

Chapter 58 Research and Review Task Force Meeting Summary

Thursday, September 16, 2021

8:00 AM – 9:30 AM

The Task Force (TF) members were in favor of a revised timeline for subchapter 5 revisions as well as further exploration of research questions prior to making further change recommendations beyond October. The TF members expressed a strong desire to push forward change recommendations for subchapter 3, 6, and 7 as well as 10.58.501 before the October deadline. The TF has expressed the desire to ensure proposed changed and final language can be moved on.

The TF reviewed the updated document created by Stevie Schmitz with [proposed changes to Subchapters 6 and 7](#). Stevie reviewed suggested changes for 604, 605, 606, 608, 609, 705, and 706. Gary Lusin brought forward a question about if EPPs are involved in career internships schools and if they are involved with developing companies in plumbing, electrical, and construction.

The request is made for a document to be created which relines the suggested changes in ARM to be presented to the TF in the next meeting. Jacqueline has committed to completing this request. The Facilitators will reach out to members who have not been attending the meetings and see if they can be present in the upcoming meeting to establish a quorum.

The Final Feedback Group meeting is Monday, September 20th. The discussion will be brought forward to the TF at the following meeting. TF members should review changes and other documents shared on the Google page and be prepared to discuss and vote on changes to sections outlined above.
