WHAT'S NEW?

NEW COURSE OFFERINGS

Elementary Education and Health and Physical Education have gone through an extensive revitalization process and have emerged as more engaging, effective, and innovative programs.

PROGRAM SPOTLIGHT

In addition to engaging new courses, Elementary Education and Health and Physical Education will have a focus of trauma and restorative practices embedded through ten courses to help candidates prepare to serve students who have experienced trauma.

STUDENT QUOTE

"While attending the University of Providence, I was a single mom. The faculty helped me out so much while I was getting my degree. The education I received provided the skills I needed to become a successful teacher. I am so fortunate that I got my elementary education degree from the University of Providence. "

~Katie Lou Eney, Elementary Teacher GFPS
