

To assist in planning and managing instructional time effectively, estimated testing times for each testlet have been provided. These ranges represent the duration, in minutes, that it took for 50% to 80% of students to complete each testlet, based on statewide data collected during the 2024-2025 school year. Many students may complete a testlet more quickly and some students may take longer. These ranges should be considered general guidelines, with flexibility to accommodate individual student needs as necessary.
