## Introduction

The Montana Comprehensive Assessment System (MontCAS) Application is a restricted-use website that contains information on the state-mandated MontCAS summative assessments. The MontCAS Application is intended for use by System Test Coordinators (STC). The MontCAS Application allows STCs to annually supply the Office of Public Instruction (OPI) with school system information pertaining to the integrity of the assessment and provide assurance of the assessment results through standardized and secure assessment conditions.

**In the MontCAS Application, STCs must complete the following actions:**

<b>Affirmation of Testing Security</b>	STCs affirm their compliance with the guidance defined in the <a href="#">MontCAS Test Security Manual</a> and guidance published in each Test Administration Manual (TAM) for appropriate before, during, and after testing practices.
<b>Affirmation of School System Testing Plans</b>	STCs affirm the existence of a local records policy for maintaining test security agreements and testing plans for the system in accordance with the <a href="#">MontCAS Test Security Manual</a> for a period of at least three school years.
<b>Requests for Non-Routine Accommodation Process</b>	STCs make requests for assessment accommodations beyond those routinely allowed. Schools must administer state assessments with or without accommodations based on individual student needs consistent with all state and federal laws. The OPI reviews requests and provides STCs with instructions on receiving certain accommodations on state assessments. The STC must submit accommodations requests at least fourteen days prior to testing.
<b>Report Testing Incident</b>	STCs report any test security incident immediately to the OPI or based on the reporting periods specified by the severity of the incident found in the <a href="#">MontCAS Test Security Manual</a> . The OPI must be made aware of incidents within the MontCAS Application for each state-mandated assessment: ACCESS for ELLs (or WIDA), Montana Science Assessment (MSA), Alternate Montana Science Assessment (AMSA), Smarter Balanced (SB), Multi-State Alternate Assessment (MSAA), and ACT with Writing. All testing incidents must be reported to the OPI before June 10 <sup>th</sup> of each academic year.
<b>Ordering Paper Testing Materials</b>	STCs and/or school Principals order paper versions of the state assessments for the small percentage of students for whom this support is required per the student's IEP/Section 504 Plan or English Learner Plan. If schools have a paper need not cited in the students' educational plan as a result of the COVID-19 pandemic, complete the <a href="#">Request for Test Variance Process</a> .
<b>Report Non-Participation</b>	STCs and/or school Principals record the medical reasons a student did not take the state assessment. This information is required for any child who was enrolled in the school during the OPI-published testing window. All medical reasons must be reported to the OPI before June 10 <sup>th</sup> of each academic year.

## Requesting Non-Routine Accommodations: Step-by-Step

For more resources to support the completion of this collection, visit the OPI Assessment Unit's [Accessibility Resources page](#) (**Note:** this is not required if the accommodation is permitted within the accommodation guidelines).

**Purpose:** STCs make requests for assessment accommodations beyond those routinely allowed. This information is required for any child who requires accommodation(s) that are documented within their IEP/504 plans and not described as routine accommodations for the assessment.

**Requirement:** This section of MontCAS is required annually as needed.

**Estimated time to complete:** varies dependent on the amount of information needing to be included

## Reporting Non-Participation: Step-by-Step

Everyone who works with the MontCAS state assessments, communicates test results, and/or receives testing information is responsible for test integrity. On this screen, enter non-participation information for students qualifying for medical exemptions only. Anything not considered a medical exemption will be reported as non-participation for both state and federal accountability purposes. See the [MontCAS Policies and Procedures for Participation in State Assessments](#) and the [Alternate Assessment Eligibility Guidelines](#) for guidance in using medical exemption reasons. For accountability, school districts must annually assess all students and in instances of special circumstance may not fall below the 95 percent threshold or 95 percent threshold for student subgroups. The OPI may reach out to schools falling below 95% participation to request additional information. For more resources to support the completion of this required collection, visit the [OPI's Statewide Testing Student Eligibility and Participation Page](#).
