trustees have the authority to propose to the electors of the elementary district:

(i) a transition costs levy pursuant to 20-9-502; and

(ii) a general obligation bond pursuant to Title 20, chapter 9, part 4, for the purpose of building, altering, repairing, buying, furnishing, equipping, purchasing lands for, or obtaining a water supply for a school to accommodate high school students.

(b) The bond limitations pursuant to 20-9-406 imposed on a district proposing a bond under subsection (3)(a) must be calculated on the limits for a K-12 district with the high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(c) A bond approved under subsection (3)(a) becomes a bond of, and may not be issued until the creation of, the K-12 district formed pursuant to subsection (4).

(d) A district that issues a bond under this subsection (3) is eligible for facility reimbursements and advances pursuant to 20-9-366 through 20-9-371 that, until the new high school has enrolled students in all grades and has established an actual ANB for budgeting purposes, must be based on an estimated high school ANB calculated by dividing the ANB of the elementary district by 9 and multiplying the result by 4.

(e) Until the county superintendent orders the creation of a new high school district and attachment of the expanding elementary district to form a new K-12 district pursuant to subsection (4), the existing high school district remains intact for all purposes.

(4) If elementary electors approve a bond pursuant to subsection (3), on July 1 following the approval of the bond the county superintendent shall order the creation of a new high school district with identical boundaries to the expanding elementary district and the immediate attachment of the expanding elementary district to form a K-12 district. The county superintendent shall send a copy of the order to the board of county commissioners and to the trustees of the districts affected by the creation of the district. The trustees of the expanding elementary district must be designated as the trustees of the new K-12 district.

(5) Prior to the first school fiscal year in which the K-12 district will enroll students in a high school grade, the K-12 trustees shall prepare operating budgets for the new high school according to the school budgeting provisions of this title, except that:

(a) the ANB for the high school program of the K-12 district must be estimated by the trustees and may not exceed the number resulting from dividing the ANB of the elementary program by 9 and multiplying the result by the number of grades in which the high school will enroll students;

(b) the number of quality educators for the high school program must be estimated by the trustees and may not exceed the number resulting from dividing the ANB estimated under subsection (5)(a) by 10;

(c) the taxable value for budgeting purposes of both the elementary and high school programs of the K-12 district must be based on the taxable value as most recently determined by the department of revenue;

(d) the general fund budget adopted by the trustees must be based on only the basic entitlement, the quality educator payment, and the budget components derived from ANB counts; and

(e) the district's BASE aid for the upcoming year must be based on the general fund budget adopted by the trustees for the upcoming school year.

(6) Until the first school year in which the K-12 school district enrolls high school students in all grades and for a period of time not to exceed 6 years following the creation of the K-12 district:

(a) the high school district shall provide high school instruction to high school students of the K-12 district in any grades in which the K-12 district is not enrolling students;

(b) the K-12 district shall be responsible for providing transportation for its students enrolled in the high school district pursuant to subsection (6)(a), may establish a transportation budget for this purpose, and may receive state and county reimbursements under Title 20, chapter 10; and

(c) the K-12 district shall pay the high school district 20% of the per-ANB maximum rate established in 20-9-306 for each of its students enrolled in the high school district with one-half of the amount due by December 31 of the year following the year of attendance and the remainder due no later than June 15 of the year following the year of attendance. The K-12 trustees shall establish a tuition fund and levy to fund these payments.

(7) (a) Bonded indebtedness of the high school district that is outstanding as of the date of creation of the K-12 district must remain secured by and be the indebtedness of the original territory against which the bonds of the high school district were issued and must be paid by tax levies against the original territory.

(b) Bonded indebtedness of the high school district that is issued by the high school district following the creation of the K-12 district is secured by the territory of the high school district as of the date of issuance of the high school district bonds and must be paid by tax levies against the territory of the high school district. However, if bonds of the high school district were approved at a bond election conducted before the creation of the K-12 district, all bonds of the high school district issued by the high school district under the bond election authority must remain secured by and be the indebtedness of the territory of the high school district as of the date the bond authority was approved by voters and must be paid by tax levies against that territory.

(c) Bonded indebtedness of the K-12 district is secured by the territory of the K-12 district as of the date of issuance of the K-12 district bonds and must be paid by tax levies against the territory of the K-12 district.

(d) Bonded indebtedness of the elementary district that is outstanding as of the date of creation of the K-12 district must become upon the date of creation of the K-12 district the bonded indebtedness of the K-12 district and must be secured by the territory of the K-12 district and paid by tax levies against the territory of the K-12 district. The debt service on the bonds must be allocated to the elementary program of the K-12 district.

(e) Bonded indebtedness of the high school district or the K-12 district that is subsequently affected by a later reorganization of the high school district or the K-12 district is governed by the provisions of Title 20, chapter 6, part 4.

(8) When a K-8 district expands to a K-12 district as provided for in this section, a principal, teacher, or other certified employee of the original high school district who has a right of tenure under Montana law must be given preference in hiring for a vacant position in the new K-12 district for which the employee is qualified with the required certification endorsements.

20-6-410. Tenure protected — hiring preference for employees. (1) Whenever two or more school districts consolidate or join through annexation to organize into a single district in the manner provided for in Title 20, chapter 6, a principal, teacher, or other certified employee of the school districts who has a right of tenure under Montana law must be given absolute preference in hiring for the first school fiscal year for any vacant position with the consolidated or enlarged district for which the employee is qualified with the required certification endorsements. 20-6-411. Bonded indebtedness to remain with original territory except when assumed by election. Whenever district boundaries are changed in any manner prescribed in this title, the existing bonded indebtedness against any district or territory affected by a change of boundaries remains the indebtedness of the original territory against which the bonds were issued and must be paid by levies on the original territory, except when districts are consolidated with the mutual assumption of bonded indebtedness or when a district is annexed with a joint assumption of the annexing district's bonded indebtedness. Whenever a district ceases to exist in any manner prescribed in this title, except when districts are consolidated, the cash on hand to the credit of the funds of the district and the debts of the former district must be allocated in the following manner:

(1) Any cash to the credit of the district must be used to pay any debts of the district, including bonded indebtedness, except that any cash available in the debt service fund must be used first to pay bond interest and all outstanding bonds.

(2) If any cash remains to the credit of the district after paying its debts, the cash must be transferred by the county treasurer to the credit of the district or districts assuming its territory. When the territory is assumed by more than one district, the remaining cash must be prorated between the districts on the basis of the taxable value of the territory assumed by each district as determined by the county superintendent.

(3) If any tuition debt remains as an obligation of the district, the tuition debt is the obligation of the taxable property of the discontinued district, except when the tuition debt has been assumed by the consolidated or annexing district. The tuition debt must be financed by a mill levy on the property of the discontinued district and paid from these proceeds by the county superintendent.

20-6-422. District annexation. (1) As used in this section, the following definitions apply:

(a) “Annexing district” means the district to which another district is being attached through an annexation procedure.

(b) “District to be annexed” means the district that is being attached to another district through an annexation procedure.

(2) A district may be annexed to a contiguous district when one of the conditions of 20-6-421 is met in accordance with the following procedure:

(a) An annexation proposition may be introduced in the district to be annexed by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider an annexation proposition for their district; or

(ii) not less than 20% of the electors of the district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider an annexation proposition for their district.

(b) The resolution or petition must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district.

(3) Before ordering an election on the proposition, the county superintendent of the county where the district to be annexed is located must first receive from the trustees of the annexing district a resolution giving the county superintendent the authority to annex the district. The resolution must state whether the annexation is to be made with or without the joint assumption of bonded indebtedness of the annexing district by the district to be annexed and the annexing district. The resolution from the annexing district and the resolution or petition from the district to be annexed must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the annexation proposition may not be considered further.

(4) When the county superintendent of the county where the district to be annexed is located has received the resolution authorizing the annexation from the annexing district and the resolution or valid petition from the district to be annexed, the county superintendent shall, within 10 days and as provided by 20-20-201, order the trustees of the district to be annexed to call an annexation election.

(5) The district to be annexed shall call and conduct an election in the manner prescribed in this title for school elections and subject to subsections (6) and (7). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(6) (a) If the district to be annexed is to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, “FOR annexation with assumption of bonded indebtedness” and “AGAINST annexation with assumption of bonded indebtedness”.

(b) When the trustees in the district conducting the election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes “FOR” and “AGAINST” the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(7) If the district to be annexed is not to jointly assume the bonded indebtedness of the annexing district, the ballots must read, after stating the annexation proposition, "FOR annexation without assumption of bonded indebtedness" and "AGAINST annexation without assumption of bonded indebtedness". The annexation proposition is approved by a district if a majority of those voting in a district approve the proposition.

(8) After the county superintendent of the county where the district to be annexed is located has received the election certification provided for in 20-20-416 from the trustees of the district conducting the annexation election and if the annexation proposition has been approved by the election, the county superintendent shall order the annexation of the territory of the district voting on the proposition to the district that has authorized the annexation to its territory effective July 1. The order must be issued within 10 days after the receipt of the election certificate. For annexation with joint assumption of bonded indebtedness, the order must specify that there will be joint assumption of the bonded indebtedness of the annexing district by the owners of all taxable real and personal property in the territory of the district to be annexed. The county superintendent of the county where the district to be annexed is located shall send a copy of the order to the board of county commissioners of each county involved in the annexation order and to the trustees of the districts involved in the annexation order.

(9) If the annexation proposition is disapproved in the district to be annexed, the annexation proposition fails and the county superintendent of the county where the district to be annexed is located shall notify each district of the disapproval of the annexation proposition.

History: En. Sec. 2, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005; amd. Sec. 4, Ch. 60, L. 2009.

20-6-423. District consolidation. (1) Any two or more contiguous elementary school districts may consolidate to organize an elementary district. Any two or more contiguous high school districts may be consolidated to organize a high school district. Any two or more contiguous K-12 school districts may be consolidated to organize a K-12 school district. The consolidation must be conducted as provided in this section.

(2) (a) A consolidation proposition may be introduced, individually, in each of the districts by either of the two following methods:

(i) the trustees may pass a resolution requesting the county superintendent of the county where the district is located to order an election to consider a consolidation proposition involving their district; or

(ii) not less than 20% of the electors of an individual district who are qualified to vote under the provisions of 20-20-301 may petition the county superintendent of the county where the district is located requesting an election to consider a consolidation proposition involving their district.

(b) The resolution or petition must state whether the consolidation is to be made with or without the joint assumption of the bonded indebtedness of each district by all districts included in the consolidation. The resolution or petition from each district must agree on whether or not there will be joint assumption of bonded indebtedness. Without agreement, the consolidation proposition may not be considered further.

(3) When a county superintendent has received a resolution or a valid petition from each of the districts included in the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the last resolution or petition and as provided by 20-20-201, order the trustees of each district included in the consolidation proposition to call a consolidation election to be held no later than December 31 preceding the school year in which the consolidation is to become effective. If the districts involved in the consolidation proposition are located in more than one county, the county superintendents in both counties shall jointly order the district to call a consolidation election.

(4) Each district, individually, shall call and conduct an election in the manner prescribed in this title for school elections and subject to additional requirements of subsections (5) and (6). Any elector qualified to vote under the provisions of 20-20-301 may vote.

(5) (a) If the districts to be consolidated are to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation

proposition, “FOR consolidation with assumption of bonded indebtedness” and “AGAINST consolidation with assumption of bonded indebtedness”.

(b) When the trustees in each district conducting an election canvass the vote under the provisions of 20-20-415, they shall determine the number of votes “FOR” and “AGAINST” the proposition.

(c) The proposition is approved in the district if a majority of those voting approve the proposition.

(6) If the districts to be consolidated are not to jointly assume the bonded indebtedness of each district involved in the consolidation, the ballots must read, after stating the consolidation proposition, “FOR consolidation without assumption of bonded indebtedness” and “AGAINST consolidation without assumption of bonded indebtedness”. The consolidation proposition is approved by a district if a majority of those voting in a district approve the proposition. Otherwise it is disapproved.

(7) (a) After the county superintendent of each county where a district involved in the consolidation proposition is located has received the election certification provided for in 20-20-416 from the trustees of each district included in a consolidation proposition, the appropriate county superintendent shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, each county superintendent shall, within 10 days after the receipt of the last election certificate, order the consolidation of the districts effective July 1 of the ensuing school fiscal year. The order must:

(i) for consolidation with the joint assumption of bonded indebtedness, specify that there will be joint assumption of bonded indebtedness between the owners of all taxable real and personal property in each district forming the consolidated district;

(ii) specify the number of the consolidated district; and

(iii) establish an interim board of trustees for the consolidated district as provided in 20-6-424. The trustees shall serve until their successors are elected at the next succeeding regular school election and qualified.

(b) Each county superintendent shall send a copy of the order to the board of county commissioners of each county where a district involved in the consolidation proposition is located and to the trustees of each district incorporated in the consolidation order.

(8) If any district included in the consolidation proposition disapproves the consolidation proposition, the consolidation of all districts fails and the appropriate county superintendent shall notify each district of the disapproval of the consolidation proposition.

History: En. Sec. 3, Ch. 510, L. 2005; amd. Sec. 14, Ch. 510, L. 2005.

20-6-424. Interim governance of consolidated district. (1) Upon passage of a consolidation proposition under the provisions of 20-6-423, an interim board of trustees made up of all of the members of the boards of trustees of the districts that consolidated shall serve as the trustees for the consolidated district from the date of the consolidation order until the newly elected board of the consolidated district is organized under 20-3-321. The interim board of trustees shall elect a presiding officer from among its members.

(2) The trustees of each district incorporated in the consolidation order shall continue to perform those duties related to the operation of their individual districts until the effective date of the consolidation. The interim board of trustees shall perform those duties related to the formation of and transition to the consolidated district, including but not limited to:

(a) calling an election of the new board of trustees for the consolidated district to be held on the regular election day preceding the effective date of the consolidation; and

(b) if necessary, calling an election under 20-9-353 for the ensuing budget year of the consolidated district.

(3) At the next regular school election following the consolidation election, trustees for the consolidated district must be elected in accordance with the election provisions of Title 13 and Title 20. The term of office is 3 years, except that the initial terms of the newly elected trustees must be selected by lot in order to comply with the provisions of 20-3-302.

(4) The interim board of trustees must be dissolved upon the organization of the newly elected trustees pursuant to 20-3-321.

20-6-501. Definition of various schools. As used in this title, unless the context clearly indicates otherwise, the term “school” means an institution for the teaching of children that is established and maintained under the laws of the state of Montana at public expense. The trustees of a district shall designate the grade assignments for the schools of the district, but for the purposes of this title each school is known as:

(1) an elementary school when it comprises the work of any combination of kindergarten, other preschool programs, or the first eight grades or their equivalents. A middle school is a school comprising the work of grades 4 through 8 or any combination of grades 4 through 8 that has been accredited as a middle school under the provisions of 20-7-102. When an accredited junior high school is operated by the district, grades 7 and 8 or their equivalents may not be considered as elementary grades.

(2) a high school when it comprises the work of one or more grades of schoolwork or their equivalents intermediate between the elementary schools and the institutions of higher education of the state of Montana. Types of high schools are designated as follows:

(a) a junior high school is a school comprising the work of grades 7 through 9 or their equivalents that has been accredited as a junior high school under the provisions of 20-7-102;

(b) a senior high school is a school that comprises the work of grades 10 through 12 or their equivalents and that is operated in conjunction with a junior high school;

(c) a 4-year high school is a school comprising the work of grades 9 through 12 or their equivalents.

20-6-502. Opening or reopening of elementary school. The trustees of any elementary district may open or reopen an elementary school of the district when the opening or reopening has been approved in accordance with the following procedure:

(1) The parents of at least two pupils who would attend the opened or reopened school petition the trustees of the district to open or reopen a school. The petition must identify the school, state the reasons for requesting the opening or reopening, and give the names of the children who would attend the school.

(2) If the trustees approve the opening or reopening of a school, they shall send the petition with a copy of their approval resolution to the county superintendent. The county superintendent shall review the petition to determine if the average number belonging (ANB) of the school would be two or more. If the trustees plan to open or reopen the school during the current school fiscal year, the trustees shall include the proposed opening date in the approval resolution and shall request that the process outlined in this section be expedited.

(3) The county superintendent shall present the petition, the trustees’ approval, and the county superintendent’s findings on the probable ANB to the board of county commissioners for their consideration. The board shall deny the opening or reopening of any school if the county superintendent’s enrollment estimate for the school is less than two ANB. In all other cases, the board may approve or disapprove the requested opening or reopening of the elementary school.

(4) (a) If the board approves a school opening or reopening, the county superintendent shall send a copy of the approval, along with the petition, the trustees’ approval, and the county superintendent’s estimate of the probable ANB, to the superintendent of public instruction. Except under the circumstances described in subsection (4)(b), the trustees shall apply to the superintendent of public instruction for approval to open or reopen the school by June 1 prior to the beginning of the school year in which they intend to open or reopen the elementary school. The superintendent of public instruction shall approve or disapprove the requested opening or reopening of the elementary school by the fourth Monday of June. If the opening or reopening is approved, the superintendent of public instruction shall approve or adjust the ANB estimate of the county superintendent for the school and the ANB amount must be used for budgeting and BASE funding program purposes during the ensuing school fiscal year. An ANB amount may

not be approved for the ensuing school fiscal year for an opening or reopening school when the request for the school has not been received by the superintendent of public instruction by June 1.

(b) (i) If the opening or reopening is approved and the trustees want to open or reopen the school during the current school fiscal year, the trustees shall submit a budget request to the superintendent of public instruction for that portion of the fiscal year in which the school will be in operation prior to the ensuing school fiscal year. The superintendent of public instruction shall approve or adjust the budget request and shall fund the budget for the portion of the school year in which the school will be in operation.

(ii) Before a school may open or reopen during the current school fiscal year, the school must be classified as an isolated school in accordance with the provisions of 20-9-302, except that the dates in that section for the submission and approval of the application for classification do not apply and the application must be made at the same time that the application for opening or reopening the school is made.

20-6-604. Sale of property when resolution passed after hearing — appeal procedure. (1) Whenever the trustees of a district determine that a site, building, or any other real or personal property of the district is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district, the trustees may sell or otherwise dispose

of the real or personal property in accordance with this section and without conforming to the provisions of 20-6-603. If a decision to sell or dispose of property is made, the trustees shall adopt a resolution to sell or otherwise dispose of the district real or personal property because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the district.

(2) The resolution may not become effective for 14 days after the notice required in subsection (3) is made.

(3) The trustees shall provide notice of the resolution in the manner required for school elections in 20-20-204.

(4) A taxpayer may appeal the resolution of the trustees, at any time prior to the effective date of the resolution, to the district court by filing a verified petition with the clerk of the court and serving a copy of the petition upon the district. The petition must set out in detail the objections of the petitioner to the adoption of the resolution or to the disposal of the property. The service and filing of the petition stay the resolution until final determination of the matter by the court. The court shall immediately fix the time for a hearing at the earliest convenient time. At the hearing, the court shall hear the matter de novo and may take testimony as it considers necessary. Its proceedings are summary and informal, and its decision is final.

(5) The trustees of a district that has adopted a resolution to sell or otherwise dispose of district real or personal property and, if appealed, has been upheld by the court shall sell or dispose of the real or personal property in any reasonable manner that they determine to be in the best interests of the district.

(6) The money realized from the sale or disposal of real or personal property of the district must be credited to the debt service fund, building fund, general fund, or other appropriate fund, at the discretion of the trustees.

20-6-605. Land acquired by conditional deed or at will or sufferance. Whenever the trustees acquire land by deed conditioned upon the use of the land for the conduct of school or related activities or whenever land has been used by the trustees at the will or sufferance of the land's owner or claimant and the district has constructed buildings or made other improvements on the land, the owner or claimant may repossess the land if it ceases to be used as specified by deed or, if not specified, for the conduct of school or related activities. However, the owner or claimant shall first notify the trustees in writing of the intent to repossess the land, and the trustees shall have 1 year after receipt to remove any buildings or improvements placed upon the land by the district. The trustees' failure to remove the buildings or improvements within that time constitutes a forfeiture of the buildings or improvements. Before the owner or claimant has the right to give notice of repossession, the district's intention to permanently cease using the land must have been established by resolution of the trustees and a vote of the district's electors.

Part 7 K-12 School Districts

20-6-701. K-12 school districts required — definition — procedure for creation — exception. (1) Except as provided in subsection (4), each elementary district with the same district boundaries as a high school district shall attach to the high school district for the purpose of establishing a K-12 school district.

(2) For the purposes of this title, unless the context clearly indicates otherwise, “K-12 school district” means a high school district with an elementary district that has been attached to the high school district under the procedures provided in this section, with the high school district remaining an organized district under the provisions of 20-6-101 and other provisions of law and the elementary district becoming an inactive district under the provisions of 20-6-101.

(3) The attachment of an elementary district to a high school district to form a K-12 school district must be conducted under the following procedure:

(a) The trustees of each district shall pass a resolution requesting the county superintendent to order an attachment involving their districts.

(b) When the county superintendent receives a resolution from each of the districts, the county superintendent shall, within 10 days after receipt of the last resolution, order the attachment of the elementary district to the high school district to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the districts included in the attachment order, and the superintendent of public instruction.

(4) This section does not apply to a school district receiving federal impact aid funding, as provided in 20 U.S.C. 7701, et seq., if creation or continuation of a K-12 district has resulted in or will result in the loss of federal impact aid funding.

History: En. Sec. 1, Ch. 555, L. 1991; amd. Sec. 1, Ch. 194, L. 1993; amd. Sec. 12, Ch. 22, L. 1997; amd. Sec. 1, Ch. 95, L. 1997.

20-6-702. Funding for K-12 school districts. (1) Notwithstanding the provisions of subsections (2) through (6), a K-12 school district formed under the provisions of 20-6-701 is subject to the provisions of law for high school districts.

(2) The number of elected trustees of the K-12 school district must be based on the classification of the attached elementary district under the provisions of 20-3-341 and 20-3-351.

(3) Calculations for the following must be made separately for the elementary school program and the high school program of a K-12 school district:

(a) the calculation of ANB for purposes of determining the total per-ANB entitlements must be in accordance with the provisions of 20-9-311;

(b) the basic county tax for elementary equalization and revenue for the elementary BASE funding program for the district must be determined in accordance with the provisions of 20-9-331, and the basic county tax for high school equalization and revenue for the high school BASE funding program for the district must be determined in accordance with 20-9-333;

(c) the guaranteed tax base aid for BASE funding program purposes for a K-12 school district must be calculated separately, using each district’s guaranteed tax base ratio, as defined in 20-9-366. The BASE budget levy to be levied for the K-12 school district must be prorated based on the ratio of the BASE funding program amounts for elementary school programs to the BASE funding program amounts for high school programs.

(d) the levy authority limits under 20-9-502(3) and the corresponding state school major maintenance aid under 20-9-525(3) for a K-12 school district must be calculated separately for the K-12 school district’s elementary and high school programs in the same manner as those limits and aid would be calculated if the K-12 school district consisted of a separate elementary and high school district.

(4) The retirement obligation and eligibility for retirement guaranteed tax base aid for a K-12 school district must be calculated and funded as a high school district retirement obligation under the provisions of 20-9-501.

(5) For the purposes of budgeting for a K-12 school district, the trustees shall adopt a single fund for any of the budgeted or nonbudgeted funds described in 20-9-201 for the costs of operating all grades and programs of the district.

(6) Tuition for attendance in the K-12 school district must be determined separately for high school pupils and for elementary pupils under the provisions of 20-5-320 through 20-5-324, except that the actual expenditures used for calculations in 20-5-323 must be based on an amount prorated between the elementary and high school programs in the appropriate funds of each district in the year prior to the attachment of the districts.

(a) the county superintendent shall order the trustees to execute all necessary and appropriate deeds, bills of sale, or other instruments for the conveyance of title to all real and personal property of the elementary district to the high school district;

(b) the trustees of the elementary district shall entrust the minutes of the board of trustees, the elementary district documents, and other records to the high school district to which it is attached; and

(2) All taxes levied by and revenue due from a previous school fiscal year to an elementary district attached to a high school district must be payable to the appropriate fund of the high school district.

(3) The previous year's general fund budget amounts for the elementary district and the high school district that form a K-12 school district must be combined to determine the budget limitation for the ensuing school fiscal year pursuant to 20-9-308.

20-6-704. Dissolution of K-12 school district. (1) Except as provided in subsection (2), in order to dissolve a K-12 district under the provisions of this section, the trustees of a district shall submit for approval to the electors of the K-12 district a proposition dissolving the K-12 district for the purpose of annexing or consolidating the K-12 district's elementary or high school program with a contiguous school district or districts in an ensuing school fiscal year under the provisions of 20-6-422 or 20-6-423.

(2) If the trustees of the school district determine that the creation or continuation of the K-12 district has resulted in or will result in the loss of federal funding for the elementary or high school programs and that it is in the best interest of the district to dissolve into the original elementary district and high school district that existed prior to the formation of the K-12 district, the trustees may dissolve the district under the following procedure:

(a) The trustees of the district shall pass a resolution requesting the county superintendent to order a dissolution of the district.

(b) When the county superintendent receives the resolution from the district, the county superintendent shall, within 10 days, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the order to the board of county commissioners, the trustees of the district, and the superintendent of public instruction.

(3) If the entire territory of the dissolving K-12 district will be annexed to or consolidated with a contiguous district or districts, the resolution or petition required in subsection (1) or (2) must contain a description of the manner in which the real and personal property and funds of the district are to be apportioned in the dissolution of the district and the subsequent annexation to or consolidation with one or more other districts. If a portion of the dissolving K-12 district

will not be annexed or consolidated with another district or districts, the resolution or petition must contain a description of the manner in which the property, funds, and financial obligations, including bonded indebtedness, of the K-12 district are to be apportioned to the district or districts whose territory is not annexed to or consolidated with another district.

(4) After the county superintendent receives the certificate of election provided for in 20-20-416 from the trustees of the K-12 district and from each district included in a consolidation proposition, the county superintendent shall determine whether the dissolution and annexation or consolidation proposition or propositions have been approved. If the K-12 district has approved the dissolution proposition and each district involved in a consolidation has approved the consolidation proposition, the county superintendent shall, within 10 days after the receipt of the election certificate, order the dissolution of the K-12 district into the original elementary district and high school district, to take effect on July 1 of the ensuing school fiscal year. Within 30 days of the order, the county superintendent shall send a copy of the dissolution order to the board of county commissioners, the trustees of the district included in the dissolution order, and the superintendent of public instruction.

(5) Whenever a K-12 district is dissolved, the following provisions apply:

(a) The trustees of the district whose territory is not annexed or consolidated upon dissolution of the K-12 district are responsible for the execution of remaining financial obligations of the K-12 district and for the apportionment between the elementary and high school programs of any obligations not identified in the resolution required under subsection (3).

(b) The provisions of 20-6-410 apply for tenure teachers in the dissolution of a K-12 district.

(c) For purposes of applying the budget limitation provisions of 20-9-308, the budget of a K-12 district during its last year of operations as a K-12 district will be prorated based on rules promulgated by the superintendent of public instruction.

(2) The accreditation standards recommended by the superintendent of public instruction must be developed through the negotiated rulemaking process under Title 2, chapter 5, part 1. (4) Unless the expenditures by school districts required under the proposal are determined by the education interim committee to be insubstantial expenditures that can be readily absorbed into the budgets of existing district programs, the board may not implement the standard until July 1 following the next regular legislative session and shall request that the same legislature fund implementation of the proposed standard.

(5) Standards for the retention of school records must be as provided in 20-1-212.

Options that the office of public instruction shall incorporate and make available for each school district must include data linkages to provide for automated conversion of data from systems already in use by school districts or by the office of public instruction

that allow districts to collect, manage, and present local classroom assessment scores, grades, attendance, and other data to assist in instructional intervention alongside the existing school accountability and statewide student achievement results. The office of public instruction shall ensure that the design of the system is enhanced to prioritize collaborative support of each student's needs by classroom educators, administrators, and parents.

(c) increased use of data from the centralized system by various functions within the office of public instruction; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4291 used to reduce the over-BASE budget levy; and

(1) an increase in the enrollment of an elementary or high school district that is beyond what could reasonably have been anticipated at the time of the adoption of the budget for the current school fiscal year whenever, because of the enrollment increase, the district's budget for any or all of the regularly budgeted funds does not provide sufficient financing to properly maintain and support the district for the entire current school fiscal year;

(2) the destruction or impairment of any school property necessary to the maintenance of the school, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering school property unfit for its present school use;

(3) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(4) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district;

(5) the receipt of:

(a) a settlement of taxes protested in a prior school fiscal year;

(6) any other unforeseen need of the district that cannot be postponed until the next school year without dire consequences affecting:

(a) the safety of the students and district employees; or

(b) the educational functions of the district. Any budget amendment adopted pursuant to this subsection (6)(b) that in combination with other budget amendments within the same school fiscal year exceeds 10% of the district's adopted general fund budget must be reported by the school district to the education interim committee and the board of public education with an explanation of why the budget amendment is necessary.

20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the superintendent of public instruction to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. The superintendent of public instruction shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees

of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures.

(1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a final budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the final budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve;

(b) divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the final budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the superintendent of public instruction.

20-9-166. State financial aid for budget amendments. Whenever a final budget amendment has been adopted for the general fund to finance the cost of an amendment resulting from increased enrollment, the trustees may apply to the superintendent of public instruction for an increased payment from the state for direct state aid. Whenever a final budget amendment has been adopted for the transportation fund, the trustees may apply to the superintendent of public instruction for an increased payment for state transportation reimbursement. The superintendent of public instruction shall adopt rules for the application. The superintendent of public instruction shall approve or disapprove each application for increased state aid made in accordance with 20-9-314 and this section. When the superintendent of public instruction approves an application, the superintendent of public instruction shall determine the additional amount of direct state aid or the state transportation reimbursement that will be made available to the applicant district because of the increase in enrollment or additional pupil transportation obligations. The superintendent of public instruction shall notify the applicant district of the superintendent's approval or disapproval and, in the event of approval, the amount of additional state aid that will be made available for the general fund or the transportation fund. The superintendent of public instruction shall disburse the state aid to the eligible district at the time the next regular state aid payment is made.

The general fund, transportation fund, bus depreciation reserve fund, tuition fund, retirement fund, debt service fund, building reserve fund, adult education fund, nonoperating fund, and any other funds designated by the legislature are budgeted funds.

(b) A "nonbudgeted fund" means any fund for which a budget is not required in order to expend money on deposit in the fund. Elementary and high school districts shall record the receipt and disbursement of all money in accordance with generally accepted accounting principles. The superintendent of public instruction has general supervisory authority as prescribed by

law over the school financial administration provisions, as they relate to elementary and high school districts. The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account balances to any fund considered appropriate by the trustees if the fund does not have a cash or fund balance deficit.

20-9-204. Conflicts of interests, letting contracts, and calling for bids — exceptions.

(1) It is unlawful for a trustee to:

(a) have any pecuniary interest, either directly or indirectly, in any contract made by the trustee while acting in that official capacity or by the board of trustees of which the trustee is a member; or

(b) be employed in any capacity by the trustee's own school district, with the exception of officiating at athletic competitions under the auspices of the Montana officials association.

(2) For the purposes of subsection (1):

(a) "contract" does not include:

(i) merchandise sold to the highest bidder at public auctions;

(ii) investments or deposits in financial institutions that are in the business of loaning or receiving money when the investments or deposits are made on a rotating or ratable basis among financial institutions in the community or when there is only one financial institution in the community; or

(iii) contracts for professional services, other than salaried services, or for maintenance or repair services or supplies when the services or supplies are not reasonably available from other

sources if the interest of any board member and a determination of the lack of availability are entered in the minutes of the board meeting at which the contract is considered; and

(b) “pecuniary interest” does not include holding an interest of 10% or less in a corporation.

(3) (a) Except for district needs that must be met because of an unforeseen emergency, as defined in 20-3-322(5), or as provided in subsections (4) and (6) of this section, whenever any building, furnishing, repairing, or other work for the benefit of the district or purchasing of supplies for the district is necessary, the work done or the purchase made must be by contract if the sum exceeds \$80,000.

(b) Except as provided in Title 18, chapter 2, part 5, each contract must be let to the lowest responsible bidder after advertisement for bids. The advertisement for bids under this subsection (3)(b) must be published in the newspaper that will give notice to the largest number of people of the district as determined by the trustees. The advertisement must be made once each week for 2 consecutive weeks, and the second publication must be made not less than 5 days or more than 12 days before consideration of bids. A contract not let pursuant to this section is void. The bidding requirements applicable to services performed for the benefit of the district under this section do not apply to:

(i) a registered professional engineer, surveyor, real estate appraiser, or registered architect;

(ii) a physician, dentist, pharmacist, or other medical, dental, or health care provider;

(iii) an attorney;

(iv) a consulting actuary;

(v) a private investigator licensed by any jurisdiction;

(4) A district may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of subsection (3) if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor’s supplies and services on the cooperative purchasing group’s master list.

(5) This section may not require the board of trustees to let a contract for any routine and regularly performed maintenance or repair project or service that can be accomplished by district staff whose regular employment with the school district is related to the routine performance of maintenance for the district.

(6) Subsection (3) does not apply to the solicitation or award of a contract for an investment grade energy audit or an energy performance contract pursuant to Title 90, chapter 4, part 11, including construction and installation of conservation measures pursuant to the energy performance contract.

(2) This section shall apply not only where the public work or construction project is divided into several projects which are constructed at approximately the same period of time but also where the public work or construction project is divided into several projects which are constructed in different time periods or over an extended period of time.

20-9-208. Transfers among appropriation items of fund — transfers from fund to fund. (1) Whenever it appears to the trustees of a district that the appropriated amount of an item of a budgeted fund of the final budget or a budget amendment is in excess of the amount actually required during the school fiscal year for the appropriation item, the trustees may transfer any of the excess appropriation amount to any other appropriation item of the same budgeted fund.

(2) Unless otherwise restricted by a specific provision in this title, transfers may be made between different funds of the same district or between the final budget and a budget amendment under one of the following circumstances:

(a) (i) Except as provided in subsections (2)(a)(ii) through (2)(a)(iv), transfers may be made from one budgeted fund to another budgeted fund or between the final budget and a budget amendment for a budgeted fund whenever the trustees determine, in their discretion, that the transfer of funds is necessary to improve the efficiency of spending within the district or when an action of the trustees results in savings in one budgeted fund that can be put to more efficient use in another budgeted fund. Transfers may not be made with funds approved by the voters or with funds raised by a nonvoted levy unless:

(A) the transfer is within or directly related to the purposes for which the funds were raised and the trustees hold a properly noticed hearing to accept public comment on the transfer; or

(B) the transfer is approved by the qualified electors of the district in an election called for the purpose of approving the transfer, in which case the funds may be spent for the purpose approved on the ballot.

(ii) Unless otherwise authorized by a specific provision in this title, transfers from the general fund to any other fund and transfers to the general fund from any other fund are prohibited.

(iii) Unless otherwise authorized by a specific provision in this title, transfers from the retirement fund to any other fund are prohibited.

(iv) Unless otherwise authorized by a specific provision in this title, transfers from the debt service fund to any other fund are prohibited.

(b) Transfers may be made from one nonbudgeted fund to another nonbudgeted fund whenever the trustees determine that the transfer of funds is necessary to improve the efficiency

of spending within the district. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law. Before a transfer can occur, the trustees shall hold a properly noticed hearing to accept public comment on the transfer.

(3) The trustees shall enter the authorized transfers upon the permanent records of the district.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

20-9-212. Duties of county treasurer. The county treasurer of each county:

(1) must receive and shall hold all school money subject to apportionment and keep a separate accounting of its apportionment to the several districts that are entitled to a portion of the money according to the apportionments ordered by the county superintendent or by the superintendent of public instruction. A separate accounting must be maintained for each county fund supported by a countywide levy for a specific, authorized purpose, including:

- (a) the basic county tax for elementary equalization;
- (b) the basic county tax for high school equalization;
- (c) the county tax in support of the transportation schedules;
- (d) the county tax in support of the elementary and high school district retirement obligations; and

(e) any other county tax for schools, including the community colleges, that may be authorized by law and levied by the county commissioners.

(2) whenever requested, shall notify the county superintendent and the superintendent of public instruction of the amount of county school money on deposit in each of the funds enumerated in subsection (1) and the amount of any other school money subject to apportionment and apportion the county and other school money to the districts in accordance with the apportionment ordered by the county superintendent or the superintendent of public instruction;

(4) except as otherwise limited by law, shall pay all warrants properly drawn on the county or district school money;

(5) must receive all revenue collected by and for each district and shall deposit these receipts in the fund designated by law or by the district if a fund is not designated by law. Interest and penalties on delinquent school taxes must be credited to the same fund and district for which the original taxes were levied.

(6) shall send all revenue received for a joint district, part of which is situated in the county, to the county treasurer designated as the custodian of the revenue, no later than December 15 of each year and every 3 months after that date until the end of the school fiscal year;

(7) at the direction of the trustees of a district, shall assist the district in the issuance and sale of tax and revenue anticipation notes as provided in Title 7, chapter 6, part 11;

(8) shall register district warrants drawn on a budgeted fund in accordance with 7-6-2604 when there is insufficient money available in all funds of the district to make payment of the warrant. Redemption of registered warrants must be made in accordance with 7-6-2605 and 7-6-2606.

(9) when directed by the trustees of a district, shall invest the money of the district within 3 working days of the direction;

(10) each month, shall give to the trustees of each district an itemized report for each fund maintained by the district, showing the paid warrants, registered warrants, interest distribution, amounts and types of revenue received, and the cash balance;

(11) shall remit promptly to the department of revenue receipts for the county tax for a vocational-technical program within a unit of the university system when levied by the board of county commissioners under the provisions of 20-25-439;

(12) shall invest the money received from the basic county taxes for elementary and high school equalization, the county levy in support of the elementary and high school district retirement obligations, and the county levy in support of the transportation schedules within 3 working days of receipt. The money must be invested until the working day before it is required to be distributed to school districts within the county or remitted to the state. Clerks of a school district shall provide a minimum of 30 hours' notice in advance of cash demands to meet payrolls, claims, and electronic transfers that are in excess of \$50,000, pursuant to 20-3-325. If a clerk of a district fails to provide the required 30-hour notice, the county treasurer shall assess a fee equal to any charges demanded by the state investment pool or other permissible investment manager for improperly noticed withdrawal of funds. Permissible investments are specified in 20-9-213(4). All investment income must be deposited, and credited proportionately, in the funds established to account for the taxes received for the purposes specified in subsections (1)(a) through (1)(d).

(13) shall remit on a monthly basis to the department of revenue, as provided in 15-1-504, all county equalization revenue received under the provisions of 20-9-331 and 20-9-333, including all interest earned, in repayment of the state advance for county equalization prescribed in 20-9-347. A person other than the trustees acting as a governing board may not expend money of the district. In conducting the fiscal business of the district, the trustees shall:

(1) cause the keeping of an accurate, detailed accounting of all receipts and expenditures of school money for each fund and account maintained by the district in accordance with generally accepted accounting principles and the rules prescribed by the superintendent of public instruction. The record of the accounting must be open to public inspection at any meeting of the trustees.

(2) authorize all expenditures of district money and cause warrants or checks, as applicable, to be issued for the payment of lawful obligations;

(3) issue warrants or checks, as applicable, on any budgeted fund in anticipation of budgeted revenue, except that the expenditures may not exceed the amount budgeted for the fund;

(4) invest any money of the district, whenever in the judgment of the trustees the investment would be advantageous to the district, either by directing the county treasurer to invest any money of the district or by directly investing the money of the district in eligible securities, as identified in 7-6-202, in savings or time deposits in a state or national bank, building or loan association, savings and loan association, or credit union insured by the FDIC or NCUA located in the state, or in a repurchase agreement that meets the criteria provided for in 7-6-213. All interest collected on the deposits or investments must be credited to the fund from which the money was withdrawn, except that interest earned on account of the investment of money realized from the sale of bonds must be credited to the debt service fund or the building fund, at the discretion of the board of trustees. The placement of the investment by the county treasurer is not subject to ratable distribution laws and must be done in accordance with the directive from the board of trustees. A district may invest money under the state unified investment program established in Title 17, chapter 6, or in a unified investment program with the county treasurer, with other school districts, or with any other political subdivision if the unified investment program is limited to investments that meet the requirements of this subsection (4), including those investments authorized by the board of investments under Title 17, chapter 6. A school district that enters into a unified investment program with another school district or political subdivision other than the state shall do so under the auspices of and by complying with the provisions governing interlocal cooperative agreements authorized under Title 7, chapter 11, and educational cooperative agreements authorized under Title 20, chapter 9, part 7. A school district either shall contract for investment services with any company complying with the provisions of Title 30, chapter 10, or shall contract with the state board of investments for investment services.

(5) cause the district to record each transaction in the appropriate account before the accounts are closed at the end of the fiscal year in order to properly report the receipt, use, and disposition of all money and property for which the district is accountable;

(6) report annually to the county superintendent, not later than August 15, the financial activities of each fund maintained by the district during the last-completed school fiscal year, on the forms prescribed and furnished by the superintendent of public instruction. Annual fiscal reports for joint school districts must be submitted on or before August 15 to the county superintendent of each county in which part of the joint district is situated.

(7) whenever requested, report any other fiscal activities to the county superintendent, superintendent of public instruction, or board of public education;

(8) cause the accounting records of the district to be audited as required by 2-7-503; and

(9) perform, in the manner permitted by law, other fiscal duties that are in the best interests of the district.

(2) Money transferred into investment accounts established under this section may be expended from a subsidiary checking account under the conditions specified in subsection (3)(b).

(3) The district may either:

(a) establish and use the accounts as nonspending accounts to ensure that district funds remain in an interest-bearing status until money is reverted to the budgeted or nonbudgeted fund of original deposit as necessary for use by the county treasurer to pay claims against the district. The district shall ensure that sufficient money is reverted to the district's budgeted and nonbudgeted funds maintained by the county treasurer in sufficient time to pay all claims presented against the applicable funds of the district. The county treasurer shall accept all money that is reverted upon tendered transfer of the district.

(b) establish a subsidiary checking account for expenditures from the investment accounts. The district may write checks on or provide electronic payments from the account if:

(i) the payments made from the accounts representing budgeted funds are in compliance with the budget adopted by the trustees;

(ii) the accounts are subject to the audit of district finances completed for compliance with 2-7-503 and 20-9-503; and

(5) Except for debt service money that the county treasurer is required by law to collect and report to the districts and state transportation reimbursement payments provided for in 20-10-141 and 20-10-142, all other revenue may be sent directly to a participating district's investment account.

(6) The trustees shall implement an accounting system for the investment account pursuant to rules adopted by the superintendent of public instruction. The rules for the accounting system must include but are not limited to:

(a) providing for the internal control of deposits into and transfers between a district's investment accounts and budgeted and nonbudgeted funds of the district;

- (a) planning for improvements to school safety, including but not limited to the cost of services provided by architects, engineers, and other consultants;
- (b) installing or updating locking mechanisms and ingress and egress systems at public school access points, including but not limited to systems for exterior egress doors and interior passageways and rooms, using contemporary technologies;
- (c) installing or updating bullet-resistant windows and barriers; and
- (d) installing or updating emergency response systems using contemporary technologies.

(2) Any transfers made pursuant to subsection (1) are not considered expenditures to be applied against budget authority. Any revenue transfers that are not encumbered for expenditures in compliance with subsection (1) within 2 full school fiscal years after the funds are transferred must be transferred back to the originating fund from which the revenue was transferred.

(3) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the transferred funds.

(1) An elementary school that has an ANB of nine or fewer pupils for 2 consecutive years and that is not approved as an isolated school under the provisions of 20-9-302 may budget and spend the BASE budget amount, but the county and state shall provide one-half of the direct state aid, and the district shall finance the remaining one-half of the direct state aid by a tax levied on the property of the district. 20-9-305. Proration and calculation of BASE funding program for joint district.

(1) In joint districts, the direct state aid of a joint district must be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the direct state aid for which each county is obligated. The proration of the joint district direct state aid must be calculated as follows:

(a) Divide the joint district direct state aid by the ANB of the joint district to determine the per-ANB amount of the direct state aid.

(b) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties must equal the total ANB for the joint district.

(c) Multiply the per-ANB amount of the direct state aid determined in subsection (1)(a) by the ANB for each county's portion, as determined in subsection (1)(b), to determine the portion of the direct state aid for each county.

(2) The portion of a joint district direct state aid for each county, as determined in subsection (1)(c), is a separate direct state aid amount in the county for the purposes of calculating the various revenues for the BASE funding program. After the calculation of the direct state aid revenues, the remainder of the general fund revenues must be calculated in accordance with the provisions for general fund financing.

20-9-308. BASE budgets and maximum general fund budgets. (1) (a) The trustees of a district shall adopt a general fund budget that is at least equal to the BASE budget established for the district. The trustees of a district may adopt a general fund budget up to the maximum general fund budget or the previous year’s general fund budget, whichever is greater.

(b) For purposes of the budget limitation in subsection (1)(a), the trustees may add any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data-for-achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330 to the district’s previous year’s general fund budget.

(2) (a) Except as provided in subsection (2)(b), whenever the trustees of a district propose to adopt a general fund budget that exceeds the BASE budget for the district and propose to

increase the over-BASE budget levy over the highest revenue previously authorized by the electors of the district or imposed by the district in any of the previous 5 years to support the general fund budget, the trustees shall submit a proposition to the electors of the district, as provided in 20-9-353.

In furtherance of this intent and provided that budget limitations otherwise specified in law are not exceeded, the trustees of a district may increase the district's over-BASE budget levy without a vote if the board of trustees reduces nonvoted property tax levies authorized by law to be imposed by action of the trustees of the district by at least as much as the amount by which the over-BASE budget levy is increased. The ongoing authority for any nonvoted increase in the over-BASE budget levy imposed under this subsection (2)(b) must be decreased in future years to the extent that the trustees of the district impose any increase in other nonvoted property tax levies.

(3) The BASE budget for the district must be financed by the following sources of revenue:

(e) nonlevy revenue, as provided in 20-9-141; and

(f) a BASE budget levy on the taxable value of all property within the district.

(4) The over-BASE budget amount of a district must be financed by a levy on the taxable value of all property within the district or other revenue available to the district, as provided in 20-9-141.

- (a) the number of students in a district;
- (b) the needs of isolated schools with low population density;
- (c) the needs of urban schools with high population density;
- (d) the needs of students with special needs, such as a child with a disability, an at-risk student, a student with limited English proficiency, a child who is qualified for services under 29 U.S.C. 794, and gifted and talented children;

(e) the needs of American Indian students; and

(f) the ability of school districts to attract and retain qualified educators and other personnel.

(4) The legislature shall:

(a) determine the costs of providing the basic system of free quality public elementary and secondary schools;

(b) establish a funding formula that:

(i) is based on the definition of a basic system of free quality public elementary and secondary schools and reflects the costs associated with providing that system as determined in subsection (4)(a);

(ii) allows the legislature to adjust the funding formula based on the educationally relevant factors identified in this section;

(iii) is self-executing and includes a mechanism for annual inflationary adjustments;

(iv) is based on state laws;

(v) is based on federal education laws consistent with Montana's constitution and laws; and

(vi) distributes to school districts in an equitable manner the state's share of the costs of the basic system of free quality public elementary and secondary schools; and

(c) consolidate the budgetary fund structure to create the number and types of funds necessary to provide school districts with the greatest budgetary flexibility while ensuring accountability and efficiency.

(5) At least every 10 years, the legislature shall form the school funding interim commission pursuant to 5-20-301 for the purpose of reassessing the state's school funding formula.

History: En. Sec. 2, Ch. 208, L. 2005; amd. Sec. 2, Ch. 359, L. 2015.

20-9-310. Oil and natural gas production taxes for school districts — allocation and limits. (1) Except as provided in subsection (5), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) Except as provided by 15-36-332(9), the department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the guarantee account provided for in 20-9-622.

(4) (a) Subject to the limitation in subsection (1) and the conditions in subsection (4)(b), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(b) Except as provided in subsection (4)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (4)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (4)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (4)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than \$1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of \$1 million or more and has had an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314 in the year immediately preceding the fiscal year to which the provisions of this subsection (4) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(5) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district with an unusual enrollment increase approved by the superintendent of public instruction as provided in 20-9-314. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the year immediately following the fiscal year in which the office of public instruction has approved the district's unusual enrollment increase and must be calculated by multiplying \$45,000 times each additional ANB approved by the superintendent of public instruction as provided in 20-9-314.

(6) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall.

Termination Provision Modified: Section 20, Ch. 336, L. 2017, amended sec. 7, Ch. 433, L. 2015, by changing the termination date of the 2015 amendments to this section from June 30, 2019, to June 30, 2017. Effective May 4, 2017.

Applicability: Section 28, Ch. 336, L. 2017, provided: "[This act] applies to school budgets for school years beginning on or after July 1, 2017."

20-9-311. Calculation of average number belonging (ANB) — 3-year averaging.

(1) Average number belonging (ANB) must be computed for each budget unit as follows:

(a) compute an average enrollment by adding a count of regularly enrolled pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly

enrolled pupils on the first Monday in February of the prior school fiscal year or the next school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of 180 and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than the minimum aggregate hours under 20-9-806, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) (a) Except as provided in subsection (4)(d), for the purpose of calculating ANB, enrollment in an education program:

(i) from 180 to 359 aggregate hours of pupil instruction per school year is counted as one-quarter-time enrollment;

(ii) from 360 to 539 aggregate hours of pupil instruction per school year is counted as half-time enrollment;

(iii) from 540 to 719 aggregate hours of pupil instruction per school year is counted as three-quarter-time enrollment; and

(iv) 720 or more aggregate hours of pupil instruction per school year is counted as full-time enrollment.

(b) Except as provided in subsection (4)(d), enrollment in a program intended to provide fewer than 180 aggregate hours of pupil instruction per school year may not be included for purposes of ANB.

(c) Enrollment in a self-paced program or course may be converted to an hourly equivalent based on the hours necessary and appropriate to provide the course within a regular classroom schedule.

(d) A school district may include in its calculation of ANB a pupil who is enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under subsection (4)(a) or (4)(b) if the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB of a pupil under this subsection (4)(d) must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency.

(e) A pupil in kindergarten through grade 12 who is concurrently enrolled in more than one public school, program, or district may not be counted as more than one full-time pupil for ANB purposes.

(5) For a district that is transitioning from a half-time to a full-time kindergarten program, the state superintendent shall count kindergarten enrollment in the previous year as full-time enrollment for the purpose of calculating ANB for the elementary programs offering full-time kindergarten in the current year. For the purposes of calculating the 3-year ANB, the superintendent of public instruction shall count the kindergarten enrollment as one-half enrollment and then add the additional kindergarten ANB to the 3-year average ANB for districts offering full-time kindergarten.

(6) When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(7) The enrollment of preschool pupils, as provided in 20-7-117, may not be included in the ANB calculations.

(8) The average number belonging of the regularly enrolled pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled pupils attending the schools of the district, except that:

(a) the ANB is calculated as a separate budget unit when:

(i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled pupils of the school must be calculated as a separate budget unit for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when conditions exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, or when any other condition exists that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iv) two or more districts consolidate or annex under the provisions of 20-6-422 or 20-6-423, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the consolidation or annexation. Each district shall retain a percentage of its basic entitlement for 3 additional years as follows:

(A) 75% of the basic entitlement for the fourth year;

(B) 50% of the basic entitlement for the fifth year; and

(C) 25% of the basic entitlement for the sixth year.

(b) when a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) when a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) when a school has been designated as nonaccredited by the board of public education because of failure to meet the board of public education's assurance and performance standards, the regularly enrolled pupils attending the nonaccredited school are not eligible for average number belonging calculation purposes, nor will an average number belonging for the nonaccredited school be used in determining the BASE funding program for the district.

(9) The district shall provide the superintendent of public instruction with semiannual reports of school attendance, absence, and enrollment for regularly enrolled students, using a format determined by the superintendent.

(10) (a) Except as provided in subsections (10)(b) and (10)(c), enrollment in a basic education program provided by the district through any combination of onsite or offsite instruction may be included for ANB purposes only if the pupil is offered access to the complete range of educational services for the basic education program required by the accreditation standards adopted by the board of public education.

(b) Access to school programs and services for a student placed by the trustees in a private program for special education may be limited to the programs and services specified in an approved individual education plan supervised by the district.

(c) Access to school programs and services for a student who is incarcerated in a facility, other than a youth detention center, may be limited to the programs and services provided by the district at district expense under an agreement with the incarcerating facility.

(d) This subsection (10) may not be construed to require a school district to offer access to activities governed by an organization having jurisdiction over interscholastic activities, contests, and tournaments to a pupil who is not otherwise eligible under the rules of the organization.

(11) A district may include only, for ANB purposes, an enrolled pupil who is otherwise eligible under this title and who is:

(a) a resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school of the district;

(b) unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(c) unable to attend school due to the student's incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(d) receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the pupil's services are provided at the district's expense under an approved individual education plan supervised by the district;

(e) participating in the running start program at district expense under 20-9-706;

(f) receiving educational services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the department of public health and human services;

(g) enrolled in an educational program or course provided at district expense using electronic or offsite delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs, while attending a school of the district or any other nonsectarian offsite instructional setting with the approval of the trustees of the district. The pupil shall:

(i) meet the residency requirements for that district as provided in 1-1-215;

(ii) live in the district and must be eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or

(iii) attend school in the district under a mandatory attendance agreement as provided in 20-5-321.

(h) a resident of the district attending the Montana youth challenge program or a Montana job corps program under an interlocal agreement with the district under 20-9-707.

(12) A district shall, for ANB purposes, calculate the enrollment of an eligible Montana youth challenge program participant as half-time enrollment.

(13) (a) For an elementary or high school district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated using the current year ANB for all budget units or the 3-year average ANB for all budget units, whichever generates the greatest maximum general fund budget.

(b) For a K-12 district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated separately for the elementary and high school programs pursuant to subsection (13)(a) and then combined.

(14) The term "3-year ANB" means an average ANB over the most recent 3-year period, calculated by:

(a) adding the ANB for the budget unit for the ensuing school fiscal year to the ANB for each of the previous 2 school fiscal years; and

(b) dividing the sum calculated under subsection (14)(a) by three.

20-9-313. Circumstances under which regular average number belonging may be increased. (1) The average number belonging of a school, calculated in accordance with the ANB formula prescribed in 20-9-311, may be increased when:

(a) the opening of a new elementary school or the reopening of an elementary school has been approved in accordance with 20-6-502. The average number belonging for the school must be established by the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction.

(b) the opening or reopening of a high school or a branch of the county high school has been approved in accordance with 20-6-503, 20-6-504, or 20-6-505. The average number belonging for the high school must be established by the county superintendent's estimate, after an investigation of the probable number of pupils that will attend the high school.

(c) a district anticipates an increase in the average number belonging due to the closing of a private or public school in the district or a neighboring district. The estimated increase in average number belonging must be established by the trustees and the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction no later than the fourth Monday in June.

(d) a district anticipates an unusual enrollment increase in the ensuing school fiscal year. The increase in average number belonging must be based on estimates of increased enrollment approved by the superintendent of public instruction and must be computed in the manner prescribed by 20-9-314.

(e) for the initial year of operation of a kindergarten program established under 20-7-117(1), the ANB to be used for budget purposes is:

(i) one-half the number of 5-year-old children residing in the district as of September 10 of the preceding school year, either as shown on the official school census or as determined by some other procedure approved by the superintendent of public instruction, for the purpose of implementing a half-time kindergarten program as provided in 20-1-301; or

(ii) the number of 5-year-old children residing in the district as of September 10 of the preceding school year, either as shown on the official school census or as determined by some other procedure approved by the superintendent of public instruction, for the purpose of implementing a full-time kindergarten program as provided in 20-1-301; or

(f) a high school district provides early graduation for a student who completes graduation requirements in less than eight semesters or the equivalent amount of secondary school enrollment. The increase must be established by the trustees as though the student had attended to the end of the school fiscal year and must be approved, disapproved, or adjusted by the superintendent of public instruction.

(2) This section does not apply to the expansion of a half-time kindergarten program to a full-time kindergarten program.

20-9-314. Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase. A district that anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in 20-9-313(1)(d), may increase its basic entitlement and total per-ANB entitlement for the ensuing school fiscal year in accordance with the following provisions:

(1) Prior to June 1, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than June 1, the district shall submit its application for an anticipated unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the current school fiscal year;

(b) the average number belonging used to calculate the basic entitlement and total per-ANB entitlement for the current school fiscal year;

(c) the average number belonging that will be used to calculate the basic entitlement and total per-ANB entitlement for the ensuing school fiscal year;

(d) the anticipated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and

(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the enrollment used

to calculate the budgeted average number belonging for the ensuing school fiscal year. After approving an estimate, with or without adjustment, the superintendent of public instruction shall:

(a) determine the percentage by which the adjusted enrollment exceeds the enrollment used for the budgeted average number belonging; and

(b) approve an increase of the average number belonging used to establish the ensuing year's basic entitlement and total per-ANB entitlement in accordance with subsection (5) if the increase in subsection (3)(a) is at least 4% or 40 students, whichever is less.

(4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.

(5) Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the maximum allowable increase to the average number belonging is equal to the adjusted enrollment as determined by the superintendent of public instruction in subsection (3) minus the sum of:

(a) the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year; and

(b) the lesser of 40 students or 4% of the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year.

(6) (a) Any entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year.

(b) If the actual enrollment is less than the enrollment used to determine the budgeted ANB, the superintendent of public instruction shall recalculate the district's BASE budget and maximum budget limitations and BASE aid using the actual enrollment in place of the adjusted enrollment and:

(i) any BASE aid received by the district in excess of the amount recalculated is an overpayment subject to the refund provisions of 20-9-344(4); and

(ii) any revenue received by the district from BASE budget and over-BASE budget levies increased by the difference between the adjusted enrollment and the actual enrollment is an overpayment and must be used for reducing BASE budget and over-BASE budget levies in the ensuing school fiscal year.

20-9-321. Allowable cost payment for special education. (1) As used in this section, "ANB" means the current year ANB.

(2) The 3-year average ANB provided for in 20-9-311 does not apply to the calculation and distribution of state special education allowable cost payments provided for in this section.

(3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district, cooperative, or joint board for special education services formed under 20-3-361 prior to July 1, 1992, using the following factors:

(a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;

(b) a per-ANB amount for the special education instructional block grant;

(c) a per-ANB amount for the special education-related services block grant;

(d) an amount for cooperatives or joint boards meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and

(e) any other data required by the superintendent of public instruction to administer the provisions of this section.

(4) (a) The total special education allocation must be distributed according to the following formula:

(i) 52.5% through instructional block grants;

(ii) 17.5% through related services block grants;

(iii) 25% to reimbursement of local districts; and

(iv) 5% to special education cooperatives and joint boards for administration and travel.

(b) Special education allowable cost payments outlined in subsection (4)(a) must be granted to each school district and cooperative with a special education program as follows:

(i) The instructional block grant limit prescribed in subsection (4)(a)(i) must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(ii) The special education-related services block grant limit prescribed in subsection (4)(a)(ii) must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education-related services amount, or to a cooperative or joint board that meets the requirements of 20-7-457. The special education-related services block grant amount for districts that are members of approved cooperatives or a joint board must be awarded to the cooperatives or joint board.

(iii) If a district's allowable costs of special education exceed the total of the special education instructional and special education-related services block grant plus the required district match required by subsection (6), the district is eligible to receive at least a 40% reimbursement of the additional costs. To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district's block grants plus the required district match.

(iv) Of the amount distributed under subsection (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative or joint board and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

(5) The superintendent of public instruction shall adopt rules necessary to implement this section.

(6) A district shall provide a 25% local contribution for special education, matching every \$3 of state special education instructional and special education-related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education-related services grant amount to the special education cooperative.

(7) The superintendent of public instruction shall determine the actual district match based on the trustees' reports. Any unmatched portion reverts to the state and must be subtracted from the district's ensuing year's special education allowable cost payment.

(8) A district that demonstrates severe economic hardship because of exceptional special education costs may apply to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.

20-9-323. Ending fund balance limits. (1) Beginning July 1, 2020, the combined ending fund balance for all budgeted funds of a school district may not exceed 300% of the maximum general fund budget. The 300% limit is not applicable to the building reserve fund, the debt service fund, or the bus depreciation reserve fund.

(2) The county superintendent shall, upon completion of a school fiscal year, redistribute any amounts in excess of the 300% limit among any other school districts in the same county whose combined ending fund balance for all budgeted funds included in subsection (1) has not exceeded the 300% limit. The county superintendent shall redistribute funds equally to the school districts qualifying for redistribution on a per-quality-educator basis, calculated by dividing the total funds by the total number of quality educators, as defined in 20-4-502, employed by the qualifying school districts in the county in the immediately preceding school fiscal year. School districts receiving the funds may place the funds in any budgeted fund of the district at the discretion of the board of trustees of each district.

(3) Unless an exception is granted under subsection (5), upon completion of a school fiscal year, a school district with combined ending fund balances in excess of the 300% limit shall cooperate with the county superintendent in effectuating the redistribution of excess funds as provided in subsection (2). A school district may make the payment required under this subsection from any fund or funds of the district other than the debt service fund, the building reserve fund, and the bus depreciation reserve fund.

(4) Any funds that cannot be redistributed within a county without causing a school district in the county to exceed the 300% limit must be remitted by the county treasurer to the state for deposit in the guarantee account and distribution in the same manner as provided in 20-9-622(2).

(5) In accordance with 20-9-161, a school district shall report to the education interim committee for any exception taken to the limits prescribed by subsection (1) of this section.

(6) This section does not apply to school districts that are in a nonoperating status under 20-9-505 or that are in the first year of operation after reopening under 20-6-502 or 20-6-503.

(7) Beginning July 1, 2020, the balance of a school district's flexibility fund may not exceed 150% of the school district's maximum general fund budget.

20-9-325. Data-for-achievement payment. (1) The state shall provide a data-for-achievement payment to public school districts as defined in 20-6-101 and 20-6-701. The data-for-achievement payment is calculated as provided in 20-9-306.

(3) Unless funds are otherwise appropriated at higher amounts by the legislature, the office of public instruction may spend no more than \$500,000 per biennium for the purposes of mediating with vendors, developing a plan, preparing a request for proposal solicitation package, managing the vendor contract, and implementing a plan with school districts for the statewide data system. This limitation does not apply if the office of public instruction develops and administers the statewide data system without a vendor.

(1) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall determine the inflation factor for the basic and per-ANB entitlements, the data-for-achievement payment, and the general fund payments in 20-9-327 through 20-9-330 in each fiscal year of the ensuing biennium. The inflation factor is calculated as follows:

(a) for the first year of the biennium, divide the consumer price index for July 1 of the prior calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the prior calendar year and raise the resulting ratio to the power of one-third; and

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and raise the resulting ratio to the power of one-third.

(2) The present law base for the entitlements referenced in subsection (1), calculated under Title 17, chapter 7, part 1, must consist of any enrollment increases or decreases plus the inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the biennium.

(3) For the purposes of this section, "consumer price index" means the consumer price index, U.S. city average, all urban consumers, for all items, using the 1982-84 base of 100, as published by the bureau of labor statistics of the U.S. department of labor.

20-9-335. Formula for apportionment of county equalization money. (1) The superintendent of public instruction shall calculate the apportionment of revenue available in the elementary and high school county equalization funds in accordance with the following procedure:

(a) determine the percentage that the county equalization money available for the support of the elementary direct state aid of the districts in the county is of the total elementary direct state aid of all districts in the county;

(b) multiply the elementary direct state aid amount of each district by the percentage determined in subsection (1)(a) to determine the portion of the county equalization money available to each school district.

(2) The procedure in subsection (1) must also be applied for the high school direct state aid.

(3) Territory situated within a county may not be excluded from the calculations of the county equalization money under this section solely because the territory lies within the

boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year may not be considered in the apportionment procedure prescribed in this section.

(4) The county equalization money reported under these procedures is the first source of revenue for financing the elementary and high school direct state aid payments.

20-9-406. Limitations on amount of bond issue — definition of federal impact aid basic support payment — oil and natural gas payment. (1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is 100% of the taxable value of the property subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, regardless of whether the general obligation bonds finance elementary program improvements or high school program improvements, is the sum of 100% of the taxable value of the property in its elementary program subject to taxation and 100% of the taxable value of the property in its high school program subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(c) (i) Unless the maximum amount calculated under subsection (1)(a) yields a greater amount, the maximum amount for which an elementary district or a high school district with a district mill value per elementary ANB or per high school ANB that is less than the facility guaranteed mill value per elementary ANB or high school ANB under 20-9-366 may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is the corresponding facility guaranteed mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, unless the maximum amount calculated under subsection (1)(b) yields a greater amount, the maximum amount for which the district may become indebted is the sum of the facility guaranteed mill value per elementary ANB times 1,000 times the elementary ANB of the district and the facility guaranteed mill value per high school ANB times 1,000 times the high school ANB of the district. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(ii) If mutually agreed upon by the affected districts, for the purpose of calculating its maximum bonded indebtedness under this subsection (1)(c), a district may include the ANB

of the district plus the number of students residing within the district for which the district or county pays tuition for attendance at a school in an adjacent district. The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB has been included in the ANB of the sending district pursuant to the mutual agreement. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(2) The maximum amounts determined in subsection (1) do not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to general obligation bonds issued for the repayment of tax protests lost by the district. All general obligation bonds issued in excess of the amount are void, except as provided in this section.

(3) The maximum amount of impact aid revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual federal impact aid basic support payments for the 5 years immediately preceding the issuance of the bonds. However, at the time of issuance of the bonds, the average annual payment of principal of and interest on the impact aid bonds each year may not exceed 35% of the total federal impact aid basic support payments of the school district for the current year.

(4) The maximum amount of oil and natural gas revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual oil and natural gas production taxes received pursuant to 15-36-331, 15-36-332, and 20-9-310 for the 2 fiscal years immediately preceding the issuance of the bonds. At the time of the issuance of the bonds, the average annual payment of principal of and interest on the oil and natural gas revenue bonds each year may not exceed 35% of the total oil and natural gas production taxes received by the school district under the limitations in 20-9-310 for the immediately preceding fiscal year. If the oil and natural gas revenue bonds are also secured by a deficiency tax levy as provided in 20-9-437, the debt limitation provided in subsection (1) of this section applies to the bonds.

(5) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(6) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

(7) As used in this part, "federal impact aid basic support payment" means the annual impact aid revenue received by a district under 20 U.S.C. 7703(b) but excludes revenue received for impact aid special education under 20 U.S.C. 7703(d) and impact aid construction under 20 U.S.C. 7707.

20-9-407. Industrial facility agreement for bond issue in excess of maximum. (1) In a school district within which a new major industrial facility that seeks to qualify for taxation as class five property under 15-6-135 is being constructed or is about to be constructed, the school district may require, as a precondition of the new major industrial facility qualifying as class five property, that the owners of the proposed industrial facility enter into an agreement with the school district concerning the issuing of bonds in excess of the limitation prescribed in 20-9-406. Under an agreement, the school district may, with the approval of the voters, issue bonds that exceed the limitation prescribed in this section by a maximum of 100% of the estimated taxable value of the property of the new major industrial facility subject to taxation when completed. The

estimated taxable value of the property of the new major industrial facility subject to taxation must be computed by the department of revenue when requested to do so by a resolution of the board of trustees of the school district. A copy of the department's statement of estimated taxable value must be printed on each ballot used to vote on a bond issue proposed under this section.

(2) Pursuant to the agreement between the new major industrial facility and the school district and as a precondition to qualifying as class five property, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, as much of the principal and interest on the bonds provided for under this section as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in this section, the new major industrial facility is entitled, after all the current indebtedness of the school district has been paid, to a tax credit over a period of no more than 20 years. The credit must as a total amount be equal to the amount that the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(3) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this part, the following definitions apply:

(1) "Amortization bond" means that form of bond on which a part of the principal is required to be paid each time that interest becomes due and payable. The part payment of principal increases with each following installment in the same amount that the interest payment decreases, so that the combined amount payable on principal and interest is the same on each payment date. However, the payment on the initial interest payment date may be less or greater than the amount of other payments on the bond, reflecting the payment of interest only or the payment of interest for a period different from that between other interest payment dates. The final payment may vary from prior payments in amount as a result of rounding prior payments.

(2) "General obligation bonds" means bonds that pledge the full faith and credit and the taxing power of a school district.

(3) "Impact aid revenue bonds" means bonds that pledge and are payable solely from federal impact aid basic support payments received and deposited to the credit of the fund established in 20-9-514.

(4) "Oil and natural gas revenue bonds" means bonds that pledge and are payable from a first lien on oil and natural gas production taxes received by a school district pursuant to 20-9-310. Oil and natural gas revenue bonds to which a tax deficiency is pledged are not considered general obligation bonds that are eligible to receive guaranteed tax base aid pursuant to 20-9-367 but are to be considered in determining the debt limit of a school district for the purposes of 20-9-406.

(5) "Serial bonds" means a bond issue payable in annual installments of principal commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing or subject to mandatory sinking fund redemption in each installment, commencing with the installment payable in the fourth year after the date of issue, not exceeding three times the principal amount of the bonds payable in the immediately preceding installment.

20-9-410. Limitation of term and interest — timing for redemption. (1) Except as provided in subsection (2), school district bonds may not be issued for a term longer than 20 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. Other than refunding or redeeming bonds, all bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and the redemption option must be stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) School district bonds may be issued for a term of up to 30 years if the rate on the bonds is less than or equal to the rate on bonds issued with a term of 20 years and the bonds are sold to the United States or an agency, instrumentality, or corporation of the United States.

(3) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

2017 Amendment: Chapter 337 in (1) at beginning of first sentence inserted exception clause; inserted (2) concerning issuance of school district bonds for term of up to 30 years; and made minor changes in style. Amendment effective May 7, 2017.

20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue refunding bonds, the trustees, at a regular meeting or a special meeting, shall adopt a resolution setting forth:

- (a) the facts regarding the outstanding bonds that are to be redeemed;
- (b) the reasons for issuing new bonds; and
- (c) the term and details of the new bond issue.

(2) After the adoption of the resolution, the trustees shall:

- (a) sell the bonds at a private negotiated sale; or
- (b) at their option, give notice of the sale of the new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell the new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Except for bonds refunded by a school district under the provisions of Title 17, chapter 5, part 16, including any variable rate finance program that is authorized, bonds may not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least 1/2 of 1% a year less than the rate of interest in the bonds to be refunded or redeemed.

(4) If a refunding bond issue refunds only a portion of an outstanding bond issue, the unrefunded portion of the outstanding bond issue and the refunding bond issue must be treated as a single bond issue for the purposes of 20-9-408.

(5) Refunding bonds may be issued in a principal amount greater than the principal amount of the outstanding bonds if there is a reduction of total debt service cost to the district.

(6) (a) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which the bonds mature or are subject to redemption, provided that the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale of the bonds, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or outside of the state.

(b) Except as provided in subsection (6)(c), funds deposited must be invested in securities that are general obligations of the United States or the principal and interest of which are guaranteed by the United States and that mature or are callable at the option of the holder on the dates and bear interest at the rates and are payable on the dates that are required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each bond being refunded to its maturity or redemption date, if called for redemption, to pay the principal of the bond at maturity or upon the redemption date, and to pay any redemption premium.

(c) If the funds initially deposited in escrow are sufficient, without regard to any investment income on those funds, to redeem in full the bonds being refunded as of their redemption date and to pay the principal of and interest and premium on the bonds being refunded at their stated maturities, the funds may be invested in the securities described in subsection (6)(b) or in a money market fund that is composed exclusively of eligible securities described in 7-6-202 and that otherwise satisfies the requirements of 7-6-202(3).

(d) The escrow account must be irrevocably appropriated to the payment of the principal of and interest and redemption premium on the bonds being refunded. Funds in the debt service fund for the payment of the bonds being refunded and not required for the payment of principal of or interest on the bonds being refunded due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds that are refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

20-9-439. Computation of net levy requirement for general obligation bonds — procedure when levy inadequate. Subject to 20-6-326, the following provisions apply:

(1) The county superintendent shall compute the levy requirement for each school district's general obligation debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state advance for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371;

(iv) funds transferred from the impact aid fund established pursuant to 20-9-514 that are authorized by 20-9-437(2) to be used to repay the district's bonds; and

(v) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from sources such as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for payment purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county.

20-9-440. Payment of debt service obligations — termination of interest. (1) The school district shall provide the county treasurer with a general obligation bond, oil and natural gas revenue bond, or impact aid revenue bond debt services schedule. The county treasurer shall maintain a separate debt service fund for each school district and, if bonds are to be issued as either impact aid revenue bonds or oil and natural gas revenue bonds, shall maintain a separate impact aid revenue bond debt service fund or oil and natural gas revenue bond debt service fund, as applicable, and an impact aid revenue bond debt service reserve account or oil and natural gas revenue bond debt service reserve account, if required. (2) The county treasurer shall pay from the debt service fund all amounts of interest and principal on school district bonds as the interest or principal becomes due when the coupons or bonds are presented and surrendered for payment and shall pay all special improvement district assessments as they become due. If the bonds are held by the state of Montana, then all payments must be remitted to the state treasurer who shall cancel the coupons or bonds and return the coupons or bonds to the county treasurer with the state treasurer's receipt. In either case, interest on the bond or installment continues until payment is made.

(4) Any installment on interest and principal on bonds held by the state that is not promptly paid when due draws interest at an annual rate of 6% from the date due until actual payment, irrespective of the rate of interest on the bonds.

20-9-441. Redemption of bonds — investment of debt service fund money.

(1) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more bonds of the school district held by the state of Montana, the county treasurer shall apply the money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice not less than 30 days before the next interest due date to the board of investments that the bonds will be paid on the interest due date. Before the interest due date, the county treasurer shall remit to the state treasurer the amount of money that is necessary to pay the bonds that are being redeemed and the interest due on the bonds. When the state treasurer receives the payment, the treasurer shall cancel the bonds and any unpaid coupons of the bonds and return the canceled bonds and coupons to the county treasurer.

(2) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more optional bonds of the school district not held by the state of Montana, not yet due but then redeemable or becoming redeemable on the next interest due date, the county treasurer shall apply the available money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice to the holder of the bonds, if known, or to any bank or financial institution at which the bonds are payable, at least 30 days before the next interest due date, that the bonds will be paid and redeemed on that date. If the bonds are payable at some bank or financial institution, the county treasurer shall remit to the bank or financial institution, before the interest due date, an amount sufficient to pay and redeem the bonds. If the bonds are not presented for payment and redemption on the interest due date, the accrual of interest ceases on the interest due date.

(3) Whenever there is money available in any school district debt service fund sufficient to pay and redeem one or more outstanding bonds not yet due or redeemable and not held by the state of Montana, the trustees of the school district may direct the county treasurer to purchase the bonds of the district if this can be done at not more than par and accrued interest or at a reasonable premium that the trustees may feel justified in paying, but not exceeding 6%.

(4) Whenever the trustees cannot purchase outstanding bonds of the school district at a reasonable price, the available debt service fund money must be invested by the trustees under the provisions of 20-9-213(4). The investments must be sold in ample time before the debt service fund money is required for the payment of the bonds of the school district.

20-9-471. Issuance of obligations — authorization — conditions. (1) The trustees of a school district may, without a vote of the electors of the district, issue and sell to the board of investments obligations for the purpose of financing all or a portion of:

(a) the costs of vehicles and equipment and construction of buildings used primarily for the storage and maintenance of vehicles and equipment;

(b) the costs associated with renovating, rehabilitating, and remodeling facilities, including but not limited to roof repairs, heating, plumbing, electrical systems, and cost-saving measures as defined in 90-4-1102;

(c) the costs of nonpermanent modular classrooms necessary for student instruction when existing buildings of the district are determined to be inadequate by the trustees;

(d) any other expenditure that the district is otherwise authorized to make, subject to subsection (4), including the payment of settlements of legal claims and judgments; and

(e) the costs associated with the issuance and sale of the obligations.

(2) The term of the obligation, including an obligation for a qualified energy project, may not exceed 15 fiscal years. For the purposes of this subsection, a “qualified energy project” means a project designed to reduce energy use in a school facility and from which the resulting energy cost savings are projected to meet or exceed the debt service obligation for financing the project, as determined by the department of environmental quality.

(3) (a) At the time of issuing the obligation, there must exist an amount in the budget of an applicable budgeted fund of the district for the current fiscal year available and sufficient to make the debt service payment on the obligation coming due in the current year. The budget of an applicable budgeted fund of the district for each following year in which any portion of the principal of and interest on the obligation is due must provide for payment of that principal and interest.

(b) For an obligation sold under subsection (1)(d) for the purposes of paying a tax protest refund, a district may pledge revenue from a special tax protest refund levy for the repayment of the obligation, pursuant to 15-1-402(7).

(4) Except as provided in 20-9-502, 20-9-503, and subsections (1)(a) and (1)(c) of this section, the proceeds of the obligation may not be used to acquire real property or construct a facility unless:

(a) the acquisition or construction project does not constitute more than 20% of the square footage of the existing real property improvements made to a facility containing classrooms;

(b) the 20% square footage limitation may not be exceeded within any 5-year period; and

(c) the electors of the district approve a proposition authorizing the trustees to apply for funds through the board of investments for the construction project. The proposition must be approved at an election held in accordance with all of the requirements of 20-9-428, except that the proposition is considered to have passed if a majority of the qualified electors voting approve the proposition.

(5) The school district may not submit for a vote of the electors of the district a proposition to impose a levy to pay the principal or any interest on an obligation that is payable from the guaranteed cost savings under energy performance contracts as defined in 90-4-1102.

(6) Except as provided in subsection (3)(b), the obligation must state clearly on its face that the obligation is not secured by a pledge of the school district’s taxing power but is payable from amounts in its general fund or other legally available funds.

(7) An obligation issued is payable from any legally available fund of the district and constitutes a general obligation of the district.

(8) The obligation may bear interest at a fixed or variable rate and may be sold to the board of investments at par, at a discount, or with a premium and on any other terms and conditions that the trustees determine to be in the best interests of the district.

(9) The principal amount of the obligation, when added to the outstanding bonded indebtedness of the district, may not exceed the debt limitation established in 20-9-406.

the fund established in 20-9-514 and pledge to the holders of the impact aid revenue bonds all of the money in the impact aid revenue bond debt service fund.

(2) Upon receipt of the federal impact aid basic support payment, the county treasurer shall deposit in the impact aid revenue bond debt service fund the amount that is required to pay the principal of and interest on the impact aid revenue bonds coming due in the next 12-month period and to restore any deficiency in the impact aid revenue bond debt service reserve account. A lien of any pledge is valid and binding against all parties that have claims of any kind against the school district, regardless of whether the parties have notice of the lien. The bond resolution or indenture of trust that creates the pledge, when adopted by the trustees of any district, is notice of the creation of the pledge, and those instruments are not required to be recorded in any other place to perfect the pledge.

(4) The state pledges to and agrees with the holders of impact aid revenue bonds that the state will not limit, alter, or impair the ability of a school district to qualify for impact aid revenue or in any way impair the rights and remedies of the bondholders until all bonds issued under this section, together with interest on the bonds, interest on any unpaid installments of principal or interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the bondholders, are fully met and discharged. The trustees of any district, as agents for the state, may include this pledge and undertaking in resolutions and indentures authorizing and securing the bonds.

(3) Any pledge made pursuant to this section is valid and binding from the time the pledge is made, and the money pledged and received by the county treasurer on behalf of the school district to be placed in the debt service fund is immediately subject to the lien of the pledge without any future physical delivery or further act. A lien of any pledge is valid and binding against all parties that have claims of any kind against the school district regardless of whether the parties have notice of the lien. (ii) a cooperative employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the cooperative's interlocal cooperative fund if the fund is supported solely from districts' general funds and state special education allowable cost payments, pursuant to 20-9-321, or are paid from the miscellaneous programs fund, provided for in 20-9-507, from money received from the medicaid program, pursuant to 53-6-101;

(iii) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the district's school food services fund provided for in 20-10-204; and

(iv) a district employee whose salary and health-related benefits, if any health-related benefits are provided to the employee, are paid from the district impact aid fund, pursuant to 20-9-514.

(b) For an employee whose benefits are not paid from the retirement fund, the district or the cooperative shall pay the employer's contributions to the retirement, federal social security, and unemployment insurance systems from the funding source that pays the employee's salary.

(3) The trustees of a district required to make a contribution to a system referred to in subsection (1) shall include in the retirement fund of the final budget the estimated amount of the employer's contribution. After the final retirement fund budget has been adopted, the trustees shall pay the employer contributions to the systems in accordance with the financial administration provisions of this title.

(4) When the final retirement fund budget has been adopted, the county superintendent shall establish the levy requirement by:

(a) determining the sum of the money available to reduce the retirement fund levy requirement by adding:

(i) any anticipated money that may be realized in the retirement fund during the ensuing school fiscal year;

(ii) oil and natural gas production taxes;

(iii) coal gross proceeds taxes under 15-23-703;

(iv) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the retirement fund operating reserve for

the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the retirement fund. The retirement fund operating reserve may not be more than 20% of the final retirement fund budget for the ensuing school fiscal year and must be used for the purpose of paying retirement fund warrants issued by the district under the final retirement fund budget.

(v) any other revenue anticipated that may be realized in the retirement fund during the ensuing school fiscal year, excluding any guaranteed tax base aid;

(b) notwithstanding the provisions of subsection (9), subtracting the money available for reduction of the levy requirement, as determined in subsection (4)(a), from the budgeted amount for expenditures in the final retirement fund budget.

(a) total the net retirement fund levy requirements separately for all elementary school districts, all high school districts, and all community college districts of the county, including any prorated joint district or special education cooperative agreement levy requirements; and

(b) report each levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values as the respective county levy requirements for elementary district, high school district, and community college district retirement funds.

(6) The county commissioners shall fix and set the county levy or district levy in accordance with 20-9-142.

(7) The net retirement fund levy requirement for a joint elementary district or a joint high school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

(8) The net retirement fund levy requirement for districts that are members of special education cooperative agreements must be prorated to each county in which the district is located in the same proportion as the special education cooperative budget is prorated to the member school districts. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county in the same manner as provided in 20-9-151, and the county commissioners shall fix and levy the net retirement fund levy for each county in the same manner as provided in 20-9-152.

(9) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (5)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

(10) The levy for a community college district may be applied only to property within the district.

(11) The county superintendent of each county shall submit a report of the revenue amounts used to establish the levy requirements for county school funds supporting elementary and high school district retirement obligations to the superintendent of public instruction on or before September 15. The report must be completed on forms supplied by the superintendent of public instruction.

2017 Special Session Amendment: Chapter 2 deleted former (4)(a)(v) that read: "(v) property tax reimbursements made pursuant to 15-1-123(6)"; and made minor changes in style. Amendment effective July 1, 2018.

20-9-502. Purpose and authorization of building reserve fund — levy for school transition costs. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(i) the purpose or purposes for which the new or addition to the building reserve will be used;

(ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). Except as provided in subsection (3)(g), the trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified school major maintenance projects meeting the requirements of 20-9-525(2). The 10-mill limit under this section must be calculated using the district's total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) may not exceed the district's school major maintenance amount. For the purposes of this section, the term "school major maintenance amount" means the sum of \$15,000 and the product of \$100 multiplied by the district's budgeted ANB for the prior fiscal year. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than June 1 for fiscal year 2017 only and no later than March 31 for fiscal years 2018 and subsequent fiscal years, a resolution:

(A) identifying the anticipated school major maintenance projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to

20-9-525(3), and the resulting estimated number of mills to be levied using the district's taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.

(b) Proceeds from the levy may be expended only for the purposes under 20-9-525(2), and the expenditure of the money must be reported in the annual trustees' report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this section during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) in the district's building reserve fund budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this section is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3).

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district's local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(g) A district awarded a quality schools facility grant pursuant to [former] Title 90, chapter 6, part 8, during the biennium beginning July 1, 2017, may not impose the levy under this subsection (3) during the biennium beginning July 1, 2017.

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

(i) open a new school under the provisions of Title 20, chapter 6;

(ii) close a school;

(iii) replace a school building;

(iv) consolidate with or annex another district under the provisions of Title 20, chapter 6; or

(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or \$250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for consolidation or annexation:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) A subfund in the building reserve fund must be created for the funds transferred to the building reserve fund for school safety and security pursuant to 20-9-236.

20-9-503. Budgeting, tax levy, and use of building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include the authorized amount in the building reserve fund of the final budget. The county superintendent shall report the amount as the building reserve fund levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund may:

(a) pledge the revenue from the building reserve fund levy for up to 15 years to repay loans used only for projects authorized by the electors of the district pursuant to 20-9-502.

(b) expend money from the fund for the purpose or purposes for which it was authorized without the specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to begin the authorized projects. The expenditures may not invalidate the district’s authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest the money in accordance with 20-9-213(4). The interest earned from the investment must be credited to the building reserve fund or the debt service fund, at the discretion of the trustees, and expended for any purpose authorized by law for the fund.

20-9-504. Extracurricular fund for pupil functions. (1) The trustees of a district may establish an extracurricular fund for the purposes of receiving and expending money collected for pupil extracurricular functions. All extracurricular money of a pupil organization of the

school must be deposited and expended by check from a bank account maintained for the extracurricular fund.

(2) An accounting system for the extracurricular fund recommended by the superintendent of public instruction must be implemented by the trustees. The accounting system must provide for:

- (a) the internal control of the cash receipts and expenditures of the money; and
- (b) a general account that can be reconciled with the bank account for the extracurricular fund and reconciled with the detailed accounts within the extracurricular fund maintained for each student function.

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

- (a) elementary tuition obligations to other districts;
- (b) transportation of the resident pupils;
- (c) maintenance of district-owned property; and
- (d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

The nonoperating budget must contain the nonoperating fund and, when appropriate, a debt service fund. The nonoperating budget form must be promulgated and distributed by the superintendent of public instruction under the provisions of 20-9-103.

(2) After the adoption of a final budget for the nonoperating fund, the county superintendent shall compute the net levy requirement for the fund by subtracting from the amount authorized by the budget the sum of:

(a) first, making any repairs categorized as "safety", "damage/wear out", or "codes and standards" in the facilities condition inventory for buildings of the school district as referenced in the K-12 public schools facility condition and needs assessment final report prepared by the Montana department of administration pursuant to section 1, Chapter 1, Special Laws of December 2005; and

(i) updating the facility condition inventory as recommended in the final report referenced in subsection (2)(a) with the scope and methods of the review to be determined by the trustees, employing experts as the trustees determine necessary. The first update must be completed by July 1, 2019, and each district shall certify the completion to the office of public instruction no later than October 31, 2019. Subsequent updates must be certified to the office of public instruction no less than once every 5 years following the first certification.

- (D) plumbing systems;
- (E) electrical systems and lighting systems;
- (F) information technology infrastructure, including internet connectivity both within and to the school facility; and
- (G) other critical repairs to an existing school facility or facilities.

(3) (a) In any year in which the legislature has appropriated funds for distribution from the school major maintenance aid account, the superintendent of public instruction shall administer the distribution of school major maintenance aid from the school major maintenance aid account for deposit in the subfund of the building reserve fund provided for in 20-9-502(3)(e). Subject to proration under subsection (5) of this section, aid must be annually distributed no later than the last working day of May to a school district imposing a levy pursuant to 20-9-502(3) in the current school fiscal year, with the amount of state support per dollar of local effort of the applicable elementary and high school program of each district determined as follows:

(i) using the taxable valuation most recently certified by the department of revenue under 15-10-202:

(A) divide the total statewide taxable valuation by the statewide total of school major maintenance amounts and multiply the result by 171%;

(B) multiply the result determined under subsection (3)(a)(i)(A) by the district's school major maintenance amount;

(C) subtract the district's taxable valuation from the amount determined under subsection (3)(a)(i)(B); and

(D) divide the amount determined under subsection (3)(a)(i)(C) by 1,000;

(ii) determine the greater of the amount determined in subsection (3)(a)(i) or 18% of the district's mill value; and

(iii) multiply the result determined under subsection (3)(a)(ii) by the district's school major maintenance amount, then divide the product by the sum of the result determined under subsection (3)(a)(ii) and the district's school major maintenance amount.

(b) For a district with an adopted general fund budget in the prior year greater than or equal to 97% of the district's general fund maximum budget in the prior year, the amount determined in subsection (3)(a)(iii) rounded to the nearest cent is the amount of school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(c) For a district with an adopted general fund budget in the prior year less than 97% of the district's maximum budget in the prior year, multiply the amount determined in subsection (3)(a)(iii) by the ratio of the district's adopted general fund budget in the prior year to the district's maximum general fund budget in the prior year. The result, rounded to the nearest cent, is the amount of state school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(4) Using the taxable valuation most recently certified by the department of revenue under 15-10-202, the superintendent shall provide school districts with a preliminary estimated amount of state school major maintenance aid per dollar of local effort for the ensuing school year no later than March 1 and a final amount for the current school year no later than July 31.

(5) If the appropriation from or the available funds in the school major maintenance aid account in any school fiscal year are less than the amount for which school districts would otherwise qualify, the superintendent of public instruction shall proportionally prorate the aid distributed to ensure that the distributions do not exceed the appropriated or available funds.

(6) If in any fiscal year the amount of revenue in the school major maintenance aid account is sufficient to fund school major maintenance aid without a proration reduction pursuant to subsection (5) and if in that same fiscal year the amount of revenue available in the school

facility and technology account established in 20-9-516 will result in a proration reduction in debt service assistance pursuant to 20-9-346(2)(b) for that fiscal year, the state treasurer shall transfer any excess funds in the school major maintenance aid account to the school facility and technology account, not to exceed the amount required to avoid a proration reduction.

(7) For the purposes of this section, the following definitions apply:

(a) “Local effort” means an amount of money raised by levying no more than 10 mills pursuant to 20-9-502(3) and, provided that 10 mills have been levied, any additional amount of money deposited or transferred by trustees to the subfund pursuant to 20-9-502(3).

(b) “School major maintenance amount” means the sum of \$15,000 and the product of \$100 multiplied by the district’s budgeted ANB for the prior fiscal year. *(Bracketed language in subsection (2) terminates June 30, 2019—sec. 28, Ch. 6, Sp. L. November 2017.)*

The amount budgeted pursuant to levies approved prior to July 1, 2013, may not, over time, exceed 150% of the original cost of the equipment.

(4) The annual revenue requirement for each district’s technology acquisition and depreciation fund determined within the limitations of this section must be reported by the county superintendent of schools to the board of county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values as the technology acquisition and depreciation fund levy requirement for that district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(2) A representative of the applicable district and a parent or guardian of the child to be transported shall be present when the distance is measured.

(3) The measurement shall begin 6 yards from the family home and end 6 yards from the entrance of the school grounds closest to the route.

(1) The trustees of a district may furnish transportation to an eligible transportee who attends a school of the district or has been granted permission to attend a school outside of the district. Whenever the trustees of a district provide transportation for an eligible transportee, the trustees shall provide all eligible transportees of the district with transportation. The trustees shall furnish transportation when directed to do so by the county transportation committee and when that direction is upheld by the superintendent of public instruction.

(2) The tendering of a contract to the parent or guardian under which the district would pay the parent or guardian for individually transporting the pupil or pupils fulfills the district's obligation to furnish transportation for an eligible transportee. The parent or guardian of an eligible transportee may provide transportation or arrange for transportation for the parent's or guardian's child at the parent's or guardian's own expense to any district willing to accept the child.

(c) on a school bus operated for the purpose of relieving congestion in a school building or to avoid the necessity of erecting a new building or for any other reasons of economy or convenience.

(2) When the trustees of a district provide school bus transportation to an ineligible transportee under the conditions of subsection (1)(a) or (1)(b), the district may charge each ineligible transportee a proportionate share, as determined by the trustees, of the cost of operating the school bus. Money realized from the payments must be deposited to the credit of the transportation fund.

(2) Any school bus transportation by a private party or individual transportation that is furnished by a district must be under contract, and district, county, or state money may not be paid for transportation services to any person or firm who does not hold a legal contract with the district. Transportation contracts for the ensuing year must be completed by the fourth Monday of June, except when an eligible transportee establishes residence in the district after the fourth Monday of June and a contingency amount is included in the regular transportation budget or an emergency transportation budget is adopted.

(b) it must be completed on forms promulgated by the superintendent of public instruction;

(c) the parent or guardian shall sign an affidavit attesting to the place of residence of the child or children; and

(a) secure bids by publishing during a period of 21 days at least three calls for bids in a newspaper of the county that will give notice to the largest number of people of the district or in the official newspaper of the county; the trustees shall let the contract to the lowest responsible bidder, and the trustees shall have the right to reject any and all bids; or

Such a negotiated contract can be entered into only at a public meeting of the trustees at which meeting the patrons of the district may appear and be heard. Notice of the meeting must have been published in a newspaper of wide circulation within the district at least 1 week prior to the meeting.

(2) The provisions of this section for awarding a contract for school bus transportation shall be subject to the provisions of 20-9-204.

(3) The trustees shall not expend any moneys of the district for school bus transportation by a private party or for individual transportation unless:

(a) a contract for such transportation services has been completed; and

(b) such contracted services for school bus transportation by a private party have been actually furnished except that the failure to perform may be excused by the trustees for reasons not under the control of the contractor; or

(c) such contracted services for individual transportation have been actually furnished as confirmed by the actual attendance of school by the eligible transportees and recorded on the school attendance records or, in the case of a supervised correspondence course or supervised home study, as confirmed by the trustees; except that the contracted services furnished one way on any school day shall be reimbursed at one-half the daily contract amount.

20-10-126. Establishment of transportation service areas. (1) The territory of a transportation service area is the territory of a school district unless the county transportation committee approves alternative boundaries after determining that the adjustments will improve pupil safety, transportation efficiency, or the cost-effectiveness of the pupil transportation system of the county.

(2) (a) Except as provided in subsection (2)(b), a district may not extend a bus route to transport pupils from outside its transportation service area unless the district has a written agreement with the district that the county transportation committee has assigned to transport the pupils.

(b) A district may extend a bus route across another transportation service area if the district determines that it is necessary in order to provide transportation to pupils in the district's own transportation service area. Under this subsection (2)(b), a district may not transport pupils from outside its transportation service area.

(3) When the trustees of two or more districts enter into a written agreement to authorize transportation services among transportation service areas, a copy of the agreement must be

submitted to the county superintendent and approved by the county transportation committee. Upon approval by the committee, the transportation agreements are valid for the current school year.

(4) The trustees of any district who object to a particular bus route or transportation service area to which the district has been assigned may request a transfer to another bus route or transportation service area. The county transportation committee may transfer the territory of the district to an adjacent transportation service area or approved bus route with the consent of the district providing transportation in the adjacent transportation service area.

(5) The trustees of any district who object to a bus route operated by another district may bring that route to the attention of the county transportation committee. If the committee agrees that the district is operating a portion of its route as an unapproved route outside of its district boundaries, the committee shall file with the district a written warning concerning the unapproved route, and if the district, in spite of the warning, continues to operate the route, the committee may withdraw its approval of the entire route.

(6) If the qualified electors of the district object to the decision of the county transportation committee and the adjacent district is willing to provide school bus service, 20% of the qualified electors, as prescribed in 20-20-301, may petition the trustees to conduct an election on the proposition that the territory of the district be transferred for pupil transportation purposes to the adjacent transportation service area. If a satisfactory petition is presented to the trustees, the trustees shall call an election on the proposition in accordance with 20-20-201 for the next ensuing regular school election day. The election must be conducted in accordance with the school election laws. If a majority of those voting at the election approve the transfer, the transfer is effective on July 1 of the ensuing school fiscal year.

(7) Unless a transfer of territory from one transportation service area or approved bus route to another area or bus route is approved by the superintendent of public instruction and the county transportation committee, the state transportation reimbursement is limited to the reimbursement amount for pupil transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

(2) The county transportation committee must have at least five members, and if this minimum membership cannot be realized in the manner prescribed in subsections (1)(a) through

(1)(e), the county superintendent shall appoint a sufficient number of members to satisfy the minimum membership requirement.

(2) In an emergency situation, a temporary bus route change may be approved by the county superintendent. A bus route change approved by the county superintendent must be confirmed by the county transportation committee within 90 days in order to be continued for a period longer than 90 days.

(3) When the county transportation committee reviews a request for a new bus route or a change to an existing route, the committee shall consider the following:

(a) a map of the existing and proposed bus route;

(b) a description of turnarounds;

(c) conditions affecting safety;

(d) the total mileage and change in mileage of the affected bus route;

(h) a copy of the official minutes of the meeting at which the school trustees approved the new bus route or route change; and

(i) any other information that the county transportation committee considers relevant.

(4) When an application for increased reimbursement for individual transportation is presented to the county transportation committee, it must include a signed individual transportation contract and a copy of the official minutes of the meeting at which the trustees acted upon the request for increased reimbursement.

(5) After a factfinding hearing and decision on a transportation controversy, the trustees or a patron of the district may appeal the decision to the superintendent of public instruction, who shall issue a decision on the basis of the facts established at the county transportation committee hearing.

20-10-141. Schedule of maximum reimbursement by mileage rates. (1) The mileage rates in subsection (2) for school transportation constitute the maximum reimbursement to districts for school transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates may not limit the amount that

a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal year. All bus miles traveled on bus routes approved by the county transportation committee are reimbursable. Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) (a) The rate for each bus mile traveled must be determined in accordance with the following schedule:

- (i) 50 cents for a school bus as defined in 20-10-101(4)(a)(ii);
 - (ii) 95 cents for a school bus with a rated capacity of not more than 49 passenger seating positions;
 - (iii) \$1.15 for a school bus with a rated capacity of 50 to 59 passenger seating positions;
 - (iv) \$1.36 for a school bus with a rated capacity of 60 to 69 passenger seating positions;
 - (v) \$1.57 for a school bus with a rated capacity of 70 to 79 passenger seating positions; and
 - (vi) \$1.80 for a school bus with 80 or more passenger seating positions.
- (b) Nonbus mileage, as provided in subsection (1), must be reimbursed at a rate of 50 cents a mile.

(3) The rated capacity is the number of passenger seating positions of a school bus as determined under the policy adopted by the board of public education. If modification of a school bus to accommodate pupils with disabilities reduces the rated capacity of the bus, the reimbursement to a district for pupil transportation is based on the rated capacity of the bus prior to modification.

(4) The number of pupils riding the school bus may not exceed the passenger seating positions of the bus.

20-10-142. Schedule of maximum reimbursement for individual transportation.

The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section may not be altered by any authority other than the legislature. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian for actual miles transported on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if the schools are operated by different school districts, the total amount of the reimbursement must be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian must be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop that are located within 3 miles of one another, the total reimbursement must be determined under the provisions of this subsection (1) and must be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section is limited to one round trip a day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), a reimbursement may not be less than 35 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if the eligible transportees attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian must be separately reimbursed for transportation to each bus.

(3) When, because of excessive distances, impassable roads, or other special circumstances of isolation, the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, a parent or guardian may request an increase in the reimbursement rate. A request for increased rates because of isolation must be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances that exist to justify the increase. Before an increased rate because of isolation may be paid to the requesting parent or guardian, the rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the committee and the superintendent of public instruction, the trustees shall pay the increased rate because of isolation. The increased rate is 1½ times the rate prescribed in subsection (1).

(4) The state and county transportation reimbursement for an individual transportation contract may not exceed \$12.95 for each day of attendance for the first eligible transportee and \$8.40 for each day of attendance for each additional eligible transportee.

(5) When the isolated conditions of the household where an eligible transportee resides require an eligible transportee to live away from the household in order to attend school, the eligible transportee is eligible for the room and board reimbursement. Approval to receive the room and board reimbursement must be obtained in the same manner prescribed in subsection (3). The per diem rate for room and board is \$12.95 for one eligible transportee and \$8.40 for each additional eligible transportee of the same household.

(6) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate is the cost of the study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's

transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

- (a) an adequate amount to finance the maintenance and operation of school buses owned and operated by the district;
- (b) the annual contracted amount for the maintenance and operation of school buses by a private party;
- (c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;
- (d) any amount necessary for the purchase, rental, or insurance of school buses; and
- (e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

- (a) pupils not residing in the district at the time of the adoption of the final budget and who subsequently became residents of the district during the school fiscal year;
- (b) pupils who have become eligible transportees since the adoption of the final budget because their legal residence has been changed; or
- (c) other unforeseen increases in bus route mileage or obligations for payment of additional contracts for individual transportation for an eligible transportee for which state and county reimbursement is authorized under 20-10-141 and 20-10-142. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than \$100, in which case \$100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The trustees shall report the transportation fund budget on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted final budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation to the county superintendent. The contracts must substantiate all contracted school bus transportation services incorporated in the final budget.

Transportation fund as budgeted fund, 20-9-201.

20-10-144. (Temporary) Computation of revenue and net tax levy requirements for district transportation fund budget. Before the second Monday of August, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

- (a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate for each bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by the district); plus
- (b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus
- (c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted in the budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or \$100, whichever is larger, the contingency amount on the budget must be reduced to the limitation amount and used in this determination of the schedule amount; plus

(e) any estimated costs for transporting a child out of district when the child has mandatory approval to attend school in a district outside the district of residence.

(2) (a) The schedule amount determined in subsection (1) or the total transportation fund budget, whichever is smaller, is divided by 2 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) one-half is the budgeted state transportation reimbursement; and

(ii) one-half is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of fund balance for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and fund balance reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of 20 U.S.C. 7701, et seq., or other anticipated federal money received in lieu of that federal act;

(b) anticipated payments from other districts for providing school bus transportation services for the district;

(c) anticipated payments from a parent or guardian for providing school bus transportation services for a child;

(d) anticipated or reappropriated interest to be earned by the investment of transportation fund cash in accordance with the provisions of 20-9-213(4);

(e) anticipated revenue from coal gross proceeds under 15-23-703;

(f) anticipated oil and natural gas production taxes;

(g) anticipated transportation payments for out-of-district pupils under the provisions of 20-5-320 through 20-5-324;

(h) school district block grants distributed under 20-9-630;

(i) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year that may be used to finance the transportation fund; and

(j) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

(4) The district levy requirement for each district's transportation fund must be computed by:

(a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation budget amount; and

(b) subtracting the amount of money available to reduce the property tax on the district, as determined in subsection (3), from the amount determined in subsection (4)(a).

(5) The transportation fund levy requirements determined in subsection (4) for each district must be reported to the county commissioners on or before the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the transportation fund levy requirements for the district, and the levy must be made by the county commissioners in accordance with 20-9-142.

20-10-144. (*Effective July 1, 2018*) **Computation of revenue and net tax levy requirements for district transportation fund budget.** Before the second Monday of August, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. (i) any fund balance available for reappropriation as determined by subtracting the amount of the end-of-the-year fund balance earmarked as the transportation fund operating reserve for the ensuing school fiscal year by the trustees from the end-of-the-year fund balance in the transportation fund. The operating reserve may not be more than 20% of the final transportation fund budget for the ensuing school fiscal year and is for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

20-10-145. State transportation reimbursement. (1) A district providing school bus transportation or individual transportation in accordance with this title, board of public education transportation policy, and superintendent of public instruction transportation rules must receive a state reimbursement of its transportation expenditures under the transportation reimbursement rate provisions of 20-10-141 and 20-10-142. The state transportation reimbursement is one-half of the reimbursement amounts established in 20-10-141 and 20-10-142 or one-half of the district's transportation fund budget, whichever is smaller, and must be computed on the basis of the number of days the transportation services were actually rendered to transport eligible transportees, as defined in 20-10-101, to or from school to participate in the minimum aggregate hours of instruction required pursuant to 20-1-301. In determining the amount of the state transportation reimbursement, an amount claimed by a district may not be considered for reimbursement unless the amount has been paid in the regular manner provided for the payment of other financial obligations of the district.

(2) Requests for the state transportation reimbursement must be made by each district semiannually during the school fiscal year on the claim forms and procedure promulgated by the superintendent of public instruction. The claims for state transportation reimbursements must be routed by the district to the county superintendent, who after reviewing the claims shall send them to the superintendent of public instruction. The superintendent of public instruction shall establish the validity and accuracy of the claims for the state transportation reimbursements by determining compliance with this title, board of public education transportation policy, and the transportation rules of the superintendent of public instruction. After making any necessary adjustments to the claims, the superintendent of public instruction shall order a disbursement from the state money appropriated by the legislature of the state of Montana for the state transportation reimbursement.

(3) The superintendent of public instruction shall make the disbursement to each school district according to the following schedule:

(a) By September 1 of each year, the superintendent of public instruction shall make a payment equal to 50% of the state transportation reimbursement paid to the district in the previous school year.

(b) By March 31 of each year, the superintendent of public instruction shall make a payment to the district equal to the approved amount of state reimbursement for first semester transportation claims less the amount distributed to the district under subsection (3)(a).

(c) By June 30 of each year, the superintendent of public instruction shall make a payment to the district to pay the balance of the approved amount due to the district for first and second semester transportation.

(4) The payment of all the district's claims within one county must be made to the county treasurer of the county, and the county superintendent shall apportion the payment in accordance with the apportionment order supplied by the superintendent of public instruction.

(5) After adopting a budget amendment for the transportation fund in accordance with 20-9-161 through 20-9-166, the district shall send to the superintendent of public instruction a copy of each new or amended individual transportation contract and each new or amended bus route form to which the budget amendment applies. State reimbursement for the additional obligations must be paid as provided in subsection (1).

This percentage must be specified for each community college by the board of trustees of the district and approved by the board of regents.

 - (e) The spending of each restricted or designated funding source must be detailed separately in an expenditure schedule.
 - (f) The expenditure schedules provided in subsections (1)(c) through (1)(e) represent the total operating budget of the community college.
- (2) The board of regents shall review the proposed total operating budget and all its components and make any changes it determines necessary. The board of trustees of a community college district shall operate within the limits of the operating budget approved by the board of regents.

20-15-323. Definition of emergency for budgeting purposes. As used in this chapter, unless the context clearly indicates otherwise, the term “emergency” for the purpose of community college budgeting means:

- (1) the destruction or impairment of any community college district property necessary to the maintenance of the district, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering the property unfit for its present use;
- (2) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;
- (3) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district; or
- (4) any other reason of similar consequence that has been approved by the board of regents upon petition by the trustees of the district.

History: En. Sec. 51, Ch. 767, L. 1991.

20-15-324. Resolution for emergency budget — petition to board of regents.

(1) Whenever the trustees of a community college district decide that an emergency exists, they may adopt a resolution proclaiming the emergency by a unanimous vote of all members present at any meeting for which each trustee has been given reasonable notice of the time and place of holding the meeting. The emergency resolution must also state the facts constituting the emergency, the estimated amount of money required to meet the emergency, the funds affected by the emergency, and the time and place the board will meet for the purpose of considering and adopting an emergency budget for the funds for the current school fiscal year.

(2) If the trustees decide that an emergency exists for any reason other than the conditions specified in 20-9-161(1) through (3), they shall petition the board of regents for permission to adopt a resolution of emergency. The petition must set forth in writing the reasons for the request, the district funds affected by the emergency, the estimated amount of money required to meet the emergency for each affected fund, the anticipated sources of financing for the emergency expenditures, and any other information required by the board of regents. The petition must be signed by each trustee.

(3) The board of regents shall promptly approve or disapprove the petition requesting approval to adopt a resolution of emergency. If the petition is approved, the trustees may adopt

a resolution of emergency and take all other steps required for the adoption of an emergency budget. Approval of a petition by the board of regents authorizes the board of trustees to initiate emergency budget proceedings by resolution and does not relieve the trustees of the necessity of complying with the requirements of the emergency budgeting laws.

History: En. Sec. 52, Ch. 767, L. 1991.

20-15-325. Emergency budget limitation, preparation, and adoption procedures.

(1) The meeting of the trustees of a community college district to consider and adopt an emergency budget must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that an emergency exists, the trustees may make and adopt a preliminary emergency budget, on the regular budget form, setting forth fully the facts constituting the emergency. In adopting the preliminary emergency budget, the trustees may budget for any fund that was included on the final budget of the district for the current fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the emergency is the result of increased enrollment, the maximum amount of the emergency budget for all funds must be determined by budget amendment.

(3) If another type of emergency occurs, the budget must be limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the emergency, and the preliminary emergency budget must include the details of the proposed expenditures.

(4) After a majority of the trustees have voted to adopt the emergency budget, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the board of regents.

History: En. Sec. 53, Ch. 767, L. 1991; amd. Sec. 9, Ch. 260, L. 1995.

20-15-326. Determination of available financing — fixing and levying property taxation for emergency budget. (1) After the last day of the fiscal year for which an emergency budget has been adopted, the board of trustees shall determine the amount of the cash balance that is available to finance the emergency budget's outstanding warrants or registered warrants for each fund included on the emergency budget. The available amount of the cash balance of each fund must be determined by deducting from the county treasurer's yearend cash balance for the fund the outstanding warrants or registered warrants issued under the regularly adopted final budget for the fund and the cash reserve for the fund that the trustees have established, within the limitations of law, for the following fiscal year.

(2) The county treasurer shall prepare and deliver a statement on the financial cash status of each fund included on an emergency budget for a district that had an emergency budget during the preceding year to the board of county commissioners by the first Monday in August. The statement for each district emergency budget must include:

(a) the total amount of emergency warrants that are registered against each fund of the district; and

(b) the additional amount of money that is required to finance the registered warrants and interest on the warrants and that must be raised by a tax levy.

(3) For each fund of the emergency budget of each district requiring a tax levy as established by subsection (2)(b), the board of county commissioners shall at the time all other district and county taxes are fixed and levied, levy a tax on the taxable value of all taxable property of each applicable district that will raise sufficient financing to pay the amount established by the county treasurer.

(a) land;

(b) residence halls, dormitories, houses, apartments, and other housing facilities;

The charges, admissions, and fees are not considered tuition and may be collected from any or all students.
- (3) hold the net income derived from the operation of the facilities and the charges, admissions, and fees collected and devote the revenue from these sources to debt service and reserves, repairs, replacements, and betterments of the facilities or, so far as the revenue has not been previously obligated for these purposes, to the acquisition, erection, equipping, enlarging, or improvement of additional facilities of the types described in this section;
- (4) exercise full control and complete management of the facilities;
- (5) rent the facilities to other public or private persons, firms, and corporations for uses, at times, for periods, and at rates that in the board of trustees' judgment will be consistent with the full use of the facilities for academic purposes and will add to the revenue available for capital costs and debt service;
- (6) do all things necessary to plan for and propose financing, including all necessary loan applications, for:
 - (a) classroom, laboratory, library, bookstore, and other instructional facilities;
 - (b) office, recordkeeping, storage, equipment maintenance, and other administrative and operational facilities;
 - (c) stadiums, fieldhouses, armories, arenas, gymnasiums, swimming pools, and other facilities for athletic and military instruction, exhibitions, games, and contests;
 - (d) auditoriums, theaters, music halls, and other assembly, theatrical, musical, and entertainment facilities;

- (7) borrow money for any purpose stated in this section, including, if considered desirable by the board of trustees, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;
- (8) make purchases on a time or installment basis;
- (9) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;
- (10) pledge for the payment of the purchase price of a facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:
 - (a) the net income received from rents, board, or both in housing, food service, and other facilities;
 - (b) receipts from student building, activity, union, and other special fees prescribed by the board of trustees for all students;
 - (c) other income in the form of:
 - (i) gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;
 - (ii) receipts from athletic and other contests, exhibitions, and performances; and
 - (iii) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions; and
 - (d) the sum of subsections (10)(a) through (10)(c) in part or in whole;

(11) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, including land; and

(12) issue and sell or exchange bonds for the refunding of any outstanding bonds or other obligations issued for revenue-producing facilities.

20-25-306. Designation of holidays by board of regents. (1) The board of regents of higher education may designate the following business days as holidays for all employees of the university system in exchange for the same number of legal holidays enumerated in 1-1-216:

20-25-307. Disposition of land. (1) The board of regents may sell, exchange, and lease land and grant easements and licenses on land that is held or administered by the board of regents or the system and that is held by the state for the use and benefit of the board of regents or the system.

(2) The board of regents may not grant an estate or interest in land that was granted to the state in trust for the support and benefit of the system.

(3) In disposing of any estate or interest in land pursuant to subsection (1), the board of regents shall obtain consideration that equals or exceeds the full market value of the land. For sales and exchanges, full market value must be determined by the board of regents after an appraisal by a certified or licensed appraiser. If the appraiser determines that the valuation is not complicated and estimates, based on available data, that the full market value of the property is \$10,000 or less, the board of regents may use a restricted or limited appraisal.

(4) Before approving an exchange of land, the board of regents shall give the public notice of the proposed exchange and an opportunity to comment. The board of regents shall, upon request of any person, hold a public hearing in the area where the state land to be conveyed is located. Subject to subsection (6), the board of regents may, after review of the comments, approve the exchange if it determines that the exchange is in the best interests of the system.

(5) Prior to the sale of land, the board of regents shall prepare a request for proposals to purchase the land and publish public notice of the sale once a week for 4 consecutive weeks in a newspaper of general circulation published in the county where the land is situated. If a newspaper is not published in that county, notice must be published in any newspaper of general circulation in that county. The notice must describe the land to be sold, the appraised value of the land, the procedure by which persons may obtain the request for proposals, the terms and conditions of sale, and the criteria upon which each proposal will be evaluated. The sale procedure must provide reasonable opportunity for members of the public to submit proposals to purchase the land. The board of regents may sell the land only if it determines that the sale is in the best interests of the system. If the board of regents sells the land, the sale must be to the offeror whose proposal the board determines to be the most advantageous to the system, taking into consideration the price and the other evaluation criteria listed in the request for proposals.

(6) (a) The board of regents may sell or exchange the land only if the board of regents first:

(i) requests and obtains the written concurrence of the board of land commissioners;

(ii) provides proof that no use restrictions, encumbrances, or other conditions have been placed by the board of regents on the land proposed for sale or exchange that prevent the state from obtaining full market value for the land, taking into consideration the price and the other evaluation criteria listed in the request for proposals;

(iii) complies with the requirements of the Montana Environmental Policy Act provided in Title 75, chapter 1, parts 1 through 3; and

(iv) complies with the requirements of Montana antiquities laws provided in Title 22, chapter 3, part 4.

(b) The board of land commissioners may refuse to concur if it determines that:

(i) the sale or exchange does not return to the state full market value;

(ii) the evaluation criteria in the request for proposals or the sale procedure and proposal selection process did not provide the public with a reasonable opportunity to submit proposals to purchase the land or to have reasonable proposals selected;

(iii) the sale or exchange is not in the best interests of the state; or

(iv) the system has not complied with the requirements of subsections (6)(a)(ii) through (6)(a)(iv).

(7) After obtaining written concurrence of the board of land commissioners required in subsection (6), the board of regents shall convey the land by deed, executed by the presiding officer of the board or other person designated by the board, without covenants of warranty.

(a) borrow money for any purpose or purposes stated in parts 3 and 4 of this chapter, including, if considered desirable by the regents, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(b) make purchases on a time or installment basis;

(c) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(d) pledge for the payment of the purchase price of any facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(i) the net income received from rents, board, or both in housing, food service, and other facilities;

(ii) receipts from student building, activity, union, and other special fees prescribed by the regents for all students; and

(iii) (A) other income in the form of gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;

(B) receipts from athletic and other contests, exhibitions, and performances; and

(C) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions;

(e) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, other than land;

(f) secure any bonds authorized under this section by a trust indenture between the regents and any bank or trust company within or outside of the state of Montana or by a resolution establishing covenants of the regents with the holders of the bonds relating to:

(i) the construction, operation, use, and insurance of the facilities;

(ii) the segregation, expenditure, and audit of accounts of the bond proceeds and of the income pledged;

(iii) the establishment and collection of rents, charges, admissions, and fees sufficient to provide net income adequate for prompt payment of principal and interest on bonds and creation and maintenance of reserves for that purpose; and

(iv) other matters that the regents may determine to be necessary or desirable for the security and marketability of the bonds;

(g) subject to the following provisions, issue and sell or exchange bonds, secured as provided in this section, for the refunding of any outstanding bonds or other obligations issued by the regents:

(i) refunding bonds may, with the consent of the holders of the bonds to be refunded, be exchanged at par plus accrued interest for all or part of the bonds or may be sold at a price not less than par plus accrued interest. They may be secured by a pledge of the same revenue as the bonds refunded or by a pledge of different or additional revenues received at the same unit of the university. This subsection (1)(g) may not require the holder of any outstanding bond to accept payment of the bond or the delivery of a refunding bond in exchange for the bond, except in accordance with the terms of the outstanding bond. Bonds may be issued to refund interest as well as principal actually due and payable if the revenue pledged for the bonds are not sufficient, but not to refund any bonds or interest due that can be paid from revenue then on hand.

(ii) refunding bonds may bear interest at a rate lower or higher than the bonds refunded by the refunding bonds if they are issued to refund matured principal or interest for the payment of which revenue on hand is not sufficient, for the purpose of releasing revenue required for payment of the outstanding bonds permitting the pledge of the revenue for the security of other bonds as well as the refunding bonds, subject to the rights of the holders of the outstanding bonds until those bonds are fully paid and redeemed. Except as authorized in the preceding sentence, refunding bonds may not be issued unless their average annual interest rate, computed to their stated maturity dates and excluding any premium from the computation, is at least $\frac{3}{8}$ of 1% less than the average annual interest rate on the bonds refunded, computed to their respective stated maturity dates.

(iii) in any case in which refunding bonds are issued and sold 6 months or more before the earliest date on which all bonds refunded by the refunding bonds mature or are prepayable in accordance with their terms, the proceeds of the refunding bonds, including any premium and accrued interest, must be deposited in escrow with a suitable bank or trust company having its principal place of business within or outside of the state, which is a member of the federal reserve system and has a combined capital and surplus of not less than \$1 million, and must be invested in the amount and in securities maturing on the dates and bearing interest at the rates that will be required to provide funds sufficient to pay when due the interest to accrue on each bond refunded to its maturity or, if it is prepayable, to the earliest prior date upon which the bond may be called for redemption from the proceeds of the refunding bonds and to pay and redeem the principal amount of each bond at maturity or, if prepayable, on that redemption date and any premium required for redemption on that date. The resolution or indenture authorizing the refunding bonds must irrevocably appropriate for these purposes the escrow fund and all income from the escrow fund and must provide for the call of all prepayable bonds in accordance with their terms. The securities to be purchased with the escrow funds must be limited to general obligations of the United States, securities for which principal and interest payments are guaranteed by the United States, and securities issued by the following United States government agencies, including only banks for cooperatives, federal home loan banks, federal intermediate credit banks, federal land banks, and the federal national mortgage association. The securities must be purchased simultaneously with the delivery of the refunding bonds.

(iv) revenue or other funds on hand in excess of the amount pledged by resolutions or indentures authorizing outstanding bonds for the payment of principal and interest currently due on the outstanding bonds and reserves securing the payment may be used to pay the expenses incurred by the regents for the purpose of refunding, including but without limitation the cost of advertising and printing refunding bonds, legal and financial advice and assistance in connection with refunding the bonds, and the reasonable and customary charges of escrow

agents and paying agents. Revenue and other funds on hand, including reserves pledged for the payment and security of outstanding revenue bonds, may be deposited in an escrow fund created for the retirement of those bonds and may be invested and disbursed as provided in subsection (1)(g)(iii) to the extent consistent with the resolutions or indentures authorizing the outstanding bonds.

(h) sell bonds and sell or exchange refunding bonds issued under this section in the manner and upon the terms as to maturities, interest rates, and redemption privileges and for the price that the regents determine with the approval of the department of administration.

(2) If applicable, the regents shall specify whether the bonds issued under this section are tax credit bonds as provided in 17-5-117.

(1) Subject to a line item appropriation for purposes of this section, the regents shall provide a reimbursement to tribally controlled community colleges for enrolled resident nonbeneficiary students who are taking courses for which credit is transferable to another Montana college or university.

(2) Each tribal community college shall apply to the regents for this reimbursement. Except as provided in subsection (6), the money must be distributed on a prorated basis according to the eligible resident nonbeneficiary student enrollment in each tribal community college during the previous year. To qualify, a resident nonbeneficiary student must meet the residency requirements as prescribed for the system by the regents and must be enrolled in courses for which credit is transferable to another Montana college or university. The distribution for any resident nonbeneficiary student reimbursement must be limited to a maximum annual amount of \$3,280 for each full-time equivalent student.

(3) A reimbursement is contingent upon the tribal community college:

(a) being accredited or being a candidate for accreditation by the northwest commission on colleges and universities;

(b) entering into a contract or a state-tribal cooperative agreement, pursuant to Title 18, chapter 11, with the regents to provide the regents with information relating to eligibility of resident nonbeneficiary students and documentation on the curriculum to ensure that the content and quality of courses offered by the tribal community college are consistent with the standards adopted by the system;

(c) providing the regents with documentation that credits for the courses in which the resident nonbeneficiary students are enrolled will be accepted at another Montana college or university; and

(d) filing with the regents evidence that the college's enrollment of Indian students is at least 51%, as required by the Tribally Controlled Community College Assistance Act of 1978, 25 U.S.C. 1804.

(4) If funding is available pursuant to subsection (1), the legislature intends that the money be an amount in addition to the system budget approved in the general appropriations act.

(5) All funds appropriated under subsection (1) that are unspent revert to the state general fund.

(6) Prior to receiving money pursuant to subsection (1), each tribal community college shall grant to eligible resident nonbeneficiary students who meet the residency requirements, as prescribed for the system by the regents, fee waivers in the same percentage as the number of Indian students who are receiving fee waivers to attend a unit of the system bears to the total enrollment in the system.

(7) The calculation in subsection (6) is not intended to allow the university system to retain the calculated amount of funds. Waivers must be given to eligible students.

(8) As used in this section, “resident nonbeneficiary student” means a resident of the state of Montana who is not:

(a) a member of an Indian tribe; or

(b) a biological child of a member of an Indian tribe, living or deceased.

(1) There is a Montana university system assistance program administered by the board of regents through the office of the commissioner of higher education. The program must allow a private donor to make tax deductible contributions by cash, check, or money order that benefit a qualifying institution and students of these public institutions.

(2) As part of the program, the board of regents shall:

- (b) deposit donations to the program in the state special revenue account established by 20-25-456;

(c) develop procedures and forms that enable a donor to make contributions by cash, check, or money order for the benefit of a specific qualifying institution. If a donor does not select an institution, the donation must be allocated on an equal basis to all qualifying institutions by dividing the total donation by the number of qualifying institutions.

(d) develop procedures and forms that enable a donor to select the percentage of the donation that will be used by a qualifying institution for building projects, educational programs, and academic scholarships. If a donor does not make a selection, the donation may be used for the general support, maintenance, or improvement of the institution as provided in 17-3-1001(2).

(4) The board of regents shall distribute donor contributions to the qualifying institution's endowment fund. A distribution may not exceed the institution's allocation and must be used for the purpose established by the donor as provided in 20-25-455(2)(d). 20-25-501. Definitions. (1) Terms used in this part are defined as follows:

(a) "Domicile" means a person's true, fixed, and permanent home and place of habitation.

(b) "Minor" means a male or female person who has not obtained the age of 18 years.

(c) "Qualified person" means a person legally qualified to determine the person's own domicile.

(d) "Resident student" means:

(i) a student who has been domiciled in Montana for 1 year immediately preceding registration at any unit for any term or session for which resident classification is claimed. Attendance as a full-time student at any college, university, or other institution of higher education is not alone sufficient to qualify for residence in Montana.

(ii) any graduate of a Montana high school who is a citizen or resident alien of the United States and whose parents, parent, or guardian has resided in Montana at least 1 full year of the 2 years immediately preceding the student's graduation from high school. The classification continues for not more than 4 academic years if the student remains in continuous attendance at a unit; or

(iii) a member of the armed forces of the United States assigned to and residing in Montana, the member's spouse, or the member's dependent children.

(2) In the event that the definition of residency or any portion of the definition is declared unconstitutional as it is applied to payment of nonresident fees and tuition, the regents of the Montana university system may make rules on what constitutes adequate evidence of residency status not inconsistent with those court decisions.

20-25-503. Presumptions and rules as to domicile. (1) Unless the contrary appears to the unit registering authority, it is presumed the domicile of a minor is that:

(a) of the parents or, if one of them is deceased or they do not share the same domicile, of the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides; or

(b) of the minor's guardian when the court appointing the guardian certifies that the primary purpose of the appointment is not to qualify the minor as a resident of this state.

(2) A resident student who marries a nonresident does not by that fact alone lose resident status for tuition and fee purposes for a period of 4 years after marriage.

(3) Residence is not lost because of relocation as a member of the armed forces of the United States.

(4) A new domicile is established by a qualified person if the person is physically present in Montana with no intention to acquire a domicile outside of Montana.

(5) Domicile is not lost by absence from Montana with no intention to establish a new domicile.

(6) Montana high school graduates who are citizens or resident aliens of the United States are resident students of the system for 4 consecutive years of attendance if:

(a) they apply for admittance to the system within 1 year after graduation; and

(b) their parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom they customarily reside has resided in Montana in one of the 2 years immediately preceding the graduation.

(7) Upon moving to Montana, an adult employed on a full-time basis within the state of Montana may apply for in-state tuition classification for the adult's spouse or any dependent minor child, or both. If the person meets the requirement of full-time employment within the state of Montana and files for the payment of Montana state income taxes or files estimates of those taxes or is subject to withholding of those taxes and renounces residency in any other state and is not in the state primarily as a student, the person's spouse or any dependent minor child, or both, may at the next registration after qualifying be classified at the in-state rate so long as the person continues a Montana domicile. In the administration of this subsection, neither the full-time employee or spouse is eligible for in-state tuition classification if the primary purpose for coming to Montana was the education of the employee or spouse.

20-25-504. Evidence as to domiciliary intent — changes in status. (1) To determine the domicile of a person, the units of the system shall apply the following rules:

(a) Nonpayment of Montana income tax by a person whose income is sufficient to be taxed is highly persuasive evidence of non-Montana domicile.

(b) A person shall intend to establish a domicile in Montana.

(2) After registration, a student's classification for tuition and fee purposes remains unchanged in the absence of evidence to the contrary. A written statement of the evidence must be filed with the registering authority of the unit. Changes in classification must be in writing signed by the registering authority and take effect at the student's next registration.

(3) A minor shall qualify for a change in status only if the minor's parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides or legal guardian or person having legal custody completes the requirements for establishing domicile.

(4) It is presumed a minor or adult registered as a full-time student at any unit is not qualified for a change in the person's dependent's classification for tuition and fee purposes unless the person completes 12 continuous months of residence while not attending a unit of the system or other institution of higher learning or while serving in the armed forces.

(5) Any student whose request for classification as a resident student is denied has the right of appeal to the executive secretary of the Montana university system. Immediately upon rejection and at the request of the student, the registering authority shall forward a copy of the authority's decision and a complete file on the student to the executive secretary. The executive secretary may accept other evidence of residence from either the student, the registering authority, or other interested persons. Within 30 days of the receipt of the decision of the registering authority, the executive secretary shall determine the resident status of the student and shall notify the student and the registering authority of the decision. 20-25-1315. Legislative findings and purpose. (1) The legislature finds that:

- (a) air ambulance services provide a necessary, and sometimes lifesaving, means of transporting Montanans experiencing health emergencies;
- (b) Montanans desire adequate access to air ambulance services;
- (c) in many cases the high charges assessed by out-of-network air ambulance services and limited insurer and health plan reimbursements have resulted in Montanans incurring excessive out-of-pocket expenses; and
- (d) the federal Airline Deregulation Act preempts states from enacting any law related to a price, route, or service of an air carrier, which is interpreted as applying to air ambulance services.

(2) The purpose of 20-25-1315 through 20-25-1320 is to prevent Montanans from incurring excessive out-of-pocket expenses in out-of-network air ambulance situations in a manner that is not preempted by the Airline Deregulation Act.

(2) An insurer or health plan that assumes a responsibility pursuant to subsection (1) shall notify the air ambulance service of that assumption no later than the date the insurer or health plan issues payment under subsection (4).

Within the timeframe provided in this subsection (4)(a), the insurer or health plan shall notify the covered person of the amount of deductible, coinsurance, or copayment that is the covered person's responsibility to pay.

(b) The insurer or health plan responsible under subsection (1) shall make payment based on:

(i) the billed charges of the air ambulance service;

(ii) another amount negotiated with the air ambulance service; or

(iii) the median amount the insurer or health plan would pay to an in-network air ambulance service for the services performed.

(5) If after payment is made under subsection (4) the insurer or health plan and air ambulance service dispute whether any further payment obligation exists, the insurer or health plan and air ambulance service shall enter into the dispute resolution process set forth in 20-25-1318 through 20-25-1320. After the independent dispute resolution process is exhausted, the aggrieved party may pursue any available remedies in a court of competent jurisdiction.

(ii) serious impairment to bodily functions; or

(iii) serious dysfunction of any bodily organ or part; and

The insurance commissioner shall select an independent reviewer randomly from a list established under 20-25-1320.

(3) The insurer or health plan and air ambulance provider may by mutual agreement select an independent reviewer. The parties shall notify the insurance commissioner of the mutually agreed independent reviewer prior to the appointment of an independent reviewer under subsection (2).

(4) An independent reviewer's sole substantive determination under this part is the fair market price of the services that are the subject of the claim.

(5) The independent reviewer may make procedural rulings necessary to regulate the proceedings.

(6) The factors to be used in the independent reviewer's determination are:

(a) the training, qualifications, and composition of the air ambulance service personnel;

A conflict of interest includes but is not limited to an ownership or direct familial interest in an insurer, a health care provider, or an air ambulance service that may be involved in an independent dispute resolution procedure under 20-25-1318 and 20-25-1319.

26-1-813. Mediation — confidentiality — privilege — exceptions. (1) Mediation means a private, confidential, informal dispute resolution process in which an impartial and neutral third person, the mediator, assists disputing parties to resolve their differences. In the mediation process, decisionmaking authority remains with the parties and the mediator does not have authority to compel a resolution or to render a judgment on any issue. A mediator may encourage and assist the parties to reach their own mutually acceptable settlement by facilitating an exchange of information between the parties, helping to clarify issues and interests, ensuring that relevant information is brought forth, and assisting the parties to voluntarily resolve their dispute.

(2) Except upon written agreement of the parties and the mediator, mediation proceedings must be:

- (a) confidential;
- (b) held without a verbatim record; and
- (c) held in private.

(3) A mediator's files and records, with the exception of signed, written agreements, are closed to all persons unless the parties and the mediator mutually agree otherwise. Except as provided in subsection (5), all mediation-related communications, verbal or written, between the parties or from the parties to the mediator and any information and evidence presented to the mediator during the proceedings are confidential. The mediator's report, if any, and the information or recommendations contained in it, with the exception of a signed, written agreement, are not admissible as evidence in any action subsequently brought in any court of law or before any administrative agency and are not subject to discovery or subpoena in any court or administrative proceeding unless all parties waive the rights to confidentiality and privilege.

(4) Except as provided in subsection (5), the parties to the mediation and a mediator are not subject to subpoena by any court or administrative agency and may not be examined in any action as to any communication made during the course of the mediation proceeding without the consent of the parties to the mediation and the mediator.

(5) The confidentiality and privilege provisions of this section do not apply to information revealed in a mediation if disclosure is:

- (a) required by any statute;
- (b) agreed to by the parties and the mediator in writing, whether prior to, during, or subsequent to the mediation; or
- (c) necessary to establish a claim or defense on behalf of the mediator in a controversy between a party to the mediation and the mediator.

(6) Nothing in this section prohibits a mediator from conveying information from one party to another during the mediation, unless a party objects to disclosure.

The policy must state that employers shall support and encourage the practice of breastfeeding, accommodate the breastfeeding-related needs of employees, and ensure that employees are provided with adequate facilities for breastfeeding or the expression of milk for their children. At a minimum,

the policy must identify the means by which an employer will make available a space suitable for breastfeeding and breast pumping for a lactating employee, including the provision of basic necessities of privacy, lighting, and electricity for the pump apparatus. The space does not need to be fully enclosed or permanent, but must be readily available during the term that the employee needs the space.

(2) It is an unlawful discriminatory practice for any public employer:

(a) to refuse to hire or employ or to bar or to discharge from employment an employee who expresses milk in the workplace; or

(b) to discriminate against an employee who expresses milk in the workplace in compensation or in terms, conditions, or privileges of employment unless based upon a bona fide occupational qualification.

History: En. Sec. 1, Ch. 290, L. 2007.

39-2-216. Private place for nursing mothers. (1) All state and county governments, municipalities, and school districts and the university system shall make reasonable efforts to provide a room or other location in close proximity to the work area, other than a toilet stall, where an employee can express the employee's breast milk as provided in 39-2-215.

(2) All public employers are encouraged to establish policies to allow mothers who wish to continue to breastfeed after returning to work to have privacy in order to express milk and to provide facilities for milk storage.

History: En. Sec. 2, Ch. 290, L. 2007.

39-2-217. Break time for nursing mothers. All state and county governments, municipalities, and school districts and the university system shall provide reasonable unpaid break time each day to an employee who needs to express breast milk for the employee's child, as provided in 39-2-215 and 39-2-216, if breaks are currently allowed. If breaks are not currently allowed, the public employer shall consider each case and make accommodations as possible. The break time must, if possible, run concurrently with any break time already provided to the employee. A public employer is not required to provide break time under this section if to do so would unduly disrupt the public employer's operations.

History: En. Sec. 3, Ch. 290, L. 2007.

(b) an investigation is under way and the information requested of the employee is necessary to make a factual determination in the investigation.

(3) Nothing in this section:

(a) limits an employer's right to promulgate and maintain lawful workplace policies governing the use of the employer's electronic equipment, including a requirement for an

employee to disclose to the employer the employee's user name, password, or other information necessary to access employer-issued electronic devices, including but not limited to cell phones, computers, and tablet computers, or to access employer-provided software or e-mail accounts;

(b) prevents an employee from seeking injunctive relief in response to the provisions of subsection (2); or

(b) The term does not include a social media account that is:

(i) opened for or provided by an educational institution and intended solely for educational purposes; or

(ii) opened for or provided by an employer and intended solely for business-related purposes.

(6) (a) An employee or an applicant for employment may bring an action against an employer for violating this section within 1 year in a small claims court. An employee or an applicant for employment may also have a cause of action under 45-8-213.

(b) Damages are limited to \$500 or actual damages up to the limit provided in 3-10-1004. Legal costs may be awarded to the party that prevails in court.

(7) If an employer gains information improperly under this section and subsequently is involved in a computer security breach as provided in 30-14-1704, the employer is subject to penalties under 30-14-142.

(4) In municipal and county governments, the employer and employee may agree to a workday of more than 8 hours and to a 7-day, 40-hour work period:

39-29-102. Point preference or alternative preference in initial hiring for certain applicants — substantially equivalent selection procedure. (1) Subject to the restrictions in subsections (2) and (3), whenever a public employer uses a scored procedure, an applicant for an initial hiring, as defined in 39-30-103, must have added to the applicant's score the following percentage points of the total possible points that may be granted in the scored procedure:

(a) 5 percentage points if the applicant is a veteran; and

(b) 10 percentage points if the applicant is a disabled veteran or an eligible relative.

(2) A veteran, disabled veteran, or eligible relative may not receive the percentage points provided for in subsection (1) unless the person:

(a) is a United States citizen; and

(b) meets the minimum qualifications required for the position. If no applicant meets the minimum qualifications and the public employer fills a training position, veterans' preference must be applied.

(3) A disabled veteran who receives 10 percentage points under subsection (1)(b) may not receive an additional 5 percentage points under subsection (1)(a).

(4) Whenever a public employer uses a selection procedure other than a scored procedure, the public employer shall give preference to a disabled veteran, a person with a disability, a veteran, an eligible relative as defined in 39-29-101, and an eligible spouse as defined in 39-30-103, in that order, over any nonpreferred applicant holding substantially equal qualifications, as defined in 39-30-103.

(5) The preference under this section may include a guaranteed job interview for a veteran who meets the required qualifications for the position and has requested a preference, as provided in 39-29-103, if the public employer provides for a job interview preference by rule or ordinance. The guarantee of a job interview is not part of the preference claim that may be enforced as provided in 39-29-104.

History: En. Sec. 2, Ch. 646, L. 1989; amd. Sec. 1, Ch. 168, L. 1999; amd. Sec. 1, Ch. 191, L. 2013.

39-29-103. Notice and claim of preference. (1) A public employer shall, by posting or on the application form, give notice of the preference provided in 39-29-102.

(2) A job applicant who believes that the applicant is eligible to receive a preference shall claim the preference in writing before the time for filing applications for the position involved

has passed. Failure to make a timely preference claim for a position is a complete defense to an action instituted by an applicant under 39-29-104 with regard to that position.

(3) If an applicant for a position makes a timely written preference claim, the public employer:

(a) may, under an existing rule or ordinance implementing this subsection (3)(a), guarantee to a veteran a job interview for a position for which the veteran meets the required qualifications and has submitted a preference claim; and

(b) shall give written notice of its hiring decision to the applicant claiming preference.

History: En. Sec. 3, Ch. 646, L. 1989; amd. Sec. 2, Ch. 168, L. 1999; amd. Sec. 2, Ch. 191, L. 2013.

39-29-104. Enforcement of preference. (1) An applicant who believes that the applicant is entitled to but has not been given the preference provided in 39-29-102 may, within 30 days of receipt of the notice of the hiring decision provided for in 39-29-103, submit to the public employer a written request for an explanation of the public employer's hiring decision. Within 15 days of receipt of the request, the public employer shall give the applicant a written explanation.

(2) After following the procedure described in subsection (1), the applicant may, within 90 days after receipt of notice of the hiring decision, file a petition in the district court in the county in which the application was received by the public employer. The petition must state facts that on their face entitle the applicant to a preference.

(3) (a) Upon filing of the petition, the court shall order the public employer to appear in court at a specified time not less than 5 or more than 10 days after the day the petition was filed and show cause why the applicant was not hired for the position. At the hearing, the public employer has the burden of proving by a preponderance of the evidence that the public employer applied the preference under 39-29-102 and made a reasonable hiring decision. The applicant has the burden of proving by a preponderance of the evidence that the applicant is a preference-eligible applicant.

(b) The time to appear provided in subsection (3)(a) may be waived by stipulation of the parties. If a time to appear has been specified pursuant to subsection (3)(a), the court may, on motion of one of the parties or on stipulation of all of the parties, grant a continuance.

(c) If the public employer does not carry its burden of proof under subsection (3)(a) and the court finds that the applicant is a preference-eligible applicant, the court shall order the public employer to comply with the provisions of 39-29-102. In addition, the court shall, upon proper proof, grant an award of backpay, reasonable attorney fees, and costs.

(4) Failure of an applicant to file a petition under subsection (2) within 90 days bars the filing of a petition. If a public employer fails to provide an explanation under subsection (1) within 15 days and a petition is filed under subsection (2), the court shall order the public employer to comply with the provisions of 39-29-102.

(5) The Montana Rules of Civil Procedure apply to a proceeding under this section to the extent that they do not conflict with this section.

History: En. Sec. 4, Ch. 646, L. 1989; amd. Sec. 3, Ch. 168, L. 1999.

39-29-105 through 39-29-110 reserved.

39-29-111. Retention during reduction in force. (1) Subject to the restrictions in subsections (2) and (3), during a reduction in force, a public employer shall retain in a position:

(a) a veteran, disabled veteran, or eligible relative whose performance has not been rated unacceptable under a performance appraisal system over other employees with similar job duties and qualifications and same length of service; and

(b) a disabled veteran with a service-connected disability of 30% or more whose performance has not been rated unacceptable under a performance appraisal system over other veterans, disabled veterans, and eligible relatives with similar job duties and qualifications and same length of service.

(2) An employee is not entitled to preference in retention under subsection (1) unless the employee is a United States citizen.

(3) The preference in retention under subsection (1) does not apply to a position covered by a collective bargaining agreement.

History: En. Sec. 5, Ch. 646, L. 1989; amd. Sec. 1508, Ch. 56, L. 2009.

39-29-112. Adoption of rules. The department of administration shall adopt rules implementing this chapter, except that the decision of whether to guarantee a job interview to a veteran is a decision that may be made by a local government by ordinance. The department's rules apply to all local and state public employers.

History: En. Sec. 6, Ch. 646, L. 1989; amd. Sec. 3, Ch. 191, L. 2013.

Public Employee Self-Organization and Certification of Bargaining Representative

39-31-201. Public employees protected in right of self-organization. Public employees shall have and shall be protected in the exercise of the right of self-organization, to form, join, or assist any labor organization, to bargain collectively through representatives of their own choosing on questions of wages, hours, fringe benefits, and other conditions of employment, and to engage in other concerted activities for the purpose of collective bargaining or other mutual aid or protection free from interference, restraint, or coercion.

History: En. Sec. 3, Ch. 441, L. 1973; amd. Sec. 1, Ch. 244, L. 1974; R.C.M. 1947, 59-1603(1).

39-31-202. Board to determine appropriate bargaining unit — factors to be considered. (1) In order to ensure employees the fullest freedom in exercising the rights guaranteed by this chapter, the board or an agent of the board shall decide the unit appropriate for the purpose of collective bargaining and shall consider such factors as community of interest, wages, hours, fringe benefits, and other working conditions of the employees involved, the history of collective bargaining, common supervision, common personnel policies, extent of integration of work functions and interchange among employees affected, and the desires of the employees.

(2) If a state agency or facility of a state agency is reorganized to the extent that the reorganization results in substantial changes to the factors listed in subsection (1), the public employer representative, as provided in 39-31-301, may petition the board to make a new determination of the appropriate unit for the purpose of collective bargaining. In making this determination, the board shall take into account the consequences of the reorganization on each position in the affected agency or facility.

(3) Unless the board has received a petition, as provided in 39-31-207, to consider a collective bargaining unit that was not designated as an appropriate unit prior to the reorganization described in subsection (2), the board may not consider any labor organization that was not designated to represent employees of the affected agency or facility at the time that the reorganization became effective.

History: En. Sec. 6, Ch. 441, L. 1973; amd. Sec. 1, Ch. 136, L. 1975; R.C.M. 1947, 59-1606(2); amd. Sec. 1, Ch. 176, L. 1999.

39-31-203. Deduction of dues from employee's pay. Upon written authorization of any public employee within a bargaining unit, the public employer shall deduct from the pay of the public employee the monthly amount of dues as certified by the secretary of the exclusive representative and shall deliver the dues to the treasurer of the exclusive representative.

History: En. Sec. 12, Ch. 441, L. 1973; R.C.M. 1947, 59-1612.

39-31-204. Right of nonassociation with labor organization on religious grounds — requirements and procedure for assertion of right. (1) A public employee who is a member of a bona fide religious sect or division of a sect, the established and traditional tenets or teachings of which oppose a requirement that a member of the sect or division join or financially support a particular or any labor organization, may not be required to join or financially support that particular labor organization or any labor organization if the tenets or teachings oppose a requirement that any labor organization be joined or supported as a condition of employment. However, the public employee shall pay in lieu of periodic union dues, initiation fees, and assessments, at the same time or times the periodic union dues, initiation fees, and assessments would otherwise be payable, a sum of money equivalent to the periodic union dues, initiation fees, and assessments to a nonreligious, nonunion charity designated by the labor organization. The public employee shall furnish to the labor organization written receipts evidencing the payments, and failure to make the payments or furnish the receipts subjects the employee to the same sanctions as would nonpayment of dues, initiation fees, or assessments under the applicable collective bargaining agreement.

(2) A public employee desiring to exercise the right of nonassociation with a labor organization as provided in this section shall make written application to the presiding officer of the board of personnel appeals. Within 10 days of the date of receipt of an application, the presiding officer shall appoint a committee of three consisting of a member of the clergy not connected with the sect in question, a labor union official not directly connected with the labor organization in question, and a member of the public at large who is the presiding officer. The committee shall within 10 days of the date of its appointment meet at the locale of either the employee's residence or place of employment and, after receiving written or oral presentations from all interested parties, determine by a majority vote whether or not the public employee qualifies for the right of nonassociation with the labor organization. The committee's decision must be made in writing within 3 days of the meeting date, and a copy of the decision must be mailed to the public employee, labor organization, and presiding officer of the board of personnel appeals.

History: En. Sec. 3, Ch. 441, L. 1973; amd. Sec. 1, Ch. 244, L. 1974; R.C.M. 1947, 59-1603(5); amd. Sec. 1, Ch. 237, L. 1985; amd. Sec. 1511, Ch. 56, L. 2009.

39-31-205. Designated labor organizations to represent employees without discrimination. Labor organizations designated in accordance with the provisions of this chapter are responsible for representing the interest of all employees in the exclusive bargaining unit without discrimination for the purposes of collective bargaining with respect to rates of pay, hours, fringe benefits, and other conditions of employment.

History: En. Sec. 3, Ch. 441, L. 1973; amd. Sec. 1, Ch. 244, L. 1974; R.C.M. 1947, 59-1603(3).

39-31-206. Labor organization to guarantee certain rights and safeguards prior to certification or recognition. (1) Certification or recognition as an exclusive representative shall be extended or continued, as the case may be, only to a labor or employee organization the written bylaws of which provide for and guarantee the following rights and safeguards and whose practices conform to such rights and safeguards as:

- (a) provisions are made for democratic organization and procedures;
- (b) elections are conducted pursuant to adequate standards and safeguards;
- (c) controls are provided for the regulation of officers and agents having fiduciary responsibility to the organization; and
- (d) requirements exist for maintenance of sound accounting and fiscal controls, including annual audits.

(2) The board shall hear and decide all disputes arising under subsection (1).

History: En. Sec. 3, Ch. 441, L. 1973; amd. Sec. 1, Ch. 244, L. 1974; R.C.M. 1947, 59-1603(4); amd. Sec. 1, Ch. 18, L. 1985.

39-31-207. Petition on representation question — investigation by board — hearing. (1) The board or an agent of the board shall investigate the petition and, if it has reasonable cause to believe that a question of representation exists, it shall provide for an appropriate hearing upon due notice whenever, in accordance with such rules as may be prescribed by the board, a petition has been filed:

(a) by an employee or group of employees or any labor organization acting in their behalf alleging that 30% of the employees:

(i) wish to be represented for collective bargaining by a labor organization as exclusive representative; or

(ii) assert that the labor organization which has been certified or is currently being recognized by the public employer as bargaining representative is no longer the representative of the majority of employees in the unit; or

(b) by the public employer alleging that one or more labor organizations have presented to it a claim to be recognized as the exclusive representative in an appropriate unit.

(2) In this hearing, the board is not bound by common law and statutory rules of evidence.

History: En. Sec. 6, Ch. 441, L. 1973; amd. Sec. 1, Ch. 136, L. 1975; R.C.M. 1947, 59-1606(part).

39-31-208. Representation election at direction of board. (1) If the board or an agent of the board, in the hearing provided for in 39-31-207, finds that there is a question of representation, it shall direct an election by secret ballot to determine whether and by which labor organization the employees desire to be represented or whether they desire to have no labor organization represent them and shall certify the results thereof.

(2) Only those labor organizations which have been designated by more than 10% of the employees in the unit found to be appropriate shall be placed on the ballot.

(3) The board or an agent of the board shall determine who is eligible to vote in the election and shall establish rules governing the election.

(4) Unless the majority vote is for no representation by a labor organization and in any election where none of the choices for a representative on the ballot receives a majority, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest and the second largest number of valid votes cast in the election.

(5) A labor organization which receives the majority of the votes cast in an election shall be certified by the board as the exclusive representative.

History: En. Sec. 6, Ch. 441, L. 1973; amd. Sec. 1, Ch. 136, L. 1975; R.C.M. 1947, 59-1606(part); amd. Sec. 32, Ch. 397, L. 1979.

39-31-209. Consent election. Nothing in 39-31-207 or 39-31-208 prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the rules of the board.

History: En. Sec. 6, Ch. 441, L. 1973; amd. Sec. 1, Ch. 136, L. 1975; R.C.M. 1947, 59-1606(part).

39-31-210. Election in 12-month period following valid election prohibited. An election shall not be directed in any bargaining unit or in any subdivision thereof within which in the preceding 12-month period a valid election has been held.

History: En. Sec. 6, Ch. 441, L. 1973; amd. Sec. 1, Ch. 136, L. 1975; R.C.M. 1947, 59-1606(part).

39-31-211. Labor organizations representing employees of the board to be unaffiliated. A labor organization representing employees of the board may not affiliate or associate itself with a labor organization that represents any employees other than employees of the board. The board may not certify a labor organization as the exclusive representative of the employees of the board if, at the time of certification or thereafter, the labor organization is associated or affiliated with a labor organization that represents employees other than employees of the board.

History: En. Sec. 2, Ch. 271, L. 1979.

Part 3 Bargaining

39-31-301. Representative of public employer. The chief executive officer of the state, the governing body of a political subdivision, the commissioner of higher education, whether

elected or appointed, or the designated authorized representative shall represent the public employer in collective bargaining with an exclusive representative.

History: En. Sec. 9, Ch. 441, L. 1973; amd. Sec. 3, Ch. 313, L. 1974; amd. Sec. 1, Ch. 35, L. 1975; R.C.M. 1947, 59-1609.

39-31-302. Participation by student representative when public employer is board of regents. When the board of regents is the public employer defined in 39-31-103, the student government at an institution of higher education may designate an agent or representative to meet and confer with the board of regents and the faculty bargaining agent prior to negotiations with the professional educational employees, to observe those negotiations and participate in caucuses as part of the public employer's bargaining team, and to meet and confer with the board of regents regarding the terms of agreement prior to the execution of a written contract between the regents and the professional educational employees. The student observer is obliged to maintain the confidentiality of these negotiations.

History: En. Sec. 2, Ch. 441, L. 1973; amd. Sec. 1, Ch. 117, L. 1975; amd. Sec. 1, Ch. 384, L. 1975; R.C.M. 1947, 59-1602(part).

39-31-303. Management rights of public employers. Public employees and their representatives shall recognize the prerogatives of public employers to operate and manage their affairs in such areas as, but not limited to:

- (1) direct employees;
- (2) hire, promote, transfer, assign, and retain employees;
- (3) relieve employees from duties because of lack of work or funds or under conditions where continuation of such work be inefficient and nonproductive;
- (4) maintain the efficiency of government operations;
- (5) determine the methods, means, job classifications, and personnel by which government operations are to be conducted;
- (6) take whatever actions may be necessary to carry out the missions of the agency in situations of emergency;
- (7) establish the methods and processes by which work is performed.

History: En. Sec. 3, Ch. 441, L. 1973; amd. Sec. 1, Ch. 244, L. 1974; R.C.M. 1947, 59-1603(2).

39-31-304. Negotiable items for school districts. Nothing in this chapter shall require or allow boards of trustees of school districts to bargain collectively upon any matter other than matters specified in 39-31-305(2).

History: En. Sec. 2, Ch. 117, L. 1975; R.C.M. 1947, 59-1617.

39-31-305. Duty to bargain collectively — good faith. (1) The public employer and the exclusive representative, through appropriate officials or their representatives, have the authority and the duty to bargain collectively. This duty extends to the obligation to bargain collectively in good faith as set forth in subsection (2).

(2) For the purpose of this chapter, to bargain collectively is the performance of the mutual obligation of the public employer or the public employer's designated representatives and the representatives of the exclusive representative to meet at reasonable times and negotiate in good faith with respect to wages, hours, fringe benefits, and other conditions of employment or the negotiation of an agreement or any question arising under an agreement and the execution of a written contract incorporating any agreement reached. The obligation does not compel either party to agree to a proposal or require the making of a concession.

(3) For purposes of state government only, the requirement of negotiating in good faith may be met by the submission of a negotiated settlement to the legislature in the executive budget or by bill or joint resolution. The failure to reach a negotiated settlement for submission is not, by itself, prima facie evidence of a failure to negotiate in good faith.

History: (1)En. Sec. 4, Ch. 441, L. 1973; Sec. 59-1604, R.C.M. 1947; (2), (3)En. Sec. 5, Ch. 441, L. 1973; amd. Sec. 1, Ch. 36, L. 1975; amd. Sec. 1, Ch. 97, L. 1975; amd. Sec. 2, Ch. 384, L. 1975; Sec. 59-1605, R.C.M. 1947; R.C.M. 1947, 59-1604, 59-1605(3), (4); amd. Sec. 1512, Ch. 56, L. 2009.

39-31-306. Collective bargaining agreements. (1) An agreement reached by the public employer and the exclusive representative must be reduced to writing and must be executed by both parties.

(2) Except as provided in subsection (5), an agreement may contain a grievance procedure culminating in final and binding arbitration of unresolved grievances and disputed interpretations of agreements.

(3) An agreement between the public employer and a labor organization must be valid and enforced under its terms when entered into in accordance with the provisions of this chapter and signed by the chief executive officer of the state or political subdivision or commissioner of higher education or by a representative. A publication of the agreement is not required to make it effective.

(4) The procedure for the making of an agreement between the state or political subdivision and a labor organization provided by this chapter is the exclusive method of making a valid agreement for public employees represented by a labor organization.

(5) An agreement to which a school is a party must contain a grievance procedure culminating in final and binding arbitration of unresolved and disputed interpretations of agreements. The aggrieved party may have the grievance or disputed interpretation of the agreement resolved either by final and binding arbitration or by any other available legal method and forum, but not by both. After a grievance has been submitted to arbitration, the grievant and the exclusive representative waive any right to pursue against the school an action or complaint that seeks the same remedy. If a grievant or the exclusive representative files a complaint or other action against the school, arbitration seeking the same remedy may not be filed or pursued under this section.

History: En. Sec. 10, Ch. 441, L. 1973; amd. Sec. 4, Ch. 313, L. 1974; R.C.M. 1947, 59-1610; amd. Sec. 1, Ch. 582, L. 1993.

39-31-307. Mediation of disputes. If, after a reasonable period of negotiation over the terms of an agreement or upon expiration of an existing collective bargaining agreement, a dispute concerning the collective bargaining agreement exists between the public employer and a labor organization, the parties shall request mediation.

History: En. Sec. 14, Ch. 441, L. 1973; amd. Sec. 1, Ch. 18, L. 1975; R.C.M. 1947, 59-1614(1).

39-31-308. Initiation of factfinding — designation of fact finder. (1) If, upon expiration of an existing collective bargaining agreement or 30 days following certification or recognition of an exclusive representative, a dispute concerning the collective bargaining agreement exists between the employer and the exclusive representative, either party may petition the board to initiate factfinding.

(2) Within 3 days of receipt of such petition, the board shall submit to the parties a list of five qualified, disinterested persons from which the parties shall alternate in striking two names. The remaining person shall be designated fact finder. This process shall be completed within 5 days of receipt of the list. The parties shall notify the board of the designated fact finder.

(3) If no request for factfinding is made by either party before the expiration of the agreement or 30 days following certification or recognition of an exclusive representative, the board may initiate factfinding as provided for in subsection (2) above.

History: En. Sec. 14, Ch. 441, L. 1973; amd. Sec. 1, Ch. 18, L. 1975; R.C.M. 1947, 59-1614(2) thru (4).

39-31-309. Factfinding proceedings. (1) The fact finder shall immediately establish dates and place of hearings.

(2) The public employer and the exclusive representative are the only proper parties to factfinding proceedings.

(3) Upon request of either party or the fact finder, the board shall issue subpoenas for hearings conducted by the fact finder. The fact finder may administer oaths.

(4) Upon completion of the hearings, but no later than 20 days from the date of appointment, the fact finder shall make written findings of facts and recommendations for resolution of the dispute and shall serve the findings on the public employer and the exclusive representative. The fact finder may make this report public 5 days after it is submitted to the parties. If the dispute is not resolved 15 days after the report is submitted to the parties, the report must be made public.

(5) When a party petitions the board to initiate factfinding, the cost of factfinding proceedings must be equally borne by the parties. When the board initiates factfinding, the cost of factfinding proceedings must be equally borne by the board and the parties.

(6) Nothing in 39-31-307 through 39-31-310 prohibits the fact finder from endeavoring to mediate the dispute in which the fact finder has been selected or appointed.

History: En. Sec. 14, Ch. 441, L. 1973; amd. Sec. 1, Ch. 18, L. 1975; R.C.M. 1947, 59-1614(5) thru (8); amd. Sec. 33, Ch. 397, L. 1979; amd. Sec. 10, Ch. 90, L. 1995.

39-31-310. Submission of issues to arbitration. Nothing in 39-31-307 through 39-31-310 prohibits the parties from voluntarily agreeing to submit any or all of the issues to final and binding arbitration, and if such agreement is reached, the arbitration shall supersede the factfinding procedures set forth in those sections. An agreement to arbitrate and the award issued in accordance with such agreement shall be enforceable in the same manner as is provided in this chapter for enforcement of collective bargaining agreements.

History: En. Sec. 14, Ch. 441, L. 1973; amd. Sec. 1, Ch. 18, L. 1975; R.C.M. 1947, 59-1614(9).

39-31-311. Training of fact finders and arbitrators. The board of personnel appeals shall establish a course of education for the training of fact finders and arbitrators. A person may not serve as a fact finder or as an arbitrator under this chapter until the person has successfully completed the course or equivalent education.

History: En. 59-1614.1 by Sec. 1, Ch. 57, L. 1977; R.C.M. 1947, 59-1614.1; amd. Sec. 1513, Ch. 56, L. 2009.

39-31-312. Nonnegotiable items for state prison. Collective bargaining agreements entered after July 14, 1982, may not contain provisions prohibiting or restricting the use of inmate labor as provided for in 53-30-151.

History: En. Sec. 3, Ch. 7, Sp. L. 1982.

Part 4 Unfair Labor Practices

39-31-401. Unfair labor practices of public employer. It is an unfair labor practice for a public employer to:

(1) interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in 39-31-201;

(2) dominate, interfere, or assist in the formation or administration of any labor organization. However, subject to rules adopted by the board under 39-31-104, an employer is not prohibited from permitting employees to confer with the employer during working hours without loss of time or pay.

(3) discriminate in regard to hire or tenure of employment or any term or condition of employment in order to encourage or discourage membership in any labor organization. However, nothing in this chapter or in any other statute of this state precludes a public employer from making an agreement with an exclusive representative to require, as a condition of employment, that an employee who is not or does not become a union member must have an amount equal to the union initiation fee and monthly dues deducted from the employee's wages in the same manner as checkoff of union dues.

(4) discharge or otherwise discriminate against an employee because the employee has signed or filed an affidavit, petition, or complaint or given any information or testimony under this chapter; or

(5) refuse to bargain collectively in good faith with an exclusive representative.

History: En. Sec. 5, Ch. 441, L. 1973; amd. Sec. 1, Ch. 36, L. 1975; amd. Sec. 1, Ch. 97, L. 1975; amd. Sec. 2, Ch. 384, L. 1975; R.C.M. 1947, 59-1605(1); amd. Sec. 34, Ch. 397, L. 1979; amd. Sec. 1514, Ch. 56, L. 2009.

39-31-402. Unfair labor practices of labor organization. It is an unfair labor practice for a labor organization or its agents to:

(1) restrain or coerce:

(a) employees in the exercise of the right guaranteed in 39-31-201; or

(b) a public employer in the selection of a representative for the purpose of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with a public employer if it has been designated as the exclusive representative of employees;

(3) use agency shop fees for contributions to political candidates or parties at state or local levels.

History: En. Sec. 5, Ch. 441, L. 1973; amd. Sec. 1, Ch. 36, L. 1975; amd. Sec. 1, Ch. 97, L. 1975; amd. Sec. 2, Ch. 384, L. 1975; R.C.M. 1947, 59-1605(2); amd. Sec. 1515, Ch. 56, L. 2009.

39-31-403. Remedies for unfair labor practices. Violations of the provisions of 39-31-401 or 39-31-402 are unfair labor practices remediable by the board pursuant to this part.

History: En. Sec. 7, Ch. 441, L. 1973; R.C.M. 1947, 59-1607(part); amd. Sec. 35, Ch. 397, L. 1979.

39-31-404. Six-month limitation on unfair labor practice complaint — exception.

A notice of hearing may not be issued based upon any unfair labor practice more than 6 months before the filing of the charge with the board unless the person aggrieved was prevented from filing the charge by reason of service in the armed forces, in which event the 6-month period must be computed from the day of discharge.

History: En. Sec. 7, Ch. 441, L. 1973; R.C.M. 1947, 59-1607(part); amd. Sec. 1516, Ch. 56, L. 2009.

39-31-405. Unfair labor practice complaint — investigation — notice of hearing — service — answer. (1) Whenever a complaint is filed alleging that any person has engaged in or is engaging in any such unfair labor practice, the board shall issue and cause to be served upon the person a copy of the complaint and provide the person with an opportunity to respond to all charges. After receipt of responses from the charged party, an agent designated by the board for such purposes shall investigate the alleged unfair labor practice.

(2) If, after the investigation, the agent designated by the board determines that the charge is without probable merit, the board shall issue and cause to be served upon the complaining party and the person being charged notice of its intention to dismiss the complaint. The dismissal becomes a final order of the board unless either party requests a review of the decision to dismiss the complaint. The request for a review must be made in writing within 10 days of receipt of the notice of intention to dismiss. If a review is requested, the board may uphold its decision to dismiss the complaint or, pursuant to subsection (3), schedule a hearing on the merits. If the board upholds its decision to dismiss the complaint, the dismissal becomes a final order of the board.

(3) If after the investigation or after the review provided for in subsection (2), the board determines that there is probable merit for the charge, the board shall issue and cause to be served upon the complaining party and the party charged a notice of hearing before the board, a member thereof, or before a designated agent at a time and place therein fixed, not less than 5 working days after the date of service.

(4) If a hearing is to be held, the person against whom the charge is filed shall file an answer to the complaint.

(5) Each party to an unfair labor practice proceeding has the right to disqualify, without cause, the hearing examiner designated by the board to hear the complaint. The right may be exercised only once by each party and must be exercised within 5 days from the time a party is notified by the board of the hearing examiner designated to hear the matter. The exercise of this right is in addition to any rights a party has to disqualify a hearing examiner under 2-4-611.

History: En. Sec. 7, Ch. 441, L. 1973; R.C.M. 1947, 59-1607(part); amd. Sec. 1, Ch. 95, L. 1983; (5)En. Sec. 1, Ch. 211, L. 1983.

39-31-406. Hearing on complaint — findings — order. (1) The complainant and the person charged must be parties and shall appear in person or otherwise give testimony at the place and time fixed in the notice of hearing. In the discretion of the board or its agent conducting the hearing, any other person may be allowed to intervene in the proceeding and present testimony.

(2) In a hearing, the board is not bound by the rules of evidence prevailing in the courts.

(3) The testimony taken by the board or its agent must be reduced to writing and filed with the board. Thereafter, in its discretion, the board upon notice may take further testimony or hear argument.

(4) If, upon the preponderance of the testimony taken, the board is of the opinion that any person named in the complaint has engaged in or is engaging in an unfair labor practice, it shall state its findings of fact and shall issue and cause to be served on the person an order requiring the person to cease and desist from the unfair labor practice and to take affirmative action, including reinstatement of employees with or without backpay, that will effectuate the policies of this chapter. The order may further require the person to make reports from time to

time showing the extent to which the person has complied with the order. An order of the board may not require the reinstatement of an individual as an employee who has been suspended or discharged or the payment to the employee of any backpay if it is found that the individual was suspended or discharged for cause.

(5) If, upon the preponderance of the testimony taken, the board is not of the opinion that the person named in the complaint has engaged in or is engaging in the unfair labor practice, then the board shall state its findings of fact and shall issue an order dismissing the complaint.

(6) If the evidence is presented before a member of the board or before an examiner, the member or the examiner shall issue and cause to be served on the parties to the proceeding a proposed decision, together with a recommended order, which must be filed with the board, and if exceptions are not filed within 20 days after service of the proposed decision and recommended order upon the parties or within a further period that the board may authorize, the recommended order becomes the order of the board. The board shall issue a final order within 5 months after final briefs are submitted to the hearings officer. If briefs are to be submitted but either or both of the parties fail to submit their brief on the date set by the hearings examiner at the close of the hearing on the matter, then the board shall issue a final order within 5 months after the date the last brief was ordered to be submitted. If no briefs are to be submitted, the board shall issue a final order within 5 months after the hearing.

History: En. Sec. 7, Ch. 441, L. 1973; R.C.M. 1947, 59-1607(part); amd. Sec. 1, Ch. 369, L. 1979; amd. Sec. 1, Ch. 213, L. 1983; amd. Sec. 1517, Ch. 56, L. 2009.

39-31-407. Amendment of complaint. Any complaint may be amended by the complainant at any time prior to the issuance of an order based thereon, provided that the charged party is not unfairly prejudiced thereby.

39-31-408. Modification by board of findings and order. Until the record in a proceeding has been filed in district court, the board at any time, upon reasonable notice and in such manner as it considers proper, may modify or set aside, in whole or in part, any finding or order made or issued by it.

(2) Upon the filing of the petition, the district court shall have jurisdiction of the proceeding. Thereafter, the district court shall set the matter for hearing and shall order the party charged to be served with notice of hearing at least 20 days before the date set for hearing.

(3) No objection that has not been raised before the board shall be considered by the court unless the failure or neglect to raise the objection is excused because of extraordinary circumstances.

(4) The findings of the board with respect to questions of fact, if supported by substantial evidence on the record considered as a whole, shall be conclusive.

(5) If either party applies to the court for leave to present additional evidence and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to present it in the hearing before the board, the court may order the additional evidence to be taken before the board and to be made part of the record. The board may modify its findings as to the facts or make new findings by reason of additional evidence so taken and filed, and it shall file the modifying or new findings with the district court.

(6) After the hearing, the district court shall issue its order granting such temporary or permanent relief or restraining order as it considers just and proper, enforcing as so modified or setting aside, in whole or in part, the order of the board. Any order of the district court shall be subject to review by the supreme court in accordance with rules of civil procedure.

(7) The commencement of proceedings under subsections (1) through (6) of this section shall not, unless specifically ordered by the court, operate as a stay of the board's order.

CHAPTER 71 WORKERS' COMPENSATION

Part 15 Montana Safety Culture Act

39-71-1501. Short title. This part may be cited as the "Montana Safety Culture Act".

History: En. Sec. 1, Ch. 295, L. 1993; amd. Sec. 1, Ch. 170, L. 2003.

39-71-1502. Purpose. The purpose of this part is to reduce the incidence of occupational injury and illness by promoting safety in the workplace in order to control the costs of claims for workers' compensation insurance. The creation of a safety culture requires employers to provide training and education to make safety awareness part of the requirement for each worker's satisfactory job performance and requires the department to promote safety awareness for the public through the education and preparation of each student for entrance into the labor market. A reduction in workplace injuries, illnesses, and deaths through enhanced safety on the job benefits the public as well as the employers and the employees by lowering both financial and physical costs. Ensuring immunity to insurers in the provision of safety consultation services encourages and promotes safety in the workplace and improves the relationship between employers and employees.

History: En. Sec. 2, Ch. 295, L. 1993; amd. Sec. 2, Ch. 170, L. 2003.

39-71-1503. Safety consultation. (1) As used in this part, "safety consultation services" means assistance rendered by an insurer or the department to advise and aid an employer in the identification, evaluation, and control of existing and potential accidental and occupational health problems. The services may be delivered in person, by mail, electronically, or by telephone, based upon need.

(2) Safety consultation services include but are not limited to:

(a) surveys consisting of onsite identification and subsequent evaluation of exposures relative to employees, materials, equipment, work methods, processes, and facilities;

(b) recommendations expressed in the form of communications to an employer, with reference to control of exposures to occupational accident, injury, or illness and to improvement of safety programs and systems;

(c) education and training programs, including aids, programs, and materials made available to assist in the control of exposures;

(d) consultations to advise employers relative to risk, exposure, and experience in the employer's business;

(e) accident analysis consisting of review of reported accidents to determine cause and trends; and

(f) industrial hygiene services, including recognition, evaluation, and control of chemical, physical, and biological exposures.

History: En. Sec. 3, Ch. 295, L. 1993; amd. Sec. 3, Ch. 170, L. 2003; amd. Sec. 16, Ch. 27, L. 2009.

39-71-1504. Safety programs — educational activities. (1) To promote health and safety in places of employment in this state:

(a) each public or private employer shall establish and administer a safety program in accordance with rules adopted by the department pursuant to 39-71-1505; and

(b) the department, relying upon the support and assistance of concerned private entities or other governmental agencies, shall produce and distribute material to the schools of Montana and provide guest speakers intended to:

(i) educate students about the necessity for safe work practices;

(ii) prepare students to embark on accident-free careers; and

(iii) disseminate information promoting the reduction and control of the rate of incidence of workplace injuries or occupational disease.

(2) An employer who employs temporary workers shall include those workers in the employer's safety program. A temporary services contractor shall provide a safety program for employees not employed by other employers.

(3) The department may issue a safety recommendation to an employer who fails to comply with the requirements of this section or with rules adopted by the department pursuant to 39-71-1505.

History: En. Sec. 4, Ch. 295, L. 1993; amd. Sec. 1, Ch. 58, L. 2001.

39-71-1505. Rulemaking authority. The department shall adopt rules, including but not limited to rules that require:

(1) each employer to conduct an educational-based safety program, including but not limited to:

- (a) a safety training program to provide:
 - (i) new employee general safety orientation;
 - (ii) job- or task-specific safety training; and
 - (iii) continuous refresher safety training, including periodic safety meetings;
- (b) periodic hazard assessment, with corrective actions identified; and
- (c) appropriate documentation of performance of the activities; and

(2) an employer of more than five employees to have a comprehensive and effective safety program, including but not limited to:

(a) subject to subsection (3), a safety committee composed of employee and employer representatives that holds regularly scheduled meetings;

(b) procedures of reporting and investigating all work-related incidents, accidents, injuries, and illnesses; and

(c) policies and procedures that assign specific safety responsibilities and safety performance accountability.

(3) The department may adopt rules authorizing:

(a) a plan No. 2 or plan No. 3 insurer to waive the requirement in subsection (2)(a) for a safety committee if the employer presents sufficient evidence of an effective written safety plan and has a satisfactory modification factor, if applicable, or has a low incident record of injuries; or

(b) the department to waive the requirement in subsection (2)(a) for a safety committee if a plan No. 1 insurer approved by the department presents sufficient evidence of an effective safety program, including a written safety plan. A waiver granted under this subsection (3)(b) to a member of the self-insurers guaranty fund must be made with the concurrence of the fund.

History: En. Sec. 5, Ch. 295, L. 1993; amd. Sec. 1, Ch. 238, L. 1995.

39-71-1506. Notification of safety consultation services available by insurer. To implement safety requirements, each insurer shall notify each insured employer of the type of safety consultation services available and the location where the safety consultation services may be requested.

History: En. Sec. 6, Ch. 295, L. 1993.

39-71-1507. Safety consultation services — safety program as provision of insurance contract or agreement. (1) Each insurer shall provide safety consultation services to each of its insured employers who request the assistance.

(2) The safety consultation services to be provided are within the discretion of the insurer but must include consideration of the hazard, experience, and size of the insured employer's operations.

(3) The insurer shall establish a system of priorities to use in responding to worksite safety consultation service requests, giving first priority to insured employers that have an unreasonably high actual or potential loss experience.

(4) Each insurer's insurance contract or agreement must require each insured employer to implement a safety program as part of the contract or agreement to provide workers' compensation coverage.

History: En. Sec. 7, Ch. 295, L. 1993.

39-71-1508. Safety consultation services — insurer's exemption from civil liability — exceptions. (1) The furnishing of or the failure to furnish safety consultation services related to, in connection with, or incidental to a workers' compensation insurance contract or agreement to provide workers' compensation coverage does not subject the insurer or its agents, employees, or service contractors to liability for damages from injury, loss, or death, whether

direct or consequential, occurring as a result of any act or omission by any person in the course of providing safety consultation services.

(2) Subsection (1) does not apply:

(a) if the injury, loss, or death occurred during the actual performance of safety consultation services and was directly and proximately caused by the negligence of the insurer or its agents, employees, or service contractors;

(b) to any safety consultation services required to be performed under the provisions of a written service contract for which a specific charge is made and not incidental to a policy of insurance; or

(c) in an action against an insurer or its agents, employees, or service contractors for damages caused by the act or omission of the insurer or its agents, employees, or service contractors in which it is judicially determined that the act or omission constituted a crime or involved actual malice.

History: En. Sec. 9, Ch. 295, L. 1993.

(3) upon its attaining majority.

History: En. Sec. 291, Civ. C. 1895; re-en. Sec. 3749, Rev. C. 1907; re-en. Sec. 5841, R.C.M. 1921; Cal. Civ. C. Sec. 204; Field Civ. C. Sec. 95; re-en. Sec. 5841, R.C.M. 1935; R.C.M. 1947, 61-112.

History: En. Sec. 1, Ch. 195, L. 1957; amd. Sec. 1, Ch. 227, L. 1977; R.C.M. 1947, 61-112.1; amd. Sec. 1, Ch. 560, L. 1981; amd. Sec. 1, Ch. 4, L. 2013.

Part 5

Caretaker Relative — Authorization for Medical Care

40-6-501. Purpose — legislative intent — parental rights — definitions. (1) The legislature recognizes that the rights of parents to the custody and control of a child are based upon liberties secured by the United States and Montana constitutions and that a parent's rights to that custody and control of a child are therefore normally supreme to the interests of other persons. The legislature also recognizes a growing phenomenon in which absent or otherwise unavailable parents have temporarily surrendered the custody and care of their children to a grandparent or other relative for lengthy periods of time. Regardless of the purpose of the absence, a child willfully surrendered to a relative for an extended time period still has the same needs as a child in the care of its parents. In this situation, a caretaker relative assumes responsibilities for the child but has no legal right of control over the child, a situation that interferes in the caretaker relative's ability to perform routine functions of child rearing, including tending to the medical needs of the child. It is therefore the purpose of the legislature in these instances to protect the rights of a child granted by Article II, section 15, of the Montana constitution by granting a caretaker relative limited authority for a child left in the relative's care.

(2) It is the intent of the legislature that a caretaker relative given the responsibility of caring for a child with little or no warning and without any other provision having been made for the child's care, such as the appointment of a guardian or the provision of a power of attorney, be granted authority to consent to medical care for the child without superseding any parental rights regarding the child.

(3) Section 40-6-502 and this section are not intended to affect the rights and responsibilities of a parent, legal guardian, or other custodian regarding the child, do not grant legal custody of the child to the caretaker relative, and do not grant authority to the caretaker relative to consent to the marriage or adoption of the child or to receive notice of a medical procedure, including abortion, not consented to by the relative, if notice is required by law, for the child except as expressly provided in this section.

(4) For the purposes of 40-6-502 and this section, the following definitions apply:

(a) "Caretaker relative" or "relative" means an individual related by blood, marriage, or adoption by another individual to the child whose care is undertaken by the relative, but who is not a parent, foster parent, stepparent, or legal guardian of the child.

(b) "Caretaker relative medical authorization affidavit" or "affidavit" means an affidavit completed in compliance with 40-6-502.

(c) "Health care provider" means a person who provides medical care.

(d) "Medical care" means care by a health care provider, for which parental consent is normally required, for the prevention, diagnosis, or treatment of a mental, physical, or dental injury or disease.

(e) "Parent" means a biological or adoptive parent or other legal guardian of a child.

History: En. Sec. 1, Ch. 393, L. 2007.

40-6-502. Caretaker relative medical authorization affidavit — use — immunity — format. (1) A caretaker relative of a child who has voluntarily been given custody of the child by a parent of the child has the same authority as a custodial parent of the child to consent to medical care for the child for which parental consent is usually required if:
