1. Ramsay School is requesting Variance on Standard 10.55.709, Library Media Specialist.

2. The Ramsay Administrator will attend the Parent Group meeting to be held in March. To relay the information gathered in the survey questionnaire sent home to students on Wednesday February 14th. Parents will have a window of one week to return feedback to the variance requested by the district.

3. Attached please find the variance memo sent to parents and the summary of the results to the Variance.

4. See attached. Completed by Cindy Lasalle, Clerk of The Board of Trustees.

5. Ramsay Elementary currently serves 160 students in a K-8 school. We are required to employ an approximately .5 FTE Librarian for which we are requesting a variance. Ramsay is an independent district outside of Butte. Due to budgetary limitations we do not have funds to employ a person with a Library Media Specialist Degree, half time. There are nine classrooms, K-8, and all students participate in Library classes once per week with the Library Paraprofessional, Mrs. Schelin, that has worked closely with our current .2 FTE District Librarian. She is experienced with check-out, data entry, and organizational processes. Mrs. Schelin has spent time training under our previously employed full time Librarian Mrs. Shelly Fortune, retired. Ms. Venturelli is a certified Library Media Specialist, currently employed on an .2 FTE basis. Mrs. Venturelli is currently using the district Library Media Standards to develop lessons and she works with Mrs. Schelin and the classroom teachers to align these lessons to the other curriculum standards that are covered at each grade level. Our students at Ramsay receive the required amount of Library instructional time provided by the current combination of staff.

6. The mission of Ramsay Elementary Library is to provide an excellent class and resource site to our students and community. The goals are to continue providing reading materials for enjoyment and instructional purposes, maintain access to computers and internet services for instructional purposes, information and as research tools, and to continue providing Library instruction that aligns with the Montana Standards for our students.
7. Ramsay School will continue to assign a .2, Certified Library Media Specialist and a library Paraprofessional that will provide weekly services for our students. The schedule will consist of one fifty-minute class per week for each classroom. Classes will be dedicated to exploration of literature through read-aloud and selection of books for checkout, skill building activities in research and all other lessons needed to cover the library Media Standards. Ramsay School’s Library Paraprofessional will continue to Work with our Certified Librarian for any training as needed, sharing of information in materials and teaching techniques, and to be updated in Library Media standards.

8. Our Library use will be documented by the schedule that is maintained for instruction, and a record of student checkout will be maintained to monitor increases or decreases in circulation, and for areas of interest so inventory can be increased or replaced as needed. Data provided by Accelerated Reader will also be used to monitor the progress of students taking comprehension tests after each book read. Lesson plans will be maintained to document implementation of Library Media standards by grade level.

9. This variance will provide Ramsay School’s students the appropriate lessons, designed to help the students obtain appropriate reading level materials that support their rigorous academic core research needs, as well as their leisure time reading material, through hard copy and online source materials. The variance also provides continued support service for intervention work in our reading programs and enrichment for our writing programs.

10.

a. This model has been in effect for many years at Ramsay. with a Library Media Specialist certified staff member providing, standards based, required curriculum that is delivered by our Paraprofessional that has been working at Ramsay for her entire tenure.

b. The model of delivery has been proven educationally sound in providing standards based curriculum, remedial and enrichment opportunities and support for all ELA related programs.

c. Our current library model promotes language excellence in spoken written and visual form. Our program supports many forms of non-print and print materials covering all types of genre, including fiction, non-fiction, classic and contemporary works with diverse perspectives and includes works of Montana Native American literature.
Our current licensed .20 Librarian is certified to develop this curriculum and our paraprofessional has spent her entire career at Ramsay under the direct supervision of a certified librarian and delivers the curriculum with fidelity.

d. Ramsay School is continually reviewing and updating curriculum, aligning it to the common core standards. The language arts curriculum is currently under review at this time and we will include the library standards during this review.

To: Ramsay School Parents and community members

From: Maury Cook, Principal

Ramsay School’s growth pattern, the changing personnel landscape, and budgetary limitations have made it necessary for The School Board to Procure a variance for the school Library program. In the past Ramsay employed a full time teacher that possessed a Library Endorsement. This person provided guidance in producing Curriculum for the School’s Library program that was then delivered by the School’s Paraprofessional. Unfortunately, we no longer have a permanent staff member with this endorsement.

Ramsay’s student population requires that we carry a half time (.5 FTE -full time equivalence) Librarian on staff, and we currently employ a .2 (FTE) with a Paraprofessional with many years of service as the Library Supervisor. The Office of Public Instruction allows school districts to apply for a variance. Part of the application for variance requires input from local community stakeholders be included in the consideration and development of the proposed variance. Community stakeholder groups include parents, community members, and students as applicable.

Your assistance is greatly appreciated. Please list any input or feedback that you may have that is pertinent to this variance. The variance application process has been approved by the Board and final approval will be made after feedback is reviewed at the February 21st Board meeting.

Sincerely

Maury Cook, Principal

My kids love the library and reading new books. They love learning new things they find in these books. We would love to keep the library staffed so they can continue increasing their knowledge and love for books.
