### Section III

#### **Description of Use of Funds Under Part B of the Individuals with Disabilities Education Act—20 U.S.C. 1411(e)(5); 34 CFR § 300.171**

States must provide the Description of Use of Funds by completing and submitting the Excel Interactive Spreadsheet with the FFY 2022 Application.

The Department annually identifies for States the maximum amounts that a State may retain under Section 1411(e)(1) and (2).<sup>1</sup> The dollar amounts **listed in the Excel Interactive Spreadsheet** by the State for administration and for other State activities should add up to less or equal to the dollar amount provided to the State by the Department for each of these activities.

**Enter whole dollar amounts (do not enter cents) in appropriate cells on the State's Excel Interactive Worksheet. The Excel Interactive Spreadsheet must be submitted as part of the State's application.**

Describe the process used to get input from LEAs regarding the distribution of amounts among activities described in the Excel Interactive Spreadsheet to meet State priorities. (20 U.S.C. 1411(e)(5)(B); 34 CFR § 300.704)

---

<sup>1</sup>Each State may reserve for each fiscal year not more than the maximum amount the State was eligible to reserve for State administration under this section for fiscal year 2004 or \$800,000 (adjusted in accordance with 20 U.S.C. 1411(e)(1)(B)), whichever is greater; and each outlying area may reserve for each fiscal year not more than 5 percent of the amount the outlying area receives under 20 U.S.C. 1411(b)(1) for the fiscal year or \$35,000, whichever is greater.

For each fiscal year beginning with fiscal year 2005, the Secretary shall cumulatively adjust: 1) the maximum amount the State was eligible to reserve for State administration under this part for fiscal year 2004; and 2) \$800,000, by the rate of inflation as measured by the percentage increase, if any, from the preceding fiscal year in the Consumer Price Index For All Urban Consumers, published by the Bureau of Labor Statistics of the Department of Labor.

## Section IV

### State Administration

Section 608(a) of the IDEA requires each State that receives funds under this title to:

- (1) ensure that any State rules, regulations, and policies relating to this title conform to the purposes of this title;
- (2) identify in writing to local educational agencies located in the State and the Secretary any such rule, regulation, or policy as a State-imposed requirement that is not required by this title and Federal regulations; and
- (3) minimize the number of rules, regulations, and policies to which the local educational agencies and schools located in the State are subject under this title.

States must attach to this application a list identifying any rule, regulation, or policy that is State-imposed (not required by IDEA or Federal regulations). If there are no such State-imposed rules, regulations, or policies, please so indicate. In addition, the State is required to inform local educational agencies in writing of such State-imposed rules, regulations or policies. (20 U.S.C. 1407(a); 34 CFR § 300.199)

#### **State Imposed Administrative Rules**

State statutes, administrative rules and policies for special education are only adopted when it is determined that more clarity is needed than provided by the federal regulation; federal regulation requires the state to adopt procedures to implement the Act and/or a rule was required to ensure the rights of a child.

Following is a list of the state administrative rules which have been identified as imposing some additional requirements on LEAs which are not specifically addressed in current final federal regulation under IDEA 2004. Following each of the rules is a comment as to why the rule was adopted and its implications for LEAs.

#### **ARM 10.16.3320 Request for Initial Evaluation**

- (1) In accordance with 34 CFR 300.301(b) either a parent or public agency, as defined in 34 CFR 300.33, may initiate a request for an initial evaluation.
- (2) A local education agency shall establish procedures for requesting an initial evaluation which include methods for collecting information to determine whether a comprehensive educational evaluation is necessary and they types of evaluations warranted.
  - (a) When the request for initial evaluation is made by an LEA, the request must include a statement of the reasons for the request, including documentation of regular education interventions for students enrolled in school, and the signature of the person making the request.
  - (b) When the request for initial evaluation is made by a parent, the request must include a statement of the reasons for the request and the signature of the person making the request.
  - (c) All requests shall document the suspicion that the student may have a disability which adversely affects the student's educational performance to the degree that the student needs special education and related services.
  - (d) If a comprehensive educational evaluation in accordance with 34 CFR 300.301 through 300.311 is warranted, the local educational agency shall obtain consent of the parent before conducting a comprehensive educational evaluation.

- (3) If the local education agency does not suspect that the child has a disability and denies the request for an initial evaluation, the local educational agency must provide written notice to the parents, consistent with 34 CFR 300.503(b) of the Individuals with Disabilities Education Act. The parent may challenge such a refusal by requesting a due process hearing.

**Comment:** This rule requires documentation of the request for initial evaluation and identifies the standards for documenting why there is reason to suspect the presence of a disability. The documentation required by this administrative rule is considered to be essential when planning the evaluation to ensure consistency with IDEA 2004 requirements that the child is assessed in all areas of suspected disability.

#### **ARM 10.16.3321 Comprehensive Educational Evaluation Process and Reevaluations**

- (1) An evaluation of the student must be conducted in accordance with the requirements of 34 CFR 300.301 through 300.311 and 34 CFR 300.321.
- (2) For initial evaluations, the evaluation report must include the information necessary to address criteria established in ARM 10.16.3010 through 10.16.3022.
- (3) The evaluation report shall include statements of implications for educational planning in terms understandable to all team members.
- (4) The evaluation report shall include a statement as to why the student needs special education and related services.
- (5) All evaluation reports will identify a disability category or categories for each student.
- (6) For an initial evaluation only, the following additional team members are required when a student is being evaluated in the specified category of disability:
  - (a) Emotional disturbance, traumatic brain injury, specific learning disability, or cognitive delay requires a school psychologist;
  - (b) Speech-language impairment, deaf/blindness, traumatic brain injury requires a speech language pathologist;
  - (c) Autism requires a school psychologist and speech language pathologist; and
  - (d) Deafness or hearing impairment requires a speech language pathologist or audiologist.

**Comment:** The language in (6) helps to ensure that personnel who have a special knowledge regarding the suspected disability are included in the initial evaluation team.

#### **ARM 10.16.3346 Aversive Treatment Procedures**

- (1) Positive behavioral interventions based on the results of a functional behavioral assessment shall serve as the foundation for any program utilizing aversive procedures to address the behavioral needs of students. Aversive treatment procedures may be appropriate for an individual student who exhibits behaviors which pose a risk of physical harm to the student or others, or a risk of significant damage to property, or significantly disruptive or dangerous behaviors which cannot be modified solely through the use of positive behavioral interventions. Aversive treatment procedures must be designed to address the behavioral needs of an individual student, be approved by the IEP team, and may not be used as punishment, for the convenience of staff, or as a substitute for positive behavioral interventions.
- (2) Aversive treatment procedures are defined as:
  - (a) Physical restraint, other than as provided in 20-4-302, MCA, when the IEP team has determined that the frequency, intensity or duration of the restraint warrants an aversive treatment procedure; and
  - (b) Isolation time-out which results in the removal of a student to an isolation room under the following conditions:
    - (i) The student is alone in the isolation room during the period of isolation;

- (ii) The student is prevented from exiting the isolation room during the period of isolation;
  - (iii) The door to the isolation room remains closed during the period of isolation; and
  - (iv) The student is prohibited from participating in activities occurring outside of the isolation room and from interacting throughout the entire period of isolation.
- (3) Any student in isolation time-out must be under the direct constant visual observation of a designated staff person throughout the entire period of isolation.
- (4) The following procedures are prohibited:
- (a) Any procedures solely intended to cause physical pain;
  - (b) Isolation in a locked room or mechanical restraint, except in residential treatment facilities and psychiatric hospitals as defined in 20-7-436, MCA, when prescribed by a physician as part of a treatment plan when implemented in compliance with relevant federal and state law;
  - (c) The withholding of a meal for a period of greater than one hour from its scheduled starting time;
  - (d) Aversive mists, noxious odors, and unpleasant tastes applied by spray or other means to cause an aversive physical sensation; and
  - (e) Mechanical restraint that physically restricts a student's movement through the use upon the student of any mechanical or restrictive device which is not intended for medical reasons.
- (5) Exclusion time-out is not considered an aversive treatment procedure. Exclusion time-out is defined as any removal of a student from a regularly scheduled activity for disciplinary purposes that does not result in placing the student in an isolation room under all of the conditions described in (2)(b).
- (6) IEPs may include the use of aversive treatment procedures only when:
- (a) Subsequent to a functional behavioral assessment, a series of no less than two written positive behavioral intervention strategies, which were designed to target the behavior to be changed were previously implemented;
  - (b) The IEP team includes a person trained and knowledgeable about best practices in the application of positive behavioral interventions, aversive treatment procedures and nonaversive alternatives for de-escalation of behaviors; and
  - (c) A written behavioral intervention plan using aversive treatment procedures is developed and incorporated as part of the IEP.
- (7) A behavioral intervention plan using aversive treatment procedures must be in writing and shall:
- (a) Include a statement describing no less than two positive behavioral intervention strategies previously attempted and the results of these interventions, as described in (6)(a);
  - (b) Describe the target behavior(s) that will be consequented with the use of the aversive treatment procedure(s);
  - (c) Include short-term objective(s) with measurable criteria stating the expected change in the target behavior(s);
  - (d) Provide a written description of the aversive treatment procedure(s);
  - (e) Specify a time limit for the use of the aversive treatment procedure for any one instance;
  - (f) Include data collection procedures for recording each application of the aversive treatment(s);
  - (g) State when the IEP team will meet to review the ongoing use, modification, or termination of the aversive procedure;
  - (h) Designate an individual responsible for ongoing review and analysis of the data in the target behavior;

- (i) State how the student's parents will be regularly informed of the progress toward the short-term objectives in the IEP at a frequency no less than is required in 34 CFR 300.347; and
  - (j) State whether any standard school disciplinary measures are waived.
- (8) When an aversive treatment plan is incorporated in the IEP, the parents must be informed that their consent to the IEP includes consent for the aversive treatment plan. Failure to obtain consent is subject to due process proceedings under ARM 10.16.3507 through 10.16.3523.
- (9) Parents must be informed as soon as possible, but no more than 24 hours after the procedure is used, in writing, or orally if in writing is not possible, in their native language each time an aversive procedure is implemented on their child.

**Comment:** The above rule is state imposed and not required by IDEA 2004. The rule was adopted at the request of stakeholders, to ensure the rights of children are protected, and that children are not subjected to aversive procedures as punishment, for the convenience of staff, or as a substitute for positive behavioral interventions.

#### **ARM 10.16.3505 Parental Consent**

- (1) The local education agency shall implement consent procedures as described in 34 CFR 300.300 and consistent with this rule.
- (2) Written parental consent for initial and annual placement of a student with disabilities in special education and related services shall be obtained by the local educational or public agency prior to the placement.
  - (a) The local education agency shall maintain written documentation of the date of parental consent for initial and annual placement.
  - (b) If the parents and local educational agency cannot agree on the IEP but can agree on certain IEP services or interim placement, the student's new IEP would be implemented in the areas of agreement and the student's last agreed-upon IEP would remain in effect in the areas of disagreement until the disagreement is resolved.
  - (c) When parental consent for annual placement has not been obtained and has not been specifically refused, the local educational agency shall informally attempt to obtain consent from the parent.
    - (i) If parental consent cannot be obtained within a reasonable time, the local educational agency shall send written notice to the parent requesting approval and stating that the student with disabilities shall be provided special education and related services according to the student's individualized education program (IEP) as developed by the local educational agency 15 days from the date of the notice.
    - (ii) If no response from the parent is obtained, the local educational agency shall provide the student special education and related services according to the student's IEP without parental consent subject to the parent's right to an impartial due process hearing under ARM 10.16.3507 through 10.16.3523.

**Comment:** The language in (2) of the above administrative rule requires annual parent consent for the IEP. This exceeds the requirements of the final regulations under IDEA 2004, which requires parent consent only for the initial placement. Montana has a long-standing history of valuing parental involvement in their child's educational program as demonstrated by this administrative rule. It is felt that this requirement has had a positive impact on children's educational programs and outcomes.

#### **ARM 10.16.3560 Special Education Records**

- (1) School records and confidentiality of information must follow the provisions under the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations at 34 CFR, part 99,

and must follow the provisions established for special education under IDEA and its implementing regulations at 34 CFR 500.610 through 500.626.

- (2) The special education record shall include access log, request for initial evaluation, permission for evaluation, summaries of assessments, test protocols, and other information that are not subject to sole possession requirements of FERPA, evaluation reports, individualized education programs, and reports of the student's progress toward meeting annual goals of the individualized education program.

**Comment:** The language in (2) of the above administrative rule is state imposed. The purpose of the language is to ensure a student's special education record contains all the documentation necessary to demonstrate that the requirements under IDEA have been addressed for the student, and that parental rights have been addressed. The requirement also assists parents in knowing what special education documentation is included in a student's special education record.

**Section V**

**A. Maintenance of State Financial Support**

Pursuant to the authority established in IDEA section 618(a)(3), each applicant for funds under section 611 must provide the following State fiscal data with a certification of its accuracy by the State budget office or an authorized representative thereof. Amounts should be shown in whole dollars and are for the State fiscal year (SFY). States may meet the maintenance of State financial support (MFS) requirement in IDEA section 612(a)(18) and 34 CFR § 300.163 on either a total or per capita basis. In order to complete Section V.A of the Application, States must provide in whole dollars the total amount of State financial support made available for special education and related services for children with disabilities during SFYs 2020 and 2021. However, if a State met the MFS requirement on a per capita basis, it **must** complete the first chart and then may also complete the second chart by providing, in whole dollars, the amount of State financial support made available for special education and related services per child with a disability during SFYs 2020 and 2021.

**Total Amount of State Financial Support Made Available for Special Education and Related Services for Children with Disabilities**

## B. Significant Disproportionality<sup>2</sup>

In accordance with 34 CFR § 300.647(b)(7), each State must report all risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress if the State uses the “reasonable progress” flexibility in 34 CFR § 300.647(d)(2), and the rationales for each, to the Department. Under § 300.647(b)(7), rationales for minimum cell sizes that exceed 10 and minimum n-sizes that exceed 30 must include a detailed explanation of why the numbers chosen are reasonable and how they ensure that the State is appropriately analyzing and identifying LEAs with significant disproportionality based on race and ethnicity, in the identification, placement, or discipline of children with disabilities. Additionally, pursuant to the authority established in IDEA section 618(a)(3), each applicant must also provide the number of years of data it uses in making annual determinations of significant disproportionality. Each applicant must provide this information by completing and submitting the Significant Disproportionality Reporting Form.

All States completed and submitted the **Significant Disproportionality Reporting** Form with their FFY 2021 IDEA Part B application. After the initial submission of the Form, a State will only be required to submit the Form with any future annual IDEA Part B State applications if the State modifies its risk ratio thresholds, minimum cell sizes, minimum n-sizes, standards for measuring reasonable progress, and rationales for each, or the number of years of data used in making annual determinations of significant disproportionality.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant application, please contact your OSEP State Lead before the Application due date.

<sup>2</sup> This collection is not intended to replace or duplicate the information collected through the Significant Disproportionality State Survey (Docket No. ED-2019-ICCD-0065; 1820-NEW). That survey will collect information that the Department will use to support States and LEAs in their efforts to comply with the statutory requirement at section 618(d) of the IDEA.
