VARIANCES TO STANDARDS APPLICATION
Initial Application (two years)

Purpose: ARM 10.55.604(1) “A local board of trustees may apply to the Board of Public Education through the Superintendent of Public Instruction to implement a variance to a standard or a section of standards, excluding standards stating statutory criteria, standards pertaining to educator licensure or endorsement, and content standards as defined by the Board of Public Education and provided in guidance from the Superintendent of Public Instruction.”

DUE DATES (check one)

☑ First semester implementation; first Monday in March
☐ Second semester implementation; first Monday in July

COUNTY: Toole County
DISTRICT: Shelby Public School District

LIST EACH SCHOOL THAT IS REQUESTING THE VARIANCE:

Shelby Elementary School

1. Standard(s) for which a variance is requested, e.g., 10.55.709. If there is a program delivery standard, be sure to list it as well, e.g., 10.55.1801.

10.55.709 Library Media Services, K-12
2. Provide evidence that local community stakeholders were involved in the consideration and development of the proposed variance. Community stakeholder groups include parents, community members, and students as applicable.

Shelby School District has maintained three staff members in our two Libraries to exceed student needs. When the elementary school numbers increased beyond 250 to 264 this year, we continued to maintain a full-time paraprofessional and a .5 librarian in the elementary library. We posted this variance to standards on our November Board meeting agenda (see attached). We had no public concerns expressed regarding offerings in the Library or it being staffed as stated above.

3. Provide evidence that local school stakeholders were involved in the consideration and development of the proposed variance. School stakeholder groups include trustees, administrators, teachers and classified school staff.

The Shelby School Board discussed the Variance to Standards regarding our elementary Library at the November 12, 2019, Board Meeting (See Board Minutes).
4. Attach Board of Trustee meeting minutes that show the Board of Trustees adopted the
application for a variance at an official, properly noticed meeting.

5. Describe the variance requested.

Shelby Public School District currently uses a .5 Librarian with a 1.0 paraprofessional in our
Elementary Library. The current paraprofessional has been working in the Library for the
past five years. She is highly skilled at supporting students that need to take AR tests, she is
able to effectively recommend books for students to checkout based on their interests and
reading level, and she also works with small groups when the .5 Librarian is doing whole
class instruction. As a 1.0 paraprofessional in the library, this allows our .5 Librarian the
opportunity to join classroom instruction throughout the day while still allowing students
that need to visit the library the opportunity to do so.

Shelby Elementary School and Shelby Junior High/High School are on the same block. So
although we have two libraries (one in each building), our librarian is easily able to move
from one facility to the next in a manner of minutes. Both facilities have a 1.0
paraprofessional servicing the library in additional to our 1.0 Librarian (.25 HS, .25 JH, .5
Elem).

6. Provide a statement of the mission and goals of this proposed variance.

As stated in 10.55.709, Shelby Elementary School believes that "[t]he school library media
program is essential in creating independent learners who are efficient consumers and
producers of information. By using a variety of information formats, focusing on the
learning process and collaborating with other disciplines, school libraries provide the entire
school community with opportunities to acquire the information skills they need to interact
responsibly in a global society. An ongoing desire to know, a love for reading and a respect
for information will transform a student into a lifelong independent learner. The role of
libraries in a democratic society is to embrace the social responsibility of learning." To
achieve this end, Shelby Elementary School offers weekly lessons taught by the .5 Librarian
to grades K-6. These 30 minute lessons focus on the achieving the requirements stated in
10.55.709. As our Library is staffed by a paraprofessional as well as the .5 Librarian the
facility is open throughout the entirety of the school day for independent student use (AR
Testing, book check-out, research, or other needed activities).
7. List specific measurable objectives that demonstrate the proposed variance will meet or exceed the results under the current standard(s).

   1. We will continue to create a schedule that allows our Librarian to support student learning where and when it is needed. We will be able to measure this by reviewing the schedule and ensuring student contact time (30 minutes per week per student) is met.

   2. We will measure the number of AR tests completed and at what level those tests are completed to ensure student growth in reading and comprehension.

   3. Star reading data will be evaluated to determine future needs and opportunities for improvement.

   4. Shelby's yearly teacher evaluation system will evaluate the Librarian's ability to continue delivering effective institution in meeting the Library Media Standards.

8. What data or evidence will be gathered to document progress toward meeting the measurable objectives?

   Shelby Elementary School will gather evidence as stated in question 7. We will evaluate the schedule, measure AR data, evaluate Star Testing data, and evaluate the Librarian using our adopted Danielson model evaluation tool.

   In addition to the aforementioned data gathering, sample lessons and assessments will also be gathered to document the Elementary School's deliverance of the Library Media Standards.
9. **Describe how and why the proposed variance would be:**
   
a. **Workable.**

   Funding - No additional funding is needed to meet our current needs.

   Staff - The .5 Librarian had over 20 years of experience in Library Education along with her K-12 Librarian certification, she also has a K-12 Reading Endorsement and a K-8 Elementary Endorsement. Our Paraprofessional has 5 years of experience in the Library.

   School configuration - Our Elementary School is already configured in one facility, as such no configuration change is needed.

   Enrollment - We anticipate our enrollment to fluctuate between 240-270 in our elementary for the foreseeable future.

   Facilities - Our facilities meet the needs of our current student population.

   Scheduling - We already have a schedule designed to meet the needs of our K-6 students.

b. **Educationally sound.**

   Shelby School District has a 1.0 FTE certified K-12 Librarian who serves our K-6 building and our 7-12 building. We employ two paraprofessional that assist our librarian as stated above. All K-6 students are scheduled to receive between 30 minutes per week of instruction in the Library Media Standards, that instruction is delivered by our K-12 certified Librarian with paraprofessional support when needed. The library is always open for student use, regardless of if our certified librarian is available as we have a paraprofessional staff member working to meet student needs.
c. Where applicable, aligned with program standards under ARM 10.55.1101 through 10.55.2101.

Shelby Elementary School aligns with 10.55.1801 in the following 3 areas:

1. develops and maintains a library collection that is current, balanced, and reflects authentic historical and cultural contributions of Montana's American Indians and other minority and ethnic groups;

2. engages in comprehensive long range planning to administer and manage, in a secure area, the human, financial, and physical resources of the library to locate, access, and use on-site resources that are organized and cataloged; and

3. implements a viable collection development policy

* Language taken from ARM 10.55.1801

d. Where applicable, aligned with content standards under ARM Chapters 53 and 54.

Shelby Elementary School's current library program meets each benchmark for grade 4. All students in grades K-6 have 30 minutes of scheduled library time in which our librarian adheres to those benchmarks and standards. Students are educated in the inquiry process and how to retrieve information. Additionally, students have time throughout the week to visit our library, practice their research skills and get individualized support from our Certified Librarian or the paraprofessional in the Library.
