This bulletin communication is tailored to System Test Coordinators (STC) with a lens for providing the current news, testing alerts, and changes to statewide assessments. We thank the Assessment Bulletin readers for the planning, preparation, training, and overall effort to support state assessment at the local level and to meet statutory and regulatory requirements.

**Reporting News:** Montana school districts are required to provide parents/guardians with individual student reports in a timely manner. More family resources and sample letters can be found on the Parent Corner page. To understand and address the specific academic needs of students, it is required under state and federal law to provide individual student interpretive, descriptive, and diagnostic reports regarding achievement. This allows families, teachers, and other school leaders to address individual student needs regarding student proficiency and progress as soon as is practicable after the assessment is given.

**Federal Requirement:** provide timely individual student reports to parents, teachers, and principals and include the results on local report cards (ESSA Section 1111).

**State Requirement:** statewide assessment public results must include a clear statement of the purpose, subject areas assessed, description of proficiency levels, and the percentage of students who participated in the assessments (ARM 10.56.105(2) and §20-7-104, MCA). School districts must also place individual student reports in the student’s cumulative file per ARM 10.55.909.

**NEW:** Here are the Technical Assistance and Training Opportunities for the 2022-2023 school year so System Test Coordinators can place these on calendars and save the date (STC Workshop Series, STC Open Forum Series, and MontCAS Focused Webinar Series).
### OPI Assessment Unit Mission Statement

1. **Mentor** schools through the local roles and responsibilities related to administering state assessments in compliance with federal and state law.
2. **Foster** critical partnerships with stakeholders to build strong local assessment and data practices.
3. **Measure** student participation, proficiency, and progress on state content standards over time and help monitor and address educational needs for all learners.
4. **Provide** meaningful, timely, accurate, understandable, and transparent information to the public and families on achievement indicators and to support education information processes at the local and state level.
5. **Help** the public understand performance on achievement indicators and inequities across schools, so all students have equitable opportunities to access high-quality education.
6. **Advance** teaching and learning through the implementation of balanced systems and continuous improvement processes.
7. **Offer** high-quality technical assistance and professional learning to support test administration and implementation of equitable balanced assessment systems.
8. **Pursue** excellence using the highest professional and technical standards for evidence-based practices and data-driven decision-making.

### OPI News

*This section pertains to the policies, procedures, and updates from the Montana Office of Public Instruction (OPI) program.*

**Portal Link:** OPI Website

#### Spring 2023 ACT with Writing Moves to Online Format

The OPI will be supporting online testing this coming spring under the state contract for the Grade 11 ACT with Writing. Testing windows will each be two weeks and give schools Tuesday, Wednesday, and Thursday options for each testing window to deliver the test. Districts and schools are encouraged to plan early for this move to online test administration by reviewing the [ACT Online Testing Information for States and Districts](#).

#### Reporting

The summative assessment results are one of several strategies across the learning continuum that Montana has employed to understand how students are performing academically in light of the pandemic. As always, it is important to rely on multiple pieces of information to understand student achievement and academic needs. It is not appropriate to rely on one single data point to determine the proficiency of a child.

State assessment results provide information to the public and families that supports the educational needs and processes at the local and state level. LEAs are responsible for providing families, teachers, and other school leaders with access to these reports as soon as practicable after the test administration ([Reporting Roles and Responsibilities Memo](#)). The OPI’s state assessments and accountability systems play an important role in advancing educational equity and the OPI uses data from summative state assessments in a variety of ways, including providing the public with information on student participation, proficiency, and progress to help monitor and address the needs of the educational system overall. One of the ways that the OPI will use the data at the state level is to look at patterns of participation and proficiency in each subject for each student group to understand more about what opportunities were available to students statewide.
Data Use

To see how schools are performing over time and compared to other schools in Montana, visit Montana’s longitudinal data warehouse (GEMS). Official state-level results will be released this fall. In anticipation of the state-level release, resources and sample memos will be published on the OPI Statewide Testing Page.

What are the requirements for accountability this year ESEA-ESSA Section 1111(c)?

- Montana restarted its federal accountability systems in the 2021-2022 school year.
- All accountability and school identification requirements are in effect.
- Data from this year’s state assessments will be used within the OPI’s accountability process for annual meaningful differentiation of schools.
- **Participant** = must have (1) a valid score and be (2) assigned a proficiency level (see 34 CFR 200.2(a)(b)(1)(i)). All students, including students with disabilities are required by state and federal law to take part in the OPI’s state assessments with or without accommodations. All students are expected to take part in state assessments in one of three ways:
  - Participate in the general education assessments without accommodations.
  - Participate in the general education assessments with accommodations.
  - Participate in Alternate Assessments when the participation criteria are met.
- To see a list of schools who were previously identified for targeted and comprehensive status, visit the OPI’s ESSA Information and Documents Page. The federal accountability process for school identification using the 2021-2022 state assessment data is planned to commence this Fall.

What are the requirements for reporting this year ESEA-ESSA Section 1111(h)?

- Any instances where it was unsafe for a student to participate in the state assessment due to COVID reasons or for medical reasons must be reported to the OPI using the “Medical Exemption” policy as defined within the MontCAS Policies and Procedures for Participation in State Assessments.

What does participation and non-participation mean for state assessments?

Participation is necessary to ensure the data are representative and reflective of the population. When participation rates fall below the state and federal requirements, bias can be introduced into the student knowledge, skill, and ability estimates, thus reducing the overall confidence we have in the data and ultimately interfering with the inferences that can be made about student achievement.

- In Montana, there is no “opt out” law, and both state law and accreditation rules require all students in public and accredited non-public schools to participate in state testing.
- The OPI recognizes there are circumstances beyond the control of the school that may result in non-participation. In those rare cases, the district must report the reason for non-participation to the OPI using the MontCAS Application.
- The figure on participation below is used to show how the calculation is made for participation rates for a school which is displayed on the Montana ESSA Report Card and within the accountability differentiation process.
  - Per the OPI’s policies and federal reporting, only students with “medical exemptions” can be removed from the denominator, meaning all other instances of non-participation (or absence) impact the school’s participation rate.
  - The state factors the requirement for 95 percent student participation in mathematics and reading/language arts assessments into the statewide accountability system. Students who meet participation requirements and who do not test are assigned a score of “Novice” and designated as a non-participant for accountability purposes (see ESSA State Plan, MontCAS Policies and Procedures for Participation in State Assessments, and Six Things Stakeholders Should Know about Participation and Testing in Montana).

<table>

</tr>
</tbody>
</table>

Eligible Student Population = All students enrolled during the testing window whether or not they were present for the full academic year except students who did not participate in the assessments due to significant medical emergencies (34 CFR 200.2(a)(b)(1)(i)).

Non-Participant = Did not participate. This is a student who was expected to test but did not for whatever reason and their non-participation status will count negatively against the school’s participation rate (e.g., parent refusal).

Note: SwSCDs is an acronym for student with significant cognitive disabilities and ‘SY’ is the abbreviation for school year. The OPI will publish any changes to the test windows on the Published Test Windows. The asterisk (*) is used to signify these dates are subject to change based on new information or changed policies.

MontCAS News

This section pertains to any updates or news under the umbrella of the MontCAS program not specific to any one state assessment. Portal Link: MontCAS Application

Specific usernames and passwords allow access to confidential school and student data. All educators involved in the administration of state assessments are responsible for maintaining the privacy and security of all student records as specified in the federal Family Educational Rights and Privacy Act (FERPA) and by state law.

All school officials (i.e., persons with legitimate educational interest) have a responsibility to safeguard student personally identifiable information (PII). The use of data is critical to ensuring high-quality education for all students but benefits of using student data must always be balanced with protecting student privacy. For more resources on student privacy, visit the Student Privacy Policy Office’s Privacy Technical Assistance Center Site.

Per OPI policy, the STC is the only user that the OPI registers at the beginning of the year within the various Test Delivery Systems (or TDS). This person is the OPI’s single point of contact for all assessment-related communications.

New System Test Coordinators (STCs) should contact the OPI Assessment Unit to ensure proper access to assessment portals. Confirmation from the district Authorized Representative will be required prior to providing access to student level data in the portals. Contact the Assessment Unit at OPIAssessmentHelpDesk@mt.gov or at 844-867-2569 for assistance.

STCs should review the schedule and plan for the district accordingly. Check the MontCAS Test Security Collection Schedule link, where the 2022-2023 version will be available soon.
Alternate Assessments Based on Alternate Academic Achievement Standards [AA-AAAS]

Montana's Alternate Assessment aligned with Alternate Academic Achievement Standards (AA-AAAS) assessments measure student proficiency on alternate academic math, English language arts (ELA), English language proficiency (ELP), and science standards aligned to Montana's adopted college- and career-ready content standards (see ARM Chapter 53). Students eligible to participate in Alternate Assessments make up approximately 1.0 percent of the total student population. The decision to move a special education student to an Alternate Assessment has significant implications for the path that a student will take in their K–12 school career. It means the student is not able to participate in the general education curriculum even when provided with accommodations. A student who participates in Alternate Assessment requires a modified curriculum.

**NEWS Effective August 1, 2022:**
In the April 2022 OPI Assessment Bulletin, the Assessment Unit published timely information on the announcement of the OPI's Alternate Assessment Eligibility Guidelines. These policies were published before the effective date to support school district training and technical assistance needs. This allows school districts with adequate time to transition and implement the updated policies and procedures. The new eligibility guidelines explain the OPI's policies and procedures for assessing students with significant cognitive disabilities (SwSCDs) using Montana's Alternate Assessments.

**Montana’s Theory of Action**

**Balanced Assessment Systems**

Per ARM 10.56.101, “A balanced assessment system including formative, interim, and summative assessments aligned to state content standards, will provide an integrated approach to meeting both classroom learning needs and school and state level information needs…”

Balance occurs when we don't rely on one measure to tell the entire story of a student's growth as a learner. The [Balanced Assessment Roadmap](#) has resources to support implementation of Smarter Balanced interims. The charts in this section show the 2021-2022 [fiscal year 2022](#) results for Math and ELA Smarter Balanced Interims that were administered.
Is your school system interested in participating in the MAST Pilot Program?

The OPI launched its Montana Alternative Student Testing (MAST) Pilot Program initiative to seek “through year” assessments as federally allowed by the U.S. Department of Education (USED) under the Elementary and Secondary Education Act (ESEA) reauthorized as the Every Student Succeeds Act (ESSA) in 2015.

“Through Year” assessments are multiple statewide interim assessments during the course of the academic year that result in a single summative score (34 CFR 200.2(b)(10)(ii)).

The vision of the MAST Pilot is to implement “through year” assessments across the state that can eventually replace the traditional end-of-year state summative assessments and to satisfy the following federal testing, accountability, and reporting criteria under ESEA-ESSA.

To sign up or get involved, contact the Assessment Help Desk at 1-844-867-2569 or opiassessmenthelpdesk@mt.gov.

“Through-course summative assessment means an assessment system component or set of assessment system components that is administered periodically during the academic year. A student’s results from through-course summative assessments must be combined to produce the student’s total summative assessment score for that academic year.”

—U.S. Department of Education, 2010
This assessment opportunity is available to all students in Grades 3–8 (unless the child is eligible for the alternate) using the OPI’s published guidance for test administration and test security.

Testing Alerts and Updates:
Reporting
The Smarter Balanced is the general math and reading/language arts assessment for academic achievement reporting in Grades 3–8 and this test was given over the course of 12-weeks from March 7 – May 27, 2022.

- Approximate Number of Students: 68,131
- Approximate Percentage of Completion: 98%
- How to Access District Results: How To Instructions

Frequently Asked Questions:
Q: Why are there no score reports in the Reporting System for my district?
A: The Reporting System default page is the current year [i.e., FY2022-2023]. To access FY2021-2022 summative score reports, change the reporting time period under “My Settings” in the top right-hand corner of the screen to 2021-2022 to see the spring summative reports.

Q: Will the individual student reports (ISRs) be sent to the district?
A: No. It is the district’s responsibility to download individual student reports (ISRs) to be provided to parents/families as well as to place into the student’s cumulative file. Resources on how to download ISRs and OPI Parent Letter Templates can be found on the OPI STC Corner Site, under the “What are the data and reporting district requirements” tab.

Q: When will the ELA and Mathematics [Smarter Balanced] Interims become available this fall?
A: The ELA and mathematics interim assessments will be made available to districts on September 12, 2022. Tools for Teachers remains available to all educators with an account in the Montana Testing Portal [i.e., TIDE].

### Testing Alerts and Updates:

**Reporting**
The ACT with Writing is the general math, reading/language arts, and science assessment for academic achievement reporting in Grade 11 and this test was given over the course of three test opportunities in March and April.

- Approximate Number of Students: 9,595
- Approximate Percentage of Completion: 91%
- How to Access District Results: How To Instructions

### Spring 2023 ACT with Writing Moves to Online Format
The OPI will be supporting online testing this coming spring under the state contract for the Grade 11 ACT with Writing. Testing windows will each be two weeks and give schools Tuesday, Wednesday, and Thursday options for each testing window to deliver the test. Districts and schools are encouraged to plan early for this move to online test administration by reviewing the ACT Online Testing Information for States and Districts.

### Frequently Asked Questions:

**Q. How can my school prepare for the move to online administration of the ACT with Writing?**
**A.** Districts and schools can review the resources under the Complete Site Readiness for Online Testing under Step 2: Configuration of the ACT State and District Testing website. The resources include documents outlining technical requirements, a site readiness plan, and training videos to assist schools in preparing for online testing.

**Q. Will the PreACT be available for Grade 10 students again this year?**
**A.** Yes, the PreACT will be available at no cost to Grade 10 students in Montana schools. The PreACT is provided to Montana schools through funding from the Office of the Commissioner of Higher Education. Learn more about the PreACT for Grade 10 students on the PreACT page of the ACT State and District Testing website.

MSAAServiceCenter@MeasuredProgress.org.

**Program Overview and Video**

**Portal Link:** MSAA System

**Website Link:** MSAA Consortia

**Testing Alerts and Updates:**

**Reporting**
The Multi-State Alternate Assessment (MSAA) is the alternate math and reading/language arts assessment for academic achievement reporting in Grades 3–8 and 11 for students with significant cognitive disabilities and this test was given over the course of seven weeks from March 14 – April 29, 2022.

- Approximate Number of Students: 914
- Approximate Percentage of Completion: 86%
- How to Access District Results: How To Instructions

**Score Reports Available for Download by Districts Through September 9, 2022**
Individual Student Reports (ISRs), school, and district reports for all students who participated in the MSAA are available for download in the MSAA System until September 9, 2022. Districts are responsible for downloading the ISRs and sending the summative score reports home to parents/families alongside an accompanying letter no later than Fall Parent-Teacher Conferences.

**Core Content Connectors – MT Content Standards Crosswalk Document Coming Soon**
The Core Content Connectors (CCCs) are only used for students with the most significant cognitive disabilities. They identify the most salient grade-level, core academic content in ELA and Mathematics found in both the Montana Content Standards and the Learning Progression Frameworks (LPF). The current CCC’s apply to all of the MSAA Consortia states and a document that crosswalks the Montana Content Standards to the CCCs is in the final review stages and is expected to be available to districts by the start of the 2022-2023 school year.

**Grades(s):** 3 – 8 and 11

**Subject(s):** Mathematics
English Language Arts (ELA)

**Test Time:** 5 – 6 hours
The test is not designed to be completed in one sitting as tests may be paused and resumed as often as necessary. A break may consist of a few minutes to a few days.

**Testing Window:** March 13 – April 28, 2023

**Helpful Pages:** OPI Page and STC Corner Page

---

**Testing Alerts and Updates:**

**Score Reporting**

The Montana Science Assessment (MSA) is the general science assessment for academic achievement reporting in Grades 5 and 8 and this test was given over the course of 12-weeks from March 7 – May 27, 2022.

- Approximate Number of Students: **23,200**
- Approximate Percentage of Completion: **97%**
- How to Access District Results: [How To Instructions](#)

Districts are responsible for providing Individual Score Reports (ISRs) to families alongside a parent/family letter. Score reports for the Montana Science Assessment (MSA) and Alternate Montana Science Assessment (AMSA) will be available later this fall after summer Standard Setting.

**Frequently Asked Questions:**

**Q:** When will score reports for the MSA and AMSA be available, and how do I access them?

**A:** Score reports will be available in the Fall of 2022. Score reports can be accessed through the [Montana Testing Portal Reporting System](#).

**Q:** Who takes the Montana Science Assessment and the Alternate Montana Science Assessment?

**A:** The Montana Science Assessment (MSA) is administered to general education students in grades 5 and 8. The Alternate Montana Science Assessment (AMSA) is administered to students with significant cognitive disabilities in grades 5, 8, and 11.

Frequently Asked Questions:
Q: When will score reports for the MSA and AMSA be available, and how do I access them?
A: Score reports will be available in the Fall of 2022. Score reports can be accessed through the Montana Testing Portal Reporting System.

Q: Who takes the Montana Science Assessment and the Alternate Montana Science Assessment?
A: The Montana Science Assessment (MSA) is administered to general education students in grades 5 and 8. The Alternate Montana Science Assessment (AMSA) is administered to students with significant cognitive disabilities in grades 5, 8, and 11.

Testing Alerts and Updates:

The English Language Proficiency assessment for academic achievement reporting for English Learners (EL) in Grades K–12 and this test was given over the course of 12-weeks from December 2, 2021 – March 11, 2022.

- Approximate Number of Students: **3,700**
- Approximate Percentage of Completion: **82%**
- How to Access District Results: How To Instructions

WIDA AMS Updates

On July 1, DRC launched several enhancements in WIDA AMS [app.explore.wisc.edu]. See below for a quick glance at the new features for this year, or review our Get familiar with 2022-23 WIDA AMS enhancements [app.explore.wisc.edu] article to learn about the enhancements in more depth.

- The WIDA AMS landing page has a new look! Log in and use the buttons at the top of the page to quickly access commonly completed tasks. At the bottom, you’ll find two tabs with customer service information and links to public test resources.
- DRC has a number of new customer service features:
  - Over 60 Knowledge Articles are now available to provide you with the information you need quickly. Log in to WIDA AMS and select **DRC Customer Service** from the **My Applications** menu.
  - Bilingual Spanish speaking customer service agents are available by request. Additionally, DRC now has a Teletypewriter (TTY) number for those who need access to that service.
  - WIDA Screener Online Individual Student Reports are now available in the same 49 languages as ACCESS for ELLs and are now 508c/WCAG 2.1 AA compliant. WIDA Screener Online reports can be downloaded from WIDA AMS, under **Report Delivery > On Demand Reports**.
  - Test Practice and Sample Items are now available for WIDA Screener Online, with or without embedded accommodations. Simply select the grade-level cluster and domain and whether you’d like to use embedded accommodations or not, and the appropriate login information will be displayed directly on the screen.

Contact DRC Customer Service with questions about any of these features at wida@datarecognitioncorp.com or 855-787-9615.
**Exiting Proficient Students**

Students who attain an overall composite score of 4.7 or higher must be exited from EL status in AIM and monitored for two years to ensure that their language development and academic achievement continue to progress at grade level. Families must also be notified of changes in EL status and services. Check out the [OPI English Learners Page](#) for resources.

**Testing Alerts and Updates:**
The NCES has begun preparing for the 2023 assessment cycle and will conduct the National Assessment of Educational Progress (NAEP) and various international assessments during the 2022-2023 school year. From October 10, 2022, to April 14, 2023, NAEP program will administer three operational assessments: reading and mathematics for Grades 4, 8 and 12, science for Grade 8, and Long-Term Trend (LTT) for Age 13. Students will be assessed in one subject only. A small number of Montana schools may be selected to participate in a few international assessments. NAEP assessment teams will provide significant support to schools, bring all necessary materials and equipment, and administer the assessment. They will wear necessary personal protective equipment (PPE) and follow all school-specific health protocols. Schools will only need to provide space for students to take the assessment with flat desks or tables. For more information about NAEP assessments, please refer to the Superintendent’s Memorandum.

**Frequently Asked Questions:**
**Q: Is Participation in NAEP Mandatory?**

**A:** Participation in mathematics and reading in Grades 4 and 8 is required under the Every Student Succeeds Act (ESSA) for any district receiving Title 1 funding.

Webinars and Educator Resources
The Technical Assistance and Training Opportunities for the 2022-2023 school year are included below. System Test Coordinators can place these on calendars and save the date (STC Workshop Series, STC Open Forum Series, and MontCAS Focused Webinar Series).

STC Workshop Series
The purpose of the “STC Workshop Series” is to provide each Montana school district System Test Coordinator (STC) with the opportunity to learn the “how-to’s” for each of the assessment related components listed below. STC participants will leave this three-day series with content to complete the four required testing plans and be provided with step-by-step instructions on how to accomplish the various STC activities. The OPI Assessment Team will share some tips and tricks to accomplish said activities and invite veteran STCs to share their experience(s) as well. Attendees are eligible for renewal units for each session attended.

The STC Workshop Series will host four sessions on October 6, October 13, and October 20, 2022 for a total of 12 sessions to support new and veteran STCs with the planning, preparation, and test management needs for the 2022-2023 school year.

OPI Assessment Monthly Webinar
During the 2022-2023 school year, the OPI Assessment Team will offer a Monthly Focused Webinar for 1-hour on Wednesdays. The focused webinar is designed to support educational practitioners such as district and school-level personnel involved in local assessment and local data-driven decision-making actions and/or continuous improvement processes. These 1-hour sessions are designed for educational practitioners to learn more about balanced assessments systems and strategies for implementing high-quality local assessment/data literacy practices including creating local systems around data-driven decision-making. A total of 11 webinars will be offered from August 2022 to June 2023 as published in the FY2023 Monthly Focused Webinar Plan.

Attendees are eligible for 1-hour of renewal.
- August 31: Montana’s Balanced Assessment System [Register]

STC Open Forum Webinar Series
During the 2022-2023 school year, the OPI Assessment Team will offer a STC Open Forum for System Test Coordinators (STCs) who are confirmed through the annual designation by Authorized Representatives in the TEAMS Collection. These half-hour sessions are scheduled the first week of every month on Mondays. This open forum series is in addition to the monthly focused webinar that the Assessment Team hosts. These monthly webinars are intended to provide the opportunity for STCs to connect with peers, ask questions, and discuss more deeply any OPI updates, or testing announcements. A total of 11 webinars will be offered from August 2022 to June 2023 as published in the FY2023 STC Open Forum. This time is designed to bring questions and tips for the OPI Assessment Team and fellow STCs.

Technical Advisory Committee (TAC) News
The Montana Technical Advisory Committee (TAC) serves as a consulting group to the Montana Office of Public Instruction (OPI) to ensure the validity and reliability of the test scores and fairness in testing all students. Members of the TAC are highly regarded national, state, and local experts who have been widely published in their respective fields and have a good combination of various expertise to contribute to the OPI. TAC biographies are published on the OPI's Statewide Testing Page.
# OPI’s Recommended Roles and Responsibilities

<table>
<thead>
<tr>
<th>Role</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Authorized Representative Role:</strong></td>
<td>The individual designated to comply and/or enforce activities in connection with federal legal requirements (see 34 CFR §99.3). Authorized Representatives appoint STCs as the single point of contact for all assessment-related matters and testing alerts within the school system.</td>
</tr>
<tr>
<td></td>
<td>- Authorized Representatives must complete the electronic assurance for data privacy and STC designation within the TEAMS Application each year. Check the TEAMS page for data collection deadlines and guidance.</td>
</tr>
<tr>
<td><strong>System Test Coordinator Role:</strong></td>
<td>This role serves as the data steward for managing local users within the restricted web-based TDS portals used to deliver each test. This role also serves as the local liaison for all standardized testing procedures (i.e., proctoring, safeguarding, securing, and reporting state test information) and ensuring staff are trained and certified to administer state assessments.</td>
</tr>
<tr>
<td></td>
<td>- STCs must sign the electronic test security agreement and the testing plan assurances in the MontCAS Application by the dates specified in the “MontCAS Test Security Collection Schedule 2021-22”.</td>
</tr>
<tr>
<td><strong>Building Coordinator Role:</strong></td>
<td>Assigned by the AR and/or STC and is typically a licensed non-instructional person such as principals, vice principals, counselors, or other staff members. This person coordinates state assessments in the school building.</td>
</tr>
<tr>
<td></td>
<td>- All staff with TIDE Testing Portal accounts will be required to sign an electronic TSA. All staff with WIDA accounts, ACT accounts, and MSAA accounts will also be required to sign an electronic TSA or non-disclosure agreement (NDA) to gain access to the online test administration and reporting sites.</td>
</tr>
<tr>
<td><strong>Test Administrator Role:</strong></td>
<td>This person is assigned by the STC and/or BC and is a licensed educator such as a classroom teacher. The OPI further recommends that the Test Administrator is familiar to the students, so students feel more comfortable in the testing environment. TAs follow and administer the tests in accordance with the assessment-specific Test Administration Manuals.</td>
</tr>
<tr>
<td></td>
<td>- All staff with TIDE Testing Portal accounts will be required to sign an electronic TSA. All staff with WIDA accounts, ACT accounts, and MSAA accounts will also be required to sign an electronic TSA or non-disclosure agreement (NDA) to gain access to the online test administration and reporting sites.</td>
</tr>
<tr>
<td><strong>Technology Coordinator Role:</strong></td>
<td>This person ensures the secure browser is installed properly to administer the online assessments via the test delivery systems and that all system requirement setup and requirements have been completed before testing. More information about these roles can be found in the MontCAS Test Security Manual.</td>
</tr>
<tr>
<td><strong>Staff in Supporting Roles</strong></td>
<td>All staff within the district who may assist with state assessments (e.g., storing ACT materials, sending score reports home, and scribes) will sign the MontCAS Test Security Agreement for Supporting Roles. The TSA should be electronically signed prior to the opening of the state assessment test windows.</td>
</tr>
</tbody>
</table>

More information about local roles and responsibilities can be found on the OPI’s Test Security Page under the “Resources” column for “Roles and Responsibilities Letters”. The STC is responsible for maintaining records of TSAs at each level for a period of up to three years as the OPI may request copies of them within that time period.
