

Online Application ADA Compliance

A USDA prototype was used to build the application. It uses the US Web Design Guidelines, which require compliance. Here are some specifics:

- ✓ Color is not used to distinguish anything in the application.
- ✓ The links and buttons have altText so screen readers will pick it up.
- ✓ Font sizes and word wrap adjust with simple keyboard keys and mouse scrolls.
- ✓ Navigation can be done with a mouse or keyboard.
- ✓ The application can be used on mobile device, tablet, pc, and laptop.
