Workshops: Evidence-Based Mathematics Strategies and Data-Based Individualization (DBI) in Mathematics

Dr. Erica Lembke is a Professor and Chair of the Department of Special Education at the University of Missouri. Her research interests include data-based decision making, assessment and intervention for students at risk and with disabilities and their teachers, and her current federally funded grants are directed towards teacher and school professional learning. Dr. Lembke provides professional learning to dozens of school districts across the state of Missouri and throughout the US, with over 200 local, state, and international presentations.
