PROGRAM**

WHAT'S NEW?

NEW COURSE OFFERINGS

Providing K-8 culturally relevant teachers for
local schools and Montana.

PROGRAM SPOTLIGHT

Among the major attributes of the Elementary Education program at Stone Child College are the graduated field experiences (2) designed for different age levels with increasing expectations culminating in a 14-week student teaching experience. The history and culture of Montana tribes is integrated into every class, and students are required to integrate culture into all lesson plans.

STUDENT QUOTE

"I'm grateful for the Stone Child program in education. The help from the instructors was more than I needed to be successful in the program. I'm really happy we can learn about our culture and integrate culture, traditions, and history into our classroom."

-Desmond Parker
