Facilitators presented the finalized language that has been approved by The OPI legal and communications departments. The Task Force (TF) was supportive of the language and recommended it be taken to the Superintendent of the OPI.

Facilitators shared a document with a compiled list of areas the TF found in the homework where possible changes could be made. The group discussed areas in Subchapter 1: middle grade endorsements, emergency authorization of employments, unusual cases, and the addition of J1 visas. The TF will continue conversation around middle grades endorsements, a red line document with suggested language will be provided by facilitators, and more information regarding international teachers from SAMS will be presented next week.

The group discusses one ARM in Subchapter 5 10.57.501. The discussion led the TF to leave the section as is.

Dr. Julie Murgel from the OPI presented data with information around the PRAXIS and other areas of licensure. The data will be made available on the TF Google Site.

Homework for the TF this week is to review and complete Subchapter 4 in the Google form. The TF agreed to change the meeting time from 1:30-3:00pm to 1:00-2:30pm.
