3. Provide evidence that local school stakeholders were involved in the consideration and development of the proposed variance. School stakeholder groups include trustees, administrators, teachers and classified school staff.

The sign-in sheet for the February 10, 2020 meeting of the Polson School District Board of Trustees will be submitted with this application. The agenda and draft minutes for the meeting, including approval of this application, are attached. The official minutes will follow upon approval of the Board.

4. Attach Board of Trustee meeting minutes that show the Board of Trustees adopted the application for a variance at an official, properly noticed meeting.

See attached Board of Trustee Meeting Minutes from February 10, 2020

5. Describe the variance requested.

We request approval of our initial application for an alternative standard regarding our library staffing. We would like to staff the Polson Middle School Library with 1 FTE certified teacher librarian and 1 FTE paraprofessional library assistant. This staffing arrangement allows us to offer flexible scheduling, expanded hours and services to students and staff, and library open during lunch recess for grades 5-8.

Polson Middle School has an enrollment ranging between 550 and 600 students through the school year. The current standard requires 1.5 FTE certified staff for a school with over 500 students. To follow this requirement the Polson Middle School Library would lose one highly qualified full-time paraprofessional staff member. This para-professional provides coverage and supervision of the library while the teacher librarian is administering the library, collaborating with staff, and teaching students in the library. The full-time paraprofessional is also able to complete many of the clerical and technical tasks needed during the workday. This position's replacement with half-time certified staff would limit the access to the library and the supervision of students during part of the school day. Services and support would be reduced.
6. Provide a statement of the mission and goals of this proposed variance.

Polson Middle School’s mission is to be a safe, thriving, dynamic educational environment that teams with families and the community to inspire self-directed learners in an interconnected world.

The Polson Middle School Library is a curriculum–oriented facility which provides information and resources in a variety of formats and is committed to supporting all members of the school community. The library environment encourages student and staff productivity and collaboration, as well as recreational reading and relaxation.

The library is staffed by the teacher librarian and paraprofessional from 7:45 am until 4:00 pm each school day. The role of the library paraprofessional is to support the teacher librarian, staff and students. Working together, the teacher librarian and paraprofessional provide a strong library program that includes consistent hours of operation and flexible scheduling. This allows the teacher librarian to schedule twenty-six English Language Art classes, grades 5-8, for teaching/collaboration time weekly. This also allows for the teacher librarian to teach a reading and advisory class daily. All Polson Middle School staff are able to schedule classes for research in print and non-print resources, selection of books, computer-based testing, and group projects. Students are able to use the library before school, after school and during their lunch recess and other free time.

The presence of the full-time FTE para-professional provides skilled assistance to patrons and access to the library while the teacher librarian is collaborating with staff and teaching students. The teacher librarian is also supported in fulfilling the administrative duties of the library outlined in Standard 10.55.1801.

7. **List specific measurable objectives that demonstrate the proposed variance will meet or exceed the results under the current standard(s).**

Polson Middle School Library fulfills the Library/Media Program Delivery Standards which include the essential functions of a teacher-librarian; information technology instruction, digital reading advocacy, and information management. The teacher librarian also performs in a leadership role as a teacher and program administrator.

Polson Middle School Library fulfills the Library/Media Program Standards which include the essential functions of a teacher-librarian; Information Technology Instruction, Reading Advocacy, and Information Management. Standard 4 of the Montana Standards for Information Literacy/Library Media addresses the students’ ability to use information safely, ethically, and legally. Benchmarks at the end of 8th grade for Standard 4 include the ability to appropriately credit ideas and works of others and participate and collaborate in intellectual and social networks following safe and accepted practices. Standard 5 of the Montana Standards for Information Literacy/Library Media addresses the students’ ability to pursue personal interests through literature and other creative expressions.

These skills are taught during twelve 35 minute class periods consisting of fifth and sixth graders weekly and reinforced in the upper grades through teacher collaboration and student work on assigned classroom projects. The proposed Alternative Standard allows the teacher librarian to teach all fifth and sixth grade classes on a weekly basis and allows the librarian to interact and provide guidance and assistance to all 7th and 8th grade teachers and students during their weekly assigned blocks of time in the library. The teacher librarian delivers content on the skills needed to access the library’s print and electronic resources for research and pleasure, digital citizenship and literacy skills, Internet search skills, and exposure to a variety of genres for personal growth in the library through demonstrations, activities, on-line content and video content during 85% of the school day, while the paraprofessional staffs the library. The library paraprofessional ensures skilled assistance and access to the library when the teacher librarian is engaged in lesson planning and delivery. The Alternative Standard of 1 FTE teacher librarian and 1 FTE para-professional fulfills the needs of our school, library program and patrons.

8. What data or evidence will be gathered to document progress toward meeting the measurable objectives?

*The number of hours of instructional time and library usage with each ELA teacher was recorded using Google calendar. A snapshot of the schedule in Google calendar is included for September 9-13, 2019 and January 6-10, 2020. Library Master Schedule for the 2019-2020 school years are attached.

* Circulation and patron statistics will be retrieved from Destiny Library Manager software. We would like to maintain a monthly circulation for print materials at or above 1000 items. Circulation statistics are included.

*STAR testing will be provided and assessed by the classroom teachers to assess student literacy achievements.

9. Describe how and why the proposed variance would be:

a. Workable.
In past history, Polson Middle School library has been staffed with a 1 FTE certified teacher librarian and a 0.5 FTE certified teacher librarian. Employing a 1 FTE paraprofessional to replace the 0.5 FTE teacher librarian is not only fiscally responsible to taxpayers in our community, but the addition of 4 hours allows greater opportunities and support for student interaction with library staff, workability of the library space, more productive library administration and continual coverage of the library for students and staff to access books and computers for research projects and reading for pleasure. As this change in staffing is not a change financially, Polson Middle School has the financial resources to staff the library through the employment and retention of a highly qualified 1 FTE library paraprofessional. The job description of the library paraprofessional is attached to this application. It is revised as needed to reflect changes in library services and the duties and skills required. This document provides a basis for job performance evaluation and serves as a model for recruitment, hiring and training. The current library paraprofessional transferred internally from a position at Polson Middle School and has a strong relationship with the librarian, staff and students, therefore making for a smooth transition to the library.

b Educationally Sound.
The library staffing arrangement of 1 FTE certified teacher librarian and 1 FTE para-professional has been in place at Polson Middle School beginning June 2019. The support of the paraprofessional has been very important to the development of many aspects of library services including the expansion of reader's advisory, book displays, and smooth operation for students and staff.

c. Where applicable, aligned with program standards under ARM 10.55.1101 through 10.55.2101.

The teacher librarian is fulfilling the administrative duties of the library which are outlined in Standard 10.55.1801. Selection and management of the print collection and electronic resources, long range planning and program development, communication and cooperation with local and regional libraries and staff, and participation in school-wide and district level committees are priorities, including the K-12 Technology Committee, the Middle School English Language Arts Professional Learning Community and collaboration with the Indian Education for All committee members. Polson Schools K-12 teacher librarians meet regularly to develop and implement curriculum, plan for teacher training, cooperative purchases and professional development. The teacher librarian participates in the district's Professional Growth and Evaluation Process which includes a teacher librarian strand. Polson Schools Professional Growth and Evaluation Process is attached. The process guides continued growth and improvement. Polson Middle School aims to be compliant with Administrative Rule 10.55.1801.

d. Where applicable, aligned with content standards under ARM Chapters 53 and 54.
