

## Adult Meal Prices

### Summer Food Service Program 2026

Revenue from the Summer Food Service Program (SFSP) cannot be used to subsidize adult meals. The purpose of federal assistance is to provide nutritious meals to school children to safeguard their health and well-being.

If the school district decides to subsidize meals for teachers, administrators, custodians and other adults, the subsidy should be identified as an employee benefit and as a source of revenue in the School Food service budget.

The cost of meals served to adults directly involved in the operation and administration of the SFSP (those preparing and serving food) may be attributed to and supported by the foodservice operation. **Any meal served to an adult, whether supported by the foodservice or not, may not be claimed for reimbursement or counted toward the USDA commodity entitlement.**

The adult lunch price should be at least the total of federal SFSP lunch reimbursement plus value of USDA Foods. The adult breakfast price uses only the federal SFSP breakfast reimbursement rate.

<u>Adult Lunch/Supper Price</u>	<u>Adult Breakfast Price</u>
Federal SFSP Reimbursement \$ 5.6000	\$ 3.1975
Value of USDA Foods \$0.015	
<b>TOTAL: \$5.615</b>	<b>\$3.2125</b>

Prices are based on portions sizes served to children. If larger portions are served to adults, the meal should be priced according to cost.
